Federal Changes to Ethnicity and Race Collection and Reporting

Prepared by the Office of Planning, Assessment and Accountability

Background

In 2007, the U. S. Department of Education issued new procedures for maintaining, collecting, and reporting data on race and ethnicity. These changes are being made in order to implement the Office of Management and Budget's (OMB) 1997 Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity. The revised standards reflect a change in data collection policy and were designed so that Federal agencies, such as the U.S. Department of Education, could all similarly collect information that reflects the increasing diversity of the United States population.

Major Changes

Educational institutions are now required to collect racial and ethnic data from all students, faculty and staff through the administration of a two-question format. The first question asks about ethnicity (is the individual Hispanic or Latino, yes or no) and the second question asks respondents to select one or more races from five racial categories. The category "Asian or Pacific-Islander" has been separated into two categories, one for "Asian" and one for "Native Hawaiian or other Pacific Islander". All respondents will have the opportunity to select more than one race, and those doing so will be reported in a generic "Two or More" race category.

Reporting

By AY 2010-11, all colleges and universities are to begin reporting racial/ethnic classifications under the new format. The category "Asians and Pacific Islanders" will each be reported in separate categories. Latinos/Hispanics will be identified and categorized by an affirmative response to the yes/no question regarding Hispanic/Latino identity, regardless of whether these individuals subsequently indicate that they are from a particular racial background. Individuals will be able to select more than one race – White, Black, Asian, Pacific Islander, American Indian/Alaska Native. If more than one race is selected, then that person will be reported as "Two or More Races". If a person is a non-resident alien, he/she will be reported as such, regardless of their race selection; this is no change from the present reporting system. The same holds for the "unknown" category. The result is nine possible reporting categories under the new system. The table below provides a comparison of the current and new reporting categories.

Federal Changes to Ethnicity and Race Collection and Reporting

Current Reporting Categories	AY 2010-11 Reporting Categories
Non-resident Alien	Non-resident Alien
Hispanic	Hispanic (of any race)
Black, non-Hispanic	Black or African American, non-Hispanic
White, non-Hispanic	White, non-Hispanic
American Indian or Alaska Native, non-Hispanic	American Indian or Alaska Native, non-Hispanic
	Asian, non-hispanic -----
Asian/Pacific Islander, non-Hispanic	Native Hawaiian or other Pacific Islander, non-Hispanic
	Two or more races, non-Hispanic
Race and Ethnicity Unknown	Race and Ethnicity Unknown

Additional information and relevant materials about the transition to the new reporting categories can be found on the U. S. Department of Education website
