HISTORY

Bowie State University is an outgrowth of the first school opened in Baltimore, MD, on January 9, 1865, by the Baltimore Association for the Moral and Educational Improvement of Colored People, which was organized on November 28, 1864 to engage in its self-appointed mission on a statewide basis. The first normal school classes sponsored by the Baltimore Association were held in the African Baptist Church located on the corner of Calvert and Saratoga streets. In 1868, with the aid of a grant from the Freedmen's Bureau, the Baltimore Association purchased from the Society of Friends a building at Courtland and Saratoga streets for the relocation of its normal school until 1883, when it was reorganized solely as a normal school to train Negro teachers.

The Baltimore Normal School had received occasional financial support from the City of Baltimore since 1870 and from the state since 1872. In 1871, it received a legacy from the Nelson Wells Fund. This fund, established before Wells' death in February 1943, provided for the education of freed Negro children in Maryland. On April 8, 1908, at the request of the Baltimore Normal School, which desired permanent status and funding as an institution for the education of Negro teachers, the state legislature authorized its Board of Education to assume control of the school. The same law re-designated the institution as a Normal School No. 3. Subsequently, it was relocated on a 187-acre tract in Prince George's County, and by 1914, it was known as the Maryland Normal and Industrial School at Bowie.

A two-year professional curriculum in teacher education which started in 1925 was expanded to a three-year program. In 1935, a four-year program for the training of elementary school teachers began, and the school was renamed Maryland State Teachers College at Bowie. In 1951, with the approval of the State Board of Education, its governing body, Bowie State expanded its program to train teachers for junior high schools. Ten years later, permission was granted to institute a teacher-training program for secondary education. In 1963, a liberal arts program was started, and the name was changed to Bowie State College.

In 1970, Bowie State College was authorized to grant its first graduate degree, the Master of Education. A significant milestone in the development of the graduate studies at Bowie State was achieved with the Board of Trustees' approval of the establishment of the Adler-Dreikurs Institute of Human Relations in 1975. Currently, the University offers bachelor's and master's degree programs and two doctoral degrees. Included in the inventory of degree programs is the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Nursing, Master of Arts, Master of Arts in Teaching, Master of Education, Master of Science, Master of Science in Nursing, Master of Business Administration, Master of Public Administration, Doctor of Education in Educational Leadership, and Doctor of Applied Science in Computer Science.

On July 1, 1988, Bowie State College officially became Bowie State University, a change reflecting significant growth in the institution's programs, enrollment and service to the local area. On the same day, the University also became one of the constituent institutions of the newly formed University System of Maryland.

In 1995, Bowie State University won an 11-year \$27 million award from the National Aeronautics and Space Administration/National Science Foundation to become one of only six national Model Institutions for Excellence in science, engineering and mathematics. This award significantly strengthened the institution's academic infrastructure and enhanced an already excellent computer science and technology program that has consistently ranked first in the nation in graduating African American students with master's degrees.

Bowie State University, throughout its history, has achieved major milestones in spite of limited resources. In SPRING 2005, with the unveiling of the supercomputer built by its faculty and students, Bowie State emerged as a leader among higher education institutions in computing power. At the time of its unveiling, Bowie State's supercomputer, Xseed, was the fastest supercomputer at any higher education institutions in the state of Maryland, the eighth fastest in the United States, and among the top 200 fastest in the world.

Bowie State University has a long history as one of the nation's leaders in teacher education with 50 years of successive accreditation by the National Council of the Accreditation of Teacher Education (NCATE). Remaining true to a heritage of producing leaders in teacher education, the University reached a major milestone when it was approved to offer its first doctoral program in the field of education. For the first time in the history of the University, Bowie State University conferred an earned doctorate, with 16 persons receiving the Doctorate in Educational Leadership, during the May 2005 commencement. In 2007, the Department of Computer Science received approval to offer the Doctor of Applied Science degree.

INSTITUTIONAL IDENTITY

Established in 1865, Bowie State University is the oldest Historically Black Institution of higher learning in Maryland and one of the oldest in the nation. The University evolved from a normal school into a comprehensive university that offers a wide array of undergraduate, graduate, and professional programs. Currently, Bowie State University serves a diverse student population, providing educational opportunities that enable students to function in a highly technological and interdependent world. The University continues to honor its heritage of providing access to higher education for under-represented populations, with a commitment to African Americans. The University remains a leader in graduating African Americans in technological fields.

Bowie State University fosters a supportive, rigorous, and collaborative environment that nurtures excellence in academics and in professional and cross-cultural relationships. The University places particular emphasis on excellence in teaching and research on teaching methodology in order to improve the teaching-learning process. Bowie State University produces graduates who are leaders among their peers in a global community, who think critically, who value diversity, and who are committed to high moral standards.

Bowie State University is a leader in the infusion of technology into the curriculum while maintaining its role as an institution grounded in the liberal arts. The University is committed to providing a high-quality education that fosters learning and enhances skill acquisition and knowledge discovery based on proven pedagogies and an up-to-date curriculum for students at all levels. The University offers a comprehensive set of undergraduate programs that include the arts and humanities, business and management, teacher education, science and technology, and health and human services.

At the post-baccalaureate level, program offerings include the social sciences, information science and technology, and education. Students are able to pursue certificate programs as well as master's degrees in such disciplines as applied computational mathematics, business, computer science, counseling, counseling psychology, education, English, management information systems, nursing, and organizational communications. The University also offers two doctoral programs—one in computer science and one in educational leadership—and is exploring other doctoral programs in information technology and teaching.

The University is aggressively collaborating with its sister institutions and other agencies to address student retention issues (i.e., Coppin State University; Morgan State University; University of Maryland Eastern Shore; University of the District of Columbia; and the Maryland Higher Education Commission); increase the number of student internships; and provide research opportunities for faculty and students (i.e., Towson University; National Aeronautics and Space Administration; Naval Research Laboratory; University of Maryland, Baltimore; Howard University; and City University of New York); increase the number of computer technologists (i.e., University of Maryland College Park; Morgan State University; Johns Hopkins University; University of Maryland, Baltimore County; and Honeywell, formerly Allied Signal Corporation); enhance the quality of the police force (Prince George's County Police Academy); and enhance the quality of teaching in the county and State through Professional Development Schools, induction programs, and critical issues workshops (i.e., Prince George's County Schools; University of Maryland College Park, Towson University; and Prince George's Community College).

The University is committed to recruiting and retaining a student mix that reflects a population of honor students as well as those who demonstrate leadership qualities, display academic potential, and exhibit the motivation to learn. Bowie State University delivers instruction to a global audience of adult learners through traditional and alternative means.

Bowie State University's workforce consists of a diverse group of dedicated professionals who are committed to implementing the mission of the University. The full-time faculty, complemented by a highly qualified adjunct faculty and supported by a skilled staff, distinguishes itself through excellence in teaching, scholarship/research, and service. Effectively and efficiently, the University will continue to provide excellent educational services to its students through recruitment, development, and retention of a talented workforce.

VISION

Building on its image as a student-centered institution and its history as an HBCU, Bowie State University will provide its diverse student population with a course of study that ensures a broad scope of knowledge and understanding that is deeply rooted in expanded research activities. The University excels in teacher education and will become the premier teacher of teachers. Through the integration of internal business processes, technology, and the teamwork of administrators, faculty and staff, the University will be recognized statewide as a model of excellence in higher education for the effective and efficient use of human, fiscal, and physical resources.

MISSION

Bowie State University, through the effective and efficient management of its resources, provides high-quality and affordable educational opportunities at the bachelor's, master's, and doctoral levels for a diverse student population of Maryland citizens and the global community.

The educational programs are designed to broaden the knowledge base and skill set of students across disciplines and to enable students to think critically, value diversity, become effective leaders, function competently in a highly technical world, and pursue advanced graduate study.

The University is committed to increasing the number of students from under-represented minorities who earn advanced degrees in computer science, mathematics, information technology, and education.

Constituent needs, market demands, and emerging challenges confronting socioeconomic cultures serve as important bases in the University's efforts to develop educational programs and improve student access to instruction.

CORE VALUES

Everything we do as a University will be directed towards enhancing our quality and value to students, alumni, and the community. As the University progresses, we will continue to promote student academic success, public service, and scholarship while incorporating our core values:

- EXCELLENCE** - Promote a love for learning, discovery, and integration across a wide range of disciplines and interests.
- CIVILITY** - Foster an environment in which each individual is valued, can live safely, and can express himself or herself without fear of reprisal.
- INTEGRITY** - Promote a sense of justice, trust, consistency, and fair play.
- DIVERSITY** - Promote an awareness of and sensitivity toward differences of race, gender, ethnicity, national origin, culture, sexual orientation, religion, age, and disability.
- ACCOUNTABILITY** - Provide effective and efficient service all University constituents.

INSTITUTIONAL GOALS

- Goal 1 Provide high-quality and affordable academic programs and support services for all students
- Goal 2 Support growth by enhancing recruitment, access, and retention efforts University-wide
- Goal 3 Promote regional economic and workforce development
- Goal 4 Increase the University's external funding
- Goal 5 Promote effective and efficient use of institutional resources
- Goal 6 Enhance the University's image

UNIVERSITY BUILDINGS AND FACILITIES

The setting of the University has much to do with its special atmosphere. The serenity of the campus offers students a chance to study in an environment free from distractions. A mixture of classic Georgian and contemporary architecture, the twenty-one (21) buildings on campus include facilities that house academic and instructional programs, residential and auxiliary support services, and administrative and support activities. Nine (9) buildings provide space for instructional activities and offices for professional staff.

The Center for Business and Graduate Studies is three story masonry, dedicated, undergraduate, and postgraduate teaching facility with high quality interaction space for hands-on learning and pedagogical research. It was completed in 2007 and is located on the left at the main entrance to the campus. The facility currently houses the College of Business and the Graduate School.

The Computer Science Building began its life in 2002 as a "state of the art" facility that houses instructional, laboratory, and research spaces for Computer Science. It also houses instructional space for the Department of Mathematics, the Bowie Satellite Operations and Control Center, and the PRISEM Center.

Fine and Performing Arts Center opened spring 2012. The Fine and Performing Arts Center features extraordinary resources for students and faculty including specialized art studios for areas like dance, recording, and ceramics; a photography processing lab; an art gallery; and an outdoor sculpture workspace. The 123,000 square-foot building also includes a 400-seat main theatre, a 200-seat black box theatre and a 200-seat recital hall. Spacious classrooms, laboratories and office suites are strategically placed throughout the building to accommodate various faculty and programs.

The Center for Learning and Technology opened August 2000. It is a technology showcase designed to maximize interactions between faculty and students. The Center houses electronically equipped classrooms, interactive lecture halls, computer laboratories, a speech laboratory, and a three hundred-seat auditorium/conference center. The Schools of Education and Professional Studies share the Center for Learning and Technology. The Xseed supercomputer is also housed in the Center.

Martin Luther King, Jr., Communication Arts Center is the largest academic classroom and office facility on campus. First occupied in 1973, this building houses the Samuel L. Myers Auditorium, the Bowie State University Television and Radio stations, lecture halls, classrooms, and several specialized laboratories for programs in the arts, communications, English, foreign languages, music, television, radio, and theatre.

Thurgood Marshall Library was occupied in 1977. The building was designed to house a collection of 270,000 bound volumes and to seat over 1,000 patrons. In addition to general reading and service areas, there are twenty-two (22) small private rooms for student research, studying, and other academic uses. Two large display areas, one on each side of the main entrance are home to special pieces of art work and historical artifacts for Bowie State University. The renovated basement of the Library provides additional computer laboratories, instructional laboratories, media capabilities, and classrooms for students and faculty.

Thurgood Marshall Library houses the Division of Information Technology.

Leonidas James Physical Education Complex is designed to accommodate students enrolled in physical education courses, as well as indoor intramural sports and intercollegiate athletic activities of the University. First occupied in 1973, this facility features a triple-court gymnasium, an exercise room, eight handball courts, and an eight-lane, 25-yard swimming pool. Spectator areas provide seating for 1,831 in the gymnasium and 196 in the pool area.

George M. Crawford Science Building provides state-of-the-art laboratories and support areas for the departments of Natural Sciences and Mathematics. Additionally, the facility houses classroom/lecture space. The Facility was originally constructed in 1967 and renovated in 1991.

Charlotte B. Robinson Hall was originally constructed in 1960 as a laboratory elementary school. The building is currently being used to house a small number of classrooms, the newly created Office of Faculty Research, and several administrative offices.

Residence Halls

The residence halls are Lucretia Kennard, Dwight Holmes, Towers, Harriet Tubman, Goodloe Apartments, Alex Hayley, and Christa McAuliffe Residential Complex. Students must meet special residency requirements to reside in Goodloe Apartments, Alex Hayley, and Christa McAuliffe. Alex Hayley houses the University's resident honors students.

UNDERGRADUATE ADMISSIONS

ADMISSION PHILOSOPHY

Admission to Bowie State University is granted to qualified applicants who will benefit from the University's academic and social experiences. The University is especially well-equipped to support students who see value in our academic offerings and opportunities.

BASIS OF SELECTION

New students are eligible for admission at the beginning of FALL and SPRING terms. New students who transfer at least 24 credit hours to Bowie State may also be eligible to begin in SUMMER or winter terms. Applications are reviewed on a rolling basis. Admissions decisions are determined by your academic performance, standardized college exams, recommendations of appropriate school officials, and other evidence deemed indicative of the your ability to successfully complete a collegiate course of study. Bowie State University does not discriminate against any student on basis of age, race, creed, religion, handicap, gender, nationality, ethnic origin or any other unrelated characteristics.

APPLYING FOR ADMISSION

Application for Admission

- You must submit the application for admission via the web.
- Use the URL below for detailed instructions for creating your personal account, completing and submitting the application admission.

<https://www.applyweb.com/apply/bowie/>

Priority Application Deadlines

- FALL April 1
- SPRING November 1

Application Fee

- \$40.00 The application fee is nonrefundable.

HIGH SCHOOL APPLICANTS

High School Transcript

- Admission consideration is given to applicants who have earned the standard high school diploma from an accredited high school
- Request an official copy of your high school transcript showing at least six semesters of work, or at least through the completion of your junior year.
- Transcripts are considered official when received directly from the issuing institution in a sealed envelope with the school's seal and/or official signature.
- Six-semester transcripts can be used to evaluate your admissibility. Your enrollment for the application term is based upon review on your final eight-semester transcript with graduation date.

High School Curriculum – Admission consideration is given to applicants who have completed a minimum of the following:

- English** 4 years or units
- Mathematics** 3 years or units, including Algebra, Geometry and Algebra II
- Social Science** 3 years or units
- Natural Science** 3 years or units
- Foreign Language** 2 years or units

SAT I and ACT Scores

- Applicants applying for admission directly from high school are required to submit SAT or ACT scores.
- Scores submitted directly to Bowie State from the testing agency are preferred.
- The test score requirement is waived for applicants who graduated high school three or more years before the proposed enrollment date
- Bowie State University SAT code: 5401
- Bowie State University ACT code: 1712

Preferred Admission – Academic Requirements

Minimum GPA	SAT (critical reading + math)	ACT
3.00	800-849	17
2.60	850-899	18
2.00	900	19

Conditional Admission

Who is Eligible for Conditional Admission

- Applicants who have earned at least the academic credentials listed in the chart below are considered for conditional admission.

Minimum GPA	SAT (critical reading + math)	ACT
2.00	740-829	16

Applicants Offered Conditional Admission are Subject to These Terms:

- Work closely with an academic mentor assigned by the Academic Advisement Center
- Successfully complete any necessary developmental coursework in English, reading or mathematics with a grade of "C" or higher by the end of the third semester of matriculation
- *If full-time* - Earn a minimum of 24 semester hours with a minimum 2.00 GPA by the end of the first year of enrollment.
- *If part-time* – Earn of minimum 2.00 GPA upon earning 24 semester hours.
- Failure to meet these terms will result in dismissal from the University. Conditionally admitted students who are academically dismissed from the University may only apply for readmission with an earned Associate's Degree.

Application Fee Waivers

- Bowie State will honor economic hardship fee waiver requests if both of these criterion are met
 1. Applicant submits all required application documents with the fee waiver form/request, and
 2. Applicant submits fee waiver form/request by the priority application deadline for the application term.
- Bowie State University participates in the College Board Fee Waiver Program.

Placement Assessment and Exam

All entering freshmen are required to complete an initial academic assessment in English, mathematics and reading. The University offers courses and other academic enrichment programs to strengthen areas deemed necessary by the assessment. Based upon the results of your individual assessment, certain academic enrichment work may be required.

Admission Prior to High School Graduation

Admission decisions rendered and issued prior to high school graduation are subject to re-evaluation upon the receipt of the final high school transcript with graduation date. Your admission decision is contingent upon your successful completion of the high school curriculum in a manner that qualifies you for admission to the University according to the academic standards indicated.

CONCURRENT ENROLLMENT**Who is Eligible for Concurrent Enrollment?**

High school juniors and seniors who seek to take undergraduate courses, but do not intend to begin work towards a degree at this time are eligible for concurrent enrollment

Applicants for Concurrent Enrollment Must Provide the Following:

- Completed application for admission
- \$40.00 non-refundable application fee
- Unofficial high school transcript
- Recommendation from high school guidance counselor
- Principal's approval to participate in concurrent enrollment

Program Guidelines

- Concurrent enrollment admission consideration is given to applicants who have earned at least a 2.50 cumulative GPA at the time of application
- Concurrently enrolled students may enroll in a maximum of six (6) credit hours per semester, depending upon academic background and current high school course load

- Payment of the standard fee per credit hour is required each semester.
- Concurrent enrollment participants who choose to enroll at Bowie State as degree candidates must reapply for standard admission and provide the required official application materials.

TRANSFER APPLICANTS

Who is Eligible to Transfer

- Transfer admission is considered for applicants at all class levels.
- No minimum credit hours or units are required.
- Transfer consideration is given for all academic terms.

Official Transcripts - Transcripts are considered official when received directly from the issuing institution in a sealed envelope with the school's seal and/or official signature.

- University Transcripts**
 - Official academic transcripts are required from all colleges and/or universities you have attended, regardless of grade point average or number of hours completed.
- High School Transcripts**
 - You must submit an official high school transcript if you have earned less than 24 transferrable hours.

SAT or ACT

You must submit SAT or ACT scores if (1) you have earned less than 24 transferrable hours and (2) you completed high school less than three years before your intended enrollment date

Minimum Requirements

- College GPA** Applicants earning at least a 2.00 cumulative GPA in all college coursework are considered for regular admission
- Academic Standing** Good academic standing and/or eligibility to return to previous institution for full-time study is required for admission consideration
- High School GPA** If a high school transcript is required to complete your admission file, you must have earned at least a 2.00 cumulative GPA
- SAT or ACT** Applicants who are required to submit test scores must meet the minimum score requirements for preferred admission

SAT and ACT Scores

- Bowie State University SAT code: 5401
- Bowie State University ACT code: 1712

Evaluation of Transfer Credits

- An official transcript is required for formal credit evaluation. At the discretion of University personnel, unofficial transcripts may be used for advising or counseling.
- We make every effort to match your transferable courses to our General Education and academic discipline coursework.

- In most cases, coursework from regionally accredited institutions for which you've earned at least a "C" or better is transferable, if comparable coursework is offered at Bowie State.
- The University reserves the right to deny transfer credit for coursework completed at institutions prior to enrollment at Bowie State, but not listed on the application for admission.
- Review transfer evaluations carefully. Questions and/or concerns regarding evaluation of transfer credit should be resolved within 21 days of completed initial evaluation.
- The University reserves the right to revoke offers of admission for transfer applicants who do not maintain the minimum 2.00 cumulative GPA through the most recent semester of attendance at last school attended.

Placement Assessment and Exam

- Exemption from the standard placement assessment is granted to applicants who transfer the equivalent of three hours in both college-level mathematics and English.

GED RECIPIENTS

Official GED Transcript and Score Report

- Request an official copy of your GED transcript and score report.
- Transcripts are considered official when received directly from the issuing institution in a sealed envelope with the school's seal and/or official signature.

- SPRING November 1

Application Fee

- There is no application fee for readmission.

Application for Admission

- Please do not complete the standard application for admission. Please contact the Office of Admission for the proper form.

Review of Applications

- Readmission applications are reviewed and evaluated by several University units before decisions are rendered.
- Applicant files are reviewed for issues related to, but not limited to
 - satisfactory academic progress;
 - academic standing;
 - student judiciary concerns; and
 - satisfactory financial status.
- Official transcripts are required from any college or university attended since last enrolled at Bowie State.

RESIDENCY POLICY

(VIII-2.70 Approved by the Board of Regents August 28, 1990; Amended July 10, 1998)

I. POLICY

It is the policy of the Board of Regents of the University System of Maryland (USM) to recognize the categories of in-state and out-of-state students for purposes of admission, tuition, and charge differentials at those constituent institutions where such differentiation has been established. The student is responsible for providing the information necessary to establish eligibility for in-state resident status. Students who are

Bowie State University 2012 -2013

financially independent or financially dependent, as defined herein, shall have their residency classification determined on the basis of permanent residency, which for purposes of this policy shall be determined by the criteria set forth in I. A. through E. below. A student will be assigned In-State Status for admission, tuition, and charged differentially only if the student, or in the case of a financially dependent student, the student's parent, guardian, or spouse fulfills all of the following.

A. An In-State student is a student whom the University determines to be a permanent resident of the State of Maryland. For the purpose of this policy, "Permanent Resident" is defined as a person who satisfies all the following conditions and has done so for at least twelve (12) consecutive months

36 2008-2009 Undergraduate Catalog

immediately prior to and including the last date available to register for courses in the semester/term for which the person seeks In-State Status:

1. Is not residing in the State of Maryland primarily to attend an educational institution; and
2. Owns and continuously occupies or rents and continuously occupies living quarters in Maryland. There must exist a genuine deed or lease in the individual's name reflecting payments/rents and terms typical of those in the community at the time executed. Persons not having such a lease may submit an affidavit reflecting payments/rents and terms as well as the name and address of the person to whom payments are made which may be considered as meeting this condition. As an alternative to ownership or rental of living quarters in Maryland, a student may share living quarters in Maryland which are owned or rented and occupied by a parent, legal guardian, or spouse; and
3. Maintains within Maryland substantially all personal property; and
4. Pays Maryland income taxes on all earned taxable income, including all taxable income earned outside the state; and
5. Registers all owned motor vehicles in Maryland in accordance with Maryland Law; and
6. Possesses a valid Maryland driver's license, if licensed, in accordance with Maryland law; and
7. Is registered in Maryland, if registered to vote; and
8. Receives no public assistance from a state other than the State of Maryland or from a city, county, or municipal agency other than one in Maryland; and
9. Has a legal ability under Federal and Maryland law to live permanently without interruption in Maryland.

B. In addition, persons with the following status shall be accorded the benefits of In-State Status for the period in which they hold such status:

1. A full-time or part-time (at least 50 percent time) regular employee of the University System of Maryland.
2. The spouse or financially dependent child of a full-time or part-time (at least 50 percent time) regular employee of the USM.
3. A full-time active member of the Armed Forces of the United States whose home of residency is Maryland or one who resides or is stationed in Maryland, or the spouse or a financially dependent child of such a person.

Bowie State University 37

4. For UMUC, a full-time active member of the Armed Forces of the United States on active duty, or the spouse of a member of the Armed Forces of the United States on active duty.

5. A graduate assistant appointed through the University System of Maryland for the semester/term of the appointment. Except through prior arrangement, this benefit is available only for enrollment at the institution awarding the assistantship.

C. Students not entitled to In-State Status under the preceding paragraphs shall be assigned out-of-state status for admission, tuition, and charge-differential purposes.

D. Assignment of in-state classification will be made by the University upon an assessment of the totality of facts known or presented.

E. The following circumstances raise a presumption that the student is residing in the State of Maryland primarily for the purpose of attending an educational institution.

1. The student was attending high school or residing outside Maryland at the time of application for admission to a USM institution.

2. The student is both (a) not financially independent and (b) is financially dependent upon a person not a resident of Maryland.

3. The burden shall be on the student to rebut the presumption.

II. PROCEDURES

A. An initial determination of In-State Status will be made by the University at the time a student's application for admission is under consideration. The determination made at that time, and any determination made thereafter, shall prevail for each semester/term until the determination is successfully challenged in a timely manner.

B. A change in status must be requested by submitting a USM "Petition for Change in Classification for Admission, Tuition and Charge Differential." A student applying for a change to In-State Status must furnish all required documentation with the petition by the last published date to register for the forthcoming semester/term for which a residency classification is sought.

C. The student shall notify the institution in writing within fifteen (15) days of any change of circumstances that may alter In-State Status.

D. In the event incomplete, false, or misleading information is presented, the institution may, at its discretion, revoke In-State Status and take other disciplinary actions provided for by the institution's policy. Such action may include suspension or expulsion. If In-State Status is gained due to false or misleading information, the University reserves the right to retroactively assess all Out-of-State charges for each semester/term affected.

E. Each institution of the University System of Maryland shall develop and publish additional procedures to implement this policy. Procedures shall provide that on request the President or designee has the authority to waive any residency criterion as set forth in Section I, if it is determined that the student is indeed a permanent resident and the application of the criteria creates an unjust result. These procedures shall be filed with the Office of the Chancellor.

III. DEFINITIONS

A. *Financially Dependent*: For purposes of this policy, a financially dependent

student is one who is claimed as a dependent for tax purposes, or who receives more than one-half of his/her support from a parent, legal guardian, or spouse during the twelve (12) month period immediately prior to the last published date for registration for the semester or session. If a student receives more than one-half of his/her support in the aggregate from a parent and/or legal guardian and/or spouse, the student shall be considered financially dependent on the person providing the greater amount of support.

B. *Financially Independent*: A financially independent student is one who (1) declares himself or herself to be financially independent as defined herein; (2) does not appear as a dependent on the Federal or State income tax return of any other person; (3) receives less than one-half of his or her support from any other person or persons; and (4) demonstrates that he or she provides through self-generated support one-half or more of his or her total expenses.

C. *Parent*: A parent may be a natural parent, or if established by a court order recognized under the laws of the State of Maryland, an adoptive parent.

D. *Guardian*: A guardian is a person so appointed by a court order recognized under the laws of the State of Maryland.

E. *Spouse*: A spouse is a partner in a legally contracted marriage.

F. *Child*: A child is a natural child or a child legally adopted pursuant to a court order recognized under the law of Maryland.

G. *Self-generated*: Describes income which is derived solely from compensation for an individual's own efforts as evidenced, for example, by Federal or State W-2 forms or IRS Form 1099 where interest income is based upon finances created from one's own efforts. For the purposes of this policy, grants, stipends, awards, benefits, loans, and gifts (including Federal and State aid, grants, and loans) may not be used as self-generated income.

H. *Regular Employee*: A regular employee is a person employed by the USM who is assigned to a state budget line or who is otherwise eligible to enroll in a State retirement system. Examples of categories NOT considered regular employees *Bowie State University 39* are graduate assistants, contingent employees, if-and-when-needed and temporaries.

IV. IMPLEMENTATION

This policy as amended by the Board of Regents on November 27, 2000 shall be applied to all student residency classification decisions made on or after this date.

- Applicants must provide a notarized financial statement from a United States Embassy showing that the applicant has enough support for study in the United States.
- The Affidavit of Support cannot be used in lieu of a bank statement
- Bank statements must be dated within the last six months
- The Financial Guarantee must have the signature of an authorized bank representative or agent of a recognized sponsoring organization
- All supporting documents have the official seal of a Notary

- The following are acceptable sources and required documentation of funds:
 - a. Personal – current letter from applicant verifying the amount of applicant’s funds in US dollars and the date the bank account opened. The letter must be on official bank letterhead and addressed to Bowie State University
 - b. Parent, Spouse or Sponsor in the United States – (1) notarized Affidavit of Support and (2) letter from parent’s, spouse’s, or sponsor’s bank and the date the account opened.
 - c. Parent, Spouse or Sponsor Outside the United States – (1) notarized letter from the individual(s) in English indicating the relationship and the amount of money that will be made available in US dollars and (2) a letter from parent’s, spouse’s or sponsor’s bank indicating the current balance and the date the account opened.
 - d. Government, Employer or International Organization – an official letter from the sponsor addressed to Bowie State University and signed by an authorized representative of the agency or organization. The letter must indicate the amount of the award in US dollars and must detail the terms of the award.

Admission for International Students

- Admission decisions are based upon acceptable academic credentials and clearance by the International Student Advisor.
- Applicants, who are currently in the US, must contact the Dean of Students for a clearance interview at (301) 860-3393.
- Applicants who are outside the US must report to the Dean of Students upon arrival in the US before registering for classes.
- The University reserves the right to require official documentation of any claim.

Issuing the I-20

- I-20 forms are issued once all required documents are received and admission is granted to the applicant.
- The I-20, an official acceptance letter and other necessary documents are included in the acceptance materials.
- The I-20 is not released to a third party. It is issued only to the applicant or mailed directly to the permanent home address listed on the application for admission.
- Prior to enrollment, you must present an original copy of the I-20 to the Designated School Official (DSO) showing Embassy authorization to enroll as a student with an F-1 Visa and the I-94 card.

SEVIS I-901 Fee

- Once the I-20 is has been issued, you are responsible for paying the \$100 fee (U.S. currency) directly to the Department of Homeland Security
- The I-901 fee must be paid prior to your scheduled Embassy appointment. Failure to pay this fee may result denial of F-1 status.

DEFERRED ADMISSION

If you defer your admission for one semester, and if funds are available, you may also defer your admission scholarship for that period. If admission is deferred for more than one academic term, you must meet the applicable scholarship requirements for the deferred entry term.

FINANCIAL REGULATIONS AND EXPENSES

Financial Requirements for Registration

All students who register for classes incur a financial obligation to the Bowie State University. Students are responsible for all charges incurred at the University. Failure to attend classes does not constitute withdrawal from the Institution or a class. Students must formally withdraw from the University or a class through the Registrar's Office. Any adjustment in charges will follow the policy presented in the *Schedule of Classes* (www.bowiestate.edu).

Returning students will not be permitted to register for a subsequent semester until all financial obligations, including current semester fees, parking violations, library fines, and any other outstanding charges, have been paid. Account balances must be cleared before students will be allowed to participate in future registrations and graduation or to receive transcripts or diplomas.

Cancellation of a student's registration may occur if the bill is not paid in full or if approved arrangements have not been made to cover the outstanding balance. Bill due dates and class cancellation dates are published on the University Website (www.bowiestate.edu).

Failure to receive a billing statement does not relieve the student of the payment obligation.

Payment Policy

Acceptable payment methods are cash, check, money order, cashier's check, certified check, MasterCard, Visa, American Express, and Discover Card. Payment may be made at the Student Accounts Office, by credit card on-line through Bulldog Connection, or by check or credit card through the Interactive Voice Response System.

Students who register before the billing date will receive a bill via e-mail and must make payment or approved payment arrangements prior to the bill due date or their enrollment may be canceled.

Students who register after the billing date may review their bill on-line via Bulldog Connection and must pay their bill or make approved payment arrangements prior to the due date of the bill or enrollment may be cancelled.

Students who register for the 2nd 8 week session are expected to make payment or approved payment arrangements at the time of registration.

Approved payment arrangements authorized by Board of Regents policy are:

1. Students who are approved for a Guaranteed Student Loan.
2. Third Party Billings (sponsor pays all or part of the students' charges).
3. Students who are enrolled in a University approved installment payment program.

If the sponsor does not pay the University within 60 days of the billing date, the student will then be responsible for full payment of the balance due and will not be permitted to register for a subsequent semester until all financial obligations have been paid. Account balance must be cleared before students will be allowed to participate in future registrations, graduation or to receive transcripts.

The student is responsible for any portion of tuition and fees not covered by the third party agency.

The University does not participate in employer reimbursement plans where the student is reimbursed tuition expenses from his/her employer.

4. Financial aid awarded by the institution that has not been completely processed. Students who register during late registration will incur a \$50.00 late registration fee. During late registration, payment for semester charges is due and payable at the time of registration.

Returned Checks

In the event that a check rendered as payment is returned by the bank unpaid for any reason, the privilege of using a personal check as payment to the University will be immediately revoked. A fee of \$30.00 will be assessed for any returned check.

If the University determines that a student's check is invalid, his/her courses are removed for the PeopleSoft Registration system and he/she must officially withdraw from the University. If the student fails to withdraw, he/she remains liable to the University for all incurred charges.

Errors in Billings

The University retroactively adjusts accounts and bills if accounting errors or charge omissions are identified.

Referral to Collection Agency

The University will make every effort to collect all outstanding balances pursuant to State of Maryland regulations. Delinquent accounts are reviewed and considered for submission to the State Central Collections Unit (SCCU). As an agency of the State of Maryland, the University is required by state law to refer delinquent accounts to the State Central Collections Unit. At the time of referral, a collection charge of 17% is added to the balance of the account, plus any additional attorney and/or court costs. In addition, SCCU is authorized by state law to intercept an individual's state income tax refund or other payment made through the State to apply toward an outstanding debt. The SCCU also reports delinquent accounts to credit bureaus.

FALL SCHEDULE OF CHARGES

SPRING SCHEDULE OF CHARGES

Click on link for the Spring 2013 Schedule of Charges

SUMMARY OF TUITION AND FEES

The University charges tuition and a variety of semester and annual fees, including mandatory, laboratory, examination, room and board, and parking. For a complete list fees, see the **Schedule of Charges** on Bulldog Connection (<http://bulldogconnect.bowiestate.edu/>).

Acceptance Fee

When accepted, a student must pay an acceptance fee, which will be credited to the student's account and applied to subsequent charges. The acceptance fee is nonrefundable and will be held to the student's credit for a period of one year. If the student does not enroll at Bowie State University during that year, the acceptance fee will revert to the University.

Activity Fee

An activity fee is assessed annually for full-time undergraduate students. The amount is reduced for part-time students. These funds are used by student organizations for class dues, student publications, dramatics, social events, assembly programs, and other student projects.

Athletic Fee

An athletic fee is assessed annually for full-time undergraduate students. The amount is reduced for part-time students. These funds are used by the Athletic Department to help support the athletic programs of the University.

Cooperative Education Fee

A cooperative education fee is charged per work assignment for each participating student for counseling services, for personal visits from the Coordinator of the Cooperative Education Program while on the job, for mailing all student co-op publications, and for being considered a full-time registered student while working.

Developmental Education Course Fee

A developmental education course fee is charged to all students enrolled in a developmental mathematics, English, or reading course. This fee is assessed for each developmental course.

Diagnostic Assessment Fee

A diagnostic assessment fee is charged to first- and second-year students, including transfer students. This fee will support costs associated with providing assessment tests and related prescriptive support plans for freshman and sophomore students.

English Proficiency Fee

A fee is assessed for the **English Proficiency Examination**, a graduation requirement which must be satisfied by all students receiving a bachelor's degree from the University.

Graduation Fee

A graduation fee is assessed undergraduate and graduate as a one-time expenditure to students once they apply for graduation. This fee covers the processing of transcripts and related documents provided to external bodies at the request of the student. This fee offsets the cost of commencement.

Health Services Fee

The University offers comprehensive insurance for all full-time students to cover medical expenses resulting from an accident or illness. Each full-time student entering the University is required to register for the **Student Health Insurance Plan** each year. The insurance cost, which includes medical expenses, hospital costs, laboratory tests, and x-rays, is included on each student's **Statement of Fees**. Contact the Office of Student Affairs for details.

ID (BowieCard)

An annual fee is charged to cover the cost of improving and maintaining the system. If a card is lost or stolen, a replacement fee will be charged.

Late Registration Fee

A late registration fee is charged to any student who completes registration during the late registration period as designated in the University Calendar. Complete registration includes the payment of fees at the Student Accounts Office and the depositing of the required forms with the Registrar.

Property Damage Fee

Students will be held wholly liable for willful damage to University property.

Residence Hall Damage Fee

A \$50.00 damage fee (breakage deposit) per resident student, payable upon a student's initial registration, is charged. If damage to or loss of property is caused by the occupants of a specific room, those occupants will be billed for the damage or loss. If responsibility for the damage or loss cannot be determined, the cost of repairs or replacement will be billed to all occupants of the buildings on a pro-rata basis. If a student does not pay the bill for damages assessed against him/her, his/her deposit will be reduced by the amount of the bill. At the end of each year, non-returning students, upon request, will be refunded the unexpended balance of their damage fees. Returning students will be expected to

pay, each semester, an amount sufficient to maintain their deposit at the \$50.00 level and also pay any charges for breakage in excess of \$50.00, which may have been assessed against them.

Residence Hall Living Costs

Students who live on campus after the first day of classes are required to pay the entire room and board fee. If a student must leave the University because of extenuating circumstances, he/she is required to complete a **Housing Contract Cancellation Form** for review by the Central Housing Office. If it is approved, the student will be charged for room and prorated for board charges. Approved cancellation requests submitted at the end of the **First Semester** will be charged a severance fee. If the request is denied, charges will be assessed for the entire room and board fee.

Adjustments for board fees are provided for residents who student-teach or are away from campus for more than fifteen (15) days to participate in University-approved activities. To secure the adjustment, a written request for approval must be submitted to the Vice President for Student Affairs. No adjustments or refunds will be provided for meal plans after mid-term or the eighth week of classes, whichever comes first.

Student Teaching Fee

Each student engaged in student teaching as part of the instructional program is charged a fee to pay the supervising teachers at the participating schools.

Technology Fee

The purpose of this fee is to meet the growing technological needs of the students.

Textbooks

Textbooks are required of all students. All required texts may be purchased through the University Bookstore. Each student should have available approximately \$600.00 per semester to purchase textbooks.

University Centre Operating Fee

A University Centre operating fee is assessed annually for full-time undergraduate students. The amount is reduced for part-time students. These funds are used to help maintain the operations of the J. Alexander Wiseman University Centre.

University Construction Fee

A University construction fee is assessed annually for full-time undergraduate students. The amount is reduced for part-time students. These fees are used to fund the debt service on University auxiliary construction projects.

Vehicle Registration Fee

Parking permits are required of all enrolled students, faculty, staff, and visitors who park motor vehicles on the campus. The parking permits are valid for a full academic year from September 1 through August 31. The permit charges are published in the **Schedule of Charges** (bulldogconnect.bowiestate.edu/).

Payment for parking permits is made at the Student Accounts Office in the Henry Administration Building. The receipt for reserved parking permits must be presented to the Office of Campus Safety in the McKeldin Gymnasium. The receipt for all other parking permits may be presented to the Office of Campus Safety in Robinson Hall or the McKeldin Gymnasium.

The Office of Financial Aid offers financial assistance to students in the form of scholarships, grants, loans, and student employment. These programs are funded by the U.S. Department of Education, the State of Maryland, the District of Columbia, Individual State Agencies and Bowie State University. Grants and loans are both need based and non need based programs; scholarships use merit, special talents and academic achievements as the criteria for awarding funds. Students who need assistance with college costs should apply for financial aid. Aid programs help with the difference in the cost of education and the contribution of the student and or parent.

Upon completion of the Free Application for Federal Student Aid (FAFSA), The U.S. Department of Education calculates the student's expected family contribution (EFC). The EFC is determined from a formula that considers factors such as income, assets, family size and number of family members in college.

Need is determined using the following formula:

Cost of Attendance (COA)
-Expected Family Contribution (EFC)
Financial Need

The cost of education includes costs such as tuition and fees, room and board, which are considered direct cost, other components including transportation, books and personal expenses are indirect cost.

Deadlines and Application Procedures

Students interested in applying for financial assistance, must complete the FAFSA form, this is an annual process which is available to students after January 1 and can be complete at the U.S. Department of Education's website: www.fafsa.gov.

Students and parents must also apply for a Personal Identification Number (PIN) at www.pin.gov. The PIN is an electronic access code that serves as your personal identifier; it allows you to sign binding documents electronically, access documents and correct your FAFSA on line.

Students should complete the FAFSA each year by March 1. March 1 is the priority deadline for federal and institutional funding. It is also the deadline for Maryland Higher Education Programs. Students must list Bowie State (002062) as a recipient of information processed by the central processor for the Department of Education.

Applications are processed on a rolling basis with March 1st being a priority for all completed applications. Students who submit their documentation resulting in a completed application by June 1 are guaranteed a financial aid offer prior to the start of the semester. Students who apply late will be considered for campus based financial aid upon availability of funding.

It is highly recommended that students follow the steps listed below to ensure maximum funding in a timely manner:

- Complete the FAFSA as soon as possible after January 1
- Complete the admissions process early
- Submit all requested documentation when requested

Important Deadlines

January 1	The Free Application for Federal Student Aid becomes available (www.fafsa.gov)
March 1	The priority date for full consideration of all aid for Bowie State University
March 1	Maryland residents must complete the FAFSA to be considered for state grants offered by MHEC
April 15- Subject to change please check with Office of Financial Aid	Students interested in applying for BSU Institutional Scholarships must complete the BSU Institutional Scholarship Application.
June 1	All documents must be received to ensure an official financial aid offer prior to start of the FALL semester
June 29	District of Columbia residents must apply for DC app. www.seo.dc.gov
December 1	Final deadline to submit documents for FALL only student
December 1	All documents must be received to ensure an official financial aid offer prior to start of the SPRING semester

Eligibility Requirements

Students must meet the following general requirements for determining eligibility for federal and institutional aid:

- demonstrate financial need
- be a U.S. citizen or eligible non-citizen
- have a high school diploma or GED
- have a valid Social Security number
- maintain Satisfactory Academic Progress
- be enrolled or accepted as a degree-seeking student
- be registered with the Selective Service (if required)
- certification that you are not in default on a federal loan or do not owe money on a federal student grant

Verification

The U.S. Department of Education selects random applications for verification. If selected, students must provide signed copies of federal income tax returns, verification worksheets and other requested

supporting information. The Office of Financial Aid may also request additional documents if information submitted is inconsistent.

Financial need will be recalculated based on submitted verification documents and corrections will be transmitted electronically to the U.S. Department of Education to update the Student Aid Report (SAR). Differences between information reported on the FAFSA and verification documents may result in adjustments to financial aid.

The Office of Financial Aid encourages students to respond promptly and completely to any request for additional information. Verification documentation must be submitted by the last date of attendance. Failure to respond to the request for verification documents will result in the cancellation of financial aid award(s).

Changes in Aid

Federal Title IV regulations will not permit a student to receive aid totaling more than the cost of attendance. Bowie State University may revise or cancel federal or institutional aid whenever the university becomes aware of information that changes a student's eligibility for aid, including changes in the student's Cost of Attendance (COA) or Expected Family Contribution (EFC). Other examples of circumstances that can result in revision or cancellation of existing aid includes the following:

- receiving additional aid at any time not already considered as a part of the student's aid package
- changes in residency (for example, from on-campus to off-campus)
- change from out-of-state to in-state tuition
- changes to EFC resulting from verification
- changes to enrollment level (for example, from full-time to part-time)
- withdrawal from the university

Transferring of Financial Aid

Not all financial Aid is transferrable. Most aid will not transfer from one institution to another. Some state grants may transfer, upon notification to the awarding agencies. Students who have already processed a FAFSA to attend another school must request that the U.S. Department of Education send a copy of the FAFSA results to Bowie State University by indicating the school code (0020262) on the FAFSA form. Students who have accepted state aid, must contact the state agency to ensure funds will be sent to BSU.

Institutional Grants

Bowie State University Grant Program

Bowie State University Institutional Grants (Mission and Diversity) are awarded to undergraduate students on the basis of financial need and/or first generation college students and need. These grants offer monetary awards based on the available funding. Students who wish to be considered for the BSU Institutional Need-Based grants should complete and submit the FAFSA by March 1. Students must demonstrate need by completing the Free Application for Federal Student Aid (FAFSA) form.

Students must be Pell eligible and March 1, is the priority deadline, however processing of applications continue after the March 1, late applicants consideration will be based on available funding.

FEDERAL STUDENT AID PROGRAMS

Federal Pell Grant

The Federal Pell Grant Program provides grants to undergraduate students who exhibit financial need and meet other eligibility requirements. The Federal Pell Grant is gift aid and does not have to be repaid. It is considered to be the foundation of financial aid to which other aid may be added. Pell Grants are awarded based on enrollment status. Award limits vary based on Congressional budgeting each year.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The Federal Supplemental Educational Opportunity Grant (FSEOG) Program is intended to supplement the Federal Pell Grant and provide additional assistance to the neediest undergraduate students. The average award ranges from \$200 to \$4,000 per year.

TEACH Grant

The TEACH Grant Program provides up to \$4,000 per year (\$16,000 total for an undergraduate program) to full-time students who plan to teach full time in high-need subject areas at schools serving students from low-income families. Students who attend less than full-time may receive reduced grant amounts. The general eligibility requirements for receiving a TEACH Grant include the following:

- U.S. citizenship or eligible non-citizen status
- Completion of a FAFSA, although demonstrated financial need is not required
- Cumulative GPA of at least 3.25 throughout the student's academic program, or a score above the 75th percentile on a national standardized college admissions test
- Undergraduate in first undergraduate degree program of study
- Acceptance into an eligible degree program, majoring in education and pursuing a certification in a high need subject area, or majoring in a high need subject area with the intent of also completing teacher certification
- Completion of an Agreement to Serve and counseling each year

TEACH Grant recipients must agree to teach for at least four full years within eight years of finishing their teacher preparation program. They must teach in elementary or secondary schools that have been identified by the U.S. Department of Education as serving pupils from low-income families. These schools are listed in the U.S. Department of Education's Annual Directory of Designated Low-Income Schools for Teacher Cancellation Benefits. www.tcli.ed.gov

TEACH Grant recipients must also teach in high need subject areas, including bilingual education and English language acquisition, foreign language, mathematics, reading, science or special education. There may be additional teacher shortage areas identified at the time a student begins teaching. These teacher subject shortage areas (not geographic areas) are listed in the U.S. Department of Education's Annual Teacher Shortage Area Nationwide Listing. www.ed.gov/about/offices/list/ope/pol/tsa.doc

Annually, TEACH Grant recipients must sign a service agreement to acknowledge that failure to complete the teaching obligation will mean repaying the grant as a Federal Direct Unsubsidized Loan, with interest accruing from the date that the grant funds were disbursed.

Additional information can be found at:

www.bowiestate.edu/admissions/financial_aid/types/grants/TEACHGrant/

Federal Work-Study Program (FWS)

This need-based Federal Title IV program allows undergraduate degree candidates to work and earn money for educational expenses. The university pays aid from this program through paychecks every two weeks. The eligibility does not offset direct university charges such as tuition and fees. FWS awards depend on available funding and financial need.

Federal Perkins Loan Program

The Federal Perkins Loan is a need-based, low-interest loan available to exceptionally needy undergraduate and graduate students. The loan has a 5% interest rate and is interest-free until nine (9) months after graduation or separation from Bowie State University. The Loan is made with Bowie State University with a share contributed by the federal government, and the Loan must be repaid to Bowie State University. The average award ranges from \$1,500 to \$4,000 per year.

All Perkins loan borrowers must attend an entrance interview prior to receiving their loans. Perkins Loan recipients must schedule an entrance interview with the Perkins Loan Coordinator located in the Controller's Office.

William D. Ford Federal Direct Loan Program

Bowie State University participates in the William D. Ford Federal Direct Loan Program (usually referred to as the Direct Loan Program). Bowie State University's status as a direct lending institution precludes the University from processing any loans from private banks or other lending institutions. The U.S. Department of Education is the lender and will pay the student through the school. The application requirements for these loans are the same as for other federal grant and loan programs. Borrowers must carry at least 6 units per semester.

Students are usually offered two types of loans, a **subsidized** depending on the amount of need and or an **unsubsidized** loan.

Depending on the amount of need, an aid offer may include an interest-subsidized loan or an unsubsidized loan. Some students receive both subsidized and unsubsidized loans. With a subsidized loan students are not charged interest until the repayment period begins at the end of the six month grace period. The grace period begins when the borrower graduates, drops below the required 6 credits for enrollment or withdraws from the University. With an unsubsidized loan interest accrues during enrollment, throughout the grace period and during repayment.

Dependent Direct Loan Annual Limits

Grade Level	Earned Units	Annual Loan Limits	Additional Unsubsidized Loan	Total Unsubsidized Loan Eligibility
Freshman	0-29	\$3500	\$2000	\$5500
Sophomore	30-59	\$4500	\$2000	\$6500
Junior	60-89	\$5500	\$2000	\$7500
Senior	90+	\$5500	\$2000	\$7500

Independent students may receive a higher amount of unsubsidized loan. Independent freshmen and sophomores may be eligible for up to \$4000 in additional loan funds; juniors and seniors \$5,000. (please refer to the FAFSA form for criteria for independency)

The interest rate for Direct Loans made after July 1, 2011 is fixed at 3.4%, In addition to annual loan limits, the Federal Direct Loan program also has aggregate limits.

New student borrowers to BSU must complete an electronic Master Promissory note (MPN) and an on-line entrance counseling session before receiving any disbursement of loan proceeds to the student's university account. Students must have a PIN assigned by the U.S. Department of Education prior to signing their note electronically over the web. Additional information on the MPN, PIN and entrance interview can be found at www.studentloans.gov.

Direct Loan Aggregate Loan Limits

	Combined Based Limit for Subsidized and Unsubsidized Loans	Additional Limit for Unsubsidized Loans	Total Limit for Unsubsidized Loans (minus subsidized amounts)
Dependent Undergraduate	\$23,000	\$8000	\$31,000
Independent Undergraduate	\$23,000	\$34,500	\$57,500

Direct PLUS Loan

The Direct PLUS Loan Program enables parents of dependent students an opportunity to borrow up to the cost of education minus all other aid received. Applicants do not have to demonstrate need; however, dependent students are encouraged to use their full eligibility for a direct subsidized or unsubsidized loan before being considered for a PLUS Loan. The U.S. Department of Education approves a loan from this federal program only after an evaluation of the parent borrower's credit history. If a parent is denied a PLUS Loan, the student may be eligible to receive additional unsubsidized funds.

Interest begins to accrue at the time of disbursement. The interest rate for new PLUS loans is a 7.90 percent. The parent borrower has the option of to begin repayment either 60 days after the loan is fully disbursed or six months after the dependent student on whose behalf the parent borrowed ceases to be enrolled for at least a 6 units. A new PLUS borrower must complete an electronic Master Promissory note (MPN) before receiving any disbursement of loan proceeds to the student's university account. Parent(s) must have a PIN assigned by the U.S. Department of Education prior to signing their note electronically over the web. Additional information on the MPN and the PIN can be found at www.studentloans.gov.

Prior to graduating or leaving college all loan borrowers are required to complete an exit counseling session on-line at www.studentloans.gov. This on-line exit counseling session provides borrowers information on their rights and responsibilities.

Maryland State Scholarship Programs

The State of Maryland offers scholarship and grant programs based on a student's financial need, talents, and gifts, or career choice. March 1 is the mailing deadline for the FAFSA to be considered for Maryland State scholarships and grants.

Applicants must be residents of Maryland, must be accepted for admission or enrolled in a regular undergraduate program at an eligible Maryland institution, or accepted for admission or enrolled in a 2-year terminal certificate program in which the course work is acceptable for transfer credit for an accredited baccalaureate program at an eligible Maryland institution, and must be enrolled as either a full-time (12 or more credits per semesters) or part-time (6-11 CREDITS per semester) undergraduate student.

Some state scholarships require special applications and have different deadlines. For more information about state scholarships, students can call the Maryland State Office of Student Financial Assistance at 410-260-4565, or visit www.mhec.state.md.us

Bowie State University Institutional Scholarship

Students who wish to apply for BSU Institutional Scholarships should complete and submit the Bowie State Institutional Scholarship Application by April 15. Applicants should have at least a 2.5 cumulative grade point average. Notifications of awards are sent directly to students prior to the start of the FALL semester. SPRING awards are made if funds are available. For additional information, please visit www.bsu/admissions/financialaid.

Bowie State University Academic Scholarships

The University offers academic scholarships based on ACT, SAT and high school GPA scores. Additional Information can be found at www.bowiestate.edu/admissions or by contacting the Admissions Office at (301) 860-3415.

DISTRICT OF COLUMBIA FINANCIAL AID PROGRAMS

The District of Columbia State Education Office (SEO) will award up to \$10,000 to qualified students to attend eligible public universities and colleges nationwide through the DC OneApp. The DC OneApp is the only method which a college-bound District resident may apply for funding from the District's three college financial aid grants: **DCTAG**, **DCLEAP**, and **DCAS** – using one application. The DC OneApp is located on-line at www.seo.dc.gov.

FINANCIAL AID POLICIES

Satisfactory Academic Progress (SAP)

A. PURPOSE:

To satisfy federal requirements which are mandated by the Department of Education and to ensure requirements that the University developed with the intent to apply a consistent and reasonable standard of academic progress.

B. POLICY:

It is the policy of the Bowie State University to develop standards of Satisfactory Academic Progress (SAP) in accordance with federal regulations and requirements. The University's Satisfactory Academic Progress Policy (SAP) consist of reviewing several components, a quantitative (number of credits completed), and qualitative (grade point average), maximum time frames, all of which are measured on an annual basis at the end of the academic year (SPRING term).

Financial Aid applicants must comply with the Satisfactory Academic Progress (SAP) Policy as a condition of continued eligibility. Please note that the Financial Aid SAP requirements differ from the University academic satisfactory academic progress policy

Financial aid programs which are affected by the SAP policy include: Federal Pell. Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Perkins Program, Federal Work Study, William D. Ford Federal Direct Loan programs (Subsidized, Unsubsidized, PLUS), University Grants (Mission and Diversity) and State Grants/scholarships and all other programs which require the monitoring of academic progress.

C. PROCEDURE:

For financial aid purposes, a student is considered to be in good standards if the following criteria are met:

- Undergraduate students must maintain accumulative grade point average of 2.00 and pass at least 67% percent of the cumulative hours.

Maximum Time Frame

Students must complete their educational program within a time frame no longer than 150% of the published length of the educational program, as measured by transfer and attempted credits. (For example, a student could have up to 180 credits or 12 full-time semesters to complete a 120 credit undergraduate program).

Treatment of Grades, Course Work and Transfer Credits

1. Remedial (developmental) classes are defined as university coursework below the 100 course level. Students will receive a letter grade for these courses; however they will not be counted in the grade point calculation but are counted in the completion ratio. Financial aid eligibility for remedial courses is limited to a maximum of 24 credit hours.
2. Attempted credits include grades of A, B, C, D, F, I, NG, P, PS, T, W, AU, CR, S, U
3. Students may repeat courses in order to improve a grade. However, credits for repeated courses will count as additional credits attempted for financial aid purposes.
4. Transfer credits will be counted as attempted and completed credits for the completion ratio calculation and count towards the maximum time frame allowed.

To calculate the percentage of credits completed total all attempted credits and total all attempted credits. divide the number of completed credits by the number of attempted credits.

Total Completed Credits/Total Attempted Credits= Percentage Completed

Failure to Meet Minimum SAP Requirements

Students who fail to maintain a cumulative grade point average of 2.0 and or fail to maintain the minimum completion rate will be placed in a “Not Meet” status for the following semester of enrollment and no financial aid will be awarded and or disbursed during subsequent semesters until the student has regained eligibility or reinstatement has occurred due to an appeal being granted.

Students who do not earn their degree within the maximum timeframe will also be placed in “Not Meet” status. No aid will be awarded and or disbursed during subsequent semester unless the student has made appeal and the appeal has been granted.

Reinstatement of Financial Aid

Reinstatement of financial aid after being placed in a “Not Meet” status is achieved in the one of the following ways:

1. Student submits a written letter of appeal with supporting documentation and the Financial Aid Appeals committee grants the appeal. The student is placed on financial aid probation for the next semester of enrollment. At the end of the probation semester, SAP will be reevaluated. The student must meet all SAP requirements at the end of that semester or they will be placed in a Not Meet status and they must reestablish eligibility as described in item 2.
2. The student pays for all obligations, (tuition and fees), without financial aid assistance and reestablish eligibility by meeting the SAP requirements

Appeals

Students wishing to appeal the Not Meet status must submit a written appeal with supporting documentation that led to not meeting the SAP requirements. This appeal must include a plan for meeting SAP at the end of the next enrollment period. Circumstances may include death of a family member, unexpected injury or illness of the student or other circumstances with supporting documentation.

2. Appeals must be submitted by the deadline date.
3. Student will be limited to two appeals during their undergraduate career.
4. Appeals submitted without supporting documentation will not be reviewed.
5. The Financial Aid Appeals committee will review the appeal request and respond in writing to the student regarding the decision. The Financial Aid Appeals committee reserves the right to request a financial aid academic plan requiring the student to meet certain standards in the upcoming semester that would lead to the reestablishment of eligibility and upon his or her agreement if any terms of the plan are not met the student shall be placed in a Not Meet status for the next enrollment period.

Example of a financial aid academic plan – student must maintain fulltime status during period of probation- the student drops below fulltime during the probation period. Student has not satisfied terms of plan – student will then be placed in a Not Meet status for the upcoming semester.

All Decisions of the Financial Aid Committee are Final

Default Management Policy

Default is the failure to repay a loan in accordance with the terms of the promissory note. Default may also result from failure to submit requests for deferment or cancellation on time. To facilitate the management of the Direct and Perkins Student Loan Programs, Bowie State University has implemented the following plan.

- A. All Perkins loan borrowers must attend an entrance interview prior to receiving their loans. Perkins Loan recipients must schedule an entrance interview with the Perkins Loan Coordinator located in the Controller's Office.
- B. All Direct Loan borrowers are required to complete entrance counseling session on-line at www.studentloans.gov.
- C. The entrance interviews will include information on loan interest rates, grace periods, penalty charges and fees, borrowers' rights and responsibilities, deferment and cancellation or postponement procedures, consolidation issues, and any other terms or conditions of the loan.
- D. Academic transcripts will be withheld for Perkins and Direct Loan defaulters.
- E. All Perkins Loan recipients will be required to complete an exit interview. It will include the information in the entrance interview and information on the average indebtedness of loan recipients, information on the anticipated monthly repayment, a review of repayment and consolidation options, and a review of the consequences of failure to repay the loan. Perkins Loan recipients must schedule an exit interview with the Perkins Loan Coordinator located in the Controller's Office. Loan recipients will not be allowed to graduate until they have completed the exit interview.
- F. All Direct Loan recipients will be required to complete an exit interview on-line at www.studentloans.gov.
- G. It will include the information in the entrance interview and information on the average indebtedness of loan recipients, information on the anticipated monthly repayment, a review of repayment and consolidation options, and a review of the consequences of failure to repay the loan. The exit interview for Direct Loan borrowers is available online at www.studentloans.gov.
- H. Loan recipients will not be allowed to graduate until they have completed the exit interview.
- I. The University will provide updated information to the various lenders and guarantors as requested.
- J. The University will forward delinquent (240 days past due) Perkins Loan accounts from its billing agency to its collection agency. Prior to the collection agency submission (15-240 days past due), default prevention letters are sent out through the Billing Agency's Early Intervention Program. In addition, the Billing Agency will contact the local credit bureau to report any delinquencies. The collection agency, using various collection techniques (i.e., skip-tracing, Tax Refund Intercept Program), will attempt to secure payment on an account in default. If payment has not been made the account is returned to the institution for assignment to the Department of Education.

Return of Title IV Financial Aid

When a student withdraws from all courses during a term when the student is receiving student aid, the Office of Financial Aid must determine what portion of the student's aid (not including Federal Work-Study) will revert to the aid programs. The Office of Financial Aid must use a statutory refund formula

required by the U.S. Department of Education to determine what portion of aid paid to university charges has been “earned” and what portion must be considered “unearned.”

The percentage of assistance earned is equal to the percentage of the term completed as of the day the student withdraws. (If the withdrawal occurs after the 60 percent point, the percentage of aid earned is 100 percent.) The amount of aid not earned by the student is calculated by determining the complement of the percentage of assistance the student earned. That percentage is then applied to the total amount of grant and loan assistance disbursed for the term. If the student received more grant or loan assistance than the amount earned, the university or the student (or both) must return the unearned funds to the aid programs.

STUDENT CODE OF CONDUCT

Students are expected to conduct themselves in a manner which is consistent with the Core Values (Excellence, Civility, Integrity, Diversity, and Accountability), purpose, goals, and objectives of Bowie State University. In particular, all students have the privilege to learn, subject only to their own initiative and ability, uninhibited by the behavior of others. The University reserves the right to deny admission to any applicant, to discontinue the enrollment of any student, or to withhold the degree of any student if, in the opinion of University authorities, a student's behavior is in continuous or serious violation of the Student Code of Conduct established by the faculty, students, and administration and published in the Student Handbook. Academic honesty, as defined in the Student Handbook, is required of all students.

The Bowie State University Man and Woman

Standards and Expectations

University administrators, faculty, and staff are individually and collectively committed to assisting each student in his/her personal development and providing the quality education necessary to achieve his/her goals. The University also takes seriously its obligation to nurture and to assist each student in developing his/her personal character. However, it is incumbent upon each student to assume personal responsibility for his/her conduct and behavior. Bowie State University presumes, therefore, that the student:

Seeks to Develop Self Academically, Physically, and Spiritually

Possesses an unquenchable thirst for knowledge and is responsive to new ideas and different dimensions of thought. The student does not abuse or violate his/her physical and spiritual well-being and has a strong sense of positive self-esteem.

Values Life

Accepts, respects, and celebrates racial, gender, and cultural diversity as a natural part of our social fabric. He/she behaves and interacts with others with dignity and respect, refusing to violate or abuse the rights of others, and is willing to assist those in need or in distress.

Has Integrity

Has a value system and code of ethics that foster positive personal growth and development. The student is true to his/her personal convictions and is unwilling to compromise personal values and standards of behavior.

Is Dependable

Follows through on self-assigned tasks as well as those to which he/she has been assigned and is timely in carrying out those assignments.

Sets High Personal Standards

Is goal and solution-oriented, refuses to accept mediocrity, and continues to seek excellence in whatever he/she undertakes.

Has Effective Communication Skills

Strives to develop and master effective verbal and writing skills. He/she clearly understands that poor communication skills can have a deleterious impact on his/her professional growth and development.

Is Aware of His/Her History

Recognizes the richness of his/her legacy and understands the need to learn from and apply the lessons of one's cultural, racial, and personal history. He/she is aware of past and present contributions his/her ancestors have made to the nation and the global community as well.

Knows and Abides By the Rules of Social Decorum

Bowie State University 2012 -2013

Clearly understands that verbal abuse, rowdiness, fighting, impoliteness, and other forms of social misconduct are unwarranted and unacceptable social behavior.

Understands Appropriate Dress

Recognizes the need to dress appropriately for the situation, event, or environment and that the manner of dress will frequently reflect how he/she is received, socially and professionally.

Has Pride in Bowie State University

Behaves in a manner which will reflect self-respect and respect for the University. He/she will defend the integrity of the University and will work to enhance its reputation. He/she knows the lyrics to the *BSU Alma Mater*.

The Student Leadership Institute is a week-long intensive, interactive, and stimulating learning program for newly elected student leaders from many Historically Black Colleges/Universities who are committed to uplifting their organizations and their schools. The Institute is held annually in late SPRING at Bowie State University.

The primary goal of the Student Leadership Institute is to help participants develop as leaders. More specifically, the objectives of the Institute for student leaders at HBCUs are to teach students to:

- Understand the mission and purpose of HBCUs
- Understand the pivotal and important role of student leaders on HBCU campuses
- Develop an appreciation for planning and organizing activities and events
- Serve as catalysts on their respective campuses for empowerment and change
- Understand and appreciate the concept of leadership development, apply its principles, and serve the black community by promoting progress in the world and uplifting the nation
- Be able to look at themselves as a part of a team with the administration and faculty instead of seeing themselves as separate entities

Academic Advisement Center

Director: Yvette Galloway

The Academic Advisement Center (AAC) at Bowie State University is committed to assisting students in identifying and completing their educational goals in a friendly, helpful, and professional environment. The Center's professional advisors deliver services to all students at the University, but they focus primarily on the advisement, development, and retention of first- and second-year students.

Upon acceptance to Bowie State University (BSU), each student is assigned an Academic Advisement Specialist who, in partnership with a faculty advisor, guides the student through an educational journey. Successful academic advisement occurs when the student, Academic Advisement Specialist, and faculty work together as partners with the shared responsibility of ensuring the academic progression and success of the student. Academic advisement involves assisting students in the selection of courses, identification of programs of study, and review of their life and career goals.

All students are expected to meet with their assigned Academic Advisement Specialist twice during each semester, especially during Academic Advisement Week, and the FALL and SPRING registration periods.

In addition to the standard advisement services, the Center provides intervention services and academic monitoring for conditionally admitted students and probationary students.

The goals of the Academic Advisement Center are to:

- Inform students about educational and career options, graduation requirements, and academic policies and procedures;
- Assist students in personal and professional growth and development;
- Aid students in the creation of educational programming consistent with their interests, abilities, and career aspirations;
- Monitor student performance and progression each semester;
- Promote relationships with students that are characterized by trust, mutual respect, and openness; and
- Refer students to the available campus resources.

ADA (Americans with Disabilities Act) Services

Director: Michael Hughes

Mission

The mission of the Office of Disability Support Services is to ensure that students with disabilities have full access to all programs and services at Bowie State University. This Office also seeks to educate faculty, staff, and administrators regarding disabilities in an effort to create greater sensitivity towards individuals who are disabled.

Philosophy Statement

Students with disabilities will be assessed by the same standards that apply to all students. The faculty is not expected to lower its expectations or its standards. The various services and accommodations provided by Disability Support Services are designed to give students every opportunity to be full participants in the academic process. Accordingly, Disability Support Services seeks to minimize or eliminate the need for faculty to provide accommodations for students with disabilities. This approach emphasizes the students' responsibilities and independence. This will allow the faculty to devote its attention to instruction. Additionally, Disability Support Services also provides an appropriate level of counseling regarding accommodation services.

Bowie State University's Compliance with the Americans with Disabilities Act

It is the policy of Bowie State University to make sure that all of its services, facilities, and accommodations are made accessible to individuals with disabilities in accordance with the *Americans with Disabilities Act*.

Office of Testing Services

Director: Doris Gillard

The Office of Testing Services coordinates and administers placement tests and the English Proficiency Examination. All first-time freshmen and transfer students who have not completed their English, reading, and mathematics requirements are required to take placement examinations prior to registering for classes. **Performance on the placement examinations determines the courses in which students must enroll. All students, including first-time adult learners, register for the courses in which they are placed.**

Bowie State University 2012 -2013

The **English Proficiency Examination** is a graduation requirement which must be satisfied by all students receiving a bachelor's degree from the University. Native and transfer students should take the examination upon completion of English 101 and English 102. However, transfer students who completed their English composition requirement at another university should take the examination during their **First Semester** of enrollment at the University.

The Office of Testing Services (OTS) also administers standardized tests—the Praxis I Paper-based Test and the Law School Admission Test (LSAT). Please visit <http://www.ets.org/praxis> for specific information on registration, dates, times, etc. For detailed information on the LSAT, go to <http://www.lsat.com>. Additionally, OTS offers courtesy testing.

During the next academic year, OTS expects to administer the College Level Examination Program (CLEP) and to assist Bowie State's academic departments with the administration of make-up and course-credit examinations.

OTS is located in suite 302 in the Center for Learning and Technology. Please feel free to visit the office and/or call us at 30.860.3295. You may also visit our website at www.bowiestate.edu/community/tservices.asp.

Student Support Services/TRIO Program

Director: Monica Turner

The **Student Support Services** program (SSS) is designed to provide support to two hundred low-income, first generation, and/or disabled U.S. citizens attending Bowie State University. Once accepted into the program, TRIO Achievers (SSS participants at Bowie State University) are offered individual writing and study skills instruction, tutorial services, personal counseling, workshops, and a variety of other academic support services. We provide Dell laptop loans, a technology laboratory, and audio/visual resources. TRIO Achievers also enjoy culturally enriching activities including graduate school tours, dinner theaters, dance performances, and much, much more. Services are available to participants from freshmen year until graduation, and all services are free of charge. Students are encouraged to start working with the Program during their first year at Bowie State University. However, we always welcome the opportunity to work with continuing students throughout the academic year.

All services and activities are completely funded by the U. S. Department of Education and are at no additional cost to the student. Learn more about the program at www.bsutrio.com.

International Student Services

Director: Robert Batten

Bowie State University proudly offers its challenging and dynamic graduate and undergraduate academic programs to qualified students from around the world. The Office of Career, Cooperative Education and International Student Services facilitates the entry of international students into the United States so that they can begin or continue their academic programs at Bowie State University. Transfer students from accredited U.S. colleges and universities are also welcome to apply for admission. Please note that the English language proficiency is required for admission, and certain levels of financial support are required in order to qualify for admission as an international student.

Detailed information concerning international student immigration processing can be found on the University's website at www.bowiestate.edu/CampusLife/career/iss/.

Career Development Center

Director: April Johnson

The mission of the Career Development Center is to guide students and alumni through all phases of the career planning and decision-making process, and help them to develop, evaluate and implement comprehensive career and educational plans that will prepare them for success. DREAM IT. PLAN IT. LIVE IT.

We are committed to creating an environment of student centeredness and providing innovative approaches that help undergraduate and graduate students and alumni learn:

- to find career opportunities related to their values, skills, interests, and personality
- to make informed decisions about their career goals
- to participate in Experiential Learning opportunities
- to develop job seeking skills
- to connect with employers and Bowie State University alumni
- to understand the forces at play in the global market and the new economy and how they affect the world of work.

The Career Development Center provides a wide variety of resources designed to meet the career development and employment needs of Bowie State University students and alumni.

- Choosing a Major Assistance
- Exploring Occupations & Careers
- Internship & Cooperative Education Search Assistance
- Graduate & Professional School Research & Preparation
- Internship / Job Listings
- Career Resource Library
- Bulldogs4Hire (online job, internship and resume database)
- On-Campus Interviewing with Employers
- Resume & Cover Letter Help
- Workshops & Seminars
- Walk-In Hours
- Individual Appointments
- Discover Career Planning System
- Class / Group Presentations

Cooperative Education is a unique plan of educational enrichment designed to enhance self-realization and direction. This plan is accomplished through the integration of classroom theory with a planned and supervised practical work experience related to the student's major field of academic study and career goals.

There are two types of Cooperative Education programs at Bowie State University that you can participate in.

- Parallel Co-Op is like a part-time job. The student goes to school full-time and works about 20 hours per week each semester. Students receive six credits for Parallel Co-op.
- Alternating Co-Op is when the student alternates semesters between full-time work and full-time study. Students receive 12 credits for Alternating Co-op.

Internships provide students with the opportunity to evaluate different types of employment in various work environments that will enhance self-awareness, expand your knowledge of career options, and

identify your strengths and areas of growth (as measured by employer evaluations). Internships can also:

- Provide meaningful work experiences for students which increases their marketability when looking for a permanent position
- Help students determine if this is the right career path
- Provide the opportunity for students to network with established business leaders in their field
- Help build a resume that sets the student apart from others when looking for a position
- Allow students to practice what they learned in the classroom
- Familiarize students with a working environment
- Make students more marketable to employers

Students can earn two academic credits for an internship experience. Internship positions may be paid or non-paid, depending on the skill needed and your qualifications. The hours required per week will depend upon the requirements of the position, but usually are less than 20 hours per week.

Henry Wise Student Health and Wellness Center

Director: Dr. Rita Wutoh

All registered students are required to submit a complete health history and a record of immunizations to the Henry Wise Student Health and Wellness Center prior to admission. Documentation regarding the status of the meningitis vaccination should be submitted to the housing department where that immunization is required.

All registered students; full-time, part-time and graduates, are eligible for a range of primary care services offered in the Student Health and Wellness Center. All students are assessed a health fee as part of their tuition. Students are expected to pay for services such as laboratory testing and physical examinations for certain types of employment. Students are referred to health care resources in the community for services that are unavailable in the Health Center. The Center is staffed with a nurse practitioner, a registered nurse, and a part-time physician. All services and records are confidential and information on a student's condition or health status will not be released without the student's written consent.

All full time undergraduates are required to have health insurance that covers expenses incurred for medical services beyond the scope of the Student Health and Wellness Center. A low-cost group Accident and Sickness Insurance Policy designed specially for Bowie State University students is available through the University. International students are required to purchase the student health insurance.

Counseling and Student Development Center

Director: Tonya Swanson

Confidential counseling services are available for all full-time and part-time undergraduate and graduate students. These services include personal, social, and vocational counseling. The professional staff assists students in resolving problems that may impede their educational progress. Additional services include a computer-based career guidance system, student workshop series, Crisis Hotline, community services, and leadership development.

BowieCard Office

The mission of the Bowie Card Office is to provide the University community with a standardized form of identification with the ability to access a variety of University services and activities.

The BowieCard serves as the meal card, check cashing card in the BSU Bookstore, athletic access card, library card, and much more. Additionally, when funds are deposited on the card, it becomes a debit card that allows you to make “cash-free” purchases for food and snacks in the book store and from vending machine purchases. Copies can also be made. The card is not transferable and should only be used by the person to whom it is issued. The BowieCard official ID card is required for all students, faculty, and staff.

Bowie State University provides its students, faculty, and staff with a fully integrated ID card system that offers capabilities for the following:

1. Full color, digitized photo identification;
2. Library privileges;
3. Event access;
4. Meal plan access in the Student Restaurant;
5. Debit card capabilities for the following:
 - BSU bookstore
 - Student Restaurant
 - Alex Haley Convenience Store
 - Sub-Connection
 - Snack Bar
 - Gold Room
 - Jazzman’s
 - Café ala Carte
 - Smoothies and More
 - Copy Machines
 - Computer Laboratory Printers
 - Vending Machines
 - Parking Fees and Fines

The first identification card is free with proof of paid tuition and fees. There is a \$10 replacement fee for a lost or stolen identification card.

Department of Public Safety

Chief: Ernest L. Waiters

The mission of the Department of Public Safety (DPS) is to ensure that academic learning at Bowie State University is conducted in a safe, secure environment. DPS is an organized law enforcement agency operating in the campus community. The Office is vested with full police authority under the provisions of Educational Article 13-201 of the Annotated Code of Maryland. The officers are fully trained and certified by the Maryland Police Training Commission in all areas of law enforcement responsibilities, including criminal investigation, patrol procedures, traffic control, emergency medical assistance, and the safe care and use of firearms. The DPS provides year-round, 24-hour-a-day security and law

enforcement to the University community. Patrol and dispatch services are provided, with access to municipal, state, and county emergency services available when needed.

The Department also handles parking requirements for the University. Parking permits are required of all enrolled students, faculty, staff, and visitors who park motor vehicles on the campus. Permits are valid for a full academic year, September 1st through August 31st. Visitors must obtain a temporary parking permit from the DPS in Robinson Hall upon entering the campus. Vehicles parked at a meter are not required to be registered, but must not be in violation of that meter. Meters are enforced from 7:00 a.m. to 7:00 p.m., Monday through Friday. Parking fee information is available online in the Bowie State University Schedule of Fees.

All unregistered vehicles, illegally parked vehicles, or vehicles with outstanding parking violations will be ticketed and/or towed at the owner's or operator's expense. As of October 1, 1992, the Motor Vehicle Administration requires all students enrolled in an accredited university, and operating an out-of-state vehicle in the State of Maryland, to obtain a non-resident vehicle permit from the MVA if the vehicle will be operated in the State of Maryland for more than 30 days. The non-refundable registration fee for the non-resident vehicle permit is \$20.00 for a year. It can be renewed annually as long as the student is attending school in Maryland and the registration is current. Failure to obtain the non-resident vehicle permit will result in a fine of \$500.00 for the first occurrence; subsequent occurrences will result in fines of \$1,000.00 each. Questions may be directed to the MVA at 410-768-7174.

The Office of Campus Safety publishes two booklets: Jeanne Cleary Disclosure Act Information and BSU Parking Rules and Regulations. These booklets contain rules and regulations that govern parking at Bowie State University and are issued upon request or may be found on the Bowie State University Website.

For information on parking and permit regulations, see Vehicle Registration Fee. You also may call the Public Safety Office at 301-860-4050 with specific questions or concerns.

SPECIAL PROGRAMS AND RESOURCES

THURGOOD MARSHALL LIBRARY

Interim Dean: Marian Rucker-Shamu

The Library offers a variety of materials and services to its users. Information about what is available in the collections is available through the Library's online public access catalog. Additionally, electronic databases offer a vast amount of information. Library orientation and instruction in the use of its resources are available in formal and informal settings.

Current library holdings number more than 300,000 items. The Library subscribes to more than 700 periodicals, newspapers, and other serials in paper format. Access to thousands of periodicals, many offering full-text articles, is available electronically through *Research Port*. A collection of reference materials, periodicals, and items reserved for class assignments is also available. The Library includes study carrels, a group study room, and two instruction classrooms.

Thurgood Marshall Library is able to borrow any items requested by students, faculty, and staff that are not readily available. The materials are borrowed from other libraries in the University System of Maryland and Affiliated Institutions (USMAI) through a cooperative lending agreement, or from other

libraries world-wide through formal interlibrary loan agreements. Members of the Bowie State University community may borrow materials directly from libraries of the USMAI libraries with a current *BowieCard* that has been activated at the Thurgood Marshall Library circulation desk.

The Thurgood Marshall Library is dedicated to providing state-of-the-art information technology for use by its patrons. The Library is also equipped for wireless Internet access.

SCHOOL OF GRADUATE STUDIES

Interim Dean for Graduate Studies: Cosmas U. Nwokefor

The School of Graduate Studies guides and directs, administers, and manages the University's graduate programs. Graduate programs are designed to meet the needs of students seeking professional advancement, career mobility, or further enrichment. Graduate Studies also provides leadership for the Graduate Council and the Graduate Assistantship Program.

Courses are offered in 16-week sessions meeting once a week in the evenings and on the weekends or in a time-shortened format of two concentrated eight-week sessions in the regular academic semester and in weekend workshop formats, both on- and off-campus. Courses are offered during the year at various sites in Maryland. The workshops are designed for and geared toward the interest of working adults in industry, government, education and social service agencies.

Whether students wish to pursue a degree or a certificate, improve their professional capabilities, or enrich their personal lives, they may choose from among the many graduate offerings at the University. Additional information may be obtained from the Internet (<http://www.bowiestate.edu>) via email (graduatestudies@bowiestate.edu) or by contacting the School of Graduate Studies at 301-860-3406.

CONTINUING EDUCATION AND EXTERNAL PROGRAMS

Director: Jerry Isaac

The Office of Continuing Education and External Programs (CEEP) provides high-quality continuing education and lifelong learning opportunities for professional development, personal enrichment, career transitions, and academic growth. The Continuing Education and External Programs unit helps to fulfill the University's outreach mission and facilitates access to an outstanding education for a diverse community of adult learners within Maryland, Asia, and Europe by utilizing delivery systems and technologies that expand access.

Continuing education forms new linkages with the community by serving audiences that are not currently served by the university and by adding new services to the community that the university is already serving. By so doing, the university strives to maintain a mix of private public service activities that meet the needs of individuals and organizations. Through internal partnerships with academic departments and administrative offices of the University, the Continuing Education and External Programs unit offers non-credit programs, off-campus credit courses, contract programs, and on-site demand training, both as a continuing education initiative and in response to expressed needs and demand. The University's undergraduate and graduate course offerings provide many opportunities for professional and personal growth, including traditional and non-traditional courses both on- and off-campus. In addition to the regular semesters on the main campus and the overseas sites in Asia and Europe, students may earn credits in the MINI-SEMESTER and in SUMMER school. The Portfolio

Program provides the opportunity for students to earn college credit for their life experiences. Continuing education units (CEUs) may be earned through workshops and conferences.

Courses are offered in 16-week sessions, meeting once a week in the evenings, on the weekends, in two concentrated eight-week sessions in the regular academic semester, or in workshop format, both on- and off-campus. The workshops are designed for and geared toward the interest of working adults in industry, government, and social service agencies.

Whether students wish to pursue a degree or a certificate, improve their professional capabilities, or enrich their personal lives, they may choose from among the many offerings of the Continuing Education and External Programs unit.

Additional information may be obtained from the Internet (www.bowiestate.edu), via email (CEEP@bowiestate.edu), or by contacting the Continuing Education and External Programs Office at 301-860-3592.

Off-Campus Sites

Bowie State University responds to the educational needs of employers, working adults, homemakers, military personnel, and senior citizens by offering courses off-campus at various locations throughout the State. These courses are tailored to meet the demands of working adults on-site or near the job in the evening and on weekends, often in time-shortened formats. Course offerings at the centers focus on business administration, education, computer technology, and psychology, with offerings in other areas such as communications, and biology. Center coordinators may be contacted for additional information. Off-Campus Centers and Programs are listed below:

SUMMER Semester

Bowie State University 2012 -2013

Bowie State University's SUMMER School offers a wide variety of courses that provide individuals with the opportunity to accelerate a degree program, explore a special interest, or acquire new skills.

Several SUMMER sessions are offered from June through mid-August. Course offerings are designed to allow continuing students to take general education and major requirements that will enable them to shorten their time-to-degree. Our courses are also available to students from other colleges and universities. Students who have just graduated from high school have an opportunity to get a head start in the University program of their choice. A maximum of seven semester hours, or two courses, may be taken in each session.

Credit courses and workshops are available during the day, in the evenings, and on weekends.

Interested persons should contact Continuing Education and External Programs (301-860-3592; toll free 877-772-6943, x3592) for SUMMER session information.

MINI-SEMESTER

The January MINI-SEMESTER, a three-week session, is designed to give students and faculty the opportunity to explore topics in an intense and focused session. A student may accelerate his/her degree program, explore a special interest, or acquire new skills. Graduate and undergraduate credit and non-credit courses and workshops are available during the day, in the evening, and on weekends. **A maximum of seven semester hours may be taken in the MINI-SEMESTER.**

Interested persons should contact Continuing Education and External Programs at (301-860-3592; toll free 877-772-6943, x3592).

The Portfolio Program (Credit for Life Experience)

Non-traditional undergraduate students who have formally applied to Bowie State University, have been accepted, and have paid the application and acceptance fees may apply for credit for experiential learning through the Portfolio Program. Normally, a student should apply to the Portfolio Program during the **First Semester** of enrollment at the Institution. A portfolio that documents and describes adult learning experiences may be done independently or by participating in a Portfolio Development Seminar following guidelines in the Student Guide to Portfolio Development.

The Portfolio Counselor will assist students in analyzing, evaluating, and identifying those features of their experiential repertoire that may be converted into academic credit. The appropriate academic department makes the credit recommendation to the dean. Upon the dean's approval academic dean, the student will be notified of the decision.

A student may be granted a maximum of 30 undergraduate semester hours through the Portfolio Program. No more than 60 combined semester hours may be awarded to an undergraduate student based on experiential learning and CLEP or USAFI Examinations.

Awarded credits are posted on the student's transcript after he/she has paid tuition and the assessment fee and has forwarded a receipt to the Office of the Registrar. Payment must be made during the semester in which the student is awarded credit.

Contact Continuing Education and External Programs at 301-860-3406; toll free 877-772-6943, x3592 for information.

UNIVERSITY HONORS PROGRAM

Director: Monika E. Gross

MISSION

The University Honors Program is designed to provide a value-added learning experience to academically talented undergraduate students through a series of complementary and coordinated programs. Designed to stimulate students to their fullest potential in academic excellence and leadership, the Program nurtures those students who aspire to become academicians, business men and women, professionals in law and medicine, and public servants.

Academic Components

- Rigorous intellectual challenge in special honors sections.
- Opportunity to earn honors credit by undertaking approved honors projects.
- Notation on the transcript of all honors work.
- Designation on transcript of "Honors Scholar" for completion of 24 honors credits and required community service.

Administrative Component

- Availability of staff members who are familiar with advisement, record keeping, monitoring students' progress, and setting the overall tone of the program.

MILITARY SCIENCE

Chair: Lieutenant Colonel Eartha Govan

MISSION

The Army ROTC Program provides college men and women training and experiences in the art of organizing, motivating, and leading others. This Program develops self-discipline, physical stamina, and personal bearing that contribute to success in any career. The first two years of military training in the Reserve Officer Training Corps are strictly voluntary for any student who is a United States citizen. An individual taking these ROTC courses incurs absolutely no obligation to future military service. These two years comprise the basic course, which is normally completed during the freshman and sophomore years.

Students who decide to pursue a career in Military Science after the completion of the freshman and sophomore years may attend the four-week ROTC Leader Training Course at Fort Knox, Kentucky in lieu of completing the freshman and sophomore ROTC courses.

The four-week Leader Development and Assessment Course at Fort Lewis, Washington is attended during the junior and senior years by those Cadets meeting the necessary qualifications. Upon successful completion of the Leader Development and Assessment Course, Cadets are qualified for commissioning in the Active Army, the Army Reserve, or the Army National Guard provided they complete their final year of Military Science and graduate from the University.

The Army ROTC offers four-, three-, and two-year scholarships. Students selected for scholarships receive a tax free subsistence allowance ranging from \$300-\$500 a month, for up to ten months per school year. Additionally the scholarship will pay \$1200 annually for textbooks, classroom supplies, and equipment. More information may be obtained by contacting the Military Science Department.

Green to Gold

If you are currently on active duty or have completed your service, you may already have fulfilled the requirements for the Basic Course. You may be eligible to enroll directly in the Advance Course and complete ROTC in just two years.

Basic Course Requirements for ROTC Participation

A candidate for ROTC training must:

1. be of good moral character;
2. be a citizen of the United States, however, foreign students may participate;
3. be physically able to participate in the program of instruction;
4. meet other entrance requirements as determined by the department chairperson, current Army regulations, and University policies, and
5. be a full-time student (undergraduate 12 CREDITS or more and graduate 9 credits or more)

A student who does not meet all of the above requirements should consult with the Department of Military Science to determine if waivers can be granted.

Texts and Uniforms

Basic course students do not receive monetary allowances unless on scholarship. The Department furnishes all textbooks and uniforms. Students will be required to reimburse the department/government for loss of uniform items or other equipment.

Advanced Course Requirements

You (Juniors, Seniors, and Graduate Students) must:

1. have a minimum of two years remaining at the University as a full-time student, graduate or undergraduate level;
2. meet all other requirements for the basic course;
3. meet medical requirements for the advanced course;
4. possess qualifications for becoming an effective Army officer;
5. agree to accept a commission if offered, as a U.S. Army, Army Reserve or Army National Guard Officer and serve on active duty if required; and serve four years on active duty if required and
6. meet other requirements as determined by the department chairperson, current Army regulations, and University policies.

A student who does not meet all of the above requirements should consult with the Department of Military Science to determine whether waivers can be granted.

Financial Allowances

Each cadet on scholarship or enrolled in the advanced course receives subsistence pay ranging from \$300-\$500 per month. Books and uniforms are furnished to all Cadets. Cadets are paid a travel allowance to and from the Leadership Development and Assessment Course (LDAC), and while at the LDAC, Cadets are paid approximately \$900.00 per month. The stipend allowance during the regular school year is up to \$5,000.00 per year.

Air Force ROTC

Air Force Reserve Officer Training Corps (AFROTC) is available to Bowie State University students through an agreement with the University of Maryland College Park. AFROTC courses are scheduled so that Bowie State students can complete all AFROTC requirements during one morning per week

(Thursdays) at the College Park campus. In addition, students are eligible to compete for AFROTC scholarships and flying programs. The four-, three-, and two-year scholarships pay tuition, books, fees, and a monthly stipend. After graduation from the University and successful completion of the AFROTC requirements at the University of Maryland College Park, students are commissioned as second lieutenants in the Air Force. Students interested in AROTC may contact:

OFFICE OF MEDIA OPERATIONS

Manager: Chartez Bond

The Office of Media Operations (OMO) provides centralized and coordinated media-based instructional technology support to the University community. The Office has five (5) major functions.

The *Media Center* provides direct classroom instructional support services and a variety of instructional technology equipment and materials as well as training in the use of instructional technology equipment. Media Center personnel also set-up, deliver to, and retrieve instructional technology equipment from classrooms. The Media Operations viewing room has a seating capacity of fifteen (15), is equipped with a 32-inch television, a DVD player, a VHS videocassette recorder, and a computer. The room is available for video screening small class seminars and presentations. Additionally, the Media Center provides transparency production, audio duplication for Foreign Language courses, and lamination services. Requests for services must be made at least 24 hours in advance. Please call 301-860-3900 or come to the Media Center on the lower level of the Library, Suite 080.

Smart Classroom Support: OMO ensures that Smart classrooms equipped with Smart Boards, visual presenters, VCRs, DVDs, LCD projectors, and other instructional technology equipment are operational and maintained. Furthermore, OMO maintains two electronic classrooms located on the lower level of the Library, Suite 080, which are equipped with video cameras, an instructor's computer, microphones, visual presenters, VHS recorders, and Smart boards. These technology-enhanced classrooms are also equipped with the University System of Maryland's Interactive Video Network (IVN), which transmits and receives via Internet protocol distance education programs from other IVN affiliates, and organizations across the country and the world. OMO personnel are responsible for training and assisting instructors and students in the use of Smart classroom equipment in all buildings.

Teleconferencing Services: The Teleconference Center is located in the OMO Suite, Room 080K, and is equipped with the USM IVN system. Teleconferencing services include videoconferencing for professional development and organizational and/or University of Maryland System meetings. Requests must be submitted at least 2 weeks in advance.

Special Event Services: OMO provides technical assistance in the planning and implementation of special events occurring on the Bowie State University campus. Services include providing LCD projectors, public address systems, and videoconferencing.

Instructional Facility Design: OMO personnel serve as consultants in the design of new instructional facilities on the campus of Bowie State University. This service includes design, layout and use of *Bowie State University 2012 -2013*

instructional spaces, as well as the selection of instructional technology equipment for general and specialized classrooms, lecture halls, and auditoriums.

DIVISION OF INFORMATION TECHNOLOGY

Vice President of Information Technology: E. Wayne Rose

The Information and Academic Support Systems provides leadership, support, service, and access to information technology and telecommunication resources in support of higher education, customer support, and public service. Reporting to the President, Our mission is to empower our costumers to dramatically improve their education and business performance by enabling interoperability between diverse technology systems and streamlining their business processes.

The vision of the Information and Academic Support Systems is to support the mission of Bowie State University in the delivery of quality education and services to our students through all facets of their experience before, during, and after their enrollment at the university. The focus is on the basics of improving service quality and to offer cost effective strategic solutions to the ever increasing technology needs of the campus community.

The main objective is to provide student-centric technology support and services to enhance and enrich their chosen field of study as well as teach them how to effectively use information technology in all facets of a student's "preparations" for life.

Other objectives include supporting the students, administration, faculty, and staff for all of their technology needs with efficient and quality customer service. The Information and Academic Support Systems' personnel work as a team to provide quality services and courteous customer service to the campus community. IASS strives to consistently provide optimum service without interruption to the campus community.

The Information and Academic Support Systems consistently maintains and refurbishes the University's infrastructure to secure the information, enhance information access and usage, implement leading edge technologies, and facilitate personnel and student development. General inquiries and requests for assistance should be directed to the Enterprise Support Services Helpdesk at extension 2-HELP (2-4357) on campus, 301-860-4357 or send email to [helpdesk@ bowiestate.edu](mailto:helpdesk@bowiestate.edu) .

Official Communication Email Policy

The University has adopted email as the primary means for sending official communications to students. Academic advisors, faculty, and campus administrative offices use email to convey important information and time-sensitive notices. All enrolled students are provided a University email address. Students are responsible for keeping their email address up to date or for forwarding email to another address. Failure to check email, errors in forwarding email, and returned email due to mailbox full or user unknown situations will not excuse a student from missing announcements or deadlines.

OFFICE OF EQUAL EMPLOYMENT OPPORTUNITY (EEO)

ACADEMIC REGULATIONS AND REQUIREMENTS

Standards of Work Required

Each student at Bowie State University must demonstrate that he/she is making satisfactory academic progress in accordance with University policy. Satisfactory academic progress is determined solely on the basis of grade point average. A cumulative grade point average of at least 2.0 is considered satisfactory.

Amount of Work Required

A student who attempts at least twelve (12) credit hours per semester is considered a fulltime student. Full-time students should expect to spend thirty-five (35) or more hours per week on their college work, in addition to those hours spent in class.

Undergraduate Catalog

Normally, a student should expect to graduate under the catalog in effect at the time he/she is admitted to the University. If it becomes necessary for a department to change its program during a student's matriculation at the University, the student will be expected to meet any new requirements (see *University Catalog Policy Statement*).

A student who interrupts his/her attendance at the University for more than four consecutive semesters can not claim the right to the program of his/her original enrollment at the University.

Registration

Registration occurs during mid-semester of the FALL and SPRING semesters. All currently enrolled students are encouraged to register early. First-time entering students will be encouraged to register immediately following the completion of their orientation and placement tests. The Schedule of Classes lists course offerings for each semester and is available on the Bowie State University Website.

Registration guidelines are as follows:

1. Students must be accepted by the University and continuously enrolled to register.
2. After consulting with a faculty advisor or an academic advising specialist of the necessary courses and course requirements, students must register on-line using Bulldog Connection on the University Website.
3. Students must meet the payment deadline, which is usually in January for the SPRING semester and August for the FALL semester, prior to attending classes. A late registration period is held for students who fail to register early or during orientation; however, a late registration fee is charged.

Schedule Adjustment

The schedule adjustment period is the first five days of classes of each semester. Students must use Bulldog Connection to add, audit, or drop classes. After the official registration and schedule adjustment period is over, students must use Bulldog Connection to withdraw formally from the class by the specified deadline for that semester to avoid receiving an unsatisfactory grade for a registered class. If the student withdraws from the class by the specified deadline for that semester, the grade of "W" will

be recorded on the transcript. A student who drops below twelve (12) semester hours will become a part-time student. The following stipulations apply:

1. Students may add, drop, or change sections of a course before the end of the schedule adjustment period.
2. After the schedule adjustment period, students who withdraw from a class will be given the grade of "W."
3. Failure to drop or withdraw from a class officially will result in a grade of "F."

Adding a Class

Students who are registered may add courses during open enrollment and during the add period. If students wish to add a course that is closed, they may add the course only with the chairperson's approval.

Auditing a Class

Students who wish to participate in selected courses but are not seeking academic credit may opt to enroll on an audit basis. Students must pay tuition and fees for audited courses whether enrolled full-time or part-time.

Dropping a Class

Students who wish to drop a course(s) may do so through Bulldog Connection self-service during open enrollment and during the drop period only. If students drop a course during the drop period, this means that all entries for the course are dropped completely from their transcript. It is students' responsibility to view their schedule on Bulldog Connection and make sure their schedule is correct.

The last day on which courses may be dropped is published in the **Academic Calendar** for each semester/term.

All courses in which students are enrolled after the final drop date will be entered permanently on their academic record.

Course Removal for Non Attendance

A student may submit a petition to remove a non-attended course from their transcript (with verification from the faculty member) no later than the end of the following term.

Class Attendance

All students are required to register officially and pay tuition and fees before attending classes.

Students are expected to attend classes and laboratory experiences, take all examinations, and participate in other learning activities as designated by the instructor. A student may be advised by the instructor to withdraw from a course for excessive absences. Five (5) or more unexcused absences may result in the student's receiving a grade of "F" for the course.

A student who is absent from class because of circumstances beyond his/her control and wishes to obtain an excuse must submit documentation to the Chair of his/her academic school requesting an

official written excuse to be given to the instructor. The student must provide to his/her instructor the written excuse from the Chair.

Course Time Scheduling

Most day classes are offered between 8:00 a.m. and 5:00 p.m. as follows: Monday, Wednesday, and Friday for 50 minutes; Tuesday and Thursday for 75 minutes. Evening classes are usually scheduled from 5:00 p.m. to 7:30 p.m. or 7:35 p.m. to 10:05 p.m. and meet once a week. Additionally, courses may be offered on Saturday and Sunday for longer periods. Off-campus courses may be offered in eight-week sessions meeting twice a week for two and one-half hours or once a week for five hours. Distance learning options are also available via Internet and interactive video. Students should review the *Schedule of Classes* (<http://bulldogconnect.bowiestate.edu/>) published online each semester for more information about specific classes.

Dean's List

Within any given semester, a degree-seeking student who completes twelve (12) or more semester hours in regular, graded courses (excluding grades of "NG," "P," "PS," "S," "U," "W," "CR," and "I") with a semester grade point average of 3.50 or higher will be placed on the **Dean's List**.

Developmental Courses

Credits earned for developmental courses (ENGL 100, MATH 099, READ 100) do not count toward earned credits for graduation, and these credits are non transferable.

Satisfactory Performance

A student whose cumulative grade point average is at least 2.00 will be considered as making satisfactory academic progress at Bowie State University.

Unsatisfactory Performance

Students with a cumulative grade point average of less than 2.00 FALL into one of three categories: warning probation or academic dismissal. Credit hours are earned at Bowie State University with grades of 'A', 'B', 'C', or 'D'.

1. **Academic Warning**
Any student who for the first time, fails to meet the requirement for satisfactory performance will be placed on academic warning.
2. **Probation**
Students whose cumulative grade point average FALLs below 2.00 at the end of a **Second Semester** will be notified in writing to seek counseling and guidance from the Academic Advising Center.
3. **Academic Dismissal**
Students who have incurred a warning and probation will be academically dismissed at the end of any semester if their cumulative grade point average FALLs below 2.00. A student dismissed from the University for poor academic performance must wait a minimum of one year from the date of a dismissal before being eligible to reapply for admission to the University.

4. Suspension

Any student who for the third time fails to meet the requirements for satisfactory performance will be permanently dismissed from the University.

No student transferring to Bowie State University will be academically dismissed at the end of the **First Semester** if his/her cumulative grade point average is 1.00 or higher. After this **First Semester**, the student will be subject to normal standards for academic progress. This provision does not apply to students reinstated or readmitted to Bowie State University.

Withdrawal from the University

Official withdrawal from the University after classes begin and before the end of the semester requires that the student complete an *Application for Withdrawal* and file it with the Office of the Registrar. Additionally, veteran students should consult the Veterans Program Assistant for special regulations.

A student who wishes to withdraw from the University must seek an appointment with his/her Dean as part of the withdrawal process. Students withdrawing must have written clearances from the listed offices.

Failure to officially withdraw from the University will result in grades of "F" for the courses in which the student is enrolled. A student withdrawing from the University after the last day to drop a course may ask to receive a grade of "W."

Return after Withdrawal

Students who withdraw from the University and wish to return must:

1. complete a Readmission Application that can be obtained from the Website (www.bowiestate.edu/Admissions/Undergraduate/) and submit it to the Office of Admissions;
2. submit official transcripts from institutions attended while separated from the University; and
3. receive a readmission or acceptance letter from the University.

Reinstatement

Students applying for reinstatement (readmission) to the University must submit a readmission application and other college transcripts if the student attended another institution while away from Bowie State University. If the student attended another institution and his/her cumulative GPA is below a 2.0, the student will be denied readmission. Credits successfully earned at another institution must be approved by the academic department and the Office of Enrollment before they can be applied to the student's program.

Readmission after Academic Dismissal

1. After one year, a student can reapply to the University, via the Office of Admissions.
2. A student who is academically dismissed can appeal to the University Readmission Appeals Committee.
3. Students must submit a program of study.

Readmission after Social Suspension (refer to *Student Handbook*)

Students who are dismissed as a result of social suspension can apply for readmission at the end of the suspension period, by forwarding a letter to the Judicial Affairs Officer requesting readmission. The Dean of Student Affairs will determine whether or not the suspension must remain in effect for a longer time.

Expulsion from the University

A student who is expelled is ineligible for readmission to the University.

Academic Clemency Policy

Undergraduate students returning to Bowie State University after a separation of a minimum of five calendar years may petition the appropriate dean to have up to sixteen (16) semester hours of previously earned and/or failing grades and credits removed from the calculation of their cumulative grade point average (GPA). These credits may not be used toward graduation requirements. Once grades/credits have been excluded from the cumulative grade point average, they will not be recalculated into the student's grade point average. The petition will be evaluated at mid-semester of the student's **First Semester** of return to the University. The student must follow the procedure outlined below:

1. Students wishing to take advantage of the clemency policy must have been readmitted to the University.
2. The student must petition for clemency during the **First Semester** of his/her re-admittance to the University. The **Academic Clemency Form** may be secured from the Office of the Registrar.
3. The petition should be submitted no later than the end of the first year of the student's return to the University. The petition must be completed and signed by the chairperson and academic dean.
4. Once the Dean has approved or denied the student's request for academic clemency, the decision will be forwarded to the Office of the Registrar for processing.

Student Credit Load

Students usually complete a program of study for the baccalaureate degree in four (4) to six (6) years. To complete most programs in four (4) years, the student must maintain good academic standing and successfully complete 30-36 semester hours each academic year. The minimum requirement for graduation is one hundred and twenty (120) semester hours; some programs such as elementary and early childhood/special education require more, in keeping with NCATE and state standards.

A student's academic credit load is normally fifteen (15) hours per semester. A student may register for a **maximum of two courses** per SUMMER session and for a **maximum of two courses** in the winter MINI-SEMESTER. **Incoming freshmen placed in three developmental courses are restricted to no more than thirteen (13) semester hours during the First Semester of enrollment.** Students are assessed an additional fee for each developmental course.

The minimum semester hour load for a full-time student is twelve (12) semester hours, and the maximum semester load is eighteen (18). Students who are in good academic standing—cumulative GPA of 3.50 or higher based on thirty (30) consecutive quality hours completed at Bowie State University—may pursue up to twenty-one (21) semester hours in a semester with the permission of the Dean of his/her School. Students wishing to enroll in more than twenty-one (21) semester hours must have maintained a cumulative grade point average of 3.75 or higher and demonstrated the ability to

manage the course load sought. Full-time students with semester hours in excess of eighteen (18) will pay the per semester hour rates beyond eighteen (18) semester hours.

Classification of Students

Students are classified according to the following semester hours:

Freshman	0 – 29
Sophomore	0 – 59
Junior	60 – 89
Senior	90+

Course Numbering

All courses are numbered according to the following scheme:

099-100	Developmental (credits not counted toward graduation)
101-199	Primarily for Freshmen
200-299	Primarily for Sophomores
300-399	Primarily for Juniors
400-499	Primarily for Seniors
500 and up	Graduate Courses

Grading System

The following is a description of the criteria used in assigning letter grades:

A	4.0	Superior
B	3.0	Above Average
C	2.0	Average
D	1.0	Below Average
F	0.0	Failure
S	0.0	Satisfactory (Cannot be used for developmental courses.)
U	0.0	Unsatisfactory (A student must repeat any course in which he/she receives a grade of "U.")
I	0.0	Incomplete "I" Grade (A grade of "I" is given by a faculty member when a student is unable to complete required course work because of verifiable medical reasons or documented catastrophic events beyond the control of the student and only with approval of the School Dean. No credit is given for the incomplete grade until the faculty member assigns a regular grade. In any event, the "I" must be converted to a regular grade within six weeks of the start of the following semester. After six weeks, the grade of "I" automatically becomes "F" if the professor does not submit the grade.)
PS	0.0	Pass

Grade Changes

Grade changes, excluding "I" and repeated courses, must be made within one year. The records of all persons who received the bachelor's degree are closed six weeks after the official date of graduation.

Any changes to the permanent record must be made before this date.

Student Grade Appeal Procedures

Students who have documentation that an error was made in the determination of a course grade or desire to appeal a grade due to alleged arbitrary and capricious grading must first discuss the concern with the faculty member involved. If there are unresolved issues, the student may initiate the grade appeal process. The student must direct the appeal in writing, with documentation, through the appropriate channels: Instructor, Department Chair, School Dean, and Provost. If a course assignment grade is in dispute, the student must initiate the appeal no later than ten (10) working days after receiving the grade. If a final grade is in dispute, the student must submit an appeal no later than thirty (30) days from the end of the semester during which the grade was received. Procedures are detailed below.

1. The student must initially consult with the instructor for a satisfactory resolution of the appeal. If the instructor is no longer with the University or if the student is unable to resolve the issue with the instructor, the student must present the complaint in writing to the Department Chair.
2. The Department Chair will convene a Departmental Appeals Committee for resolution. If the student is not satisfied with the decision of the Departmental Appeals Committee, the Chair renders a decision.
3. If the complaint cannot be resolved at the Departmental level, the student must present the complaint in writing to the College Dean within fifteen (15) days after receiving notification of the Department's decision.
4. The College Dean will render a final resolution.

University Policy Regarding Academic Honesty

Students are expected to conform to a strict standard of academic honesty. Cheating on examinations, plagiarism, unauthorized collaboration with others on assignments, submitting without authorization duplicate assignments for credit in more than one course, and improper acknowledgment of sources of material are intolerable offenses that carry serious penalties.

Policy on Plagiarism

1. Plagiarism is the act of representing another's ideas, words, or information as one's own. Every student writing a paper should be aware of the following principles.
 - a. All directly quoted materials must be identified as such by quotation marks. The source(s) of this material must be acknowledged.
 - b. When borrowed ideas or information is not directly quoted by a student, the student should have so assimilated this material that it is indeed being expressed in his/her own words. However, just as in the case of direct quotations, the sources of such borrowed ideas or information must be acknowledged.
2. The sources of ideas or information lying well within the realm of common knowledge (i.e., material that would be known by **anyone** familiar with the subject under discussion) need not be acknowledged.

3. Students guilty of plagiarism are subject to severe penalties, ranging from failure for the assignment to failure in the course or, in extreme cases, dismissal from the University. The instructor, in consultation with the Departmental Chair and the School Dean, shall determine the appropriate sanction to be imposed. Students appealing the imposed sanction must present their appeal in writing to the Provost for a final resolution.

Procedures for Handling Cases of Alleged Infractions of Academic Honesty

1. Faculty members are required to deal directly with any academic infractions. Actions taken must reflect the seriousness of the infractions and could range from a verbal warning, an assigned grade of "F" for the course, academic suspension, to dismissal from the University.
2. In cases where the instructor concludes that the infraction is severe, a recommendation may be made to the Dean for academic suspension or dismissal from the University.
3. The Dean may arrange a hearing with individuals (faculty members from another department and student from the Judicial Board) to evaluate the appeal. The Dean will render a final resolution.

Change of Address, Name, and Social Security Number

Students are expected to notify the Office of the Registrar of any change in their local or permanent addresses by completing the **Change of Personal Data Form**, which is available for download on the University Website. **Students who have a change in name** must notify the Office of the Registrar and provide the appropriate documentation (i.e., marriage license, divorce decree authorizing use of name, or court order). Name changes **can not** be made without the appropriate documentation to support the change.

Students wishing to change social security numbers must submit a valid copy of a social security card and complete the **Change of Personal Data Form**, which is available for download on the University website.

Declaring a Major (Academic Plan)

Students may declare a major (academic plan) on the application for admission, from the various programs listed in this catalog. After being admitted to the University, students must submit a **Declaration of Major/Plan Form** to change a major (academic plan).

The major course of study is the academic plan in which the student seeks the degree. These programs have been approved by the Board of Regents and other regulatory agencies as required for their continued offering.

Students are required to declare a major after two semesters and no later than the FALL of their third semester. The student may not revert to an undeclared status once the major is declared. Transfer students must declare a major no later than the end of the **First Semester** of enrollment at the University.

A **concentration** (sub-plan) is a focused area of study within the student's major that is formally recognized by the University and will appear on the student's transcript.

A **track** (sub-plan) is a focused area of study within a student's major. Although formally recognized by the University, it will not appear on the student's academic records.

Double Majors

A double major requires the completion of all requirements for each of two majors. A student who wishes to complete a second major simultaneously with his/her primary major of record must obtain written permission in advance from the appropriate departments or programs and colleges. General education courses taken for one major may be counted, as appropriate, for the primary and secondary majors.

Changing a Major

Students wishing to change majors or change from undeclared status to a major must adhere to the following procedure:

1. Obtain a **Declaration of Major Form** from the Office of the Registrar.
2. Meet with the chair of the department from which you plan to change for an exit signature.
3. Meet with the chairperson of the new department to obtain permission. If the change is granted, the chair will assign the student a new advisor.
4. Return the **Declaration of Major Form** to the Office of the Registrar for processing.
5. Students will be required to meet graduation requirements under the catalog in effect at the time he/she requests the change.

When there has been a discontinuation of a major, students have one year in which they can be grandfathered in under the old major and must complete their current major requirement within that one-year timeframe.

Non-Degree Seeking Students

Non-degree seeking students will not be allowed to complete more than thirty (30) semester hours without approval from the Director for Continuing Education and External Programs.

Students who have been denied admission to Bowie State University **will not** be permitted to attend as non-degree students.

Concurrent Undergraduate-Graduate Registration

Students enrolled in their last semester of study at Bowie State University may register for graduate level courses but must meet the following requirements and adhere to the following process.

The student must:

1. Have a 3.0 or higher GPA;
2. Have passed the Bowie State University **English Proficiency Examination**;
3. Have completed a hundred and five (105) credits which count toward graduation;
4. Be making satisfactory progress in his/her major;
5. Secure permission from his/her Department Chair;
6. File an application for conditional admission into the graduate program; and
7. Register for no more than six (6) semester hours.

The student must be granted regular admission to the Graduate School before initiating further course work.

Courses Taken at Other Institutions

Students who wish to take courses at other institutions at anytime while attending Bowie State University must complete the **Permission to Enroll at Another Institution Form**. The **Permission Form** must be signed by the Department Chair and Dean of the School in which the student expects to earn a degree and submitted to the Office of the Registrar **prior to the student's enrollment at another institution**. Students are also **required** to:

1. Be in good academic standing (2.00 or better).
2. Have fewer than sixty-four (64) earned semester hours.
3. Be enrolled in course(s) at a university/college that offers equivalent level (100, 200, 300, etc.) courses to those offered at Bowie State. (Credits earned in developmental courses are not transferable to Bowie State University.)

Students who have earned sixty-five (65) or more total semester hours (including any transfer credits) may **not** take courses at any community college for the purpose of transferring the credits earned there toward a degree from Bowie State University. If permission is granted in advance by the Chair of the Department and processed by the Office of the Registrar, students may take courses at any accredited four-year institution for the purpose of transfer providing that the total number of transfer credits does not exceed ninety (90).

Students may **not** take courses at other institutions if they are within the last thirty (30) semester hours required for a degree.

Credit will be awarded only for those courses in which the student **earns a grade of "C" or better**. The grade or quality points earned are not posted on the student's academic record at Bowie State University nor is the grade included in the calculation of the student's grade point average. The student is responsible for requesting that an official transcript be sent to the Office of Registrar for any course approved and taken at another institution.

Course work in which grades of "D" or "F" earned at Bowie State University may **not** be repeated at other institutions.

USM Concurrent Inter-Institutional Registration Program

University undergraduate students participating in the Concurrent Inter-Institutional Registration Program should obtain permission from their Dean. Course work counts as resident credit. Students participating in this program must be enrolled full time in a degree program at Bowie State University, for the semester in which these courses are taken. **It is not recommended that students take inter-institutional courses in their final semester.**

ADDITIONAL MEANS OF EARNING CREDIT

Credit for Service in the Armed Forces

Credits may be awarded for educational experience in the Armed Services as recommended in the American Council on Education's Guide and approved by the University. Veterans and military personnel must be formally admitted to the University and must submit a copy of the *Veteran's Report of Separation* (DD 214 Form) to both the Registrar's Office and the Admissions Office. Training completed through formal service schools (DD 295) and *Defense Activity for Non-Traditional Education Support* (DANTES) may be submitted for consideration. Official transcripts are required. Credits will be granted for course work that pertains to a student's major.

Transfer Credits

Credits toward a degree will be accepted from only accredited collegiate level institutions for courses that are equivalent to those offered at Bowie State University. After the student has been approved for admission as an undergraduate, the Admissions Office, in conjunction with the chair of the appropriate academic department or designee, will evaluate credits for university-wide use. Transferable credits applicable to the program of study will count toward graduation, **but only credits earned at Bowie State University will be used to compute the GPA for graduation.** Grades of "D" from institutions outside the State of Maryland are not transferable to Bowie State University. "D" grades are transferable to Bowie State University from accredited Maryland institutions, **with the exception of** courses in the student's major.

Course work in which a grade of "D" or "F" has been earned at Bowie State University **may not** be repeated or transferred from other institutions.

Advanced Placement Credit

Bowie State University will award advanced standing to entering freshmen on the basis of Advanced Placement Examination results. Scores of 3 to 5 will be awarded appropriate credit.

Students must submit official copies of the AP Examination scores to the Office of Admissions. Credits will be awarded according to the following chart:

DEPT	SUBJECT	SCORE	CREDITS	RELATED COURSE(S)

CLEP Examinations

The University recognizes that many experiences relevant to a student's education occur in places other than the traditional classroom setting. Students may receive advanced credits through the College-Level Examination Program (CLEP) administered for the College Entrance Examination Board by Educational Testing Service (ETS).

Scores earned must be in or at the 50th percentile for awarding credit. The following conditions apply.

1. Students must be admitted and have matriculated at the University for one semester before credit is posted;
2. Students cannot use CLEP credits as part of the final 30 semester hours, and the final 30 semester hours must be taken in residence;
3. To receive credit, the CLEP test must have been taken at a nationally recognized CLEP Test Center approved by ETS; and
4. An official score report must be forwarded to the Office of Admissions for evaluation.
5. If a course was failed students are not eligible to take that CLEP course examination.

CLEP examinations posted on transcripts from other institutions will be accepted if the examination has been approved by Bowie State University and the scores reported are equal to or higher than those required by the Institution. It is the responsibility of the student to request that the Educational Testing Service forward a copy of the official score report to the Office of Admissions.

If a student has a question about a test item, his/her score report, or any other aspect of a CLEP examination that his/her test center cannot answer, write to: CLEP, PO Box 6600, Princeton, NJ 08541-6600 or visit <http://www.collegeboard.org>.

Bowie State University awards credits for **CLEP Examinations** as indicated in the following chart:

Credit by Examination – Challenge Examination

Students wishing to gain credit by demonstrating their prior mastery of the content of a course, must pass a “challenge examination.” Challenge examinations are prepared and graded by the academic department responsible for the course for which the credit is being requested. If a passing score is obtained, credit is awarded, but no grade is assigned. Credit is designated on the student’s transcript as

“CR.” Students must contact the chair of the department responsible for courses for which they are seeking credit. The following conditions apply:

1. Students must be admitted and matriculating at the University;
2. Students must register and pay for the course prior to the end of the Add/Drop period.
3. Credit by examination courses cannot be used as a basis for removing incomplete grades and withdrawals or as a basis for changing grades; and
4. No examination may be attempted more than once.

GRADUATION AND DEGREE REQUIREMENTS

The graduation ceremony at Bowie State University is held at the end of the FALL and SPRING semester. Bowie State University awards the Bachelor of Arts and Bachelor of Science degrees. *The degrees are conferred and noted on the academic transcript at the end of the FALL and SPRING semesters and at the end of the SUMMER session.*

All undergraduate records are closed no later than six weeks after the official date of graduation. **There will be no changes made on the permanent academic records after this date.**

Graduation Application

Students expecting to complete graduation requirements by the end of the FALL, SPRING, or SUMMER session, must complete the **online Graduation Application** by the published deadline date located in the Schedule of Classes each semester.

Degree Requirements

Degree requirements vary according to the major content area completed in an academic discipline. The academic departments are responsible for establishing and disseminating clearly defined degree requirements. Specific degree requirements are described in this catalog under each academic department. For example, national examinations may be required by various departments as a part of assessment and are, therefore, required for graduation. Students should refer to that section of the catalog that deals with programs of study.

The Office of the Registrar maintains the official record of all students enrolled in the University. *Each student is responsible for working with an assigned advisor in the major department to ensure that the courses being completed meet the departmental requirements.* All students should maintain their own personal academic files, which should include copies of all grades, documents, and materials that are related to the degree. **Only students academically and financially cleared are allowed to participate in the graduation ceremony.**

A student who satisfactorily meets the following requirements will receive a Bachelor of Science or a Bachelor of Arts degree. Requirements for the Bachelor of Arts degree include 12 semester hours of a foreign language. **All undergraduate records are closed no later than six weeks after the official date of graduation. There will be no changes made on the permanent academic records after this date.**

1. **Residency Requirement** - Students matriculating at Bowie State University must complete the final thirty (30) semester hours in residence (courses taken at Bowie State University or at one of the University System of Maryland schools, with permission) in partial fulfillment of graduation requirements. Credits received for CLEP, portfolio, military, or transfer credits may not be used to fulfill the residency requirement.

2. **Credit Requirements** - The minimum requirement for graduation is 120 semester hours, which must include at least thirty-two (32) semester hours of upper-level course work.
3. **Successful Completion of a Major** - All students must earn a grade of “C” or better in the major content area courses and in other courses defined as an integral part of the major.
4. **Cumulative Grade Point Average (GPA)** - All students must have a cumulative grade point average of 2.00 or higher to graduate. The GPA is computed by using only courses taken at Bowie State University.
5. **Credit in All Required General Education Courses** - All students must successfully complete the general education requirements as specified. Students must earn a grade of “C” or better in Expository Writing (ENGL 101), and Argument and Research (ENGL 102).
6. **Outcomes Assessment Examinations** - All students must demonstrate achievement of knowledge related to the major content area. The required standard or assessment is defined by the department and the major. Failure to achieve expected outcomes may delay graduation (see requirements under programs of study).
7. **Bowie State University English Proficiency Examination** - The **English Proficiency Examination** is required for graduation and must be taken upon completion of Expository Writing (ENGL 101) and Argument and Research (ENGL 102). Transfer students who completed their English composition requirements at another university must take the **English Proficiency Examination** during their **First Semester** of enrollment at Bowie State University.

Graduation with Honors

Graduation with honors is a tribute that recognizes academic achievement. If a student’s overall cumulative GPA is 3.5 or higher but less than 3.65, a student graduates with the distinction of Cum Laude; 3.65 or higher but less than 3.85, Magna Cum Laude; and 3.85 or higher, Summa Cum Laude. At least thirty (30) semester hours must be earned in upper level courses (300-400) with grades of “C” or better.

A native student’s cumulative GPA for graduation with honors is based on all college work at Bowie State University. A transfer student who has earned at least 60 semester hours at Bowie State must have a 3.5 or higher GPA for work completed at the University and at other colleges and universities.

Honors status at graduation applies only to students who are seeking their first degree.

Honors will consist of the following cumulative grade point averages:

3.85 - 4.00	Summa Cum Laude
3.65 - 3.84	Magna Cum Laude
3.50 - 3.64	Cum Laude

Academic Recognition

A transfer student who has earned 30-59 semester hours at Bowie State University and has a GPA of 3.5 or above at Bowie State and at other colleges and universities will graduate with academic recognition. Graduation with Academic Recognition will appear on the student’s transcript.

Transcripts

Students are not charged for transcripts. However, an express fee of \$10.00 (official and unofficial) will be charged for “while-you-wait” transcripts (maximum of three). “While-you-wait” service is available on Wednesdays from 8:00 a.m. to 6:30 p.m.

Student Records

The University maintains students' educational records in accordance with the *Family Educational Rights and Privacy Act of 1974* as amended (Buckley Amendment). Records of students are not released without their consent, except for that information that the institution classifies as Public Directory Information.

Public Directory Information may be given to any inquirer. Bowie State University designates the following as Public Directory Information: Student's name, address, telephone listing, major field of study, date of birth, participation in officially recognized activities and sports, weight, and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent and/or previous educational agency or institution attended.

Students who wish to withhold the release of any of this information must submit a written request to the Office of the Registrar. Unless under legal compulsion, all information (not identified as directory information) regarding students' records shall be denied.

Family Educational Rights and Privacy Act of 1974

The Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, sets forth requirements regarding the privacy of student records. FERPA governs:

- The release of these records (known as education records) maintained by an educational institution and
- Access to these records. This law applies to K-12 as well as postsecondary education.

Students have three primary rights under FERPA. They have the right to:

- Inspect and review their education records
- Have some control over the disclosure of information from their education records.
- Seek to amend incorrect education records.

In addition, students have the right to file a complaint with the U.S. Department of Education if they believe one of their primary rights have been violated.

Institutions must annually notify students currently in attendance of their rights by means that are likely to be read by students. The most common examples are in the student handbook, catalog, or student newspaper. This notice also applies to any student pursuing education via distance education or any other non-traditional educational delivery process.

Institutions may not disclose information contained in education records with the student's written consent except under conditions specified in the Act. An institution is not required to disclose information from a student's education records to the parents of dependent students but may exercise its discretion to do so. It is the responsibility of an institution to ensure that information is not improperly disclosed to the parents of the students.

FERPA applies to the education records of persons who are, or have been, in attendance in postsecondary institutions, including students in cooperative and correspondence study programs and in any non-traditional education delivery process, such as distance learning.

GENERAL EDUCATION AND INSTITUTIONAL REQUIREMENTS

The GEIR (General Education and Institutional Requirements) is structured to provide a coherent, integrated liberal arts education to a diverse population. The purpose of the GEIR is to assist students in developing their personal capabilities in such a way as to reach the highest level of personal achievement and to make their maximum contribution to society. A flexible program of general courses and major requirements is designed to enable students to acquire a broad general education and competence in a field of concentration. In particular, the general education program aims to:

1. teach students the skills needed for writing, speaking, reading, and critical thinking;
2. develop students' knowledge bases in the natural sciences, social sciences, and humanities as a background for understanding the problems facing them as human beings;
3. teach students how to apply their skills and knowledge so that they can find, evaluate, and use the vast amount of available information;
4. develop a historical consciousness and an appreciation for the arts;
5. discern and evaluate the values that shape responsible members of society;
6. develop an interest in lifetime wellness; and
7. teach students to become independent, lifelong learners.

This Program will provide a sound basis for skills required in all majors, as well as the analytical skills and the cultural and intercultural awareness required of all college-educated individuals. Recognizing that many students, particularly in their early years in college, are undecided about their career choices, the general education program will further increase their awareness of career opportunities available to them and help them to make decisions in their best interests.

The GEIR is developed in conformance with the guidelines of the University System of Maryland (USM) and the Maryland Higher Education Commission (MHEC). Because of an ongoing evaluation by the University, USM, and MHEC, changes may occur in the general education requirements. Every attempt will be made to notify the student when these changes occur. However, "the General Education Program a student takes at one public college or university will transfer without further review to another public institution without the need for a course-to-course match. That is, courses defined as general education by one institution will transfer as general education even if the receiving institution does not offer that specific course or has not designated that course as general education." This policy applies to State of Maryland institution as stated in the COMAR General Education Standards for General Education courses.

Departments may select and recommend to the Schools' and University Curriculum Committees additional courses for approval as general education requirements.

PROGRAMS OF STUDY

COLLEGE OF ARTS AND SCIENCES

Dean: George Acquah

The College of Arts and Sciences was formally created in 1995. It is composed of seven academic departments: Communications, Computer Science, English and Modern Languages, Fine and Performing Arts, History and Government, Mathematics, and Natural Sciences. In addition, the Department of Military Science (ROTC) is housed in the College of Arts and Sciences. Faculty members in the College are continuously engaged in a variety of scholarly and creative activities. The undergraduate Computer Science program is accredited by the Computing Accreditation Commission of ABET.

MISSION

The College of Arts and Sciences provides the liberal arts and sciences foundation for all undergraduate programs. Taught by a community of scholars, students learn to examine their world, appreciate their culture, better understand themselves, and prepare for graduate and professional school and the workforce.

VISION

The College will be recognized for innovative pedagogical and disciplined-based research. Its dynamic and inspiring faculty-scholars will produce a cadre of creative, competent, productive, lifelong learners.

GOALS

1. Improve student recruitment in all Arts and Sciences degree areas
2. Increase retention and graduation rates of students in selected disciplines
3. Increase the number of undergraduate and graduate programs that meet the needs of state region, and the nation
4. Conduct five-year assessments of increase of all Arts and Sciences programs
5. Increase the number of proposals submitted to funding agencies

DEPARTMENT OF COMMUNICATIONS

Chair: Pamela O'Brien

Associate Professors: Otis Thomas

Assistant Professors: Adrian Krishnasamy Kehbuma Langmia Pamela O'Brien

Instructors: Rochelle R. Daniel

Lecturers: Shirelle Briscoe, Marie A. Brown, Dwight Ellis, Karima Haynes

MISSION

Bowie State University's Department of Communications' mission is to educate, mentor, and prepare students of diverse cultural backgrounds for successful careers in traditional and new media fields, including broadcast journalism, public relations, print journalism, emerging media, and graduate studies in organizational communications. We enhance students' analytical and critical thinking skills, leadership abilities, and oral and written communications skills that are mandatory in order to meet the challenges of a global society. The Department extends its mission to the entire student population through its oral communications and public speaking courses as part of Bowie State University's general education requirements.

The Department of Communications draws upon the rich history of Historically Black Colleges and Universities (HBCU) to foster minority contributions in professional communications. Our faculty members have professional experience in communications and are engaged in cutting edge, innovative and scholarly research that enhances their teaching in the classroom.

Bowie State University is strategically positioned in the Washington-Baltimore corridor, which allows the Department to draw upon a rich resource of professional and academic expertise. We engage students by providing opportunities for them to achieve the highest level of excellence in professional communications.

DESCRIPTION OF THE DEPARTMENT

The Department curricula lead to a BA/BS degree in communications with concentrations in Broadcast Journalism, Emerging Media, Print Journalism, and Public Relations. Majors must earn a grade of "C" or better in all required communications courses, as well as all courses in the student's chosen minor. Students who wish to earn a BA degree are required to complete 12 semester hours in a foreign language in addition to other requirements. To earn a degree in communications, the student must successfully complete a minimum of 120 semester hours.

Undergraduate programs within the Department prepare students for entry into the communications professions and for subsequent graduate or advanced study. After completing ENGL 101 and ENGL 102, Composition and Literature I and II, students must take and successfully pass the Bowie State University *English Proficiency Examination*. Transfer students who completed their English composition requirements at another university must take the *English Proficiency Examination* during their **First Semester** of enrollment at the University.

GOALS

1. To provide education in the various fields of communications that will produce graduates capable of assuming leadership roles in their respective fields of study
2. To produce well-informed individuals who are able to cope with rapid social and technological changes within our society and to access information, evaluate it critically, and codify it into effective messages for various audiences
3. To provide continuing education for professional development and personal enrichment of practicing professionals
4. To provide an education that will prepare students to seek additional graduate learning or certification in professional communications

CONCENTRATIONS

BROADCAST JOURNALISM

The Broadcast Journalism program provides students with the education and skills needed to pursue a career in a state-of-the-art broadcast news and digital production industry. This entails broadcast news writing and announcing, as well as working with television cameras, producing, and directing television and/or radio news programs. Students will have the opportunity to be involved in producing television programs for BSU-TV and radio programs for WBSU.

EMERGING MEDIA

The Emerging Media program provides students with the skills required to pursue careers in content programming, sales, advertising, and administration within both traditional and emerging technology industries. Due to the increasing convergence within the media, managers need to have a fundamental understanding of how all aspects of media organizations function (from planning to production to distribution to evaluation). In addition, a program of sound business fundamentals will be provided to accompany core media classes.

PUBLIC RELATIONS

The Public Relations Concentration provides the student with the education and skill to help organizations build goodwill and long-term relationships with their publics. The student will learn to manage organizational crisis, how to write effective press releases, and build long-lasting organizational relationships with the community.

DEPARTMENT OF COMPUTER SCIENCE		
MAJOR	CONCENTRATION	DEGREE OFFERED
COMPUTER SCIENCE		BS
COMPUTER TECHNOLOGY		BS

Chair: Lethia Jackson

Professors: Seonho Choi, Joan Langdon, Manohar Mareboyana, Sadanand Srivastava

Professor Emeritus: Manjit Bhatia

Associate Professors: Hoda El-Sayed, James Gil de Lamadrid, Lethia Jackson, Darsana Josyula, Claude Turner, Jie Yan

Assistant Professors: Quincy Brown, Joseph Gomes, Patricia Hughes, Soo-Yeon Ji,, Sharad Sharma, Daryl Stone, Bo Yang

Lecturers: Velma Latson, Clarence Ray

Staff: Carolyn Clark, Administrative Assistant
Haydar Teymourlouei, System Administrator

MISSION

The mission of the Computer Science Department is to serve the educational needs of the Baltimore-Washington area community in general and the Southern Maryland region in particular, by offering its citizens opportunities to seek and complete high quality education in fields related to the science and application of computer and information technology.

GOALS

1. To prepare new generations of computer and information technology professionals, arming them with the quality education necessary for them to excel in the development and/or application of computing technology.
2. To provide an academically rigorous environment by exposing students to outstanding teaching and quality programs and by offering enriching experiences that help students to develop intellectually and professionally.
3. To support the University's historic commitment to the African American community through programs that promote minority enrollment in computer science/computer technology.
4. To provide high quality education for computer science/computer technology students by promoting:
 - quality instruction to prepare students for a career or further studies in computer

- science/computer technology;
 - the attitudes and discipline of professionalism in computer science/computer technology; and
 - high academic standards and performance through student-faculty interaction and support.
5. To assist the University community in achieving excellence in computer and information technology and to ensure that all students learn to utilize computing resources in their disciplines of study.
 6. To constantly update the curriculum and upgrade the computer laboratories incorporating new developments in this dynamic field.
 7. To establish and support cooperative linkages with local governmental, business and educational institutions in order to:
 - provide students with practical experiences, SUMMER opportunities, and future career options;
 - permit joint research projects; and
 - serve the community-at-large.
 8. To continue to expand research and development activities and thereby providing students and faculty opportunities for solving problems of interest to the scientific community and the society-at-large.

ASSISTANTSHIPS AND FINANCIAL ASSISTANCE

The Department of Computer Science recognizes the high cost of education today and makes every effort to offer financial assistance to qualified students through a variety of programs. For further information, please contact the Department directly.

STUDENT ACTIVITIES

Students are invited to take advantage of the student activity program, which is an integral part of their educational experience at Bowie State University.

A wide variety of educational, social, cultural, and recreational events is provided, particularly through the Bowie State Computer Technology Club. The Bowie State Computer Technology Club (BSU-CTC) is a student chapter of the Association for Computer Machinery (ACM), an international professional organization. The BSU-CTC is a network of students helping other students pursue their computer science education. Its activities include tutorial workshops, Internet services, field trips, dissemination of information on employment, graduate studies, fellowships, scholarships, etc., and programming contests. All students are invited to become members of this fast growing club.

BACHELOR OF SCIENCE IN COMPUTER SCIENCE PROGRAM

The Computer Science Program is accredited by the Computing Accreditation Commission <http://www.abet.org>.

Educational Objectives

The Bachelor's Degree recipients of the Computer Science Program

- (1) Will apply theoretical principles and practical tools and techniques in computing to solve real-world problems.

- (2) Will communicate effectively orally and in writing, as an individual and as a member of a team.
- (3) Will become professionally employed and/or enrolled in advanced graduate studies in Computer Science or a related area.

Upon completion of at least 58 credits of required and elective courses in Computer Science, 14 credits of required courses in Mathematics, 14 credits of required Science courses, and additional University requirements, a student will be awarded the B.S. degree in Computer Science. Elective courses give students the opportunity to investigate topical areas of special interest. Cooperative education programs are also available to our students. The total number of credits required for an undergraduate degree in Computer Science is 120. All students must take and pass the Bowie State University *English Proficiency Examination*.

Program Outcomes

Graduates of the Computer Science Program will, by the time of graduation, have the following knowledge, abilities, and appreciation of professional standards.

- (1) Knowledge of mathematical and scientific foundations, algorithms, programming languages and computer science theory, and the ability to apply this knowledge to analyze a problem, define computing requirements for its solution, and design a practical solution.
- (2) Knowledge of computer hardware architecture and software systems, and the ability to use development principles in the design, implementation and evaluation of software to meet specifications of varying complexity.
- (3) The ability to perform effectively to solve a problem as a member of a team.
- (4) Knowledge and appreciation of professional standards and ethical, legal, security and societal issues in computing, with the ability to analyze the impact of computing practices on society.
- (5) The ability to communicate effectively, orally and in writing.
- (6) Recognition of the need to pursue life-long professional development, and an ability to update practices and skills to remain current in computing.

MATH	226	Calculus II	4
MATH	228	Linear Algebra	3
MATH	240	Probability and Statistics	3

IV. REQUIRED COURSES IN NATURAL LABORATORY SCIENCES (14 semester hours)

Fourteen credits of Science to include:

- a. Ten credits of Physics as follows: PHYS 271, and PHYS 272 including labs
and
- b. Four credits of Chemistry (CHEM 107 including its lab or higher level) **or** Biology 102 or higher level biology course for Biology majors.

V. REQUIRED ENGLISH COURSE (3 semester hours)

ENGL	362	Advanced Technical Writing II	3
------	-----	-------------------------------	---

NOTE: Computer science majors must earn a grade of “C” or better in each course in areas I through V above.

Social Sciences (6 semester hours)

HIST	114	African American History or	3
HIST	115	African American History	3
_____	_____	Social Sciences Elective	3

Choose from designated General Education courses in anthropology, economics, geography, political science, psychology, social work, sociology, or interdisciplinary social science. (The Social Sciences Elective must be in a discipline other than HIST.)

NOTE: **Science** (7-8 semester hours), **Mathematics** (3 semester hours), and **Technology** (3 semester hours) General Education Requirements are satisfied by required courses in areas I through IV.

Free General Education Electives (9 semester hours)

Choose, with Departmental advisement, from designated General Education courses in any category. Usually, a course in area I (**Technology** category) and courses in area IV (**Science** category) fulfill this requirement.

Note: The Department reserves the right to specify suitable General Education courses, in keeping with COMAR, for its majors.

VII. INSTITUTIONAL REQUIREMENTS (6 semester hours)

Freshman Seminar (3 semester hours)

FRSE	101	Freshman Seminar	3

MINOR IN COMPUTER SCIENCE

A minor in Computer Science can be obtained by completing 28 credits in computer science (with a grade of 'C' or better in each of the attempted courses). These courses must include COSC 112, 113, 208, 214, 254 and 9 additional credits in computer science courses at the 200 level or above. The student is required to satisfy the prerequisite for each course attempted.

SECOND DEGREE: BACHELOR OF SCIENCE IN COMPUTER SCIENCE

(For holders of a bachelor's degree in other fields)

A person who wishes to obtain a Bachelor of Science in Computer Science and already holds a Bachelor's degree in another field is permitted to count toward the new degree any completed courses that can be used to satisfy requirements such as general education. Any person interested in this opportunity should make an appointment with a computer science advisor to discuss his/her case in detail.

BACHELOR OF SCIENCE IN COMPUTER TECHNOLOGY PROGRAM

The Bachelor of Science in Computer Technology Program is for the student whose primary interest is in applying computing technology to create real-world Information Technology (IT) systems. Graduates of the Program will be prepared to combine their knowledge of current computer tools and technologies and their expertise in effective communication within field settings.

Upon completion of at least 64 credits of required and elective courses in Computer Technology and Computer Science, 17 credits of required courses in Mathematics, English and Sciences, and additional University requirements, a student will be awarded the B.S. degree in Computer Technology. Elective courses give students the opportunity to pursue advanced courses in areas of IT. Cooperative education programs are also available to our students. The total number of credits required for an undergraduate degree in Computer Technology is 120. All students must take and pass the Bowie State University English Proficiency Examination.

Program Outcomes

Graduates of the Computer Technology Program will, by the time of graduation, have the following knowledge, abilities, and appreciation of professional standards.

(1) Students will demonstrate knowledge of mathematical, scientific and programming foundations, current concepts and practices in core information technologies, and the ability to apply this knowledge to analyze a problem, define computing requirements for its solution, integrate best practices and standards and their application, and design a practical solution.

(2) Students will demonstrate knowledge of computer hardware architectures and software systems, and the ability to use development principles to analyze user needs; design, select, create and integrate into the user environment a computer-based system; and evaluate and administer the solution.

(3) Students will demonstrate the ability to perform effectively to solve a problem as a member of a team.

(4) Students will examine the need for professional standards and evaluate ethical, legal, security and societal issues in computing, with the ability to analyze the impact of computing practices on society.

(5) Students will construct, organize and formulate effective communication, orally and in writing.

(6) Students will recognize the need to pursue life-long professional development, and demonstrate an ability to update practices and skills to remain current in computing.

The remaining credits needed to make the total at least 120 should be chosen by the student in consultation with his/her advisor.

MINOR IN COMPUTER TECHNOLOGY

A minor in Computer Technology can be obtained by completing the 34 semester hours listed as CORE COMPUTER SCIENCE/TECHNOLOGY COURSES (with a grade of “C” or better in each of the attempted course). Students are required to satisfy the prerequisites for each course.

THE “2 + 2” COMPUTER TECHNOLOGY PROGRAM

The Department offers a program for holders of an associate degree; this program leads to a Bachelor of Science in Computer Technology. The student entering this program will have completed the core requirements of a computer technology program and some general education credits at a community college or junior college. The student must complete the remaining general education and institutional requirements, upper division courses and elective courses at Bowie State University.

ADMISSION TO THE PROGRAM

A student will be admitted to this program if he or she has:

1. An associate degree in computer technology or closely related area and

2. A cumulative grade point average of at least 2.5 (on a scale of 4).

Note: A student with an Associate Degree in an area other than Computer Technology may be admitted to the program upon successful completion of selected computer science and technology courses that will be determined by the Department.

GRADUATION REQUIREMENTS

1. Completion of at least 120 semester credit hours of which at least 60 credit hours must be completed at Bowie State University.
2. Completion of at least 24 semester credit hours of computer science technology requirements at Bowie State University.
3. Completion of the general education and institutional requirements of Bowie State University.
4. Successful completion of the *English Proficiency Examination*. Meeting all other relevant graduation requirements as specified in the University catalog.

PROCEDURE

To pursue this program, the student will meet with the 2+2 Program Coordinator to draw up a Program of Study, which lists the courses to be taken to satisfy the program requirements. The selection of courses will be made based on the courses already completed. The 2+2 Program Coordinator will advise each student individually.

DEPARTMENT OF ENGLISH AND MODERN LANGUAGES		
MAJOR	CONCENTRATIONS	DEGREE OFFERED
ENGLISH	Creative Writing Language and Literature Secondary Education	BA BS

Chair: David Basena

Professors: Brenda Do Harris, Richard Sterling
Associate Professors: David Basena, Gerri Bates, Monika Gross, Mary A. Harris, David Kaloustian, Monifa Love, C. Jenise Williamson

Assistant Professors: Monique Akassi , Hoke Glover, Kwaku Sidney Walker

Lecturers: Angela Chamblee, Adam Fischer , Vivian Jackson, Tanya McInnis, Valerie S. Prince, Kala Richardson, Rion A. Scott, Nicole Wilson

MISSION

The Department of English and Modern Languages supports the University's goals and priorities by creating an environment of academic excellence that will enable our students to develop critical thinking skills and comprehensive knowledge bases. Completing a degree in English at Bowie State University will enable them to become engaged, productive citizens in the academic or professional world. Moreover, the Department is committed to developing curricula, utilizing technology and enhancing library resources to assist students to become proficient in communicating, teaching English and modern languages, researching and analyzing literature and modern languages, and performing successfully on local and national exit examinations.

GOALS

1. To facilitate access by offering transitional courses in reading and English.
2. To use technology, as appropriate, to enhance learning in all disciplines within the Department.
3. To ensure that the curriculum addresses diversity in its broadest sense.
4. To enhance the majors' and minors' literary and cultural exposure beyond the classroom.
5. To maintain a creative learning environment by encouraging faculty development.
6. To offer innovative programs in literature, world languages, and writing.
7. To produce majors who are fully prepared for the job market and/or to pursue graduate study.
8. To forge connections between the departmental faculty, other academic departments, and the community.
9. To seek external funding for curriculum development, pedagogical research, and faculty development.
10. To assist the University in increasing its retention and graduation rates.

DESCRIPTION OF THE DEPARTMENT

The Department offers the Bachelor of Arts (BA) with concentrations in Creative Writing and Language and Literature and a track in Africana Literature, and the Bachelor of Science (BS) in Secondary Education. It also offers six minors: Creative Writing, Literature, Literature of the African Diaspora, French, Spanish, and Hispanic Culture. Students seeking teacher certification, via the BS degree, must apply for admission into the Department of Teaching, Learning, and Professional Development

To receive a BA degree or a BS degree in English, the student must successfully complete at least 120 semester hours. Entering students must officially declare English as a major, and students who change their major after having begun matriculation at the University must submit a *Declaration of Major/Program Form*. All students who declare English as a major will be evaluated (1) after the completion of, Introduction to Literature (ENGL 236), the introductory course to the major, and (2) periodically throughout their matriculation at the University

Students who pursue a major or a minor in English must earn a grade of "C" or above in all English language and literature courses. In addition **all students taking English 100, 101, or 102 and Reading 100 or 101 must earn a "C" or higher**. All students who minor in a modern language or who take modern language courses to meet discipline requirements must earn a grade of "C" or higher in each course. **All students must take and pass the Bowie State University English Proficiency Examination (EPE).**

The Department also offers the Master of Arts (MA) in English degree for individuals who (1) have earned the traditional bachelor's degree in English and allied fields (e.g., language arts, humanities) and wish to supplement that degree with training in literature and rhetorical theories and in humanities computing; (2) now teach on the secondary or collegiate level and wish to investigate literary and rhetorical theories and practices; and (3) wish to pursue doctoral studies upon completion of the master's degree.

DEVELOPMENTAL ENGLISH AND READING AT BOWIE STATE UNIVERSITY

Bowie State University measures skill proficiencies in writing and reading by student performance on ACCUPLACER, a College Board placement test administered to all first-time freshmen by the University Testing Center. Placement in, and successful completion of, specific developmental courses (Developmental English and Developmental Reading) is required of all students who do not demonstrate proficiency in writing and reading. These courses are housed in the Department of English and Modern Languages.

Transfer students who have not completed their English 101 requirements prior to enrolling in Bowie State University must also take writing and reading placement tests and are also required to enroll in and successfully complete developmental courses designed to improve their skills for that area.

Students who do not pass Developmental English and Developmental Reading with a grade of A, B, or C will not be permitted to enroll in English 101 or 102.

Credits earned in Developmental courses will not apply toward graduation.

**BACHELOR OF ARTS IN ENGLISH - CONCENTRATION:
LANGUAGE AND LITERATURE**

The Language and Literature concentration leading to the BA in English provides students with a solid grounding in English and foreign language skills; textual interpretation and writing; American, British, and World literatures; and critical tools and theoretical perspectives. The track provides a balance between traditional literature surveys and period courses and courses in which the organizing principle is generic, thematic, or theoretical. Students with the Language and Literature B.A. may go on to graduate studies, teaching or publishing, or any career in which superior critical thinking, analytical, and communication skills are essential.

**BACHELOR OF SCIENCE IN ENGLISH
CONCENTRATION: TEACHER EDUCATION**

The English Education program is offered jointly by the Department of English and Modern Languages and the Department of Teaching, Learning, and Professional Development. Students in this Program are assigned an advisor in the Department of English and Modern Languages and in the Department of Teaching, Learning, and Professional Development. This Program is designed specifically to prepare students to teach English at the secondary school level. The curriculum exposes the student to those topics stressed in the National Council of the Teachers of English (NCATE) standards and meets the requirements for teacher certification in the State of Maryland.

Special BS Degree Requirements

To be formally admitted to the education component of the Program, the student must apply to the Teacher Education Program, usually after completion of appropriate courses taken during the freshman/sophomore years. The application procedure requires the student to compile a brief portfolio, undergo an interview with a representative of the Admission and Retention Committee, and finalize arrangements to successfully complete PRAXIS I. In addition, to complete the Program successfully, the student must pass the appropriate sections of the Teacher Competency Exams (PRAXIS I and PRAXIS II). For further information, the student should consult his/her advisor in the Department of Teaching, Learning, and Professional Development.

BS majors must also:

- Take ENGL 337 geared for teaching adolescent literature in secondary school.
- Take ENGL 470 the semester before student teaching.
- Apply for admission to the Teacher Education Program.
- Apply for Directed Teaching and Seminar the semester prior to being placed.
- Have results of PRAXIS I and II sent to the Department of Teaching, Learning, and Professional Development.

Assistant Professor: Renee Charlow, Jennifer Dorsey, Clayton Lang, Gilbert Pryor, Elliott Moffitt, Gina Lewis

Lecturers: Bob Bartlett, LaTonya Wrenn, Adolph Wright

Director of
University Bands: Adolph Wright

Assistant Band Director: Billy Bennett

MISSION

Consistent with the University's overall mission, the Department of Fine and Performing Arts is dedicated to providing a comprehensive and holistic education that will produce empowered graduates prepared to meet the challenges of their discipline, stay abreast of technology, and embrace diversity. The Department fosters community outreach that perpetuates an overall appreciation of visual arts, music, dance, and theatre and their recognition of the arts in academe.

GOALS

1. To provide a progressive and rigorous curriculum with activities that ground students in the arts holistically, as well in their specific areas of concentration.
2. To recruit, retain and graduate academically sound and diverse student populations.
3. To encourage individual creativity and experimentation in interdisciplinary activities, in arts as a business, and in overall aesthetics.
4. To cultivate critical thinking through individual and collective examinations of quality in the arts and aesthetics.
5. To offer the most current technological advances employed in art/design, music, dance and theatre.
6. To expose students to a variety of cultural experiences that enhances their artistic repertoire and develops their appreciation for diversity.
7. Through partnerships, alliances and/or collaborative experiences, increase departmental support and visibility.
8. To foster on the campus and in surrounding communities an appreciation of the arts as a cultural force in society.
9. To strengthen viable human and fiscal resources and maintain accountability to both the university and the public

OBJECTIVES

1. To offer courses which stimulate students to learn about art and creative self-expression, as a part of their cultural growth.
2. To foster an appreciation for the value of art experiences.
3. To acquaint students with Fine and Performing Arts practices of various cultures, from prehistoric times to the present.
4. To show the relationship of the fine and performing arts to other fields of learning.
5. To encourage students who demonstrate interest and potential for artistic growth to continue the study of art in its various forms.
6. To provide students with a strong base in the visual and performing arts, research, technology and professional performance and exhibition.

DEPARTMENT OF FINE & PERFORMING ARTS REQUIREMENTS

The Department of Fine & Performing Arts (DFPA) offers two programs that lead to the Bachelor of Arts (BA) or Bachelor of Science (BS) degrees. Students may seek a major in Fine Arts with a concentration in Art (Studio), VCDMA, Music, or Music Technology and receive a Bachelor of Arts degree. Students in the Theatre Arts program will concentrate in Musical Theatre or Acting/Directing and receive a Bachelor of Science degree. The minimum number of credit hours required for both Bachelor's Degrees is 120. Students who choose to concentrate in a particular area must consult each semester with a Fine and Performing Arts faculty advisor.

SPECIAL REQUIREMENTS

Students pursuing the BA in Fine Arts must take 12 semester hours of a foreign language.

ADMISSION REQUIREMENTS

The student must officially declare Fine Arts or Theater, with their concentration, as a major by entering it on his/her initial application for admission or by submitting the *Declaration of Major/Program Form*. Fine Arts/Theater majors must earn at least a grade of "C" in the required Fine Arts/Theater core courses taken in the major or the course must be repeated. Fine Arts/Theater majors who show evidence of a fundamental weakness in an area of study may be required by the Department Chair to take additional study in the deficit area. All students applying for admission as Fine Arts/Theater majors are expected to demonstrate their skills

via portfolio or performance, as appropriate.

Students are encouraged to take SUMMER courses in order to have a manageable semester load. Students must successfully pass the English Proficiency Exam. It is recommended that the exam be taken after successful completion of English 101 & 102 and before the end of the junior year.

Note: The Department reserves the right to specify suitable general education courses for its majors, in keeping with COMAR.

ART (STUDIO) CONCENTRATION

MISSION

The Art (studio) concentration is designed to acquaint the students with the basic areas of disciplines within the visual arts, to offer formal instructions in media techniques, and to stimulate the development of talent and creativity through aesthetic enrichment, individual interpretation and experimentation. The program is also designed to give the student a sound background in the visual arts for further study in graduate school and professional art school in the studio arts. Students are prepared to enter the workforce at the entry level in the studio arts, gallery, exhibition and/or museum studies fields, and with visual arts organizations. Students will receive an orientation to entrepreneurship and self-promotional initiatives.

Program

Goals & Objectives:

To strengthen students' knowledge, demonstrative skill and application of studio arts (painting, drawing/illustration, design, sculpture, ceramics and mixed media) and the elements and principles of art/design

1. To produce students that are highly qualified for various opportunities and careers in the visual arts and industry
2. To provide students with a sound foundation in art history, criticism and theory, especially the art and contributions of people of African descent and many other cultures
3. To provide the global community with visual artists that are critical thinkers, problem solvers, as well as culturally and environmentally conscious designers & producers
4. To assist students in career and future educational pursuits, such as graduate studies, and networking with the professionals in the art, visual communication, museum/gallery and related industries
5. To provide students access to state-of-the art studio arts equipment and technology, as well as the

ability to conduct research and participate in collaborative and interdisciplinary projects, and public art and/or commissioned art projects

6. To introduce students to visual and media artists, designers and especially those of color who have contributed to the field of technology, digital art/design & media arts
7. To further introduce contemporary visual artists/designers incorporating art with technology into their creative work and in various industries

Career Opportunities

The field of studio arts is a challenging and expanding industry that intersects with many other areas such as design. Students will be exposed to a liberal arts program that provides access to technology, research and training to enter this vast career with success. There are various opportunities in the studio arts, production and related arts industries. The Baltimore/Washington metropolitan area is a major center for the arts, government, entertainment and business, both nationally and internationally. This rapidly expanding area will allow graduates to find creative employment and research opportunities in related fields.

Additionally, Art faculty actively assists students with obtaining internships and/or apprenticeships, and at times employment opportunities in the field, both locally and nationally. The vast employment opportunities available for art graduates include:

- practicing studio artist
- educational institutions
- museums and galleries
- arts organizations
- textile industries
- design and animation studios
- book, magazines and newspapers
- packaging firms
- publishing houses
- production design
- advertising agencies
- corporate design departments
- government and non-profit organizations

ADMISSION REQUIREMENTS

A student must officially declare Fine Arts as their major, and Art as a concentration, by entering it on his/her initial application for admission or by submitting the *Declaration of Major/Program Form*. All students applying for admission to Art programs are expected to demonstrate their skills via a portfolio that highlights 10 (or more) examples of professional quality artwork; design, illustration, ceramics, drawing, sculpture, digital art/graphics, photography and painting. This should be submitted via a CD-ROM or DVD-ROM; or through slides. Work should be labeled with title, brief description, medium, and dimensions.

Students must also take the necessary prerequisites (carefully read course descriptions) and meet with their academic advisor BEFORE registering for any class. The DFPA Academic Advisor must approve all courses before registration. Students are accepted into the program and then proceed after successfully completing required foundation, core and university courses, and faculty portfolio reviews; they will continue onto an area of concentration as candidates/majors.

ADVISEMENT

All studio art and VCDMA majors must work closely with a faculty advisor within their concentration. Failure to do so could prolong matriculation through this program.

PROGRAM REQUIREMENTS

Art students must maintain an average of 2.5 or better in all major courses to meet requirements for graduation. Art students who show evidence of a fundamental weakness in an area of study will be required to take additional study work in the deficit area, and/or repeat courses. Students who fail to correct any deficiency, maintain an average of 2.5 or better in all major courses and pass portfolio reviews will not be allowed to graduate from this program.

INTERNSHIP OR APPRENTICESHIP

Students are also required to complete an internship or apprenticeship in their respective field by taking ART 491 Internship in Art & Visual Communication. It is highly suggested students complete at least two (2) or more professional internship experiences prior to graduation. Students will work closely with a Fine Art/VCDMA Internship Coordinator and BSU Career Services Office, to identify internship and future employment opportunities. Successfully passing ART 491 is a mandatory requirement for graduation.

ART EXHIBITIONS

All art students are required to submit quality artwork to the juried student art exhibitions each semester. It is suggested that art students should also submit artwork to various local and national art/design and/or media competitions or exhibitions. Successfully passing ART 498 Gallery Seminar is a requirement for graduation.

PORTFOLIO REVIEWS & SENIOR THESIS EXHIBITION

PORTFOLIO REVIEWS & SENIOR THESIS EXHIBITION

Upon completion of foundation courses and no later than the end of their sophomore year, students are to submit a portfolio and participate in their first mandatory faculty portfolio review and evaluation. At the end of their junior year students will participate in their second mandatory faculty review and evaluation. Art students are expected to develop and maintain a comprehensive portfolio of course work and independent art projects for periodic inspection and evaluation. This begins in the freshman year and **MUST** be maintained up to and until graduation. Art students are required to participate in a minimum of two (2) scheduled faculty reviews in order to:

1. Advance to 300/400 level art courses
2. Meet requirements for graduation, and submit work for senior thesis course and final exhibition

Students are also to meet regularly with faculty and advisor and submit work for their senior art exhibition, this coincides with passing the course, ART 498 Senior Thesis Exhibition. Students must submit a portfolio that consists of 20 or more professional quality works to be proposed for ART 498 and their senior exhibition. All work for ART 498 and final senior exhibition must be submitted early, or no later than the midterm of the previous semester prior to taking ART 498. All artwork for senior show and final portfolio must be approved by Art/VCDMA advisor, and by all Art/VCDMA faculty.

DFPA, ART & VCDMA ACTIVITIES

Students are expected to participate in DFPA, ART and/or VCDMA (campus) related activities including theatrical/musical/dance performances, lectures, film screenings, exhibitions, workshops, conferences,

recitals, etc. as well as off campus events such as field trips, conferences, studio/museums/gallery visits and more, that further enrich the academic and artistic experience.

ADDITIONAL PROGRAM REQUIREMENTS

Students pursuing the BA in Fine Arts must take 12 semester hours of a foreign language, and 12 semester hours of art/design (related) history, theory and/or criticism, including an additional (and mandatory) ART 405 African American Art History, for a total of 15 credits in art history. Students are also required to maintain a professional portfolio and have regularly scheduled portfolio reviews with faculty. Students must also successfully pass the English Proficiency Exam. It is recommended that the exam be taken after successful completion of English 101 & 102; before the end of the junior year.

PLEASE NOTE: It is recommended that students who plan to apply for graduate school or work as practicing studio artists directly after the completion of their bachelor's degree take additional hours of advanced studio courses in at least one studio concentration area. Art students should try to focus in the area of emphasis: 3D, 2D, or Integrated Media to allow students to specialize in one or two media.

It is also highly recommended (not required) that students take additional advanced courses in English, Business/Marketing and/or Communication as necessary. These courses will further assist students in developing and mastering technical and research skills, as well as skills in effective written and verbal communication.

TRANSFER STUDENTS

Transfer students must submit a portfolio with their application and send to the ART or VCDMA coordinator/advisor for review. Students who transfer in with 12 credit hours or more are not required to take Freshman Seminar.

MINOR CONCENTRATION

ART/VCDMA

Students may minor IN ART/VCDMA by consulting with the advisor and the VCDMA advisor/coordinator. A minor in ART/VCDMA consists of 21 CREDIT hours; six (6 studio and 1 art history course). Classes normally consist of foundation and introductory courses and one or more advanced course.

Visual Culture & Museum Studies

The Baltimore/DC area is surrounded by countless opportunities related to fine arts, preservation and research in the visual arts. The minor was created to support students who have an interest in careers and research areas related to art history, theory, criticism, as well as pop culture and museum-related studies. The minor will also empower and prepare students for working in the local and national museum, galleries and arts organizations.

Students are also required to assist with ART 498 Senior Thesis & Gallery Seminar and/or ART 491 Internship & Apprenticeship in Art/Visual Communications to assist with art research, preservation, exhibition preparation and removal in both the Amos White IV Gallery of Art & Harambee Gallery in the Department of Fine & Performing Arts, and online galleries via the DFPA or ART/VCDMA website, for a minimum of one semester. Students must successfully pass a minimum of 24 credits hours in art history, studio and/or related courses. Students should speak to an advisor for approved courses.

FACILITIES

The Art program in the Department of Fine & Performing Arts, is always working on providing students with

access to the latest in technology, equipment, art preparation materials and innovation. Currently, there are four (4) art studios for: painting, printmaking, sculpture, ceramics, design and photography. In addition, there are two (2) darkrooms and one (1) state-of-the-art Apple digital media and VCDMA Art lab. In this lab we offer but are not limited to:

Hardware:

1. Apple iMacs
2. Apple Mac Pros
3. Scanners
4. DSLR/Hi-DEF video camera

Software:

- Adobe Creative Suite
- ToonBoom Studio
- Final Cut Studio
- After Effects
- Microsoft Office
- AutoCad
- Painter and more

Students also have access to the latest technology and equipment in digital video production, visual effects, lighting and digital photography, green screen and backdrops. Art students may also have access (with permission from VCDMA faculty and requests from Art faculty) for research, printing, scanning and limited internet access in the VCDMA digital arts lab, usually 6 to 7 days of the week with evening and weekend lab access; as well as DVD's, materials, books, professional and industry journals dedicated to art/design, visual communication, animation, media studies, etc. both in the lab and also in the undergraduate library. The DFPA provides 18-hour access to studios for design, digital imaging, drawing, painting, printmaking, sculpture, traditional arts & crafts and ceramics. There is also access for students to traditional and digital photography equipment and darkrooms. Students also have access to the *BSU X Seed*, the university's (and one of the country's) fastest supercomputers, for production, storage, rendering, research and collaboration with other departments, schools and universities worldwide.

LIBRARY AND RESEARCH

Students in Art (Studio) has access for research from a variety of sources such as art and design periodicals, journals, resources and more, that cover various software training and tutorials, including subscriptions to Communication Arts, Computer Arts, and other professional art/design, history, theory & criticism; media arts, books, DVDs, films, magazines and online resources.

BOWIEHAUS

BOWIEHAUS is a student based art/design and marketing incubator and research project. Its goal is to teach Art & VCDMA students how to design products and/or services; and to provide opportunities for students to gain experience in marketing those products through sound business practices. Art, design and technology are combined with business entrepreneurship to prepare students to become successful before and after graduation.

NETWORKING, STUDENT & PROFESSIONAL ORGANIZATIONS

THE ARTIST GUILD

Bowie State University 2012 -2013

The Artist Guild is a creative arts organization for students studying Art and Visual Communication and Digital Media Arts, but is open to all other students who are interested in promoting the visual arts. One of the guild's purposes is to raise and maintain a high standard of quality of visual art, design, and visual communication, networking with art and design professionals, and to produce awareness in visual arts on campus, with other institutions and HBCUs, and throughout the community. Membership in the Artist Guild is mandatory for all Art/VCDMA students.

Students are also encouraged to join and participate in regular workshops, meetings, salons, presentations (on and off campus) sponsored by arts/design or media related organizations such as: the American Graphics Arts Association (AIGA), The Art Director's Club of DC, Black Artists of DC, Animator's Association (ASIFA), The National Conference of Artists (NCA), College Arts Association (CCA), National Arts Educator's Association (NAEA); The Association of Independent Video & Filmmakers (AIVF), FocusOnDesign, The Washington Project for the Arts, the International Game Developer's Association and the National Alliance of Artists from Historically Black Colleges and Universities (NAAHBCU), SIGGRAPH, Cultural Development Corporation, and many more. Many local designers, digital and traditional artists, animators and filmmakers regularly come to the Art/VCDMA program and the DFPA to give participate in career days, exhibitions, guest lectures, conduct workshops and portfolio reviews.

MUSIC TECHNOLOGY CONCENTRATION

MISSION

The Program will provide students with solid instruction in the variety of ways computer technology is employed in the music industry. It will cover essentials such as computer software, basic studio design, arranging, songwriting, Internet and World Wide Web applications. Courses in music theory and music history give a broad background in the understanding of music styles and genres. A course in business rounds out the curriculum and allows for the understanding of law as it applies to contracts, copyright and the electronic media. A Performance Senior Project is required to complete the concentration. In addition to the 28 semester hours of the Music Technology Concentration, students must successfully complete 93 semester hours of General Education and Fine Arts Requirements. It is suggested that all students enroll in an applied lesson each semester of enrollment, and participate in one of the several performance opportunities.

Admission Requirements

All students applying for admission into the Music Technology Concentration must take a music fundamentals and theory placement test. The results of this test will determine the student's level of understanding of music fundamentals and basic theory principals and assist in the advisement of the appropriate theory level. Students will also have to take an applied instrument evaluation exam to demonstrate sight-reading and performance knowledge.

Students should provide a CD with examples of music compositions and/or arrangements that they have prepared using the appropriate software packages available for either the PC or Mac computer platforms. Students can setup auditions and personal interviews through the Music Technology Coordinator.

Student should prepare 3 short selections for the applied audition and will be asked to perform various scales and arpeggios, and given sight-reading materials. Interviews and auditions must be done prior to acceptance into the discipline. A visual/audio interview on DVD can be provided by the student that is unedited-nonstop for a 15 to 20 minute period. It should have explanation of what is being done and credit for the composers/arrangers of the pieces demonstrated. If a DVD is rendered for audition, the sight-reading requirement will be giving the day the student is officially on campus. Appointments can be made by calling (301)860-3750/53 or via email to gpryor@bowiestate.edu. The DVD and CD packet can be mailed to DFPA, Bowie State University 14000 Jericho Park Road MLK RM 238A, Bowie, MD 20715.

The above is a suggested profile for study. Advisement is mandatory for proper course sequence.

Senior Project Guidelines

There are two types of Senior Projects:

Recital Project: 30-40 minutes of live (real time) performance, containing original music or arranged selections prepared with sequencing and notation techniques. Program will be advertised and appropriately done as guided by the standards and procedures which govern MUSA 410. It is suggested that the student employs his/her applied instrument as part of this program. Works prepared should be of contrasting nature, (jazz, popular, blues, classical, and urban contemporary).

Collaborative Project: 30-40 minutes of live or real time performance incorporating dance, theater, film, and video or computer animation produced in conjunction with a second artist or artists. Works prepared should be of contrasting nature (jazz, popular, blues, classical, urban contemporary).

All performance materials should be constructed with the consideration of the performance arena used to assure a good balance of sound, and maximum audience enjoyment. Appropriate credit should be given to all participants for their contributions and each should adhere to the rules that establish good concert ethics throughout the presentation.

Permission for taping, use of materials, images and videotaping should be discussed with the coordinator to assure that all legal and copyright responsibilities are met.

THEATRE ARTS PROGRAM

The Theatre Arts program at Bowie State University offers the Bachelor of Science degree, with a choice of studies in Musical Theatre or Acting/Directing; for non-majors, the program offers a minor in theatre arts or dance. The rigorous program is designed to offer historical, theoretical and experiential studies in acting, directing, stagecraft, dance, children's theatre, and the fundamentals of theatre research and scholarship, as students train in the traditional skills necessary for successfully entering professional theatre and for succeeding in graduate studies. The program includes continuous assessment and evaluation throughout a student's matriculation, beginning with an audition at the onset of the freshman year and ending with a capstone seminar course that requires the submission of a cumulative portfolio. A mid-point evaluation of potential success in the program is also included and usually occurs when approximately sixty credits are acquired. Taking advantage of the University's location and the abundance of community and professional theatre in surrounding areas, the faculty encourages students to participate in off-campus as well as on-campus productions and guides the majors to develop their personal visions of theatre and dance as dynamic and diverse cultural elements of any society.

MISSION

The purpose of the Theatre Arts program is to prepare students for successful entrance into the professional theatre and/or advanced academic study. Through mentorship, practical training, and academic rigor, the program produces graduates with a unique artistic vision, a strong work ethic, and an appreciation for theatre as a dynamic cultural force.

Program Goals

1. Cultivate good stewards of the performing arts through progressive academic theatre and performance studies.
2. Build community connections and partnerships that support the program by fostering artistic growth and providing professional opportunities.
3. Ensure and maintain continuous accountability to students, faculty, staff, and the general public.

Expected Student Outcomes and Competencies

Throughout the program of study and upon graduation, student should demonstrate

- 1) the ability to analyze a variety of performance and dramatic texts
- 2) interdisciplinary knowledge of the theatre arts by clearly articulating its
 - a. history
 - b. performance elements
 - c. production processes
 - d. dramatic literature
 - e. stagecraft areas
 - f. use of technology
- 3) the ability to effectively utilize voice and body as an instrument of performance
- 4) the ability to effectively market self in the business of theatre and dance
- 5) the ability to recognize the universality of theater and dance as global and cultural expressions of humans.

Program Requirements

To successfully matriculate through and graduate from Theatre Arts, majors must meet the following requirements:

1. Complete the basic requirements of the University, as published in its various documents, and demonstrate satisfactory growth within the program.

Graduation Requirements: All BSU majors require a minimum of 120 semester hours.

2. Earn a minimum grade of "C" in courses taken in theatre and dance; otherwise courses in question must be repeated.
3. Participate in all levels of student assessment in the program, as outlined in the Department's Student Handbook.
4. Throughout matriculation, develop a comprehensive portfolio ready for submission in THEA 461 or 462, which is the senior capstone seminar.
5. Fulfill all performance and crew assignments **each** semester, except where specific exemptions have been approved in advance (i.e., poor grades, lengthy illnesses, emergencies).
6. Accrue a minimum of 120 hours (15 hours per semester) and production and/or lab theatre/dance work during matriculation in the program.
7. Participate in at least two off-campus and three on-campus auditions each year (winter and SUMMER included).
8. Annually attend departmental events in the areas of art, music and dance. Evidence of such attendance and/or participation will be required in the portfolio.
9. Take additional course or laboratory work in any area of study or competency where fundamental weaknesses may be found.

VISUAL COMMUNICATION & DIGITAL MEDIA ARTS (VCDMA)

The Visual Communication & Digital Media Arts (VCDMA) major is one that enables and empowers students for a career in visual communications and media arts. Students who follow this concentration are introduced to opportunities in: design, fashion design, animation, motion graphics and compositing, digital video production, web, interactive and new media, digital art & imaging and multimedia.

The program is designed to develop and produce globally and environmentally conscious designers and problem solvers, with an emphasis on technology, integrated arts and research in the areas of visual arts/communication and media; as well as production in the studio and digital media arts. Specific emphasis will be placed on unique multicultural and diversity issues, ever changing technologies and trends, as well as the history of design, media, and computer based arts.

By building upon foundation courses, students merge skills in art/design, technology and communication. The program is based a minimum of 120 credits and leads to a Bachelor of Science degree in Visual Communication and Digital Media Arts (VCDMA) with concentrations in: Advertising Design | Animation & Motion Graphics | Digital Media Arts Digital Filmmaking & Time Based Media | Fashion Design

MISSION

The mission of the new VCDMA program is also to focus on art, technology, research and production in visual communication, fashion, video, animation, design and digital media. Furthermore, our focus is to expand our mission to include an emphasis on diversity, sustainability and interdisciplinary collaboration within the various departments at the university and especially within the College of Arts & Sciences. The program will also provide students with access and research opportunities related to art, visual communication, new media, product design, and more; it also provides the community with servant leaders, and those who are more socially, environmentally and globally conscious designers and “problem solvers.”

Students may also have access (with permission from VCDMA) faculty and requests from Art faculty) for research, printing, scanning and limited internet access in the digital media arts lab; as well as DVD's, materials, books, professional and industry journals dedicated to art, design, animation, visual communication, media studies, etc. both in the lab and also in the undergraduate library. The DFPA provides access to studios for design, digital imaging, drawing, painting, printmaking, sculpture, traditional arts & crafts and ceramics. There is also access for students to traditional and digital photography equipment and darkrooms and videomedit suites, mock-up studios and more.

OBJECTIVES

The Visual Communication & Digital Media Arts' program and educational objectives are as follows:

1. To strengthen students' knowledge, demonstrative skill and successful application of concepts and techniques related to visual communication, new media, advertising design, visual marketing, animation, digital filmmaking/production, fashion design, digital art and the elements and principles of art/design.
2. To produce students that are highly qualified for various opportunities and careers in visual communication, new media and the digital arts.

3. To provide the global community with visual artists that are critical thinkers, problem solvers, as well as cultural conscious designers & producers
4. To provide fine arts majors a survey of courses and career paths in: design, animation, new media, web/multimedia; textile/fashion and product design
5. To assist students in career and future educational pursuits, with networking with the professionals in the visual communication and media industry
6. To provide students access to state-of-the art digital imaging & multimedia technology, as well as the ability to conduct research and participate in collaborative and interdisciplinary projects
7. To further introduce students to visual/media artists, producers and designers, and diversity within the fields of art/design, media and technology

ADMISSION

All students applying for admission to VCDMA programs are required to demonstrate their skills via a successful portfolio that highlights 10 (or more) examples of artwork; design, illustration, drawing, sculpture, digital art/graphics, photography and painting. This should be submitted via a CD-ROM or DVD-ROM; 72 dpi, 300 pixels wide and saved/labeled in JPEG format. A brief, typed list of works including title (if applicable), medium, date and dimensions should accompany portfolio. Work should be labeled with title, brief description, medium, and dimensions.

The student must officially declare Visual Communication & Digital Media Arts (VCDMA) as a major by entering it on his/her initial application for admission or by submitting the Declaration of Major Form; as well as selecting a concentration. Students are accepted into the program as premajors and then after successfully completing required foundation, core and university courses; and a faculty portfolio review, they will continue onto an area of concentration as majors. All VCDMA majors must earn at least a grade of "C" in courses taken in the major or the course must be repeated.

VCDMA majors who show evidence of a fundamental weakness in an area of study will be required to repeat and/or take additional study work in the deficit area. Visual Communication & Digital Media Arts' students are required to maintain a comprehensive portfolio of their work for periodic inspection and evaluation. In addition, there will also be faculty portfolio reviews, students senior exhibition/thesis, and advisement will be used and assessment of students' progress towards graduation and chosen future career goals.

GRADUATION CRITERIA

Students are also required to complete an internship or apprenticeship in their respective field by taking Art 491 Internship in Art & Visual Communication and upper level 300/400 elective courses, and advanced study in VCDMA, in their respective career field prior to or upon graduation. Students must also pass selected course in English, Business, Marketing and/or Communication. These courses will further assist students in developing and mastering skills in effective written and verbal communication

All VCDMA students MUST participate in student art exhibitions and a minimum of two (2) scheduled faculty reviews in order to:

- 1) advance to candidacy and to proceed to the junior level and/or as majors, and
- 2) for senior thesis and as part of their requirements for graduation.

TRANSFER STUDENTS

Transfer students are expected to present a comprehensive portfolio of their work prior to acceptance in the Department; meet with the Academic Advisor and complete a transfer credit evaluation and meeting. This portfolio should consist of 10-15 works of art (as with other applicants)
Transfer students must also arrange/complete a transfer credit evaluation and meeting and provide VCDMA faculty with official copies of all transcripts.

MINOR IN VCDMA

A minor in VCDMA requires completion of 21 studio hours in a concentration w/an advisor; 3 hours in Art History; total= 24 credit hours.

CONCENTRATION REQUIREMENTS

Art/VCDMA students must maintain a "C" average in all major courses to meet requirements for graduation. Art students who show evidence of a fundamental weakness in an area of study will be required to take additional study work in the deficit area, and/or repeat courses. Failure to correct any deficiency, maintain a "C" average in all major courses, and/or failed portfolio reviews will be considered grounds for students to leave the major/concentration and VCDMA program

PORTFOLIO REVIEWS & SENIOR THESIS EXHIBITION

Upon completion of foundation courses and no later than the beginning of their sophomore year, students are to submit a portfolio and participate in their first mandatory faculty portfolio review and evaluation. VCDMA students are required to develop and maintain a comprehensive portfolio (as described above, unless otherwise stated) of their work for periodic inspection and evaluation. This begins in the freshman year and **MUST** be maintained up and until graduation. **VCDMA students are required to participate in a minimum of two (2) scheduled faculty reviews in order to:**

1. advance to candidacy & proceed to the junior level and/or as majors
2. meet requirements for graduation, and submit work for senior thesis course and final exhibition.

Students are also to meet regularly with faculty and advisor and submit work for their senior art exhibition; this coincides with passing the course, ART 498 Senior Thesis Exhibition. Students must submit a portfolio that consists of 20 or more professional quality works to be proposed for ART 498 and their senior exhibition. All work for ART 498 and final senior exhibition must be submitted early, or no later than the midterm of the previous semester prior to taking ART 498. All artwork for senior show, and final portfolio must be approved by VCDMA advisor, and by all VCDMA and Art faculty.

INTERNSHIP OR APPRENTICESHIP

Students are also required to complete a minimum of one internship or apprenticeship in their respective field and also by taking ART 491 Internship in Art & Visual Communication, in their respective career field prior to graduation. It is highly suggested students complete at least two (2) or more professional internship experiences prior to graduation. Students will work closely with VCDMA Internship Coordinator and BSU Career Services Office, to identify internship and future employment opportunities. **Successfully passing the courses ART 498 and ART 491 are mandatory requirements for graduation.**

ADDITIONAL CONCENTRATION REQUIREMENTS

Students pursuing the BS in VCDMA must take 12 semester hours of art/design (related) history, theory and/or criticism, including an additional (and mandatory) ART 200 African Art, for a total of 15 credits in art history. Students are also required to maintain a professional portfolio and have regularly scheduled

portfolio reviews with faculty. Students must also successfully pass the English Proficiency Exam. It is recommended that the exam be taken after successful completion of English 101 & 102; before the end of the junior year.

MISSION

The Department contributes to Bowie State University's major mission as a regional comprehensive liberal arts university. It provides an atmosphere that promotes intellectual development, scholarship, and critical thinking for its diverse student body. In addition, students who major in history and government have the opportunity to experience the responsibilities and rewards of leadership. This combination of learning and personal challenge enables our graduates to face the demands of the twenty-first century with confidence.

GOALS

Consonant with Bowie State University's mission as an institution of higher learning committed to a tradition of free inquiry, the goals of the department are:

1. To foster an atmosphere conducive to the fruitful exchange of ideas between students and

faculty.

2. To train students proficiently in content and methodology in the departmental concentrations of their choice.
3. To provide opportunities for critical study which will build marketable skills in a variety of fields.
4. To give students in the sequences a level of training which will enable them to succeed in graduate studies and professional schools, or to pursue careers in academia, government, or business.

DESCRIPTION OF THE DEPARTMENT

The Department offers an interdisciplinary degree program in history and government with concentrations in History, History Education and Government, as well as minors in the following areas: **geography, philosophy, history, pan African studies, women's studies, historical management, government, international relations, public policy, and pre-law.** The program aims to provide students with a broad understanding of the complex historical, social, economic, and political forces within society, and it seeks to promote students' critical thinking skills. Students who choose either the history or the government sequence may pursue either a BA or a BS degree. Students who choose the history (social studies) education program must pursue a BS degree. To receive a BA/BS in History and Government, the student must complete 120 semester hours. To receive a BS in History and Government with a history (social studies) education concentration, the student must complete 128/129 semester hours. The minors in the Department are based on specific courses and have the following credit hours: geography (15), philosophy (15), history (18), pan-African studies (12), women's studies (18), historical management (18), government (X), international relations (12), public policy (12), and pre-law (15).

GRADUATION REQUIREMENTS

1. Foreign Language: Students in the BA program must take and pass, with a "C" or better, 12 semester hours of a second language other than English. In some cases, a foreign language proficiency examination may be substituted for the course requirement.
2. Senior Thesis: Students, except those in the history (social studies) education concentration, must write a thesis paper in their senior year.
3. Comprehensive Examination: Students must take and pass a written departmental comprehensive examination in their concentration during the senior year.
4. The Bowie State University *English Proficiency Examination*: All majors must take and pass the Bowie State University *Writing Proficiency Examination* after successful completion of ENGL 101 and ENGL 102, *Expository Writing and Argument and Research*. Transfer students who completed their English composition requirements at another university must take the *Writing Proficiency Examination* during their **First Semester** of enrollment at Bowie State.
5. History (Social Studies) Education Majors must take PRAXIS I and PRAXIS II and achieve a passing score set by the Maryland State Department of Education in order to be certified by the State of Maryland. Passing scores on the PRAXIS are a prerequisite for several courses in the professional sequence, including methods courses and student teaching. Passing scores on all PRAXIS II are required for graduation.

**BACHELOR OF ARTS/BACHELOR OF SCIENCE
HISTORY AND GOVERNMENT MAJOR**

The Department of History and Government offers the Bachelor of Arts (BA) and the Bachelor of Science (BS) degrees in history and government. Students who wish to earn the BA degree are required to complete twelve semester hours of a foreign language in addition to other requirements. The BA/BS degrees in history and government require a minimum of forty-two semester hours for majors in the history concentration and forty-five semester hours for majors in the government concentration. The BS degree in history and government requires thirty-six semester hours for majors in the history (social studies) concentration.

Students who wish to pursue a major or minor in history and government must earn a grade of "C" or higher in departmental courses.

GENERAL HISTORY CONCENTRATION

The General History Concentration consists of a total of forty-two hours in history course work. Eighteen hours are in history survey courses, eighteen hours are in upper level history courses, and six hours consist of the two parts of the Senior Seminar. These courses are to be taken sequentially with most of the history survey courses being taken before the upper level ones are taken. In any case, the choice of courses must be made in cooperation with the faculty advisor to ensure successful and timely completion of the degree requirements and to prepare for the senior year comprehensive examination and the writing of the thesis paper. Finally, all eighteen hours of history survey courses and all eighteen hours of upper level history courses must be taken before the student takes the two seminar courses.

The General History Concentration is designed as a traditional liberal arts program that emphasizes theory and research so that the student is prepared for graduate studies in history. Should the student wish to graduate with a Bachelor of Arts degree, rather than a Bachelor of Science degree, then, the student must satisfy a foreign language requirement, which can also be met by passing a Foreign Language Proficiency Examination. Students who wish to pursue graduate studies in history are strongly encouraged to take twelve hours of Foreign Language Electives and, thereby, to graduate with a BA.

HISTORY MINOR

The minor in history consists of 18 credit hours, and it is based on the following: HIST 114 (General Education Requirement), two survey courses, and three upper level elective courses (300/400 level courses). The core requirements serve as prerequisites for the upper level elective courses (300 and 400 level in Africa, Europe or United States) that the student may select as part of his minor. Before a student takes certain upper level courses, he must have completed survey courses among the core requirements. For instance, in order to take upper level courses in the United States, the student must have completed the United States survey courses. Moreover, in order to take upper level courses in either Africa or Europe, the student must have completed the World Civilization survey courses.

Students who wish to minor in history must earn a "C" or higher in all history courses.

HISTORY AND SOCIAL STUDIES TEACHING CONCENTRATION

The student-educator candidate must meet criteria set by both the Maryland State Department of Education (MSDE) and the university. In terms of semester hours, the student must complete thirty-six hours in history, thirty-seven hours in professional education, and twenty-four hours in the social and behavioral sciences. The hours in history include the following: eighteen hours of history survey, fifteen hours of upper level history, and HIST 497. The thirty-three hours of survey history courses and of upper level history courses must be taken before the student takes HIST 497. All candidates in history or social studies teaching will receive a departmental evaluation with the faculty of the department whereupon a recommendation is made on the student's ability to continue in the teacher education program.

GOVERNMENT CONCENTRATION

The Government Concentration is designed to enhance the student's liberal arts education and also to nurture an understanding of the role of the government and the citizen in a polity. To this end, the program puts an emphasis on the core themes and subjects in three sub-fields. Students in the Government Concentration must successfully complete a minimum of forty-five semester hours in government courses. They will select at least two courses from each sub-field and these courses are to be taken sequentially and in accordance with the profile for the concentration. The choice of courses must be made in cooperation with a faculty advisor. Should the student wish to graduate with a Bachelor of Arts degree, rather than a Bachelor of Science degree, then, the student must satisfy a foreign language requirement, which can also be met by passing a Foreign Language Proficiency Examination. Students who wish to pursue graduate studies in government are strongly encouraged to take twelve hours of Foreign Language Electives and, thereby, to graduate with a BA.

GOVERNMENT MINOR

The government minor is designed for students who wish to broaden their knowledge of the scope and impact of government in society. The minor is designed to complement existing programs of the university by instructing students in the basics government and citizens in the polity. This includes exposing students to the key themes and concepts in politics at the local, national, and international levels. Pursuant to this objective, students must obtain 15 credit hours in the discipline by completing the following courses: GOVT 130 (Introduction to Political Science), GOVT 231 (US National Government), GOVT 315 (Early Political Philosophy), GOVT 145 (Introduction to Comparative Politics) or GOVT 342 (International Relations), and one additional government elective.

GOVT	—	Any Government Elective	3

INTERNATIONAL STUDIES MINOR

This is an interdisciplinary sequence of courses in International Studies. However, emphasis will be placed on Africa and its interaction with its diaspora and world. The curriculum is dynamic enough and designed to prepare students for graduate school and careers in government, business and international organizations. It should also provide students with a multicultural education as well as enhance their language and communication skills so that they can become effective citizens in an interdependent world. In essence, this concentration aims to provide the requisite training that would enable the student to become a competent professional in the field of international affairs.

The courses within the International Studies minor focus on international political economy, area and comparative studies and international politics.

PUBLIC POLICY TRACK

The Public Policy track is designed to meet the needs of students desiring a strong background in the various dimensions of governmental policy-making, particularly those who plan a career in public or quasi-public sector policy analysis, management, and evaluation. Perhaps more significantly, graduates with a public policy emphasis are well prepared to enter graduate schools which offer further study in the field and law schools. Students will receive, in a series of core courses, training in research methodology, statistics with computer applications, policy process and political economy.

OTHER DEPARTMENT MINORS**GEOGRAPHY MINOR**

Geography is a specialized field of study and is basic to a liberal arts education. The Geography Track is concerned with the reality of the human habitat in regional environments; with the ways space is organized for economic, social and political purposes; with the manner in which natural resources are utilized and developed and their uses; and with the relationships between these considerations and public policy. Its sphere is the whole world. Students who wish to complete the track in geography must earn a grade of "C" or higher in all Geography courses.

PHILOSOPHY MINOR

The philosophy curriculum is multicultural and promotes a critical understanding of the foundations of the humanities and the natural sciences. A thematic and historical approach is used to study the fundamental features of the universe (metaphysics), how one knows (epistemology), and how one ought to live (ethics). GOVT 315 and GOVT 316 may be used as philosophy electives.

Students who wish to complete the minor in philosophy must earn a grade of "C" or higher in all philosophy courses.

WOMEN'S STUDIES MINOR

The minor in Women's Studies provides an interdisciplinary approach to the study and analysis of the intersection of race, gender, and class. The program is designed to complement existing programs and the academic mission of the university by providing students with a comprehensive educational experience by developing their understanding of the contributions of women in diverse fields of human activity and thought. It introduces students to the intellectual work, theories, concepts, and experiences of women from multiple perspectives that transcend disciplinary boundaries. The required number of semester hours for a minor in Women's Studies is eighteen semester hours, which are to be chosen from the required courses and the elective courses. A student's program, based on the student's interests, should be designed in consultation with a Women's Studies academic advisor. Students who wish to complete the **minor** in Women's Studies must earn a grade of "C" or higher in all Women's

Studies courses.

PRE-LAW MINOR

The Department offers a pre-law **minor**. The law and related courses are designed to develop the writing, the critical thinking, and the analytical skills necessary for admission to and success in law school. Students who are interested in going to law school are strongly advised to develop their writing proficiency and to choose rigorously analytical courses for all of their electives. Students should consult regularly with faculty advisors for a suitable course sequence that would fit individual needs.

MISSION

The Department of Mathematics exists to serve the educational needs of all students for whom mathematical knowledge is either a pleasure or a necessity. Through its courses and programs, the Department aims to assist the University in meeting its institutional goals and in enabling students across all disciplines to fulfill their educational objectives. Courses and programs are designed to equip graduates with a range of contemporary skills and professional attitudes conducive to success in employment or higher study.

GOALS

1. To provide a quality education in mathematics such as will enable the students to meet the challenges and to reap the opportunities of an increasingly diverse and technologically oriented society.
2. To provide for the students a rich learning environment that cultivates and fosters the attitudes and disciplines essential to professional competence and growth.
3. To optimize the academic performance of students through a combination of traditional teaching, individual mentoring and advisement.
4. To maintain an environment of active research among the faculty and to involve students in research projects under faculty supervision.
5. To prepare students for graduate studies in mathematics and for mathematically intensive careers in government, industry or education.
6. To establish mutually beneficial arrangements with other academic departments, area school systems, colleges, and universities.

7. To maintain strong linkages with regional private and government institutions in support of the department's educational and research interests.
8. To assist the University in achieving its goal of excellence in computer and information technology by providing a full range of service courses for other departments possessing a technological or scientific orientation.
9. To actively support the University's historic commitment to the African American community by instituting programs and generating grant proposals that aim to promote minority achievement in the fields of mathematics, science, computer science, technology and education.
10. To continually monitor and sustain, through a systematic process of assessment and modification, the integrity and contemporary relevance of departmental course offerings and programs.

REQUIRED EXAMINATIONS

All students must take the *English Proficiency Examination* after successful completion of ENGL 101 Composition and Literature I and ENGL 102 *Argument and Research*. Transfer students who have completed their English Composition requirements elsewhere should take the BSU English Proficiency Exam during the **First Semester** of enrollment at BSU. Mathematics Education (MAED) majors must take and pass both parts (Praxis I and II) of the State-approved teacher competency examinations.

DEPARTMENTAL POLICY STATEMENTS

1. Very important: students in all disciplines are strongly advised to complete all of their General Education courses in mathematics by the end of their sophomore year, at the latest. Failure to do so could result in delayed graduation.
2. Any student, including any transfer student without a completed AA or higher college degree, whose program of study requires him or her to take a general education course in mathematics must take the University-approved Mathematics Placement Test. The placement test is required to determine the appropriate level of placement. Please confer with your academic advisor to make the appropriate arrangements.
3. All prerequisites for all courses in mathematics must be successfully completed with a grade of "C" or better.

BACHELOR OF SCIENCE MATHEMATICS

The Department offers a Bachelor of Science Degree in Mathematics with four options: Pure Mathematics, Mathematics Education, Applied and Computational Mathematics and Dual Degree Mathematics/Engineering. The Dual Degree Mathematics/Engineering program is a special program offered by Bowie State University in conjunction with other universities such as UMCP, UMBC, GWU and Howard. Under this program, a student attends Bowie State University for three academic years and the receiving university for an additional two years.

GRADUATION REQUIREMENTS

1. All students must pass the Bowie State University *English Proficiency Examination* to graduate.
2. A grade of "C" or better is required in all courses designated as part of the mathematics major, including all courses in mathematics, the natural sciences, technical writing and computer science.

DEGREE REQUIREMENTS

Every student majoring in Mathematics must meet three sets of requirements:

I. GENERAL EDUCATION AND INSTITUTIONAL REQUIREMENTS

The following list of General Education and Institutional requirements applies only to students in the Pure Mathematics, Applied and Computational Mathematics and Mathematics Education tracks. Students in the Dual Degree Mathematics/Engineering Program are subject to a special set of General Education and Institutional requirements as described further below.

COMPETENCIES (PURE MATHEMATICS TRACK)

The primary focus of Pure Mathematics is the exploration of mathematical ideas for their own sake, unconstrained by considerations of practical application. Thus, Pure Mathematics qualifies both as an art and a science. Practiced for its distinct beauty, it is capable, nevertheless, of yielding results of great practical significance. At the core of an education in Pure Mathematics is the development of analytical reasoning and the ability to think in the abstract. Possession of these skills enables the Pure Mathematician to probe the limits of pure reason and to explore and solve problems in various scientific fields.

Major in Pure Mathematics Program Goals

1. To provide a strong foundation for graduate study in mathematics, particularly in the pure areas related to algebra, number theory, and analysis.

2. To provide a versatile and broad-based background in higher mathematics for students aspiring to pursue careers in industry, government or academia.
3. To develop and cultivate the rigorous modes of abstract reasoning applicable to any formal system.

COMPETENCIES (APPLIED AND COMPUTATIONAL MATHEMATICS TRACK)

Applied Mathematics is the application of classical and modern mathematical techniques to solve practical problems in science, engineering, and business. At the heart of an education in Applied Mathematics is the development of analytical reasoning and its application to practical problems. The applied mathematician develops and analyzes mathematical models of physical phenomena and collects/interprets data in order to identify relationships, patterns, and the likely impact of modifying one or more parameters. Several of the courses in this program illustrate exactly how mathematics is used in real applications such as predicting the evolution and behavior of physical phenomena. Applied mathematicians have the skills needed to obtain employment in fields as diverse as aerospace, oil exploration, manufacturing, geology, actuarial science, chemistry, communications, and computing. Health sciences, Applied sciences, and Engineering offer additional prospects to Applied mathematicians in the academic, business, industrial, and government sectors. The basic skills required to succeed in any of these fields are acquired in the Applied and Computational Mathematics Program. This program also provides a strong foundation for graduate school.

Major in Applied and Computational Mathematics Program Goals:

1. To provide a strong foundation for graduate study in mathematics particularly in the applied areas related to differential equations, optimization, mathematical modeling, operations research, and numerical analysis.
2. To provide a good background of marketable skills for students electing to seek positions as applied mathematicians in industry or government.
3. To develop and cultivate the rigorous principles of analytical reasoning which can be applied directly to a wide variety of industrial problems.

C. REQUIREMENTS FOR A MAJOR IN MATHEMATICS EDUCATION

The Secondary Mathematics Education Program is hosted jointly by the Department of Mathematics and the College of Education. Students in this program are assigned an advisor in the Department of Mathematics and an advisor in the College of Education. To be formally admitted to the education component of the program, the student must submit an application to the Teacher Education Program, usually after completion of a set of appropriate courses in Education taken during the freshman year. The application procedure requires the student to compile a brief portfolio and to undergo an interview with a representative of the Admission and Retention Committee of the College of Education. In addition, the student must take and pass the appropriate sections of the State-approved teacher competency exams (Praxis I and Praxis II). For further information, please consult your advisor in the College of Education. The following course requirements (46 semester hours) are in addition to the requirements described above.

Required Courses in Mathematics (12 semester hours)

MATH	310	Introduction to Geometries	3
MATH	410	History of Mathematics	3
MATH	414	Methods of Teaching Sec. School Math	3
MATH	420	Abstract Algebra I	3

Note: Mathematics Education majors must take MATH 450: Overview of College Mathematics as their general education mathematics elective.

COMPETENCIES (MATHEMATICS EDUCATION TRACK)

This program is designed specifically to prepare students to teach mathematics at the secondary school level. The curriculum exposes the student to those topics stressed in the National Council of Teachers of Mathematics (NCTM) standards for secondary mathematics and meets the requirements for teacher certification in the State of Maryland. Through their coursework, students fulfill the main requirements for a major in Mathematics, assuring a strong basic knowledge of the subject matter. In addition, their teaching skills are developed through an appropriate sequence of education courses.

Major in Mathematics Education Program Goals

1. To provide a level of mastery in the field of mathematics sufficient to enable the graduate to teach all mathematics courses at the secondary level (pre-algebra through calculus).
2. To provide, through example, models of teaching excellence and professionalism appropriate for educators in the field of mathematics.
3. To provide a foundation for higher studies should the student decide to pursue a graduate degree in mathematics or a related field.
4. To implement, practice and promulgate the professional and academic standards prescribed by the National Council of Teacher of Mathematics (NCTM) and the National Council for the Accreditation of Teacher Education (NCATE).

D. REQUIREMENTS FOR A MAJOR IN MATHEMATICS**DUAL DEGREE MATHEMATICS/ENGINEERING PROGRAM**

This program is offered by Bowie State University in conjunction with several other cooperating institutions (including The George Washington University, Washington, D.C.; the University of Maryland, Baltimore County; Howard University, Washington, D.C.; Morgan State University, Baltimore; and the University of Maryland College Park). Under this program, the student attends Bowie State for the first three academic years and the receiving university for the final two academic years. Upon successful completion of the Engineering sequence, the student receives a BS degree in engineering from the receiving institution. Then and only then does Bowie State University award a BS degree with a major in

Mathematics. The BSU phase of the program requires a minimum of 90 semester hours of course work: 36 in general education (see above), 27 in core requirements (see above) and 27 additional semester hours as outlined below. Very Important: Every student in the program is required to consult with the Dual Degree Math/Engineering Program Coordinator in the Department of Mathematics to map out the specific sequence of courses appropriate to his/her chosen specialty in engineering. Some specialized programs in engineering may require the student to take additional courses (or course substitutions) in the appropriate field before transferring to the receiving institution.

Special Requirements: Some specialized programs in engineering may require the student to take additional courses (or course substitutions) in the appropriate field before transferring to the receiving institution. For complete details, please consult the Dual Degree Math/Engineering Program Coordinator in the Department of Mathematics.

**RECEIVING INSTITUTIONS
(SELECTED PLANS)**

Bowie State University/The George Washington University Plan

A student who is admitted to Bowie State University and who successfully completes the Bowie State phase of the dual-degree in engineering curriculum will be recommended for acceptance into the George Washington University phase of the program to complete degree requirements in one of the following fields of engineering: civil, electrical, mechanical, or systems analysis engineering.

Bowie State University/University of Maryland, Baltimore County Plan

A student who is admitted to Bowie State University and who successfully completes the Bowie State phase of the dual-degree in engineering curriculum with a minimum GPA of 3.0 will be recommended for acceptance into the College of Engineering at the University of Maryland, Baltimore County. The student entering the program at the University of Maryland, Baltimore County, may choose from among the following engineering specialties: chemical and biochemical, computer, and mechanical engineering.

Bowie State University/Howard University Plan

A student who is admitted to Bowie State University and who successfully completes the Bowie State phase of the dual-degree in engineering curriculum with a minimum GPA of 3.0 will be recommended for acceptance into the College of Engineering, Architecture and Computer Sciences at Howard University. The student entering the program at Howard University may choose from among the following specialties: civil, chemical, electrical, and mechanical engineering and systems and computer science.

Bowie State University/University of Maryland College Park Plan

A student who is admitted to Bowie State University and who successfully completes the Bowie State phase of the dual-degree in engineering curriculum with a minimum GPA of 3.0 will be recommended for acceptance into the College of Engineering at the University of Maryland College Park. At the University of Maryland College Park, the student may choose from among the following engineering specialties: aerospace, agricultural, chemical, civil, computer, electrical, engineering materials, fire protection, mechanical, and nuclear engineering.

Bowie State University/Morgan State University Plan

A student admitted to Bowie State University who successfully completes the Bowie State phase of the dual-degree in engineering curriculum with a minimum GPA of 3.0 will be recommended for acceptance into the College of Engineering at Morgan State University. The student entering the program at Morgan State University may choose from among the following engineering specialties: civil, electrical, and industrial engineering.

COMPETENCIES (DUAL DEGREE MATHEMATICS/ENGINEERING PROGRAM)

Dual Degree Mathematics/Engineering Program Goals

1. To provide a sufficient level of mathematical preparation for students intending to pursue engineering degrees at cooperating institutions.
2. To provide a foundation for graduate study in Engineering or Applied mathematics.
3. To develop and cultivate the principles of mathematical reasoning and research which may be applied directly to a wide variety of industrial/engineering problems.

BIOLOGY		BS
BIOINFORMATICS		BS
SCIENCE EDUCATION		BS

Chair: Patricia P. Ramsey

Professors: Bradford Braden, William Lawrence, Patricia Pierce Ramsey

Associate Professors: Ray Moharerrzadeh, Deborah Rayfield, Steve Sheffield, George Ude

Assistant Professors: Alan Anderson, Eric Bonsu, Anisha Campbell, Uvetta Dozier, Neba Ngwa-Suh, Anne Osano, Tamara Tatum-Broughton

Lecturers: Florence Etop, Claude Ferrer, Mikhail Goloubev, Zelyn Richberg, Sahlemedhin Sertsu

MISSION

The mission of the Department is to assist the University in meeting its mission and goals by providing a quality education in science and technology, thereby enabling students to achieve their educational goals. Graduates of the Department will be provided opportunities that will assist them in adjusting to future changes and develop a sense of professionalism in their fields of study.

GOALS

1. To provide a quality education in biology, chemistry, and physics so that the students will be prepared to meet the challenges of an increasingly technological society.
2. To provide students an environment that encourages and fosters the attitudes and disciplines essential to professional growth.
3. To improve students' academic performance through careful advising, monitoring, and tutoring activities.
4. To create and foster environments for experimental and theoretical research among the faculty and to involve students in research assignments and projects under faculty supervision and through external research internships.
5. To prepare students for graduate studies or career assignments in government, industry, or education.

6. To maintain strong linkages with regional private and government institutions in support of the Department's educational and research activities.
7. To maintain the viability of programs through systematic and continuous evaluation and modification

Opportunities are given to upperclassmen to take liberal, scientific and technology-related fields; an advisor from his or her major field must approve each student's elective program.

REQUIRED EXAMINATIONS

All majors in the Department of Natural Sciences must take and pass the Bowie State University *English Proficiency Examination* after successful completion of ENGL 101 Composition and Literature I and ENGL 102, *Argument and Research*. Transfer students who completed their English composition requirements at another institution must take the Bowie State University *English Proficiency Examination* during their **First Semester** of enrollment at the University. As a graduation requirement, all science education majors must take and pass (according to the Maryland Department of Education passing score) both parts (Core Batteries and Specialty) of the PRAXIS Examination. All other degree candidates must take the specialty part of the Graduate Record Examination (GRE) or a recognized standardized test in their area of study.

BACHELOR OF SCIENCE DEGREE (BIOLOGY, BIOINFORMATICS, SCIENCE EDUCATION)

BIOLOGY

Upon completion of at least 34 required semester hours in biology courses plus 16 semester hours in biology electives, 20 semester hours in required chemistry courses, 10 semester hours in required physics courses, 4 semester hours in a required mathematics course, and approximately 37 semester hours of general education courses, a student will be awarded the BS degree in biology. The total number of semester hours needed to acquire the BS is approximately 120-121. Adequate pre-medicine and pre-dentistry courses are provided in the biology program to prepare students to enter medical and dental schools. Recent graduates of the Department are currently enrolled in schools of medicine, dentistry, veterinary medicine, podiatry, and other allied health and engineering and graduate schools.

Majors are required to earn a grade of "C" or better in all required biology, chemistry, and mathematics courses.

Because MATH 225 (Calculus I) or MATH 215 (Elements of Calculus) is the terminal mathematics course for majors in biology, this course must be taken at Bowie State University. Biology electives must be above the BIOL 101 level sequence. Students majoring in biology must meet two sets of requirements as outlined below:

I. CORE BIOLOGY AND RELATED SCIENCE COURSES

The CORE requirements (BIOL 102, 103, 105, 209) will serve as the prerequisites for all other biology courses offered in the major. CHEM 107 is the prerequisite courses for CHEM 108. Each prerequisite **MUST** be successfully completed with a grade of 'C' or better **BEFORE** enrolling in the Required Core Courses. Registration for BIOL 403 will **ONLY** be allowed during the senior year.

Students successfully completing the Required Prerequisite Courses, Required Core Courses and Biochemistry II qualify for a sub-plan in the field of chemistry.

PHYS 272	Physics II (calculus based) Lec/Lab	5

All required core courses must be completed with a grade of C or better.

CORE ELECTIVES

Core electives are to be selected from the course listing below. Students must include in their selection at least 15/16 semester hours at the 300-400 level with a minimum of 8 semester hours at the 400 level excluding BIOL 403 (Biology Seminar, a core requirement). Core electives must be successfully completed with a grade of "C" or better.

BACHELOR OF SCIENCE DEGREE IN BIOINFORMATICS

Program Description

Bowie State University's B.S. degree in Bioinformatics offers a multidisciplinary *deductive* view of Biology. Combining Experimental Biology, Mathematical Modeling of Biology from Molecule to system, and use of Information Technologies to develop or apply large data structures, Bioinformatics is rapidly developing into an applied science leading to solutions for problems which have been resistant to experimental methods.

The Bioinformatics curriculum is an intensive 4 year Honors program that will enable the graduate to pursue a career in these technologies or provide a strong framework for continuation to post-baccalaureate education.

Program objectives:

This program is designed to provide opportunities to the students to attain advanced knowledge in the application of computational and mathematical methods for the study of biomacromolecular systems. The specific objectives are:

- i) to provide students with a broad knowledge of the structure and function of macromolecules in biological systems
- ii) to develop students ability to understand and competently use the mathematical and computational tools which have been developed to understand and model the biology of macromolecules
- iii) to develop advanced educational skills to meet the demands of the biotechnology industry
- iv) to prepare students for, and foster an interest, in a post- baccalaureate education in the biology of macromolecules, biotechnology and bioinformatics

Program Requirements:

- i) Completion of Institutional General Education requirements as outlined in undergraduate catalog
- ii) Completion of requirements for a Bachelors degree in Bioinformatics with a letter grade of C or above.

Prerequisite Courses:

BIOL 102	General Biology	4

COLLEGE OF BUSINESS

Dean: Anthony C. Nelson, Ph.D.

MISSION

The mission of the College of Business is to support the goals and priorities of Bowie State University by providing traditional and non-traditional students in under-served communities within the county, state and nation, the skills required to strengthen the individual competencies in the different areas of specialization in business and public administration through curriculums of their chosen areas of concentration in an increasingly global market place which provides online education and “real world” experience. The college emphasizes academic excellence through technological innovation, integrity in teaching, professional development, outreach, applied and instructional research

GOALS

1. Develop programs and processes to enhance student learning, professional development and success.
2. Ensure use of relevant technology in all aspects of student learning.
3. Create and sustain an environment that is supportive of scholarly activities.
4. Develop collaborative research projects with public and private organizations.
5. Maintain a positive, collegial, supportive and conducive environment, in which the organizational structure and processes ensure efficient and effective operations and accountability.
6. Promote and improve the image and reputation of the College of Business with the intent of increasing external fundraising.
7. Develop and implement plans and programs that increase the placement of College of Business graduates and encourage businesses to recruit College of Business graduates.

DESCRIPTION OF THE DEPARTMENTS

The College of Business consists of three separate departments and a program in business technology. The three departments are:

- Accounting, Finance, and Economics
- Management Information Systems
- Management, Marketing, and Public Administration

The departments offer a Bachelor of Science degree in Business Administration with seven concentrations: Accounting, Banking and Finance, Economics, Business Information Systems, General Business, Management. In addition, the Management Concentration offers two specialty tracks: Small Business/Entrepreneurship and Industrial Relations.

The College of Business places special emphasis on excellence in teaching, research in teaching methodology and the learning process as a means of enhancing teaching excellence and improving instructional effectiveness. Computer application is stressed in all disciplines.

Entering students are required to successfully satisfy the requirements for the business mathematics proficiency course, BUAD-100*. Majors are required to earn at least a “C” grade in all courses in their major program. Graduating seniors are encouraged to take the national standardized Graduate Management Admission Test (GMAT) during the FALL semester of their senior year. After completing English Expository Writing (ENGL 101) and Argument and Research (ENGL 102), students must take and successfully pass the Bowie State University *English Proficiency Examination*. Transfer students who completed their English composition requirements at another institution must take the Bowie State University *English Proficiency Examination* during their **First Semester** of enrollment at the University.

Students are expected to familiarize themselves and comply with the College of Business and departmental graduation standards. Each student’s program is individually reviewed and may be adjusted to reflect the student’s academic background and career goals.

**The three semester hours for this course meet the proficiency requirement and do not count toward the 120 semester hours required for graduation. It is a prerequisite for Principles of Accounting (ACCT 211).*

MISSION

This Department provides students with competence in the key areas of accounting, banking and finance and economics. The students will gain the theoretical, analytical, organizational and technical skills needed to be successful in the domestic and international business environment.

DESCRIPTION OF THE DEPARTMENT

The Department of Accounting, Finance, and Economics offers a Bachelor of Science degree in business administration with three concentrations: Accounting, Banking and Finance, and Economics.

Entering students are expected to successfully satisfy the requirements for the business mathematics proficiency course by taking BUAD 100 (Business Mathematics). All majors are required to earn at least a "C" grade in all courses in their major program. Graduating seniors are encouraged to take the national standardized Graduate Management Admission Test (GMAT) during the FALL semester of their senior year. After completing *Expository Writing* (ENGL 101) and *Argument and Research* (ENGL 102), students must take and successfully pass the Bowie State University *English Proficiency Examination*. Transfer students who completed their English composition requirements at another institution must also take the Bowie State University *English Proficiency Examination* during their **First Semester** of enrollment at the University.

Students are expected to familiarize themselves and comply with the College of Business and their respective department's standards for graduation. Each student's program is individually reviewed and may be adjusted to reflect student's academic background and career goals.

ECONOMICS MINOR PROGRAM

Students majoring in areas other than business may pursue a minor in economics by taking 18 semester hours of 300-400 level economics courses. The eighteen semester hour do not include Principles of Macroeconomics (ECON 211) and Principles of Microeconomics (ECON 212), which are required general education electives.

COLLEGE OF EDUCATION

Dean: Traki Taylor-Webb

The programs in the College of Education are accredited by the National Council for the Accreditation of Teacher Education (NCATE) and approved by the Maryland State Department of Education. The School graduates competent teaching personnel for positions in local educational agencies within the State of Maryland and many other areas. Students majoring in early childhood/special education receive dual certification upon graduation. Students majoring in elementary education complete a comprehensive program of liberal arts studies and a concentration of professional courses in teaching.

MISSION

The mission of the College of Education at Bowie State University is to prepare instructional leaders of all races who are competent in their content specialty, grounded in the knowledge bases of their discipline, and sensitive to the ethnicity of the students they serve for positions in public and private schools in Maryland and school systems in other states. The School's teacher education program model rests upon a legacy of the best practices in the field of education and upon what research tells us about teaching and learning. Established in September 2000, the College of Education has adopted the following theme for its academic programs: "Preparing Competent and Caring Educators for a Diverse World." The School strives through its programs to develop candidates who become academic scholars, skillful instructional leaders, and reflective practitioners in the schools and communities in which they work. It focuses on productivity and accountability of faculty, professional development, and specific development within its three academic departments: the Department of Counseling; the Department of Educational Studies and Leadership; and the Department of Teaching, Learning, and Professional Development.

VISION STATEMENT

The College of Education has the primary responsibility for coordinating University efforts designed to prepare individuals to assume positions of teaching, counseling and educational leadership in P-12 school settings. This task is accomplished through the development and delivery of the School's professional curriculum and competent faculty. The undergraduate and graduate programs are structured to prepare professionals to meet the teaching-learning challenges of contemporary society. Based on a strong liberal arts foundation, the pedagogical curriculum prepares candidates to meet world class standards with the knowledge, skills and dispositions necessary to be effective and proficient professionals in a variety of education settings. Candidates master the use of technology as an instructional tool, assess students through the use of multiple approaches, and create positive learning environments for diverse populations.

GOALS

The overarching goals of the Bowie State University College of Education are to:

1. Provide a general education experience that includes theoretical and practical knowledge gained from studies in communications, humanities and fine arts, mathematics, science, and

Bowie State University 2012 -2013

social sciences;

2. Ensure, through a professional studies component, the transmission of knowledge about the social, historical, and philosophical foundations of education; theories of human development and learning; research and experience-based principles of effective practice; and the impact of technology and social changes on schools;
3. Provide a well-planned sequence of field experiences in diverse settings that enable candidates to relate professional knowledge to the realities of practice in schools and classes;
4. Offer opportunities for candidates to reflect upon the effectiveness of their teaching, to develop insights and judgments about what they do and why they do what they do, and to make decisions about teaching that will enhance pupil understanding and success;
5. Ensure, through courses and experiences, the development of critical thinking and values-based decision-making, effective communication, and positive professional collaboration in the educational arena;
6. Maintain the viability of its programs through systematic and continuous evaluation and modification; and
7. Maintain linkages with community stakeholders for the mutual benefit of the School and its departments, the University, and the community.

The College of Education at Bowie State University fosters exemplary teaching, supports scholarly research, and endeavors to improve the lives of the citizenry of the state of Maryland. Toward this end, the School offers contemporary, relevant, and service-oriented educational programs that are guided by the standards of excellence set forth by professional associations and accrediting organizations. The School offers a sequence of courses for secondary teaching majors and works collaboratively with the University's departments of Mathematics, Natural Sciences, English and Modern Languages, and History and Government to prepare secondary teachers. Since becoming a separate professional school within the Bowie State University structure, the College of Education has accomplished major goals in the areas of technology, marketing, retention, high-quality programming at the undergraduate and graduate levels, and professional development school partnerships.

ADMISSION TO THE TEACHER EDUCATION PROGRAM

After completion of appropriate courses, candidates are required to formally apply for admission to the Teacher Education Program. All candidates must schedule a formal interview with the Teacher Education Committee. Interviews are held each semester. Before admission is granted, a candidate's application for admission to Teacher Education must be formally approved by the Teacher Education Committee and signed by the Committee Chair. The Committee's decision is final. Candidates may be referred for additional course work, counseled into other non-teaching areas, or denied admittance to the program.

Criteria for admission to the Teacher Education Program

1. A grade point average of 2.5 in total course work.
2. Completion of a minimum of 32 semester hours.
3. Must pass the *English Proficiency Examination*.
4. Demonstrated proficiency in speech and writing.
5. Completion of EDUC 101, Introduction to Education, and EDUC 201, Human Growth and Development with a grade of "C" or better.
6. Must pass PRAXIS I (Reading, Writing and MATH) or 527 composite score, or SAT score or 1100 .
7. A typewritten, three-page autobiography, submitted at least a week before the interview, focusing *Bowie State University 2012 -2013*

on the following:

- a. Work experience
 - b. Special interests
 - c. Direct experience with children
 - d. Out-of-state travel experience
 - e. Philosophy of education
8. Submission of evaluation forms from two faculty members.
 9. Successful formal interview with the Admission and Retention Committee for Teacher Education.
 10. A letter of approval from the Chair of the Admission and Retention Committee.

English Proficiency Examination, PRAXIS I and PRAXIS II

All degree-seeking undergraduate teacher education majors must pass the Bowie State University *English Proficiency Examination*. Students are required to take this examination after the completion of ENGL 101 Composition and Literature I and ENGL 102 *Argument and Research*. The *English Proficiency Examination* is a prerequisite for several courses and a graduation requirement.

The PRAXIS I is a requirement for all candidates who declare education as a major. Scores from the PRAXIS I will be compared to the criterion set by the Maryland State Department of Education. Students not scoring at the acceptable criterion will be required to seek additional assistance. These students, under the direction of an advisor, will sign a contract to attend appropriate learning laboratories on campus and submit a work folio containing total hours and assignments completed.

Candidates must take PRAXIS I and PRAXIS II and achieve a passing score set by the Maryland State Department of Education in order to be certified by the State of Maryland. Passing scores on the PRAXIS I are prerequisites for several courses in the professional sequence, including methods courses and student teaching. Passing scores on all PRAXIS II related to the declared major are required for graduation.

Students have the option of taking EDUC 220, Test Criterion for Certification, and participating in the Student Teacher Education Preparation Program (STEPP) Laboratory. Both experiences are designed to maximize students' success on the PRAXIS I, however, students who take the PRAXIS I test and fail to pass the test must take EDUC 220 as a required course.

YEARLONG INTERNSHIP (PHASE II STUDENT TEACHING)*

To become eligible to student teach, a candidate must meet all of the Admission to Teacher Education Criteria and the following eight requirements at the time of application (one semester *prior* to student teaching):

1. Admission to Teacher Education.
2. Must pass the Bowie State University *English Proficiency Examination*.
3. Completion of a minimum of 100 semester hours.
4. Cumulative grade point average of 2.5 in the major and in all courses completed.
5. A grade of "C" or better in all professional sequence courses offered in the Department.
6. Completion of required education courses, method courses, Year Long Internship Phase I & II and PRAXIS I & II.

7. Passing scores on the PRAXIS I.
 - a. Reading. (passing score 177)
 - b. Writing. (passing score 173)
 - c. Mathematics (passing score 177)
 OR
 Minimum SAT score of 1100 or ACT score of 24
8. Passing scores on the PRAXIS II.

(Specialty areas)

 - a. Specialty Area (SA) is a graduation requirement. ECED/SPED majors must take two early childhood education tests and two special education content knowledge area tests.
9. Recommendation and approval for student teaching by the secondary department (secondary education majors only).

**Student teaching applications must be submitted to counties the semester before placement. All requirements must be fulfilled before initiation of the admission process.*

Year Long Internship Phase II

The final grade in the Year Long Internship Phase II must be a “C” or better. Phase II of the Year Long Internship experience is a non-paid, full-time public school experience in a Professional Development School (PDS). It is fulfilled in the county/city schools with which the University has a Professional Development School Agreement.

Second Bachelor’s Degree: Teacher Certification

Candidates who hold a baccalaureate degree and wish to become certified teachers must enroll as *second-degree* students. Each student also must schedule an interview with the Assessment Coordinator in the Department of Teaching, Learning, and Professional Development and obtain (prior to the interview) an evaluation of his/her transcript by the Maryland State Department of Education (200 West Baltimore Street, Baltimore, MD 21201; Attention: Division of Certification and Accreditation).

The Assessment Coordinator of the Department, with the Department Chairperson must advise all second-degree candidates. Second-degree candidates must meet the PRAXIS testing requirement and fulfill all of the course requirements of their selected major. In their first semester at the University, second-degree candidates also must pass the Bowie State University *English Proficiency Examination* and be admitted to teacher education.

Independent Study

Independent Study cannot be used to satisfy any of the General Education requirements. A student must receive permission from the Department Chair before being allowed to take *Independent Study*.

Field Experiences

The field experience components of EDUC 101, Introduction to Education, and EDUC 201, Human Growth and Development, cannot be taken within the same semester.

Certificate of Eligibility to Teach

A *Certificate of Eligibility for State Certification* is given to candidates who successfully complete all *Bowie State University 2012 -2013*

requirements of a Maryland state-approved teacher education program. The *Certificate of Eligibility* may be obtained by the applicant's employer or by the applicant directly from the Teacher Certification Division of the Maryland State Department of Education in Baltimore, Maryland.

ELEMENTARY EDUCATION PROGRAM

The Elementary Education Program prepares candidates for careers in elementary teaching. Candidates complete a comprehensive, multidisciplinary program of study and a sequence of professional courses in education, theory, and a method of elementary teaching. Candidates pursuing a degree in Elementary Education must complete 123 semester hours of course work.

The undergraduate program in Elementary Education has a three-fold purpose:

1. To give candidates a solid knowledge base that includes a multi-disciplinary academic program of study, knowledge of pedagogy, and knowledge of learners and their characteristics.
2. To give candidates an opportunity to practice a repertoire of best teaching practices.
3. To encourage in student's attitudes and skills necessary for reflection and problem solving, and an attitude and belief that "learning to teach" is a lifelong process.

EARLY CHILDHOOD/SPECIAL EDUCATION PROGRAM

The Early Childhood/Special Education Program is organized to provide prospective teachers with essential competencies needed to effectively meet the intellectual, emotional, and social needs of young children. The goal of the program is to prepare prospective teachers with the methodology, knowledge, and diagnostic skills imperative to meeting the diverse needs of typical and atypical primary students. The Early Childhood/Special Education Program views learning from a cognitive behavioral developmental perspective and universal design theory. Particular emphasis is placed on determining what the child already knows, while acknowledging the fact that many children will not have had experiences commensurate with their peers. The Program prepares prospective teachers to build on the child's strengths, background knowledge, and experiences. From this perspective, the child is conceptualized as an active learner who functions within a broader ecological context that includes the family, the community, and a culturally and linguistically pluralistic society. Upon graduation, early childhood/special education majors qualify for dual certification by the State of Maryland. Candidates pursuing a degree in Early Childhood/Special Education must complete 126 semester hours of course work.

SECONDARY TEACHING PROGRAM

Secondary Teacher Education may be selected as a track for candidates enrolled in departments with state-approved programs and with courses in the methods of teaching the major subject.

The Secondary Education Track is designed to buttress the theoretical knowledge base with sound educational classroom practices. The Secondary Education candidate has field experiences embedded in EDUC 101, Introduction to Education, EDUC 201, Human Growth and Development, and SPED 403 Orientation to Special Education. The methods courses are coordinated conceptually through the inclusion of a common core of teaching strategies and issues.

SPORT MANAGEMENT PROGRAM

The Bachelor of Science Degree in Sport Management is designed to address current deficiencies specific to the growing needs of the Sport Management Industry. The program is designed to provide opportunities for students to attain specific foundational training in the area of managing sports in society and also specialize in areas of concentrations associated with Sport Management. Bowie State University's program is also designed to produce sport managers who will contribute to the expansion of Maryland's competitiveness in the growing sporting industry. Furthermore, the management of sport programs is constructed to provide a comprehensive education with enrichment experiences that will enable students to develop the proper skills and necessary competencies needed for the public as well as the private work force sector settings.

PROGRAM REQUIREMENTS

The undergraduate course of study will require four academic years to complete. The total numbers of hours for completion of the degree will be 120 semester hours.

Students who transfer into the Sport Management program from other institutions or from majors within the University should expect to complete at least 54 – 60 hours of work within the Department, depending on the track, in addition to any unfulfilled University requirements.

DETAILED REQUIREMENTS (120 semester hours)

Students are required to earn 120 semester hours in three knowledge areas, general education (46 semester hours), Sport Management (47 semester hours) and a Concentration (27 semester hours). Students choose their concentration in consultation with their advisor.

WORKSHOPS IN EDUCATION

The Department responds to the changing educational needs of the Bowie State student and the school community in constructing timely workshops that address current issues. Any group wishing a particularly designed workshop or institute should consult the Department of Teaching, Learning, and Professional Development.

COLLEGE OF PROFESSIONAL STUDIES

Dean: Jerome Shiele

The College of Professional Studies, formerly a part of the College of Education and Professional Studies, was established on July 1, 2001. The School is composed of four departments: Behavioral Sciences and Human Services, Nursing, Psychology, and Social Work. It fosters exemplary teaching, scholarship and research, and service to the community through its professional academic programs. The College of Professional Studies embraces the University's core values—excellence, civility, integrity, diversity, and accountability—as well as service, social justice, and trust.

MISSION

The mission of the College of Professional Studies is to provide an array of service-oriented educational programs that are guided by standards of excellence as set forth by professional associations and accrediting organizations.

The academic programs empower students to become leaders by providing the foundations of essential theory and practice that prepare them for beginning roles in various service-oriented professions. Through interdisciplinary collaboration students learn to value diversity, think critically, and integrate technology into their preparation for study at the graduate level and for life long work.

VISION

The College of Professional Studies will empower future professional leaders to be life long learners and to serve humanity in a diverse and global society.

GOALS

1. Deliver competitive professional academic programs that ensure the integration of theory, practice, and technology to meet the needs of a diverse and rapidly growing global society.
2. Support student academic achievements to shorten time-to-degree.
3. Increase school and university resources through external funding sources and partnerships.
4. Initiate and sustain collaborative efforts to support faculty scholarship and research.

Assistant Professors: Charles Adams, Kim Barnett, Dorothy Fardan, Charla McKinzie, Freddie Vaughns, William Welch

Lecturers: Judith Fitzgerald, Barbara Lynch-Freeman, Petrina Shateen, Marcia Thompson

MISSION

The Department of Behavioral Sciences and Human Services is committed to the University's Mission Statement, Goals, and Objectives. The Department is dedicated (1) to providing its majors with general competence and skills in the behavioral sciences and human services as well as specific competencies and skills in their chosen areas of concentration and (2) to continuing its strong programs in both behavioral sciences and human services, while aggressively exploring linkages between the two perspectives that will enhance research and service to the metropolitan area, state, and region.

GOALS

Each of the units has specific goals and objectives. However the general departmental undergraduate goals are the following:

1. To offer an undergraduate experience in Sociology/Criminal Justice and Child and Adolescent Studies that enables students to acquire skills that enhance their employability in related occupations;
2. To provide an undergraduate experience that enables students to fully prepare for graduate training;
3. To provide directions, support, and stimulation to majors; and
4. To provide relevant service courses/programs to the University community.

DESCRIPTION OF THE DEPARTMENT

The Department of Behavioral Sciences and Human Sciences is composed of four undergraduate majors:
Bowie State University 2012 -2013

- Child and Adolescent Studies
- Sociology
- Criminal Justice
- Technology Criminal Justice/Law Enforcement

Child and Adolescent Studies and the Sociology major offer either a B.A. or B.S. degree. The B.A. degree requires 12 semester hours of a foreign language, while the B.S. does not. The Sociology with Criminal Justice Concentration major and the Technology Criminal Justice/Law Enforcement major offer B.S. degrees. The Technology Criminal Justice/Law Enforcement Track is limited to transfer students who enter Bowie State University with an associate's degree (60 semester hours) in a technology curriculum and who therefore need only 60 more of 120 semester hours towards completing a bachelor's degree. The department also offers minors in Sociology, Criminal Justice and Child and Adolescent Studies.

THE CHILD AND ADOLESCENT STUDIES MAJOR

This major introduces students to the scientific study of the life, development, and socialization of children and adolescents. The Child and Adolescent Studies Program is an interdisciplinary undergraduate program that prepares the student for a wide range of research, assessment, evaluation and management opportunities in institutions and agencies serving children and adolescents, such as: juvenile correctional institutions, Head Start administration and programs, counseling centers, children's hospitals and hospices, daycare centers, schools, social welfare agencies, adoption agencies, youth centers, clinical settings, street outreach, transitional living, entrepreneurship, and more.

Majors are required to earn at least a "C" in all courses in their major. Seniors also are required to perform a year of field placement. After completing ENGL 101 and ENGL 102, *Expository Writing and Argument and Research*, students must take and successfully pass the Bowie State University *English Proficiency Examination*. Transfer students who complete their English composition requirements must take the *English Proficiency Examination* during the **First Semester** of enrollment at the University. Exceptions to, or substitutions for, the following major requirements are considered only through a formal process of departmental recommendations. To receive a degree in Child & Adolescent Studies, the student must complete 120 hours.

MISSION

The mission of the Department of Nursing is to provide quality academic programs that offer learners the opportunity to expand their knowledge base and pursue advanced study. The nursing curricula prepare professional nurses who demonstrate excellence in practice, apply ethical principles, display leadership skills, think critically, value diversity, and participate in research, scholarship, and community service. The Department of Nursing is committed to increasing the number of underrepresented minorities in the nursing profession.

The Baccalaureate Nursing Program is approved by the Maryland Board of Nursing.
The Baccalaureate Nursing Program is accredited by the National League for Nursing Accrediting Commission.

Department of Nursing Goals

Bowie State University 2012 -2013

- Provide quality programs supportive of the learning needs of students
- Maximize opportunities to support recruitment, access, and retention efforts for students
- Promote local and regional workforce development
- Promote effective and efficient use of departmental resources

PROGRAM OVERVIEW

Bachelor of Science in Nursing

The Department of Nursing offers a Bachelor of Science in Nursing (BS) for students interested in becoming a professional nurse. Students may select from a tradition track or an accelerated track. Transfer and second degree students are encouraged to select the accelerated track. Graduates of this program are eligible to take the state licensure examination to become registered nurses.

A Baccalaureate Nursing completion program for Registered Nurses (with a Maryland license) is also offered. In the baccalaureate program, students acquire a sound liberal education with content from the social sciences, arts, humanities, sciences, and computer science. The curriculum provides students with comprehensive nursing knowledge and skills.

Graduates will be critical thinkers who have the ability to provide nursing care in a variety of healthcare settings, assume leadership roles, and adapt to the changing healthcare environment. The baccalaureate program provides a foundation for graduate education. To complete a BS degree, the student must complete 121 – 123 CREDITS, depending on the program.

Baccalaureate Curriculum Program Outcomes

Upon completion of the baccalaureate nursing program, the graduate will be able to:

1. Evaluate the impact of caring behaviors on patient outcomes.
2. Appraise the effects of communication techniques on proposed outcomes.
3. Appraise the effectiveness of culturally congruent care on client outcomes.
4. Evaluate the outcomes of ethical dilemmas in client care situations.
5. Appraise health policies and proposed laws that effect nursing practice.
6. Integrate critical thinking with independent judgment to promote optimal wellness to families and communities.
7. Evaluate as a leader, the concepts of power and empowerment and autonomy and advocacy in managing nursing practice.
8. Compares and contrasts leadership styles within the nursing structures and health care systems in reference to sociocultural, political, economic, legal, and ethical influences.
9. Utilize research findings for decision-making and rationale for nursing interventions.
10. Critique components of research studies.
11. Assume accountability for meeting the changing health care needs of diverse populations representing the global community, through the continuation of personal, professional, and educational development

Baccalaureate Nursing Student Policies

The policies in this section of the handbook are applicable to *baccalaureate students* enrolled in the nursing programs. These policies are consistent with and supplement Bowie State University policies. The *Bowie State University Undergraduate Catalog* is the principle document governing policies and procedures for students. The Office of Student Services also provides a student handbook, *The Agenda*. Students are responsible for accessing and reviewing the documents that govern undergraduate students.

Admission Policies

BS NURSING ADMISSION REQUIREMENTS

Incoming Freshmen:

High School - College Preparatory program

- GPA 3.0 average in High School Math (Algebra, Geometry, Algebra 2, Pre-Calculus)
- GPA 3.0 average in High School Sciences (Biology, Chemistry, Physics, or other advanced science courses)
- Eligible to enroll in Math 141 based on Math placement tests at BSU
- Submission of an application to the Department of Nursing in the spring semester

Transfer students and those who were not eligible for admission in the freshmen year may apply during the SPRING semester for a FALL admission into the sophomore year of the nursing program. The admission criteria effective for students admitted into the sophomore year:

- Students should have completed the freshmen year of courses according to the progression plan for traditional baccalaureate students with an overall GPA 2.75 and 2.5 GPA in Science prerequisites.
- Required science courses completed within 5 years of admission date
- Students will submit an application to the department of nursing in the SPRING semester.
- Students who are admitted to the program and have not taken NURS 101 must successfully complete NURS 101 during the SUMMER session prior to the FALL sophomore entry.

The admission process is competitive with a maximum admission of 120 students to upper level nursing courses.

ACCELERATED BS NURSING ADMISSION REQUIREMENTS

Second degree and transfer students:

- Must have successfully completed all general education courses required for the baccalaureate nurse program
- Must have a 3.0 cumulative GPA
- Must have a 3.0 cumulative GPA in science and math courses
- Science courses completed within 5 years of admission date
- Must have evidence of success as a fulltime student (12 or more credits in one semester)

This program begins in the SUMMER and requires year round study for 18 months.

There are a designated number of admissions established each year.

RN to BS Admission Requirements

- Licensure as a Maryland RN
- Admission to Bowie State University
- Completion of Nursing Prerequisites
- Minimum cumulative GPA of 2.0
- Submission of the RN to BS application

General Policies

Academic Honesty and Dishonesty- Nursing students are expected to conform to a strict standard of academic honesty. In addition to the Bowie State University Undergraduate Catalog, academic dishonesty includes exhibiting unethical or illegal behaviors including falsification of documents. Students are required to sign the Academic Honesty and Dishonesty form, which is placed in the student's academic folder in the nursing department. Students will be recommended for dismissal from the nursing program when academic dishonesty is confirmed. Please refer to the BSU Undergraduate Catalog for policies about academic dishonesty.

Communication Methods – The faculty and staff provide program and curriculum information through the use of Bowie email accounts, ANGEL, and the Nursing Department web site. Students are expected to review these electronic sources at least weekly. Technology is an integral part of the nursing curriculum.

Financial Aid – Financial assistance at BSU is available through various sources. Opportunities are available to students to receive funds if they meet the specified criteria. Personnel in the Financial Aid Office will assist students in exploring financial assistance for which they may be eligible. The Financial Aid Office is located in the Henry Building.

Governance – It is expected that students will participate in governance within the Department of Nursing (DON) and in the University. The mechanism for participation in governance of the University is through the BSU Student Government Association. The mechanism for participation in the governance of the department of nursing is through the Student Nurses Association and student representation on the DON Curriculum Committees. Input from students is encouraged and welcomed regarding the courses and activities of the DON. It is therefore the responsibility of students to serve as representatives to the Undergraduate Curriculum Committee. The Student Nurse Association will hold elections annually, in the FALL to select representatives to the Undergraduate Curriculum Committee (UCC). The Student Nurse Association shall elect one student representative from each cohort admitted. The Student Nurse Association shall have one vote through its collective student representatives.

Office Hours – The Department of Nursing Office is open Monday through Friday from 8:30 a.m. until 5:00 p.m. All faculty maintain office hours, which are listed on course syllabi. A listing of the office hours for each faculty member is available for review in the nursing office, and also on the bulletin board next to the office door of the faculty member.

Request for Leave of Absence – Students may request a leave of absence for personal or family medical emergencies. Students requesting a leave of absence for medical emergencies must have official documentation to support the request. The request must be made in writing 14 days prior to the start of the intended leave. The student must also meet with their advisor regarding this request. The approval for the leave request will be made by the Faculty Organization. Student progression in the nursing program will be based on course availability.

Required Fees – Throughout the nursing program, students are required to pay for the following items:

- Assessment Technologies Institute (ATI)
- Nursing Exit Exam
- Comprehensive Exit Exam
- Clinical Laboratory

These fees are collected as part of the semester charges and are in addition to any and all charges for tuition, room, board, and other general BSU student fees.

Course Policies

Class Attendance – Students are expected to attend and to participate in all class sessions. Students are required to notify faculty of absences or delays. Students are responsible for all academic content covered at all times.

Clock Hours and Credit Hours – In lecture courses one credit hour is equal to a 50 minute time period per week. In clinical courses one credit hour is equal to four (4) clock hours of clinical per week. In lab courses one credit hour is equal to three (3) clock hours.

Cancellation of Classes – Any cancellation of classes by the University is broadcast over local radio and television stations. When classes are cancelled clinical experiences are also cancelled.

Grading Criteria – The grading scale for undergraduate students in the Department of Nursing is as follows:

A = 92 – 100
B = 83 – 91
C = 75 – 82
D = 68 – 74
F = below 67.5

Late Assignments – Assignments turned in late will not receive credit unless a specific authorization has been granted by the faculty for health or other reasons. In the event of illness or emergency, students are responsible for making arrangements with the appropriate faculty member.

Progression Policies

Progression – Nursing course content is planned in a sequential manner so that each course builds upon previous course content. Students must complete all courses sequentially as outlined in the progression plan. Students must be enrolled into the corresponding clinical nursing courses when enrolled into the didactic course. Students must satisfactorily complete the clinical and didactic courses to progress to the next level. Students who are unsuccessful in one of the courses must retake the didactic and corresponding clinical course.

In order to progress in the nursing program, students must earn a “C” or better in the general education courses.

Progressive testing with standardized exams will be used to evaluate student competence of completed course materials. Opportunities for online practice prior to each exam will be provided. Two attempts are allowed for each exam. Students must achieve minimal proficiency level in order to progress in the nursing program. Students who are unsuccessful after two attempts, but have successfully completed the course must complete 20 hours of remediation.

Students must complete the nursing program within five (5) years from the date of admission into the nursing program.

Academic Standing – All students are required to complete a minimum of 62 CREDITS in the nursing major according to the progression plan. Nursing students must earn a grade of “C” or higher in all nursing courses and maintain a 2.5 grade point average (GPA) to be in good academic standing.

Student Advisement – All students must meet with their advisor to prepare for registration each semester and in a proactive manner throughout the semester. Advisement sessions are used for planning student progression, discussing professional issues and concerns, and obtaining assistance that may be needed. Students are encouraged to make an appointment for advisement.

Academic Warning – Students earning a grade less than “C” in a nursing course at mid-term must meet with the course faculty member to develop a written plan of action to assist the student to improve academic standing. The plan of action will be documented on the progress report form. This document is placed in the student’s Department of Nursing record and the student receives a copy. Students will receive a mid-semester grade.

Dismissal from the Program – When a student is recommended for dismissal from the nursing program, the Department Chairperson will provide written notification of dismissal. Students dismissed for academic reasons may apply for admission to the nursing program after one academic year. Students will be recommended for dismissal from the undergraduate nursing program under the following conditions:

1. Earning a grade lower than “C” in two different nursing courses or in one repeated nursing course.
2. Failure to meet the requirements for progression.
3. Earning a grade of “W” or an “AU” in three nursing courses.
4. Exhibiting conduct that is unprofessional, incompetent, unethical, or illegal in the clinical/practicum settings as outlined by the *American Nurses’ Association Code for Nurses*, the *DON Academic Honesty and Dishonesty* document, and the clinical agency policy.
5. Cheating on examinations, plagiarism, or improper documentation or falsification of clinical activities as outlined in the *BSU Undergraduate Catalog* and the *DON Academic Honesty and Dishonesty* document.
6. Performance in an unsafe manner while providing care to a client. (*In addition, the student will be immediately removed from the clinical area.*)
7. If any student presents to the clinical area chemically impaired by drugs or alcohol. (*In addition, the student will be immediately removed from the clinical area.*)

Grade Appeal – Students should follow the procedures outlined in the BSU Undergraduate Catalog for grade appeals.

Grievance Policy – Students should attempt to resolve all grievance issues at the lowest level. Discuss the issue with the faculty. In the event that the issue needs further review, the chain of command within the DON should be followed. If there is no resolution within the DON, then sources outside the Department may become involved. The grievance process pertains to all matters except grades. The

time frame for initiating a grievance is within five (5) weekdays of the event. The process must be followed in the sequence listed:

Grievances of Clinical Faculty decisions - if not resolved at this level notify Course Coordinator of continuation of the grievance process within 5 weekdays of the event.

Grievances of Course Faculty decisions or any progression issues - if not resolved at this level notify the Program Coordinator. Students will submit their version of the grievance typed and include a description of the original event. The program coordinator will review the issue and determine if it should be forwarded to the APG committee. If the grievance is moved to the next level, the program coordinator will inform the student, faculty, and APG committee. A summary of all activities that have occurred will also be forward to the APG committee.

Submit to the chair of APG committee.

Admission Progression and Graduation Committee (APG) Chairperson within 5 weekdays of the decision.

The APG Committee may invite other nursing student representatives to hear grievances related to clinical practice. The recommendation of the APG Committee will be referred to the DON Faculty Organization for final decision.

Prior to rendering a decision, the Faculty Organization will may invite the student to present all documents and other evidence during the Faculty Organization meeting. A decision will be rendered within 30 days.

Students who wish to continue the grievance process outside of the DON must follow the BSU policy related to grievance.

Chain of Command beyond the DON

- Dean, College of Professional Studies
- Provost and Vice President for Academic Affairs or Designee
- The President

Application for Graduation – Students who anticipate meeting all requirements for graduation must apply for graduation by the deadline date as posted by the University Registrar on the BSU website. The University establishes graduation fees and set deadline dates. The Office of the Registrar can assist you in matters related to this issue.

English Proficiency Examination – The English Proficiency Examination (EPE) is a graduation requirement that must be satisfied by all students receiving a bachelor’s degree from BSU. All students should take the examination upon completion of English 102. However, transfer students who completed their English requirements at another university should take the examination during their **First Semester** of enrollment at Bowie State University. Students must successfully complete the English Proficiency Exam prior to enrollment into nursing courses with clinical experiences.

Graduation Requirements – Graduation requirements for the Bachelor of Science in Nursing (BS) degree are:

1. Successful completion of all general education and prerequisite course requirements.

2. Successful completion of the English Proficiency Examination.
3. Completion of all nursing course requirements and electives as specified by the DON.
4. Completion of a minimum of 120 credit hours with a minimum cumulative GPA of 2.0 on a 4.0 scale and a minimum grade of "C" in all Nursing courses. Refer to the Undergraduate Catalog for a discussion of quality points and grade point averages.
5. Successful completion of the Department of Nursing Comprehensive Exit Examination.
6. Submission of the Application for Graduation.
7. Clearance of all financial obligations by the Business Office.

Exit Survey – Graduating students will participate in an exit survey during their final semester of study. The survey is designed to obtain information about your experiences in the nursing program.

Clinical Policies

Students are expected to abide by the policies of the healthcare facility and the Department of Nursing. The clinical nursing faculty must know the location for all students during the entire clinical period. Students are not to leave the grounds of the healthcare facility without approval. This includes lunch breaks and early dismissals.

Clinical courses must be taken concurrently with the corresponding theory course. All undergraduate students must achieve a grade of "C" or above in the theory course and clinical course in order to progress to the next level in nursing.

Lateness/Absence

Students are expected to report to the clinical setting on time (specific time as defined by the faculty in the course). Students must provide appropriate notification of lateness or absence to the clinical instructor, preceptor, and/or clinical site. If a student is late, the clinical instructor or preceptor has the right to tell the student that they cannot participate in clinical activities for that day. Lateness will be converted to absences. The following formula will be used to convert lateness to absences:

2 Occurrences of lateness in a 2 credit course = 1 absence

Two Absences may result in failure of the clinical course. Clinical absences must be made up per instructor requirements.

Insurance

All students are required to have health insurance coverage. Fulltime students may purchase health insurance through the University.

All students are required to be covered by professional student liability insurance. The University purchases insurance on the student's behalf. Fees for the insurance are included in the student's tuition bill. **Registered Nurse** students are also encouraged to independently purchase professional liability insurance.

Students may purchase liability insurance from any company of their choosing. The following company provides insurance policies for nursing students.

NSO (Nursing Service Organization) Malpractice Insurance
159 E. County Line RD
Hartford, PA 19040
Phone: 1-800-247-1500 Fax: 1-800-739-8818 Email: service@nso.com

Health Requirements

The Department of Nursing (DON) does not discriminate on the basis of physical disabilities. However, any applicant with a physical or emotional problem that may impact clinical or classroom performance must notify the academic advisor in the DON upon submission of application to the DON.

The DON requires submission of the following information prior to enrolling into clinical nursing courses:

1. The completed BSU Department of Nursing Physical Examination/Health History Form
2. Immunization – Documentation of vaccination or immunity required
 - a. Polio series completed
 - b. DTP series completed
 - c. Tetanus Booster: Td within 10 years of completion of DTP series, and thereafter
 - d. MMR Titer or MMR Vaccinations #1 and # 2 if you are non-immune
 - e. Hepatitis B Series – 3 doses (Strongly Recommended) or a Signed Waiver
 - f. Varicella Titer or Varicella Vaccination if you are non-immune
3. Current Documentation of negative PPD (within one year) or documentation of a normal Chest X-ray within the last five years.
4. Completed criminal background clearance through PreCheck Services (\$49.50). Information for online application will be provided in the Department of Nursing.
5. Urine drug screen may be required by healthcare facilities through PreCheck Services (\$46.50). Information for online application and payment will be provided by the Department of Nursing.

Some services, including PPD tests and immunizations are available to students at the Wellness Center on campus for a nominal fee. Contact the wellness center at (301) 860-4171 for more information or to schedule an appointment.

Professional Documentation for Clinical Experiences – Prior to starting the clinical all students are required to submit and maintain a copy of:

1. Documentation of current CPR certification (American Heart Association BLS – Health Care Provider course)
2. All students who are Registered Nurses are required to maintain a current Maryland nurse's license that substantiates their legal standing for the practice of nursing and current nurse liability insurance.
3. Student Nurse Liability Insurance may also be required for traditional nursing students.

All of the above documentation must be submitted to the course faculty by the date assigned. The deadline will be strictly enforced; there is no grace period. Students will be notified in writing if they do not meet the above requirements. Students will not be allowed to attend

clinical if the above requirements have not been met (these will be counted as absences/ see absence policy).

Clinical Course Policies – The following policies apply to BS clinical courses:

1. Students must pass a dosage test prior to start of clinical in the junior and senior year nursing courses.
2. Clinical site assignments for students are made at the discretion of the course faculty member.
3. If the student is placed in an agency where he/she is employed, the clinical assignment will not be on the unit where he/she is employed.
4. Students are responsible for their own transportation to clinical sites. The DON uses a variety of healthcare agencies for clinical placements. These agencies are located in the Baltimore-Washington metropolitan area.

UNIFORMS

All Students

All students will purchase the designated BSU nursing student uniform (pants with tops or dress, and lab coat) with BSU patch in the semester before beginning clinical. The BSU patch must be sewn on the Left sleeve at the shoulder line.

1. Identification badge with student's name and picture must be worn at all times
2. Hair must be worn above the uniform collar. If hair length is below the collar, it must be worn pinned up or tied back.
3. Full length white lab coats or washable white or navy blue sweaters may be worn in the clinical area. Students are expected to remove their sweater or lab coat when providing direct client care.
4. Fingernails must be without polish and no longer than $\frac{1}{4}$ of an inch. Polished, designer and artificial nails are not permitted.
5. Jewelry is limited to one pair of stud earrings, wedding rings, & watch.
6. Students must maintain appropriate personal hygiene; strongly scented cosmetics are not permitted.
7. All white leather shoes with closed toe and closed, low heel are required.
8. Lab coats must be worn when not in uniform during visits to the clinical areas when care will not be given. Name pins and the DON patch must be worn on the lab coats and students must introduce themselves to staff.
9. Blue jeans may NOT be worn under lab coats.
10. Lab coats must be white and full length.
11. Lab coats must be worn in the nursing lab during simulation and when practicing skills.

Women

1. All skirts or dresses must be at an appropriate length for bending and stretching activities. Students will be dismissed from clinical if the instructor considers the uniform too short.
2. Pantsuits may be worn.
3. A full length non-cling slip must be worn under the uniform dress.
4. White stockings or panty hose are to be worn with dresses.

5. White knee high stockings may be worn with pants.

Men

1. White pants and top.
2. Pants must be fitted and an appropriate length.
3. White socks must be worn with pants.

Uniforms during Community Health and Psychiatric Mental Health Experience

Nursing students adhere to the course-specific uniform policy. Information regarding the policies will be given to students by course faculty.

Failure to adhere to these uniform requirements may result in dismissal from the clinical area, and will be reflected in the clinical evaluation.

Equipment Required for Clinical Experiences

1. A watch with a sweep second hand.
2. A stethoscope with bell and diaphragm.
3. Black ink pen.
4. Other equipment as specified in the course syllabus.

Accidents During Clinical Experience

If a nursing student is injured during the clinical experience he/she should report immediately to the faculty and charge nurse on the unit. Students may be required to go to Employee Health or the Emergency Department depending on the severity of the injury and the policies of the agency.

Fees for these visits may not be covered by the agency and students are required to maintain their own health insurance.

Reporting of Illness/Absence

1. It is the responsibility of the student to follow the course instructor's procedure to report absence due to illness.
2. When the student is hospitalized, the DON must be notified immediately.
3. Students who have experienced a hospitalization or extensive illness (3 days) must submit to the course faculty in writing, an official statement from the health care provider permitting return to clinical practicum.

Pregnancy

1. A student who is pregnant may continue in clinical experiences as long as her health status is satisfactory and she is able to complete her clinical assignments.
2. Students who are pregnant should consult with the faculty member in advance of their clinical assignment. Some agency regulations determine assignments during pregnancy.
3. For the safety of the student who is pregnant, she must not enter areas where radioisotopes or x-ray therapy is being administered.

4. Students who deliver during the semester must present in writing an official statement of health clearance from the health care provider permitting return to clinical practicum.

Standard Precautions

Students are required to implement Standard Precautions in all clinical settings where they may come into contact with blood and other body fluids. Standard Precautions should be used when in contact with human tissues, cerebrospinal, synovial, pleural, peritoneal, pericardial, and amniotic fluids. Students who are exposed to body fluids while in the clinical/practicum setting should notify the preceptor, responsible faculty, and the appropriate supervisory person in the agency. The student should follow-up with procedures available for employees of the clinical facility. This includes the right to request patient testing, individual counseling, and obtaining follow-up information for health care.

Procedures for Handling Blood and Body fluids:

1. Handle all blood and body fluids following Standard Precautions.
2. Wash hands and other skin surfaces before and immediately after contact with body fluids.
3. Wear protective barriers appropriate for the procedure being performed when anticipating exposure to body fluids.
4. Use gowns for splashes, goggles and masks for splatters, and gloves when handling fluids.
5. Do no recap or manipulate needles or sharps in any way. Place them immediately in puncture resistant containers after use.
6. Place resuscitation equipment where respiratory arrest is predictable. Refrain from direct client care if you have exudative lesions.

The Department of Nursing reserves the right to update and change the above policies at any time. A copy of the policies is posted on the department's web site. It is the students' responsibility to stay current and informed of the changes. If any changes occur, students will be notified and they will be able to view the changes on the department's web site. Significant changes made to the policies will require students to sign and date a new acknowledgement form. All new nursing students are to read the policies and sign and date the acknowledgement form attached. This must be submitted on your first day of class.

Academic Honesty and Dishonesty

There is an expectation that academic honesty is upheld in the University and the Department of Nursing (DON).

Academic honesty is defined by the DON as academic activities that are truthful and authentic. Academic dishonesty is defined by the DON as academic activities that are deceitful. Academic dishonesty includes cheating on examinations, plagiarism, unauthorized collaboration with others on assignments, and submitting without authorization duplicate assignments for credit in more than one course. Academic dishonesty also includes exhibiting unethical or illegal behaviors, and falsification of documents and clinical activities.

Plagiarism is the act of representing another's ideas, words or information as one's own. Every student writing a paper should be aware of the following principles:

- All directly quoted materials must be identified as such by quotation marks. The sources of this material must be acknowledged.
- When borrowed ideas or information is not directly quoted by a student, the student should have so assimilated this material so that it is clearly being expressed in his/her own words. Just as in the case of direct quotations, the sources of such borrowed ideas or information must be acknowledged.
- The sources of ideas or information lying well within the realm of common knowledge (i.e. material that would be known by anyone familiar with the subject under discussion) need not be acknowledged.

Students who are academically dishonest will be recommended for dismissal from the program.

I have read and understand the above statements regarding academic honesty and dishonesty and agree to adhere to the statements.

DEPARTMENT OF PSYCHOLOGY		
MAJOR	CONCENTRATION	DEGREE OFFERED
PSYCHOLOGY		BA, BS

Chair: Cheryl H. Blackman

Professors: Patricia Westerman

Associate Professors: Cheryl H. Blackman

Assistant Professors: John Bryant, Erica Hernandez, Katrina Kardiasmenos, Ometha Lewis-Jack, Ayanna Lynch

Lecturers: Cornelia Brooks, Christine Harrell

MISSION

The Department of Psychology is committed to the mission, goals, and objectives of the University. The department prepares students for leadership in a global community through the development of their knowledge and skills in the history and theories of psychology, human development, and understanding of individual differences. Research and field experiences prepare students for graduate education and professions in psychology.

GOALS

1. To provide a high quality education to students so that they are prepared to enter graduate or professional schools.
2. To prepare students for graduate studies by providing a general psychology experience that includes theoretical and practical knowledge about the discipline.
3. To provide a well-planned sequence of field experiences in diverse settings that enable students to relate professional knowledge to the understanding of self, others, societies, and cultures at large.
4. To create and foster an environment for research among faculty and encourage student research under the supervision of the faculty.
5. To maintain a rigorous program through expansion and continuous revision of the undergraduate curricula.
6. To provide relevant service courses to the University community.

DESCRIPTION OF THE DEPARTMENT

The Department offers two degree programs in Psychology: a Bachelor of Science (BS) and a Bachelor of Arts (BA). These programs are designed to prepare students for graduate school in major areas of Psychology such as Clinical, Developmental, Experimental, and Social. Also, they meet the academic needs of students who are preparing for careers in health and education. Professionally-oriented courses, research experiences, practica, and close faculty-student mentoring are emphasized as a means of enabling students to reach their academic and professional goals.

Students who major in psychology may choose to pursue either the BA or the BS degree. The total number of semester hours required for an undergraduate degree in Psychology is 120. The BA degree program consists of 40 semester hours of psychology in combination with the study of a foreign language (12 semester hours).

The BS degree program provides intensive para-professional training in psychology. In this program, 52 semester hours in psychology provide students with skills in such areas as psychological measurement and research methodology, including computer assisted data analysis. Practical experience is gained through practicum placements in mental hospitals, social service agencies, counseling practices, government offices, research institutions, and other professional settings.

Psychology majors must earn a "C" or better in all psychology courses in their major program. After completing ENGL 101 and ENGL 102, *Argument and Research* and *Expository Writing*, students must take and successfully pass the Bowie State University *English Proficiency Examination*. Transfer students who completed their English composition requirements at another university must take the *English Proficiency Examination* during their **First Semester** of enrollment at the University.

Exceptions to, or substitutions for, the following major requirements are considered only through a formal process of departmental recommendations.

MISSION

The Social Work Program’s mission is congruent with the University’s mission. The primary mission of the baccalaureate Social Work Program at Bowie State University is to offer a sound educational program that is designed to prepare students with the values, knowledge, and skills for entry into the social work profession as generalist practitioners. Students are expected to have a commitment to improving human conditions, a desire for promoting social justice for vulnerable and oppressed persons and a desire for engaging in scholarly research and critical thinking concerning societal issues and social problems. Students who complete the program are not only prepared to work with diverse and multilevel client systems as generalist practitioners, but they are also equipped to continue their education at the graduate level.

Consistent with the mission of Bowie State University, the Social Work Program serves a diverse population, reaching students in the southernmost tip of Maryland. It is the only social work program in the University of Maryland System located in the Washington Metropolitan Area. Social work majors at Bowie State University reflect the University’s commitment to honor its heritage of providing access to higher education for African Americans and other under-represented populations. The students enrolled in the Social Work Program include a substantial number of nontraditional undergraduate students who are employed in the field of human services while pursuing their degrees primarily through evening course offerings.

The strength-based, problem-solving/planned change process model, combined with an ecological approach, provides the underpinnings of the social work curriculum. Also reflecting societal demands, requirements for classes in professional writing, Spanish, and American Sign Language have been added to the curriculum.

GOALS

The goals of the Social Work Program at Bowie State University reflect the purposes, values, and ethics of the Social Work profession.

1. Prepare graduates as competent entry-level generalist practitioners who can effectively work with individuals, families, groups, communities, organizations, and particularly African Americans and other groups that experience oppression and discrimination.
2. Prepare graduates to analyze and address social and economic justice issues.
3. Prepare graduates for generalist social work practice demonstrating values, ethics, standards, knowledge, and skills that guide the profession.
4. Prepare graduates for continued professional development.
5. Prepare graduates as critical thinkers throughout their professional careers.
6. Prepare graduates for practice with diverse populations and populations-at-risk.

BACHELOR OF SCIENCE IN SOCIAL WORK

The Social Work Program is a four-year program that offers both theoretical and practical learning experiences designed to prepare graduates for entry-level professional social work practice. Using a generalist's approach, Social Work majors must be able to utilize a variety of modes of intervention in the framework of a problem-solving practice model. The Social Work Program will enable the graduate to move into one of several employment areas or to continue studies at a graduate school of social work. A student pursuing a Bachelor of Science Degree in Social Work is not expected to take a minor. The major consists of 46 hours in Social Work. The Program is accredited by the Council on Social Work Education. Social Work majors must obtain a minimum grade of "C" in all of their social work courses. Grades below a "C" within the major are not accepted for credit toward graduation.

After completing ENGL 101 and ENGL 102, Composition and Literature I and II, students must take and successfully pass the Bowie State University *English Proficiency Examination*. Transfer students who completed their English composition requirements at another institution must take the Bowie State University *English Proficiency Examination* during their **First Semester** of enrollment at the University. The Social Work curriculum consists of the General Education and Institutional Requirement courses, Social Work content courses, and courses from the related social science disciplines. The Social Work content phase of the curriculum consists of those areas of core knowledge that form the foundation of professional preparation. The program places great emphasis on its field instruction practicum courses that provide students with the necessary opportunities to translate theory-based learning into practice. Exceptions to, or substitutions for, the following major requirements are considered only through a formal process of program/department recommendations. To receive a BS in Social Work, the student must complete 120 semester hours.

COURSE DESCRIPTIONS

ACCT: ACCOUNTING COURSE DESCRIPTIONS

ACCT 211 PRINCIPLES OF ACCOUNTING I (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): BUAD 100, MGMT 101. This course focuses on accounting principles, conventions, and concepts underlying financial reporting. Emphasis is placed on the accumulation of financial data, the processes of organizing it for presentation, and its use by managers for decision-making.

ACCT 212 PRINCIPLES OF ACCOUNTING II (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite: ACCT 211. This course focuses on accounting principles, conventions, and concepts underlying financial reporting. Emphasis is placed on the accumulation of financial data, the processes of organizing it for presentation, and its use by managers for decision-making.

ACCT 311 INTER ACCOUNTING I (FALL, SPRING) 3 CREDITS

Prerequisite(s): ACCT 211, 212. These courses are a comprehensive study of the current accounting theories supporting the generally accepted accounting principles. The focus will be on problem solutions relating to the classification and evaluation of all accounts associated with the various types of accounting systems and their proper inclusion in the published financial statements, including a review and an understanding of all pronouncements, concepts, and principles relating to the accounting process.

ACCT 312 INTER ACCOUNTING II (FALL, SPRING) 3 CREDITS

Prerequisite(s): ACCT 311. These courses are a comprehensive study of the current accounting theories supporting the generally accepted accounting principles. The focus will be on problem solutions relating to the classification and evaluation of all accounts associated with the various types of accounting systems and their proper inclusion in the published financial statements, including a review and an understanding of all pronouncements, concepts, and principles relating to the accounting process.

ACCT 313 COST ACCOUNTING (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): ACCT 212. This course is a study of the fundamental procedure of cost accounting, including cost definition, classification, and allocation, as related specifically to inventory valuation considerations associated with job order costing and processing costing, as well as such related areas as joint-product and by-product costing and the treatment of waste and spoilage.

ACCT 315 INCOME TAX ACCOUNTING (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): ACCT 212. This course is a study of the important provisions of the federal tax laws, using illustrations, selected problems, and the preparation of returns.

ACCT 316 CORP & PARTNERSHIP ACCT (FALL, SPRING) 3 CREDITS

Prerequisite(s): ACCT 212. This course focuses on those special tax provisions which are unique to corporations and partnerships. Also included are evaluations of potential tax consequences associated with managerial decisions.

ACCT 413 GVT & INSTITUTIONAL ACCT (FALL, SPRING) 3 CREDITS

Prerequisite(s): ACCT 311. This course emphasizes the concept and use of funds in accounting for nonprofit institutions. The basis of accounting for municipal and other governmental units, with emphasis on fund accounts, and the related budgetary and encumbrance procedures, also will be discussed.

ACCT 416 MANAGERIAL ACCOUNTING (SPRING, SUMMER) 3 CREDITS

Prerequisite(s): ACCT 212. This course is a study of the cost relationships associated with a broad range of managerial decision-making. Concepts included relate to break-even contribution margin (direct US absorption accounting, variance analysis budgeting, including capital budgeting considerations, relevant costs, inventory planning and control, transfer costing) and linear programming techniques.

ACCT 417 ACCOUNTING SYSTEMS (FALL, SPRING) 3 CREDITS

Prerequisite(s): ACCT 311 and BUIS 260. This course explores systems fundamentals relating to the design requirements to accommodate the flow of accounting information associated with an economic transaction. Consideration is given to such accounting fundamentals as internal controls and adequacy of information needed to complete the requirements of validation, recognition, valuation, and matching. Attention is also given to the part played by the accounting system as an integral part of the management information system.

ACCT 418 AUDITING (SPRING, SUMMER) 3 CREDITS

Prerequisite(s): ACCT 311. This course emphasizes factors involved in the design and installation of accounting systems: the organization, volume and types of transactions, charts of accounts, accounting manuals, the reporting system, techniques of report writing will be discussed.

AMHR: AMHARIC COURSE DESCRIPTIONS

AMHR 101 AMHARIC FOR BEGINNERS (FALL) 3 CREDITS

The course's aim is to provide students with basic and practical knowledge of Amharic, an African Business Language Skill, including the ability to use the script ("Fedel") and understand the fundamental grammatical structures of the language. In each unit, dialogues, expressions, vocabulary items, grammar, exercises and cultural considerations are incorporated. The course instruction will focus on every day use of the language, particularly in a business setting.

ANTH: ANTHROPOLOGY COURSE DESCRIPTIONS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

ART 299 ART SURVEY (NON-ART MAJORS ONLY) 3 CREDITS

(formerly ART 300) Prerequisite(s): ENGL 102. Great epochs of art will be studied. Emphasis will be placed on art as a humanistic study and as a record of human experience.

ART 301 ART HISTORY (PREHISTORIC THROUGH GOTHIC) 3 CREDITS

Prerequisite(s): ENGL 102. This course is a survey of architecture, the decorative arts, sculpture, and painting from ancient through medieval times and the relation of art to the society and culture of each period.

ART 302 ART HISTORY (RENAISSANCE THROUGH ROMANTIC) 3 CREDITS

Prerequisite(s): ENGL 102. This course explores the nature of the Renaissance, European, and American art from the fifteenth century to the present time, and is a continuation of the relationship of art to the society and culture of each period.

ART 310 PORTRAIT AND FIGURE SCULPTURE 3 CREDITS

Armature construction and practical experience in creating basic forms in metal, clay, plaster, wood, and stone will be provided.

ART 311 SCULPTURE (CARVING) 3 CREDITS

This course is a continuation of ART 310 with emphasis given to the development of individual projects. No Prerequisite(s) for non-art majors. Art majors must complete ART 102 and ART 110/111.

ART 320 INTRODUCTION TO PAINTING 3 CREDITS

This course provides creative experiences in paint media. Emphasis will be placed on pictorial organization and various techniques.

ART 321 EXPERIMENTAL PAINTING (DIGITAL TEXTILES) 3 CREDITS

Prerequisite(s): ART 320 and 330. Formerly Experimental Painting. This course is a continuation of Art 320 with emphasis on using Photoshop to create digital paintings, collages, assemblage, and mixed-media projects. Painting on textiles will be given specific focus and attention.

ART 340 INTRODUCTION TO VISUAL COMMUNICATION: 3 CREDITS

Prerequisite(s): ART MAJORS: ART 101 or ART 110/111 and ART 331; MUSC 312. NON-MAJORS: ART 331. Formerly Introduction to Desktop Publishing. This course is an introduction to decision-making in the production of visual communication. This course blends technology with creativity to give depth in the understanding of imaging techniques, image/color selection, and print service bureau interfacing. Focus on the successful application of elements and principles of art/design and raster based graphics.

ART 341 ADVANCED VISUAL COMMUNICATION: ILLUSTRATION AND DESIGN TECHNIQUES 3 CREDITS

Prerequisite(s): ART 340. Formerly Advanced Desktop Publishing. This course is an introduction to advanced decision-making in the production of visual communication. This course expands upon prior knowledge of technology and established creativity and imaging capabilities to solve advanced problems in page layout and print service bureau interfacing. Special focus on vector based graphics, advanced typography, and color theory will be covered.

ART 342 NEW MEDIA: INSTALLATION AND PUBLIC ART 3 CREDITS

Prerequisite(s): ART MAJORS: Art 310 (or 311), Art 320 and Art 330 (or 340). NON MAJORS: Art 340. This course encourages students to use skills and knowledge acquired in traditional art and computer graphics foundation courses. It also allows students an opportunity to combine the concepts of mixed (multi) media, digital, installation, and public art. It further encourages students to explore creative uses of technology as a tool in fine art production. This course allows students to further develop skills in working in spatial environments. Students will work independently on a variety of lessons and activities throughout the semester on one major public art or installation project, model, and/or presentation.

ART 352 DIGITAL PHOTOGRAPHY 3 CREDITS

Prerequisite(s): ART 350. The course introduces students to the concepts and techniques necessary to create, edit, and store color photographic images using digital technology. Units on color theory, image-editing, printing options, and digital image storage will also be covered. ART 352 also focuses on personal exploration using technology as a creative medium for visual expression.

ART 360 DIGITAL CINEMATOGRAPHY I: 3 CREDITS

MAJORS: Prerequisite(s): ART 340 or MUSC 312. Others: By Permission of Instructor. (Formerly Cinematography I). This course is a study of the principles of digital video/cinema including the use, operation, basic digital video editing, as well as the developing narratives and scripts for short video projects and exercises.

ART 361 DIGITAL CINEMATOGRAPHY II: ADVANCED DIGITAL VIDEO EDITING AND COMPOSITING TECHNIQUES 3 CREDITS

Prerequisite(s): Junior Standing, ART 360. Formerly Cinematography II. This course is a continuation of ART 360. Emphasis is on special digital video and compositing techniques, as students will develop a short digital video project over the course of the semester.

ART 365 HISTORY OF FASHION 3 CREDITS

Prerequisite(s): ENGL 102. The course provides an historical analysis of fashion changes in men's and women's apparel from antiquity to the present. This course will also focus on diversity within the industry, and the impact that designers, seamstresses and tailors of color have had throughout the 20th century.

ART 367 DESIGN HISTORY 3 CREDITS

Prerequisites: ENGL 102. The course will focus on the historical and technological developments in design over the 19th, 20th and current century. This course will look at how design has helped shape and communicate society's values, and contributions in design and technological innovations

ART 375 SEWING STUDIO 3 CREDITS

Prerequisite(s): ART 270. This course stresses fundamental skills in the construction of apparel with emphasis on professional proficiency and full garment construction. Garments are created by both hand and machine methods. This course will focus on a multitude of closure and finishing techniques that will be applied to further courses in the fashion design program. Students will use standard machinery as used in the apparel history.

ART 380 FLAT PATTEN DESIGN 3 CREDITS

Prerequisite: ART 375 Sewing Studio. This is the introductory course for students in making patterns and how pattern making is applied to the apparel industry. Students will use flat pattern methods to transfer original designs from sketches to patterns with use of dart manipulation, added fullness and contouring; and emphasis will be placed on the use of the basic sloper or block.

ART 386 FASHION DRAPING I 3 CREDITS

Students will incorporate their flat pattern skills by draping original designs from ART 380 Flat Pattern Design and sketches onto 3 dimensional forms. Emphasis will be placed on draping techniques, and garment fit and completion.

ART 390 FASHION ILLUSTRATION 3 CREDITS

This course is designed to provide students with the skills necessary to illustrate themes, concepts and lines for presentations. Emphasis is on technical fashion sketching, and the development of the fashion figure, design details, fabric rendering and collection development. Students will also be exposed to the technical side of illustration developing skills in flat sketching. Students will be required to sketch both by hand and with computer applications.

ART 394 3 CREDITS

This course will explore the history of American animation from film to television. In addition to the major animation studios, the course will explore the role of minority and female animators. The influence of animation on media will be addressed from the aesthetic, technical, business and cultural perspectives

ART 395

ART 396 2D DIGITAL ANIMATION I: INTRODUCTION TO 3 CREDITS

Prerequisite(s): ART 340; MUSC (MUSC 410); NON-MAJORS: By Permission of Instructor. (formerly ART 496). This course is an introduction to animation using state-of-the-art software and hardware for motion graphics. It provides a study of animation principles as well as techniques in producing two-dimensional digital animations.

ART 397 2D DIGITAL ANIMATION II: ADVANCED ANIMATION & 3 CREDITS

(formerly ART 497) Prerequisite(s): ART 396. As a continuation of Art 396, this course allows students to develop skills in two-dimensional digital animation production, character animation, motion graphics, and advanced animation principles. Students will work on a variety of lessons throughout the semester and on an extended animated production.

ART 398 CO-OP ART 6 CREDITS

Bowie State University 2012 -2013

ART	399	INDEPENDENT STUDY	3 CREDITS
ART	402	CERAMICS III (MINI SEMESTER)	3 CREDITS
		This course is a study of the composition and computation of ceramic glazes and clay bodies and includes laboratory practice in the development of aesthetic qualities in glazes and clay bodies.	
ART	404	HISTORY OF MODERN ART (SPRING ONLY)	3 CREDITS
		<i>Prerequisite(s): ENGL 102.</i> This course is a study of painting, architecture, and sculpture since the French Revolution.	
ART	405	AFRICAN AMERICAN ART HISTORY	3 CREDITS
		<i>Prerequisite(s): ENGL 102.</i> This course is a study of African American art from colonial times to the present.	
ART	408	VISUAL CULTURE: CONTEMPORARY ISSUES IN ART, AESTHETICS AND CULTURE	3 CREDITS
		<i>Prerequisite(s): ENGL 102.</i> A visual study and critical discourse on the aesthetics of contemporary art and theory as it intersects with urban culture and artistic movements such as hip-hop. This course explores the aesthetics, philosophies, and foundations of hip-hop by focusing on musical, poetic (spoken word), and visual expressions rooted within the culture. Visual and performance artists who have been influenced by and who incorporate hip-hop into their work will also be studied. Students will also study the relationship between hip-hop to visual art, multimedia, video/film, as well as with other cultures, and the political, social, and historical movements in African American history.	
ART	420	PAINTING STUDIO PRACTICE	3 CREDITS
		<i>Prerequisite(s): ART 320.</i> This advanced course provides creative experiences in paint media. Emphasis will be placed on development of individual expression in paint through explorations of materials, techniques, and styles.	
ART	450	MULTIMEDIA WORKSHOP: WEB DESIGN AND	3 CREDITS
		<i>Prerequisite(s): ALL: Junior Standing; ART MAJORS: ART 340; MUSIC: MUSC 410; NON-MAJORS:</i> By Permission of Instructor. This course is designed to give the student an opportunity to explore the creative possibilities in multimedia including interactive, web design, and presentation graphics media.	
ART	451	ADVANCED TOPICS IN MULTIMEDIA, WEB DESIGN, XHTML & CSS	3 CREDITS
		<i>Prerequisite(s): Art 450.</i> This course is a continuation of ART 450 Multimedia Workshop. This advanced course focuses on web design, hand-coding and scripting for web design, and specifically using XHTML, CSS, ActionScript and other technologies. Students will also research and produce examples of web design and/or interactive media and incorporate current trends and practices for both the internet and mobile devices.	
ART	465	COMPUTER AIDED DESIGN (CAP)	3 CREDITS
		<i>Prerequisite: ART 380 Flat Pattern Design, ART 386 Fashion Draping 1, ART 390 Fashion Illustration.</i> This course will enable students to digitize a pattern from an original design. The courses will emphasize pattern development from a technical flat sketch with various fashion and design related hardware/software. Students will also center on marking and grading that pattern in alpha and numeric sizes. This course will also explore the structure of the body, proportions, and measurements.	
ART	470	SELF PROMOTION & MARKETING FOR THE ARTS	3 CREDITS
		<i>Prerequisite(s):</i> Advanced Standing and by Permission of Instructor only. The course focuses on developing and expanding the students' use of technology components, skills, and practices, such as the integration of video, print design, and online media to create proper marketing materials to promote the students' future chosen careers in the visual and/or performing arts.	
ART	475	ADVANCED DIGITAL STUDIO: DIGITAL FILMMAKING, ANIMATION & NEW MEDIA	3 CREDITS
		<i>Prerequisite(s):</i> Permission only. Junior and Seniors in VCDMA major. An advance studio course designed for upper level students in VCDMA to research, develop and produce an advanced project such as a film, installation or animated production. This project is to be a part of a senior's final digital portfolio, website and/or demo reel, and included as part of their senior thesis and exhibition. Students will also develop and maintain a professional portfolio, blog and website to document and feature their creative and conceptual process, artwork and research. <i>Note:</i> This required course is specifically for students in the concentration of: Digital Cinema & Time Based Media, Animation & Motion Graphics and Digital Media Arts, VCDMA (BS) major.	
ART	480	THE ART OF SMALL BRONZE CASTING (MINI SEMESTER)	3 CREDITS
		This course is designed for both beginning and advanced level students in the exploration of the process and the world history of bronze casting. Students will investigate one or more cultures known historically for their bronze casting and integrate those styles into their own artwork. During the semester, students will participate in all aspects of the bronze casting process: creating the artwork, investing, wax burnout, bronze pouring, chasing, finishing, patination, and presentation.	
ART	486	FASHION DRAPING II	3 CREDITS
		<i>Prerequisites: ART 386 Fashion Draping 1.</i> This course is a continuation of Fashion Draping 1. In Fashion Draping 2 students will be working on projects in the men's wear, children's wear and knit wear markets. Students will be given design briefs and required to design groups around briefs based on theme, color and specific materials.	
ART	490	MUSEUM, GALLERY, AND STUDIO SEMINAR	3 CREDITS
		<i>Prerequisite(s):</i> Senior Art Majors Only or Permission of Instructor. Professional Orientation: the students will be exposed to the problems of the artist in dealing with the public: marketing, displaying, and sound business practices; gallery and museum relations; and goals, purposes, and operations of art museums and galleries. Visitations to museums and galleries in Baltimore; Washington, DC; New York; and/or other major art centers will be scheduled.	
ART	491	INTERNSHIP IN ART AND VISUAL COMMUNICATION	1 CREDIT

Prerequisite(s): By Permission of Instructor, and at least 24 credit hours in area of concentration/major. This advanced internship and apprenticeship course is intended to help students in art and VCDMA (computer graphics) make their way into the professional art, design/multimedia, and visual communications world. The class serves as a bridge between students both professionals in the various art/design industries and students.

ART 495 ADVANCED DIGITAL IMAGING: TOPICS IN DESIGN 3 CREDITS

Prerequisite(s): Junior Standing, *ART MAJORS: 450; NON-MAJORS: 340.* Formerly Advanced Computer Imaging. This is an advanced course in digital imaging and visual communication design. It is designed to provide an in-depth study of design principles, including working with clients, creative briefs, and strategies for advertisement and visual marketing. Product and packaging design will also be covered.

ART 496 3D ANIMATION & MODELING I 3 CREDITS

Prerequisite(s): Majors: Art 396; Non-Majors: Permission by instructor. This course is an overview of 3D computer animation & modeling. Through in-class lectures, assignments and homework, students will be instructed on how to use 3D software for basic modeling, rendering, lighting, scripting and setup for animation. Different methods of conceptualizing characters will be discussed and illustrated. There will also be instruction in using a bitmap based paint and illustration application to create textures, compositing and simulation.

ART 497 3D ANIMATION & MODELING II (ADVANCED) 3 CREDITS

Prerequisites: ART 496. This course is a continuation of ART 496 3D animation & modeling. Students are instructed and guided through advanced techniques for modeling, rendering, rigging, lighting and setup for animation. Advanced character, scene and object design as well as 3D simulation will also be covered. The course provides training in advanced compositing techniques, animation and modeling used in real-world studio situations.

ART 498 GALLERY SEMINAR AND SENIOR THESIS 3 CREDITS

Prerequisite(s): Art Majors and Permission Only. Senior Standing. Formerly Gallery Seminar. Students must have completed a series of upper-level and advanced art or computer graphics courses (300-400) prior to signing up for this course. It is also expected that students can demonstrate a mastery of technical and creative skills and a professional and cumulative body of artwork. The care, handling, preparation, identification, arranging, exhibiting, and associated problems and responsibilities of gallery work will be explored. Students will develop effective strategies for marketing and promoting one's work through a portfolio (slides, physical, website, and CD-ROM/DVD). The course includes a formal display of students' artwork through an exhibition and professional portfolio. Students must demonstrate a cross section of comprehensive work and must submit a minimum of 20 pieces for faculty review prior to exhibition. Successful completion of course will require students to participate in all aspects of gallery presentation.

ART 499 INDEPENDENT STUDY (FALL, SPRING) 3 CREDITS

Prerequisite(s): Fine Arts Majors and Minors and Permission only. Advanced study for fine arts majors who desire further study in a particular area. May be repeated for a maximum of 6 semester hours. The student must have taken two or more courses in the area in which he/she elects to do independent study and should have an average of 2.5 or better in that area. Consent of the instructor and department chairman is required before a student is permitted to register for any independent study course.

BIOL: BIOLOGY COURSE DESCRIPTIONS

BIOL 101 BIOLOGICAL SCIENCE (FALL, Winter, SPRING, SUMMER) 4 CREDITS

This course is a study of the methods by which biological knowledge is acquired and tested and includes the general characteristics of living matter and a survey of the animal and plant kingdoms, with emphasis on the evolutionary sequences and study of the important vital systems. *This Course Should Not Be Taken By Biology Majors.* (Note: Non-majors may take the course for honor credit).

BIOL 102 INTRODUCTORY BIOLOGY (FALL, SPRING, SUMMER Periodically) 4 CREDITS

This course is designed to introduce the concepts of cellular and molecular biology, basic chemistry, the chemistry of life, and genetics.

BIOL 103 GENERAL ZOOLOGY (FALL, SPRING, SUMMER Periodically) 4 CREDITS

This course is a study of the principles of invertebrate and vertebrate zoology, with emphasis on the development of phyla in the animal kingdom, their embryonic development, structure and function, classification, gross and microscopic anatomy.

BIOL 105 GENERAL BOTANY (FALL, SPRING) 4 CREDITS

This course is a study of algae and fungi, with emphasis on structure, function, classification, phylogenetic relationships and ecology. Angiosperms and gymnosperms, with emphasis on structure, function, classification, phylogenetic relationships and ecology, will be explored.

BIOL 107 INTRODUCTION OF HUMAN BIOLOGY (SUMMER Periodically) 4 CREDITS

Prerequisite(s): BIOL 102. This course is a study of the biology of human structure and function.

BIOL 198 COOP BIOLOGY 12 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

BIOL 202 INDEPENDENT STUDY (Periodically) 2 CREDITS

Prerequisite(s): BIOL 101 or 102. This course is designed solely for non-science majors and especially for Elementary Education majors and includes research into a specified area of biology or physical science encompassing library, laboratory and, if necessary, field experiences.

BIOL 203 OCEANUS (FALL, SPRING) 3 CREDITS

A fully online distance education course accessed through BSU OnLine. This course focuses on basic oceanography, marine biology and Man's impact on the oceans environment. Course cannot be used to satisfy requirements for Biology majors, being primarily designed to meet general

education non-laboratory sciences requirements. There is no textbook, no study guide- all material, including weekly assessments and media content delivered through BSU Online. Students must use and check BSU Email and BSU Online at least twice weekly. Access to the Internet is required for adequate access to course content and other materials. Orientation is also staged to BSU Online. Examinations [midterm, final] are done in person in a proctored environment, but using the BSU Online interface. *This course should not be taken by Biology majors.*

BIOL 204 CELL BIOLOGY (FALL Only, SPRING Periodically) 4 CREDITS

Prerequisite(s): BIOL 102, 103, 105; CHEM 107, 108. This course emphasizes the relationship between the structure and function of cell organelles.

BIOL 205 BIOLOGY ENVRMNTL. POLLU. (FALL, or SPRING Periodically) 3 CREDITS

Prerequisite(s): BIOL 102. This course is a study of the environment as a system, including characteristics and requirements of the living environment of plants, animals and man, and improving the quality of life and the future of mankind.

BIOL 209 GENERAL GENETICS (FALL, SPRING, SUMMER Periodically) 4 CREDITS

Prerequisite(s): BIOL 102. This course examines the concept of inheritance, its basis and societal impact. Inheritance is studied from various standpoints where mendelian genetics, molecular genetics, cytogenetics, population and quantitative genetics are emphasized. Various tools and exercises are designed to reinforce each of the aforementioned aspects during the laboratory sessions.

BIOL 298 COOP BIOLOGY 12 CREDITS

BIOL 301 HEREDITY & HUMAN AFFAIRS (FALL, SPRING, SUMMER) 3 CREDITS

This course emphasizes the latest information emanating from the field of medical genetics, with particular reference to the physiological, neurological and morphological disorders, diseases, etc. Lecture only; recommended for non-science majors.

BIOL 303 MOLECULAR BIOLOGY (FALL, SPRING) 4 CREDITS

Prerequisite(s): BIOL 102, 209; CHEM 201, and 202. This course is designed to examine the molecular organization of cells and cellular processes; the synthesis and regulation of DNA, RNA and Protein synthesis; viruses and plasmid DNA molecules, and the concepts and techniques involved in recombinant DNA.

BIOL 304 BIOLOGY OF DRUG PLANTS (FALL, SPRING) 3 CREDITS

Prerequisite(s): BIOL-102 and BIOL 105. This course is the study of biology of such plants as opium, DMT, marijuana, mescaline, psilocybin, cocaine, jimsonweed, ergot, strychnine, and digitalis; active principles and the parts used as drugs; diseases and disorders; genetic manifestations; use and misuse of drugs; and effects on human health, including the mental and social well being of man.

BIOL 309 MICROBIOLOGY I (FALL, SPRING) 4 CREDITS

Prerequisite(s): BIOL 102 and 209.

BIOL 310 MICROBIOLOGY II (FALL, SPRING) 4 CREDITS

Prerequisite(s): BIOL 102. Biology majors are required to successfully complete BIOL-309. This course studies virology, medical parasitology, and mycology.

BIOL 311 HUM ANAT & PHYSLGY I (FALL, SPRING, SUMMER) 4 CREDITS

Prerequisite(s): BIOL 102, 103. This course focuses on the structure and function of the human body from molecular to whole individual level, providing current principles of anatomical terminology and techniques, histology, and the integumentary, skeletal, muscular, nervous, and sensory systems. The effects of age, stress and pathology (disease) on normal systems are incorporated throughout the course.

BIOL 312 HUM. ANAT. & PHYSIOLOGY (FALL, SPRING, SUMMER) 4 CREDITS

Prerequisite(s): BIOL 311. This course focuses on the structure and function of the human body from molecular to whole individual level, providing current principles of the endocrine, circulatory, immune, respiratory, digestive, urinary, and reproductive systems. The effects of age, stress, and pathology (disease) on normal systems are incorporated throughout the course

BIOL 398 COOP-BIOLOGY 6 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

BIOL 402 GENERAL PHYSIOLOGY (FALL, SPRING) 4 CREDITS

This course is a study of chemical, physical properties, and living activities of protoplasm at cellular level and an introduction to the physio-chemical basis of vital processes.

BIOL 403 BIOLOGY SEMINAR (FALL, SPRING) 2 CREDITS

Prerequisite(s): Biology Core Courses and CHEM 107, CHE, 108, CHEM 201 and CHEM 202. Limited to senior biology majors, this course offers intensive practice in the process of research within the body of peer-reviewed scientific lecture, presentation, synthesis and discussion of selected scientific topics and problems. Course is open only to biology and biology education majors who have successfully completed at least 90 semester hours in the biology sequence.

BIOL 404 INTRO TO CANCER BIOLOGY (FALL) 3 CREDITS

Prerequisites: BIOL-101 or BIOL-102. This courses will provide students with a basic knowledge of the etiology, epidemiology, and sociology of common cancers associated with children, women, and men. Students will be introduced to health disparities associated with cancers.

BIOL 405 INVESTIGATIONS (FALL, SPRING, SUMMER) 1-6 CREDITS

Prerequisite(s): Internal/External Research Experience and an Approved Application. This course is designed to give experience in handling biological materials and techniques involved in research investigations.

BIOL 407 ECOL. OF ENV. ADAPTATION (Periodically) 3 CREDITS

Prerequisite(s): BIOL 102, 103, 105, 209. This course is an analysis of the environmental factors affecting the evolution, adaptation, distribution, and functional processes of plant and animal communities. Considerable emphasis will be placed on ecological concepts.

BIOL 410 IMMUNOLOGY (SPRING Only) 3 CREDITS

Prerequisite(s): BIOL102, 209, 204. BIOL 303 and CHEM 309 (may be taken concurrently) Strongly Recommended. This course is designed to provide students with knowledge of the molecular and cellular nature of the immune system. Upon completion of this course, students will have a basic knowledge of the innate and adaptive immune responses, and the structure and function of lymphocytes, antibodies, T-cell receptors and accessory proteins. Also included are the molecular and cellular aspects of immunity to bacteria and viruses, autoimmunity, allergies, transplantation immunology, and vaccines.

BIOL 411 ENDOCRINOLOGY (Periodically) 4 CREDITS

Prerequisite(s): BIOL 102, 103, CHEM 108. This course is an in-depth study of the human endocrine system and the mechanism of hormone action.

BIOL 415 PLANT PHYSIOLOGY (SPRING Only) 4 CREDITS

Prerequisite(s): BIOL 102, 105, CHEM 108. This course is a study of plants as a dynamic organism of metabolic systems which determine the vital responses to the environment and the vital processes of growth, development, reproduction, and perennation. Importance of plants in the flow of energy through the biosphere and the use of modern technology in the chemical evolution of life will be discussed.

BIOL 421 BIOINFORMATICS (FALL Only) 4 CREDITS

Prerequisite(s): CHEM 309, BIOL 303. This course provides instruction in and practical applications of the tools and techniques employed in Bioinformatics. Included are methods for prediction of protein structure, homology modeling, sequence alignment and database searching, comparative genome analysis and structure-based drug design.

BIOL 423 APPLIED BIOTECHNOLOGY (FALL, SPRING, SUMMER) 4 CREDITS

This course is an overview of the basic principles of molecular biology and application of them in research, industry, and society in general. The laboratory component of this course provides students with hands on experience with state of the art instruments in the Natural Science Foundation (NSF)-funded Genomics Lab. The laboratory experience received also prepares students to function effectively as laboratory technicians in biotechnology laboratories.

BIOL 451 FIELD BIOLOGY (Periodically) 3 CREDITS

Prerequisite(s): BIOL 102, 105, 415. This course emphasizes the collection and classification of selected biological materials from different environments.

BIOL 462 TOPICS IN BIOLOGY (Periodically) 3 CREDITS

Prerequisite(s): Biology Core Courses, CHEM 202. This course is designed to explore topics in the field of biology pertinent to human welfare and the exploration of science.

BUAD: BUSINESS ADMINISTRATION COURSE DESCRIPTIONS

BUAD 100 BUSINESS MATHEMATICS (FALL, SPRING, SUMMER) 3 CREDITS

This course is designed to develop and strengthen student proficiency in the application of basic mathematics to business activities. This course does not count towards graduation requirements. This course is a Prerequisite(s) for ACCT 211.

BUAD 101 INTRO. TO BUSINESS 3 CREDITS

This is a survey course designed to acquaint students with the basic functional areas of business enterprises and covers terminology and functional issues facing managers. This course acquaints students with international aspects of business.

BUAD 130 FUND OF CONTRACTING 3 CREDITS

Prerequisite(s): BUAD 100 and BUAD 101 or Permission of Instructor. This survey course introduces the organization and utilization of the Federal Acquisition Regulation and DOD Supplement to the FAR (DFARS), as well as ethics and basic contract law. Students are also introduced to the fundamentals of contracting. This is an accelerated course that encompasses the entire contracting process from receipt of a purchase request through contract completion, including close-out.

BUAD 198 COOP-BUAD 12 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

BUAD 230 FUND OF CONTRACTING II 3 CREDITS

Prerequisite(s): BUAD 130. This course provides essential fundamentals for the student and practice of price, cost, and proposal analysis. Various case scenarios and actual cost analysis are used to illustrate and integrate the various concepts and techniques covered in the course. Topics include the review of contracting environment, use and importance of market research, sources cost price analysis, application of price-related factors in the determination of reasonableness, methods for analyzing direct and indirect costs, methods for performing profit analysis, ethics in contract pricing, and selection of current pricing topics. Contract Pricing is designed to provide entry-level contracting personnel with a solid foundation for practice analysis and negotiation analysis.

BUAD 298 COOP - BUAD 12 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

BUAD 330 INTERMEDIATE CONTRACT 3 CREDITS

Prerequisite(s): BUAD 130. This course presents experienced, intermediate-level contracting personnel with an intensive examination of the life cycle phases of contracting, including the pre-award phase of contracting (acquisition planning, solicitation, evaluation, and award), and post award contract administration, plus contracting problem analysis and resolution. Case studies challenge students to apply ethical principles, statutes, regulations, and sound business judgment in the resolution of contract problems. Major course topics include acquisition planning, contracting methods (with an emphasis on formal source selection and noncommercial acquisitions), contract administration (including contract surveillance and quality assurance), financial management, termination, and dispute resolution.

BUAD 350 BUSINESS LAW I (FALL, SPRING) 3 CREDITS

Prerequisite(s): PHIL 103 or PHIL 305 and MGMT 241. Junior Standing or Permission of Instructor. These courses provide a basic understanding of the principles of business law and their application to commercial activities relating to contracts, agency, torts, property, sales, business organizations, commercial paper, and commercial transactions.

BUAD 351 BUSINESS LAW II (FALL, SPRING) 3 CREDIT

Prerequisite: BUAD 350. Permission of the Department. These courses provide a basic understanding of the principles of business law and their application to commercial activities relating to contracts, agency, torts, property, sales, business organizations, commercial paper, and commercial transactions.

BUAD 352 INTERNATIONAL BUSINESS 3 CREDITS

A study of the basic theories, principles, and practices concerning business activities across national boundaries. Emphasis is placed on managing resources, cultural diversities, international trade and investment, and the role of the multinational enterprise in global resource transfers.

BUAD 401 ADV ACCOUNTING I 3 CREDITS

Prerequisite(s): ECON 351. This course is a survey and application of research methodology as a tool in decision-making. It emphasizes theory, design, data-gathering, and evaluation.

BUAD 430 INTER CONTRACT: PRICING 3 CREDITS

Prerequisite(s): BUAD 330. This course reinforces both pricing skills taught in Fundamentals of Contract Pricing I and II. The course develops skills in price analysis, advanced pre-award pricing decisions, and general contract pricing. The course is primarily quantitative in nature, focusing on statistical and economic analysis tools.

BUAD 450 ISSUES IN BUS ETHICS (SPRING Only) 3 CREDITS

Prerequisite(s): Seniors Only. Current issues of ethics in the society as they affect business behavior will be discussed through panel presentation and class participation. Social responsibility of business, environmental issues, human rights and technological progress, business ethics and the evolution of social values exemplify the topics which will be presented from multidisciplinary perspectives by visiting experts, with the instructor moderating the class discussion.

BUAD 453 GOVERNMENT CONTRACT LAW 3 CREDITS

Prerequisite(s): BUAD 330. This course introduces basic legal principles and sources of contract law as they apply to the Government's acquisition of supplies and services, as well as construction services. Government Contract Law provides an understanding of the impact of Government Contract Law on daily decision-making in acquisition. Court cases and administrative decisions (General Accounting office, Board of Contract Appeals) are discussed with emphasis on how the law affects the Government/Contractor interface and how to avoid legal disputes and maintain business relationships

BUIS: BUSINESS INFORMATION SYSTEMS COURSE DESCRIPTIONS

BUIS 260 COMPUTER APP IN BUSINESS (FALL, SPRING, MINI-SEMESTER) 3 CREDITS

Prerequisite(s): BUAD 101; MGMT 101. This is a survey course of computer applications and of information needs in business. Emphasis will be placed on microcomputer hardware and software applications from the perspective of the individual user. A review will be conducted of the standard productivity software packages available to support a microcomputer-based executive work station. Included are descriptions of and hands-on work, electronic spreadsheets, file and database management systems, graphic packages, accounting, and other common application packages. Emphasis is placed on business software, rather than on program development. Students participate in a series of application practice sessions at an introductory level and use these packages to solve progressively advanced business problems during the semester.

BUIS 305 INTRODUCTION TO OBJECT-ORIENTED PROGRAMMING (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): BUIS 206. This course introduces students to the object-oriented (OO) approach to programming with emphasis on solving business problems. Proper object-oriented design principles and practices are emphasized throughout the course. First, students learn how to use the standard classes, and then learn to design their own classes. Real world programs are also used as examples throughout the course.

BUIS 360 INFOR SYSTEMS FOR MGMT (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): BUIS 260 or Academic Plan is equal to COSC-B5. This course is a survey of the concepts, theory, and techniques of information systems for management. Emphasis is on the role of information itself and on computer-based information systems as aids to the control and operation of the organization. Case studies are used to illuminate the general manager's role in planning, specifying requirements, and evaluating and controlling such systems.

BUIS 361 ANAL AND DESIGN OF BUAD INFO SYSTS (FALL, SPRING, SUMMER) Formerly BUAD 361 3 CREDITS

Prerequisite(s): BUIS 260. This course provides students with an understanding of the principles involved in the analysis and design of an information system. Tools, techniques, and information systems development methodologies will be reviewed. In addition, a major project involving the analysis and design of an information system will be required.

BUIS 362 DATABASE FOR BUSINESS (FALL, SPRING)

3 CREDITS

Prerequisite(s): BUIS 260. This course provides an understanding of how data resources can be managed to support decision-making within organizations. It will examine the use, development, and implementation of organizational databases and how the database environment is used to support decision-making. Database design and implementation issues will be addressed from both a logical and physical perspective. In addition, strategic and administrative issues of databases will be considered.

BUIS 367 PRINCIPLES OF INFORMATION SYSTEMS SECURITY (FALL, SPRING) 3 CREDITS

Prerequisite(s): BUIS 260. This course provides the foundation for understanding the key issues associated with information security and assurance with special emphasis on the various business, managerial and administrative aspects. Students will be exposed to the spectrum of security models, methodologies, policies, standards, procedures, and technologies as well as other security activities such as risk management, contingency, and incidents response, and e-business security. The course provides a rich learning experience using several case studies, hands-on exercises and projects.

BUIS 461 TELECOMM FOR BUSINESS (FALL, SPRING) 3 CREDITS

Prerequisite(s): BUIS 360. This course provides students with an overview of the principles of telecommunications. It will cover the business applications of telecommunications technology, data-enhancing flow of information within the organization, design of telecommunications systems, and hardware and software analysis of needed specifications for designing telecommunications systems.

BUIS 462 DECISION SUPPORT SYSTS (SPRING Only) 3 CREDITS

Prerequisite(s): BUIS 361 and BUIS 362. This course is an introduction to the analysis, design, and application of information systems used in the direct support of managerial decision-making. This course will cover the design and construction of specific management support tools such as Decision Support Systems, Executive Support Systems, Group Decision Support Systems, and Expert Systems. Laboratory work will include construction of prototype support systems and expert systems.

BUIS 463 ELECTRONIC COMMERCE (SPRING, SUMMER) 3 CREDITS

Prerequisite(s): BUIS 360. This course provides students with an understanding of the basic technology of the Internet and the World Wide Web. It also will cover the tools, skills, business concepts, strategic opportunities, and social issues that surround the global information infrastructure and the emergence of electronic commerce.

CAAS: CHILD AND ADOLESCENT STUDIES

CAAS 101 INTRO TO CHILD & ADOLESCENT STUDIES (FALL, SPRING) 3 CREDITS

This course is an introduction of the theories, practices and trends in the human service profession and specifically how they relate to children and adolescence. The course will examine current events, situations and best practices in regards to children and their families.

CAAS 220 INFANCY AND TODDLERHOOD (SPRING) 3 CREDITS

The primary goal of this course is to introduce students to the psychological study of infancy and toddlerhood, beginning with conception and ending at approximately age 3. The course will deal with many aspects of development in this age range, including conception, prenatal development, physical, neurological, motor, and perceptual development. It will also focus on cognitive development, including language, learning, memory & reasoning. We will also explore social development, including such topics as parent-child attachment, effects of maternal employment and sex-role development.

CAAS 230 ADOLESCENT DEVELOPMENT & SOCIAL CHANGE (SPRING) 3 CREDITS

The goal of this course is to examine adolescent development. The course will look at the basic changes that take place in adolescence (physiological changes, changes in thinking, and changes in social interactions), the context within which these changes take place (adolescents in family, peer, school and work environments), and the psychosocial areas in which development takes places (autonomy, identity, intimacy, sexuality, achievement).

CAAS 250 CHILD AND FAMILY LIFE SKILLS (FALL) 3 CREDITS

Prerequisite(s): CAAS 101. The course is designed to explore contemporary issues affecting children, youth and families. Specific topics will include the marital/family system, parent/child interaction, divorce, death of a family member, chronic illness and theoretical approaches to family study. Students will also gather insights into differing lifestyles and how this impacts children and youth.

CAAS 260 CHILD ABUSE & NEGLECT (FALL) 3 CREDITS

Prerequisite(s): CAAS 101. This course will examine historical and contemporary issues affecting the maltreatment of children/adolescents in regards to child abuse and neglect. The course will raise awareness of how society has evolved to address the growing problem of child abuse and neglect. It will enable students to recognize symptoms and signals of child abuse.

CAAS 270 SOCIOLOGICAL ISSUES (FALL) 3 CREDITS

Prerequisite(s): CAAS 101. This course will focus on socialization issues of children as it pertains to violence in the home, poverty, substance abuse, violence in schools, crime, and being a part of a blended family.

CAAS 280 RUNAWAY & HOMELESS YOUTH (FALL) 3 CREDITS

Elective: This course will explore reasons why children/youth runaway or end up homeless and on the streets. It is an interdisciplinary course with strong underpinning from interactionist and conflict theories. Students will examine the emotional, social, psychological and political dimensions of this growing societal problem. Special attention will be given to child sexual abuse and domestic violence issues.

CAAS 282 DOMESTIC & FAMILY VIOLENCE (SPRING) 3 CREDITS

Elective: This course will cover the history of domestic and family violence, current theories, the causes of violence in the family, interventions and preventative models to curb family and domestic unrest and the affects of family violence on children and youth.

CAAS 300 THE PSYCHOSOCIAL DEVELOPMENT OF AFRICAN AMERICAN BOYS 3 CREDITS

Prerequisites: CAAS 101 or SOCI 302. This course provides a comprehensive understanding of psychosocial development in a sub-group of African American males, age 5-15 with respect to achieving developmental milestones in childhood and adolescence within a high stress context. Theoretically based research and other published literature of leading black social scientists, psychologists and educators discussing issues, solutions, and responsibilities of various systems intersecting with this population is examined.

CAAS 306 INTRODUCTION TO FIELD (SPRING) 3 CREDITS

Prerequisite(s): CAAS 250 and CAAS 270. The course is designed to enhance students' knowledge of being a change agent, advocate and indirect service provider for children and youth in mental health, medical, k-12th grade educational or preschool settings. In addition this course prepares the student for CAAS 424 & 425, Field and Seminar I & II.

CAAS 314 REG, POL & ADM OF CHILD (SPRING) 3 CREDITS

Prerequisite(s): CAAS 250 and CAAS 270. The course was developed to expose students to the rigors and decisions of administrators, policymakers and/or entrepreneurs. This course will give the student insights into the management and administration of those human service agencies that service children and youth.

CAAS 340 CHILDHOOD DISORDERS (FALL) 3 CREDITS

Prerequisite(s): CAAS 101 or PSYC 101. This is an undergraduate level course in child psychopathology. The course will cover DSM-IV child and adolescent disorders. The course will review prevalence, etiology, diagnostic criteria, co-morbidity, sampling patterns and outcomes across the major childhood and adolescent behavioral disorders.

CAAS 350 SIGN LANGUAGE I (FALL) 3 CREDITS

This course teaches the fundamentals of sign language, including those basic concepts and theories necessary for working effectively in programs aimed at providing services to children and youth with serious hearing loss and related problems.

CAAS 351 SIGN LANGUAGE II (SPRING) 3 CREDITS

Prerequisite(s): CAAS 350. This course is offered to those students who wish to broaden and continue their usage of sign language.

CAAS 354 LEG AND ETH HUM SERV STANDARDS (SPRING) 3 CREDITS

Prerequisite(s): CAAS 250 and CAAS 270. This course is developed to focus on the moral and ethical milieu of leadership: the values, theories, strategies, behaviors and skills that provide a framework for principled decisions in human service organizations.

CAAS 360 ART, MUSIC, DANCE & PLAY THERA (SPRING) 3 CREDITS

Prerequisite(s): CAAS 101; CAAS 250; CAAS; 260; and CAAS 270. Students will be exposed to current trends and techniques that will help children who have been abused as well as help young children develop a sensitivity and appreciation of the fine arts.

CAAS 412 THERAPY WITH CHILDREN ADOL (FALL) 3 CREDITS

Co-requisite: CAAS 424. This course is done in association with CAAS 424, Field & Seminar I. The course will provide a foundation for understanding and working with children/adolescents in agency or institutional settings.

CAAS 420 COMMUNITY CHILD AND ADOLESCENT STUDIES (SPRING) 3 CREDITS

Elective: This course has a focus on promoting community change, policies and systems as they relate to children and adolescents. The student will explore the significance of improving communities through policy analysis utilizing the systems approach.

CAAS 424 FIELD AND SEMINAR I (FALL) 6 CREDITS

Prerequisite(s): CAAS 306; CAAS 314; CAAS 354 Co-requisite: CAAS 412. The first of a two part practicum/field experience mandatory for fulfillment of the CAAS degree. Students complete twenty (20) hours per week with a community agency or program. The emphasis of this course will focus on the child/adolescent in group settings, i.e., family unit, school. Through the practicum experience the student will begin to integrate classroom theory and discussion as well as apply and shape materials learned to real life situations.

CAAS 425 FIELD AND SEMINAR II (SPRING) 6 CREDITS

Prerequisite(s): CAAS 424: Part two of the practicum experience designed to provide real life work experiences through placement in community settings. Students do twenty (20) hours per week applying knowledge gained in the classroom to circumstances faced in their respective agency/program.

CAAS 430 CHILD AND ADOLESCENT ASSESSMENT AND MEASUREMENT (SPRING) 3 CREDITS

Prerequisite(s): CAAS 101, CAAS 340 & SOCI 309. This course will cover the basic principles, research, and theories on the testing and measurement of psychological constructs. Students should expect to complete the course with knowledge of various techniques for psychological testing, familiarity of several professionally developed tests, in depth knowledge on one published test of student's choice, ability to develop, administer and interpret certain tests, and knowledge of measurement theory which includes reliability and validity. Students will demonstrate this knowledge on exams, class discussions, and a term paper.

CHEM: CHEMISTRY COURSE DESCRIPTIONS

CHEM 105 INTRO TO COLLEGE CHEMISTRY (FALL, SPRING) 4 CREDITS

Prerequisite(s): None, MATH 099 strongly recommended. This is an overview of chemistry which will include, English-metric unit conversions, atomic structure, chemical nomenclature, the mole concept, stoichiometry, chemical reactions, physical behavior of gases and solutions, acid-base theory, and nuclear chemistry. It is designed for those students who have little or no chemistry background. Three hours lecture, two hours recitation per week.

CHEM 107 GENERAL CHEMISTRY I (LECTURE/LAB) (FALL, SPRING) 4 CREDITS

Prerequisite(s): MATH 141 or MATH 125. The lecture portion of the course focuses on the fundamental principles of chemistry dealing with structure of matter, valence, gases, oxidation, equations, formation of compounds, and solution of problems. The laboratory component includes experiments in measurement principles, gravimetric analysis, physical behavior of gases and chemical reactions in solutions. Three hours lecture, two hours laboratory per week.

- CHEM 108 GENERAL CHEMISTRY II (LECTURE) (FALL, SPRING) 4 CREDITS**
Prerequisite(s): CHEM 107 or MATH 141. This course is a continuation of CHEM 107. The lecture portion focuses on chemical reactions in solutions, chemical thermodynamics, equilibrium, ionic equilibrium, chemical kinetics, and electrochemistry, the general theory of acids and bases and nuclear chemistry. The laboratory component includes experiments in thermodynamics, kinetics, electrochemistry, physical behavior of gases and chemical reactions in solutions. Three hours lecture, two hours laboratory per week
- CHEM 201 ORGANIC CHEMISTRY I (LECTURE) (FALL, SPRING) 5 CREDITS**
Prerequisite(s): CHEM 107. The lecture portion of the course will include chemical bonding, acid/base theory, thermodynamics, kinetics, organic structure, isomerism, stereochemistry, infrared spectroscopy, NMR nuclear magnetic resonance spectroscopy, mass spectroscopy, nomenclature principles, and the chemistry of several organic chemical functional groups. The laboratory portion of the course will include methods of purification/separation of organic chemicals, chemical kinetics, instrumental analytical techniques, and several organic syntheses. Three hours lecture, three hours laboratory per week.
- CHEM 202 ORGANIC CHEMISTRY II (LECTURE) (FALL, SPRING) 5 CREDITS**
Prerequisite(s): CHEM 201. This course is a continuation of CHEM 201. The lecture portion of the course will include oxygen containing functional groups, aromaticity, benzene and its derivatives, carbanions, nitrogen containing functional groups, heterocyclics, and nuclear magnetic resonance. The laboratory portion of the course will consist of organic syntheses and qualitative organic analysis. Three hours lecture, three hours laboratory per week.
- CHEM 301 QUANTITATIVE ANALYSIS (LEC) 3 CREDITS**
Prerequisite(s): CHEM 107. Lecture and laboratory. This course will focus on the fundamental theory and practice of volumetric, gravimetric, and instrumental methods of analysis. The student is trained in chemical calculations as applied to quantitative analysis. Three hours of lecture a week.
- CHEM 302 INSTRUMENTAL ANALYSIS 4 CREDITS**
Prerequisite(s): CHEM 201, 202. This course focuses on the basic theory, technique, and application of various instrumental method of analysis. Two hours of conference and six hours of laboratory a week.
- CHEM 309 BIOCHEMISTRY I (LEC) (FALL and SPRING) 3 CREDITS**
Prerequisite(s): CHEM 202. This course is a study of structure and function of proteins and carbohydrates. Topics include role and importance of water in biochemical reactions; introduction to structural and thermodynamic elements of enzymology and biochemical pathways; structure and function of allosteric proteins with a particular emphasis on hemoglobin; and carbohydrate metabolism, citric acid cycle, and oxidative phosphorylation.
- CHEM 311 QUANTITATIVE ANAL (LAB) 2 CREDITS**
 This lab must be taken concurrently with lecture CHEM 301. This course is a three-hour laboratory.
- CHEM 320 INSTRUMENT ANALYSIS 2 CREDITS**
- CHEM 401 PHYSICAL CHEMISTRY I (LEC) (Periodically) 3 CREDITS**
Prerequisite(s): PHYS 272, and MATH 300. This course is an introduction to atomic and molecular structure and elementary thermodynamics. Three hours of lecture a week. (This course may be offered without corequisite laboratory.)
- CHEM 402 PHYSICAL CHEMISTRY II (LEC) (Periodically) 3 CREDITS**
Prerequisite(s): CHEM 401 and CHEM 410. This course is a continuation of Physical Chemistry II, CHEM 401, including chemical kinetics and photochemistry. (This course may be offered without the corequisite laboratory.)
- CHEM 405 SEMINAR IN CHEMISTRY (Periodically) 2 CREDITS**
Prerequisite(s): Senior Standing Only. This course is a discussion of advanced topics in inorganic, organic, analytical, physical chemistry, and biochemistry.
- CHEM 406 RESEARCH IN CHEMISTRY 1 CREDIT**
 This course is an introduction to the literature of chemistry and the techniques of research.
- CHEM 410 PHYSICAL CHEMISTRY I (LAB) (Periodically) 2 CREDITS**
 This lab must be taken concurrently with lecture CHEM 401. This course is a three-hour laboratory.
- CHEM 412 BIOCHEMISTRY II (SPRING) 3 CREDITS**
Prerequisite(s): CHEM 201, 202, and 309. This course is a study of structure of lipids and steroids, metabolism of lipids, glycogen, amino acids, gluconeogenesis, and the structure and function of muscle proteins, biological membranes, and membrane proteins.

COMM: COMMUNICATIONS COURSE DESCRIPTIONS

- COMM 101 ORAL COMMUNICATION (FALL, SPRING) 3 CREDITS**
 This course is designed to give theory and practice in the basic oral skills necessary for effective communication. It is intended that this course will correlate with the other courses offered in communication skills in order to increase the student's articulation. (*NOTE: May be taken for honor's credit.*)
- COMM 103 PUBLIC SPEAKING (FALL, SPRING) 3 CREDITS**
 This course is a study of the basic principles and types of speeches, with practice in composition and delivery of speeches.

- COMM 104 VOICE AND DICTION (FALL, SPRING) 3 CREDITS**
This course is designed to critically scrutinize and improve student articulation, pronunciation, and voice quality.
- COMM 198 COOP-COMM (FALL, SPRING) 12 CREDITS**
- COMM 215 INTRODUCTION TO NEWS WRITING (FALL, SPRING) 3 CREDITS**
Prerequisites: ENGL 101 and ENGL 102. This course explores the technique of news writing and news gathering, constant practice in the writing of news stories and emphasizes policy, principles, and concepts basic to the field.
- COMM 216 ADVANCED NEWSPAPER WRITING (SPRING Only) 3 CREDITS**
Prerequisite: COMM 215. This course is a review of journalism concepts and principles with an expanded survey of news room policy and related problems, role of mass media in shaping public opinion, and emphasizes the responsibility and ethical principles of journalism.
- COMM 219 HISTORY OF JOURNALISM (FALL, SPRING) 3 CREDITS**
This course is a study of journalism in the United States from colonial times to the present, with special attention on the present and to the newspaper's relation to society.
- COMM 240 INTRODUCTION TO MASS COMMUNICATIONS (FALL, SPRING) 3 CREDITS**
Prerequisites: COMM 101 or 30 Semester Hours. This course explores theories and principles of mass communication with emphasis on effects of the mass media (print, electronic, and books), the media as institution, and their various roles in contemporary society.
- COMM 242 SURVEY OF EMERGING MEDIA (SPRING Only) 3 CREDITS**
This course will explore "new Media," and its impact on traditional media models, by discussing how society has reacted to the historical creations of new media: from the printing press, to television, to the World Wide Web, to blogging. In addition, questions of how new media will shape industry structure, management, advertising and production, and culture will be addressed.
- COMM 248 INTRODUCTION TO BROADCAST NEWS (FALL, SPRING) 3 CREDITS**
This course is designed to provide students with professional skills training in electronic news gathering, interviewing, story developing, writing, reporting, editing, and producing news for television.
- COMM 298 COOP-COMM (FALL, SPRING) 12 CREDITS**
Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website at
- COMM 320 NEWS EDITING (SPRING Only) 3 CREDITS**
Prerequisite: COMM 215. This course enables students to work in actual newsroom conditions to explore the general principles of newspaper make-up, writing headlines and leads, news writing, building feature stories and broadcast news, reporting skills, editorial policy, and judgments in processing materials for publication.
- COMM 321 THE MAGAZINE ARTICLE (FALL Only) 3 CREDITS**
This course is a study of the modern magazine article with constant practice in writing all kinds of magazine material. The role of the magazine in society with review of the specialty magazine story and feature placement; magazine photography, advertising, and writing for publication and pay will be discussed.
- COMM 322 ANNOUNCING (FALL, SPRING) 3 CREDITS**
This course is a study and use of announcing techniques under professional direction, including mike techniques, fundamentals of voice projection, diction, timing, pronunciation, poise, interviews, commercials, and narration.
- COMM 323 WRITING FOR THE ELECTRONIC MEDIA (FALL) 3 CREDITS**
This is a basic course in writing for the electronic media (educational and commercial) and is a laboratory in program design and writing skills.
- COMM 324 PUBLIC RELATIONS (FALL, SPRING) 3 CREDITS**
Prerequisite: COMM 240. This course is a study of the fundamental concepts and skills in the public relations field. Students will learn the definition, nature, scope, and warranty of public relations activity. Tasks and responsibilities such as the number of theoretical foundations (including among others, communication theory, inter-organizational theory, decision-making and management theory and conflict-resolution theory) will be addressed.
- COMM 325 BROADCAST ADVERTISING AND SALES MANAGEMENT (SPRING Only) 3 CREDITS**
A study of the development of commercial aspects of journalism, including the techniques and application of modern commercial methods used in the media.

- COMM 331 TELEVISION PRODUCTION (FALL, SPRING) 3 CREDITS**
 This course is a studio production of information to be used in an instructional environment, intended particularly for students planning a career in industry, government, or education where television as a communication channel would be effective. Students will plan, produce, and evaluate the effectiveness of instructional information projects. Innovative application of televised materials relevant to the student's chosen profession is encouraged.
- COMM 332 PUBLICATION DESIGN AND PRODUCTION (FALL Only) 3 CREDITS**
 Prerequisite: COMM 101. This course is an introduction to electronic publishing, using microcomputers. Students learn how to design and produce magazines, newsletters, newspapers, and flyers of professional quality. This course introduces students to the fundamentals of graphic manipulation, text editing, layout, and printing.
- COMM 333 TELECOMMUNICATIONS MANAGEMENT (FALL Only) 3 CREDITS**
 This course is designed to expose students to emergent telecommunications administrative and policy issues. This course will also provide students with knowledge of strategies and applications of telecommunications in management.
- COMM 334 PUBLICITY TECHNIQUES (FALL Only) 3 CREDITS**
 Prerequisite: COMM 240 or Plan is not equal to COMM-BA or COMM-BS. This course is an analysis of the various publicity skills and techniques that cover several closely associated areas such as publicity mechanism used in the field of public relations and advertising. Students are familiarized with the various publicity types and theories.
- COMM 336 ADVERTISING COPYWRITING (SPRING Only) 3 CREDITS**
 This course will explore the theoretical foundations and practical application of advertising and PR campaigns. Students will learn and practice advertising copywriting for the print and electronic media.
- COMM 341 MEDIA ETHICS (FALL, SPRING) 3 CREDITS**
 This course deals with ethical problems that communications practitioners face in the performance of their professional duties. It explores a wide range of issues dealing with matters such as truth, fairness, and objectivity, invasion of privacy, conflicts of interests, violence, and pornography, and perceived biases of the media.
- COMM 350 ONLINE JOURNALISM (SPRING Only) 3 CREDITS**
 This involves the application of the Internet and the World Wide Web as tools for journalistic practice. Students will learn how to prepare materials – including writing and editing, and gathering and disseminating information via the Internet and the World Wide Web, and to become Internet content editors for electronic publications.
- COMM 398 COOP-COMM 6 Credits**
- COMM 403 INTERCULTURAL COMMUNICATIONS (SPRING Only) 3 CREDITS**
 This course is a consideration of the role that culture, gender, race and class play in human communication. It includes a review of current theories, structures, relations and interactions within varying culture settings.
- COMM 404 ORGANIZATIONAL COMMUNICATIONS (SPRING Only) 3 CREDITS**
 This course explores theory and research on communication problems, patterns, practices in business, government, and professional organizations. The relation of communication to administration and human relations is discussed.
- COMM 419 PUBLIC OPINION (SPRING Only) 3 CREDITS**
 Prerequisite: COMM 324. This course explores the foundations of the dimension of public opinion and how opinion polls structure political and organizational opinion. It also explores the conceptualization of how attitude, values, and opinions structure political and business arenas.
- COMM 420 PUBLIC RELATIONS WRITING (FALL Only) 3 CREDITS**
 Prerequisite: COMM 324. This course explores the structure and format of various public relations writing. Skills and techniques that cover several closely associated areas such as writing for public relations, copy dissemination, media use, and media network design also are discussed. These techniques range across internal and external (print, electronic and radio) media. Students will learn the various differences between public relations and prose writing by looking at various memos, business letters, e-mail writing, and the usage of the inverted pyramid style of journalistic writing.
- COMM 421 BROADCAST PROGRAMMING I (FALL, SPRING) 3 CREDITS**
 This course enables research into problems and theories of programming for air, including formats. It enables constant student practice and guidance in techniques of preparation of program schedules, radio-TV traffic, "block programming", and innovations as well as issues in broadcast program practice.
- COMM 423 COMMUNICATION LAW, POLICY, AND ADMINISTRATION (FALL, SPRING) 3 CREDITS**

This course will introduce students to the process of good game design. Students will work in teams in an iterative process to design, implement, and evaluate a 2D game. Topics will include idea generation, storyboarding, and human computer interaction. The course will include readings, play testing, and each team will present their completed game in a game showcase at the end of the course.

COSC 110 COMPUTER LITERACY AND APPLICATIONS (FALL, SPRING) 3 CREDITS

This course is an introduction to fundamental concepts and applications of computing, designed for students with no prior training in computer use. Topics include: summary of personal and business uses of computers, from micros to mainframes; use of application software for word processing, spreadsheets and database management; survey of computer and communications systems' hardware components; development and use of system and application software; characteristics of high-level programming languages; accessing the Internet; and social issues. This course may be used to satisfy the *General Education Requirement in the Technology category*. (Note: This course does not qualify for computer science or computer technology major credit.)

COSC 111 COMPUTING PRINCIPLES AND TECHNOLOGIES (FALL, SPRING) 3 CREDITS

This course provides a proficient foundation in general computer science and computer technology concepts. It includes a survey of selected computer topics to provide fluency in information technology as well as emerging and societal issues surrounding information technology. Students are introduced to computer hardware, programming, web page development, software applications and networking models. This course may be used to satisfy the *General Education Requirement in the Technology category*.

COSC 112 COMPUTER SCIENCE I (FALL, SPRING) 4 CREDITS

Prerequisite(s): None. (Students without programming experience may be advised to take COSC 111 before or concurrently with COSC 112.) This course is a study of the formal syntax and semantics of a programming language. Topics include expressions, assignments, declarations, control structures, arrays, data abstractions, subprograms, user interfaces, error handling, end of file handling, and string handling. Aspects of Software Engineering include top down design, structured programming, and style in programming conducted in a block structured language, such as Pascal, C, or C++. Ethical and social issues include information privacy, data reliability, data security, including wiretapping and encryption and ergonomics. This course may be used to satisfy the *General Education Requirement in the Technology category*.

COSC 113 COMPUTER SCIENCE II (FALL, SPRING) 4 CREDITS

Prerequisite(s): COSC 112. Prerequisite or taken concurrently: MATH 141 or MATH 150. This course explores the design and analysis of large scale systems of programs. Topics include testing, debugging, documentation, recursion, dynamic storage allocation, LIFO stacks, FIFO queues, trees, linked lists, routed I/O to multiple files, protecting software and other intellectual property, computer crimes, and constitutional and related issues. This course may be used to satisfy the *General Education Requirement in the Technology category*.

COSC 190 INTERMEDIATE COMPUTER PROGRAMMING (FALL, SPRING) 4 CREDITS

Prerequisite(s): At least one prior computer-programming course using a general purpose language or consent of the instructor. Prerequisite or taken concurrently: MATH 141 or MATH 150. This course presents and implements the formal syntax and semantics of a programming language. Topics include basic operations, control structures, arrays, data abstraction, subprograms, error handling, disk files, recursions, classes, introductory object-oriented programming, pointers, testing, and debugging. Structured programming is stressed. This course covers the content of two courses, COSC 112 and COSC 113, at an accelerated rate in one semester. A block structured language such as C, C++, or Java is used.

COSC 208 DISCRETE STRUCTURES (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 113 or COSC 190 and either MATH 141 or MATH 150. This course is a study of mathematical topics needed for a major in computer science as follows: sets, relations, logic, graphs, mappings, functions, recursion, finite state machines, formal proof techniques, combinatorics, and recurrence relations.

COSC 209 GAMING II (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 109. This course focuses on designing simple playable games, each exploring different aspects of game design such as rule design, game balance, multiplayer strategy, complexity, randomness, narrative, psychology, emergent behavior and aspects of physical game bit and interface design. The course will cover game design concepts through readings, presentations, play testing, and emphasize hands-on development of games.

COSC 212 ASSEMBLY LANGUAGE PROGRAMMING (PERIODICALLY) 3 CREDITS

Prerequisite(s): COSC 113 or COSC 190. This course is a study of computer structure and machine language, assembly language, addressing techniques, macros, file I/O, program segmentation and linkage, data and instruction representation, assembler construction, and interpretive routines.

COSC 214 DATA STRUCTURES AND ALGORITHMS (FALL, SPRING) 4 CREDITS

Prerequisite(s): COSC 113 or COSC 190. This course explores the definitions and implementations of basic data structures such as stacks, queues, linked lists, binary trees, etc.; internal searching and sorting algorithms; and garbage collection algorithms. Design of sort and search algorithms and introductory analysis associated with the basic data structures, as well as recursive algorithms, are discussed.

COSC 254 COMPUTER ORGANIZATION (FALL) 4 CREDITS

Prerequisite(s): COSC 113 or COSC 190. This course explores the relationships between control units, input-output devices, processors, and storage units. Topics include logic circuits design, coding (e.g., BCD, ASCII), number representation and arithmetic instruction set, register transfer operations, central processor organization, finite state machines, memory organization, I/O, and microprocessors.

COSC 309 GAMING III AND ANIMATION (SPRING) 3 CREDITS

Prerequisite(s): COSC 209. This course introduces techniques used to create computer animation. Topics include principles of animation, motion planning, and generation, key framing, kinematics, inverse kinematics and motion technology. Students will develop a game using Computer Graphics Library.

COSC 330 SYSTEMS PROGRAMMING I (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 112 or COSC 190. An introduction to UNIX systems programming. Topics include: UNIX shell programming; UNIX kernel and utilities; regular expressions; UNIX commands; development of shell programs to solve system problems; introduction to system calls.

COSC 345/ CTEC 345 FOUNDATIONS OF COMPUTER AND NETWORK SECURITY (FALL) 3 CREDITS

Prerequisite(s): CTEC 302 or COSC 485 or Consent of Instructor. This course will introduce students to the challenges and vulnerabilities in securing a computer networking system. Topics include the in-depth study of network border security, such as firewalls, intrusion detection systems, virtual private networking, penetration testing and network security architecture. This course is designed to develop the fundamental skills needed to analyze the internal and external security threats against a network, and to develop security policies that will protect an organization's information. Students will learn how to evaluate network and Internet security issues and design, and how to implement successful network security policies and strategies. In addition, they will learn how to expose system and network vulnerabilities and defend against them.

COSC 350 PROGRAMMING LANGUAGES (FALL) 3 CREDITS

Prerequisite(s): COSC 214. The comparative study of the fundamentals of several programming languages, including ALGOL, APL, FORTRAN, C, ADA, LISP, PL/1, etc, through their grammar and control structures is provided. Topics include BNF grammar, information binding, recursion, and data structures.

COSC 352/ CTEC 350 PRINCIPLES AND METHODS OF INTRUSION DETECTION AND PREVENTION (FALL) 3 CREDITS

Prerequisite(s): CTEC 302 or COSC 485 or Consent of Instructor. Concepts of intrusion detection, anomaly detection based on machine learning, signature-based detection using pattern matching, automated response to attacks using planning approaches, tracing intruders, predicting behavior of hackers to protect information and infrastructure assets, and security policy languages. Topics will also include: security standards; issues in network security including border protection (firewalls), issues in system security, including user authentication, malicious logic, such as viruses; digital privacy; potential personnel issues and concepts in security planning and auditing.

COSC 354 COMPUTER ARCHITECTURE (SPRING) 3 CREDITS

Prerequisite(s): COSC 254. This course is a study of principles of digital systems, floating-point arithmetic, communication methods, design of a simple computer, microprogramming on a simple computer, instruction sets, input/output, interrupt driven I/O, programmed output, memories, and addressing. Several well-known system architectures will be studied.

COSC 370 COMPUTER ETHICS, SOCIAL AND LEGAL ISSUES (SPRING) 3 CREDITS

Prerequisite(s): COSC 214, and ENGL 361 or ENGL 362. This course will examine the major ethical issues surrounding the use of computers and the responsibilities of those who work with computers. Readings will be assigned and will include, but will not be limited to, technical issues in computer science (software development), privacy, security, liability, the digital divide, hacking, intellectual property rights, viruses, proprietary software, worms and other animals, societal awareness, and many of the laws that relate to the preceding list of topics.

COSC 374 OBJECT-ORIENTED DESIGN (FALL) 3 CREDITS

Prerequisite(s): COSC 214. This course covers the design of object-oriented programs. Specifically, students will study software engineering topics, such as life-cycle management, the use of CASE modeling tools, such as UML diagrams, in requirements specification and system organization, and object-oriented concepts, such as encapsulation, inheritance, and polymorphism. Students will acquire the ability to analyze a problem using object-oriented techniques.

COSC 375 OBJECT ORIENTED DESIGN AND DEVELOPMENT (PERIODICALLY) 3 CREDITS

Prerequisite(s): COSC 214. This course covers the design and development of object-oriented programs. Specifically, students will study object-oriented design methods, classes, inheritance, polymorphism, and software engineering issues. Students will acquire the ability to analyze a problem using object-oriented techniques. They also will learn a widely used object-oriented language such as JAVA, using a Unix platform.

COSC 402/ CTEC 402 SOFTWARE AND OPERATING SYSTEM SECURITY (SPRING) 3 CREDITS

Prerequisite(s): CTEC 214 or COSC 330 or Consent of Instructor. This course will examine security principles and practices important to operating systems and programming. Topics include: OS security architecture; memory security; authentication, including account and password protection mechanisms; assessing OS vulnerabilities; programming security and attacks such as buffer overflow attacks and writing secure code; application interaction; module control; auditing host security, including operational logs; malicious logic including viruses and virus protection; and security applications.

- COSC 409 GAMING IV (FALL, SPRING) 3 CREDITS**
Prerequisite(s): COSC 309. This course will provide an introduction to current and future techniques for electronic game design and programming. Topics will include graphics game engines, motion generation, behavioral control for autonomous characters, interaction structure, and social and interface issues of multi-user play. The course will emphasize hands-on development of games.
- COSC 414 OPERATING SYSTEMS (SPRING) 3 CREDITS**
Prerequisite(s): COSC 214 and COSC 330. This course is a study of batch systems, interactive systems, spooling systems, multiprogramming systems, I/O processors and techniques, intra-system communication, deadlocks, indefinite postponement, microprogramming, parallelism, and pipelining. Dynamic procedure activation, system structure, memory management, process management, and recovery procedures, and case studies of recent operating systems also will be covered.
- COSC 418 PRINCIPLES OF COMPUTER GRAPHICS (FALL) 3 CREDITS**
Prerequisite(s): COSC 214 or MATH 228. This course introduces students to basic concepts and essential principles of Computer Graphics from programming perspective. It includes topics such as Geometric Modeling, Lighting/Shading, Subdivision of Curves and Surfaces, Mesh Parameterization, Texture Mapping, Morphing, and Animation. Students will use a standard Computer Graphics Library and develop simple algorithms of Computer Graphics to reinforce the concepts.
- COSC 420 DATABASE MANAGEMENT (FALL) 3 CREDITS**
Prerequisite(s): COSC 214. This course is an introduction to concepts, design objectives, tools, and principles database management system software. Descriptors, structures, database system architectures, entities, relationships, and data models. The relational, network and hierarchical database models, normal forms, and canonical data structures will be studied as a basis for logical organization. Relational algebra and calculus, introduction to concurrency, and transaction management are studied.
- COSC 423 AUTOMATA AND COMPUTATION THEORY (PERIODICALLY) 3 CREDITS**
Prerequisite(s): COSC 208. This course is a study of finite-state machines, push-down automata, and Turing machines. The Resolution Principle as applied to propositional first-order logic, and aspects of mathematical logic with emphasis on applications to computing machines are discussed.
- COSC 428 DESIGN AND ANALYSIS OF ALGORITHMS (SPRING) 3 CREDITS**
Prerequisite(s): COSC 214. This course will include the design and analysis of algorithms. Algorithms that manipulate data structures such as lists, stacks, queues, trees, and graphs are discussed in terms of efficiency and existence. Algorithms for data compression, memory management, and advanced hashing techniques will be studied. Topics also include balancing algorithms, divide-and-conquer algorithms, dynamic programming, the greedy approach, backtracking, branch-and-bound, advanced search/sort techniques, the P=NP problem, parallel algorithms, and newly promoted algorithms will be studied and researched.
- COSC 430 SYSTEMS PROGRAMMING II (SPRING) 3 CREDITS**
Prerequisite(s): COSC 330. This course is a study of basic systems software (assemblers, loaders and linkers, macro processors, etc.). Basic constructs of the C/C++ language are reviewed with special emphasis on developing software using C/C++ in UNIX environment. Also covered are UNIX file access primitives: *open, creat, close, read, write, copyfile, lseek, fcntl*; files in multi-user environment: *Call umask, commands access, chmod, chown, system calls link, unlink, rename, stat, fstat*; directories, file systems and special files; process: *fork, exec, wait, waitpid*; process attributes; signals and signal handling; inter-process communication techniques; the terminal; sockets; I/O library; and library routines.
- COSC 445/ CTEC 445 FUNDAMENTALS OF CRYPTOGRAPHY AND APPLICATIONS (SPRING) 3 CREDITS**
Prerequisite(s): COSC 208. This course will examine the details of how some of the typical security protection measures work. Topics include: Certificate Authorities (CA), Public Key Infrastructure, Rivest-Shamir-Adleman (RSA) architectures, Data Encryption Standard, Pretty Good Privacy, steganography, and security standards. In addition, key cryptologic terms, concepts, and principles will be defined and explained as well as authentication, access control, non-repudiation, data integrity, and confidentiality issues.
- COSC 454 EMBEDDED SYSTEM DESIGN (SPRING) 3 CREDITS**
Prerequisite(s): COSC 354. This course explores the design of custom circuitry and single-purpose processors. The emphasis is on hardware/software codesign, using high-level tools to implement circuitry and program microprocessors. Topics covered are: digital circuitry, software development for general-purpose processors, single-purpose processors, memory systems, communication interfaces, finite state machines, concurrent processing models, control theory, integrated circuitry, synthesis levels and verification.
- COSC 461 COMPILERS (SPRING) 3 CREDITS**
Prerequisite(s): COSC 214. Grammars, lexical analyses, parsing algorithms, intermediate languages, storage assignment, code generation, global and peep-hole optimization, push-down stacks and run-time organizations are discussed. A significant programming project is required.
- COSC 473 ARTIFICIAL INTELLIGENCE (FALL) 3 CREDITS**
Prerequisite(s): COSC 214. This course is an introduction to basic concepts and techniques of artificial intelligence. Topics include: knowledge representation, search strategies, fuzzy and probabilistic reasoning, and theorem proving. Applications of AI languages and the design and construction of Expert Systems are discussed.

COSC 474 MACHINE LEARNING AND DISCOVERY (SPRING) 3 CREDITS

Prerequisite(s): COSC 473. Artificial intelligence techniques for knowledge acquisition by computers. Fundamental problems in machine learning and discovery. Systems that learn from examples, analogies, and solved problems. Systems that discover numerical laws and qualitative relationships. Projects centering on implementation and evaluation.

COSC 475 SOFTWARE ENGINEERING (FALL) 3 CREDITS

Prerequisite(s): COSC 214. This course introduces the student to major topics in software engineering such as: requirements specification, analysis and design, testing, project management, and implementation. Additional topics such as software life cycle models, the Unified Modeling Language (UML), agile software development techniques, configuration management, change control, and project documentation will be discussed.

COSC 477 VITRUAL REALITY AND ITS PRINCIPLES (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 214. This course introduces students to Virtual Reality (VR) hardware and software. It provides an opportunity for them to apply this knowledge to applications for education and games. This course applies cutting-edge virtual reality technology currently available in academia and industry. Students will design, model, and script the VR environment by developing a complete VR application as a group project.

COSC 480 SENIOR CAPSTONE (SPRING) 3 CREDITS

Prerequisite(s): COSC 350, COSC 354, COSC 414. This is a capstone course which integrates the material covered in core courses, namely Data Structures and Algorithms, Computer Organization, Systems Programming, Programming Languages, Computer Architecture and Operating Systems. The emphasis is on solving problems which require concepts from more than one area. Selected problems integrating the topics covered in these courses will be formulated, discussed, and solved.

COSC 485 DATA COMMUNICATIONS AND NETWORKS (FALL) 3 CREDITS

Prerequisite(s): COSC 214 and COSC 254. This course explores the fundamentals of data communication and computer networking: common carrier implications, tariffs, exchanges, concentrators, multiplexors, and buffering; circuit, message, and packet switching; network architectures and protocols; protocol standards, modeling, and analysis; cost and design; software considerations are emphasized.

COSC 490 SELECTED TOPICS IN COMPUTER SCIENCE (FALL, SPRING) 3 CREDITS

COSC 491

COSC 492

Prerequisite(s): Consent of Instructor. (Note: COSC 492 may be offered for Cooperative Education credits. Check class schedule or contact the Computer Science Department for more information). These courses are presentations of selected modern developments, advanced topics, and problem solving in computer science.

COSC 495 SENIOR SEMINAR IN COMPUTER SCIENCE (FALL) 3 CREDITS

Prerequisite(s): ENGL 361 or ENGL 362 and a minimum of one 400-level COSC course. Students research topics of interest including issues on professional ethics and responsibilities (ACM Code of Ethics and Computer Ethics). Written reports and presentations of complete projects are required.

CRJU: CRIMINAL JUSTICE COURSE DESCRIPTIONS

CRJU 201 INTRO TO CRIMINAL JUSTICE (FALL, SPRING, SUMMER) 3 CREDITS

This course examines the history, theory, and structure of the criminal justice system. Additionally, the course serves as an introduction to substantive and procedural criminal law and the juvenile justice system.

CRJU 202 AMERICAN JUDICIAL SYSTEM (FALL, SPRING, SUMMER) 3 CREDITS

This course examines the history, philosophy, and basic concepts of the legal system in England and the United States. The organization and jurisdiction of federal, state, and local courts as well as the legal process from inception to appeal are investigated.

CRJU 203 AMERICAN CORRECTIONS (FALL, SPRING, SUMMER) 3 CREDITS

This course examines the historical and philosophical development of the correctional system and the organization and functions of correctional agencies. The roles and responsibilities of personnel in the correctional setting are also examined.

CRJU 301 CONSTITUTIONAL LAW/CIVIL RIGHTS (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisites(s): CRJU 201. This course focuses on the foundation of American Law and the protections afforded citizens and analyzes how current cases apply these foundational laws and rights in today's society.

CRJU 302 LEGAL RESEARCH/WRITING (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): CRJU 201. This course assists students with understanding the basics of legal research and how to brief a case and analyze case law. The basic concepts of legal writing are addressed in the course.

- CRJU 303 SOCIETY AND THE LAW (FALL, SPRING) 3 CREDITS**
 This course examines law as a defining force in American culture and society in four dimensions (1) as it establishes individual rights, liberties, and limits of toleration (2) as it attempts to resolve differences among competing constituencies (3) as it sets out terms of punishment and social control and (4) as a source of informing images and ideological consistency.
- CRJU 310 CONFLICT RESOLUTION/ADR (SPRING, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course provides an overview of alternative dispute resolution process and how they may be employed to resolve conflicts with or without court involvement.
- CRJU 311 LEGAL ISSUES IN CORRECTIONS (FALL, SUMMER) 3 CREDITS**
 This course explores a multitude of legal issues facing correctional staff. Sources of correctional law and specific constitutional amendments will structure discussions regarding the confinement and treatment of incarcerated inmates as well as those supervised in the community.
- CRJU 312 WOMEN AND THE LAW 3 CREDITS**
Prerequisite(s): CRJU 201. This course examines the role of women in the United States legal and criminal justice system. Special attention focuses on the issues of equal protection of the laws, sexual harassment, imprisoned women, feminist jurisprudence, and the status of women in the legal profession.
- CRJU 314 STRESS MANAGEMENT IN CRIMINAL JUSTICE (FALL) 3 CREDITS**
 This course examines the alarming and detrimental problems of stress and burnout experienced by criminal justice/law enforcement personnel. Emphasis is placed on the nature of stress, its causes, its consequences, and the various techniques utilized to manage and control stress at both the individual and group levels.
- CRJU 315 VICTIM AND CRIMINAL JUSTICE (FALL, SPRING) 3 CREDITS**
Prerequisite(s): CRJU 201. This course examines the impact of crime upon a variety of victims, e.g., victims of rape, drunk driving, robbery, and child and spouse abuse. It considers such topics as victim compensation, victim-offender relationship, as well as victimless crimes. This course covers techniques and laws used in dealing with detection, suppression, apprehension, and prosecution of violators. Implications for the individual and society concerning the control of such behaviors are reviewed and evaluated, as well as alternative social policies.
- CRJU 316 ADVANCED CRIMINAL PROCEDURE & EVIDENCE (FALL, SPRING, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course is a comprehensive examination of the rules of evidence in criminal cases. Through study of US Supreme Court cases and rulings, the following criminal procedure issues are examined: burden of proof, testimonial privileges, exclusionary rule, police searches, admissions and confessions, identification, and physical evidence.
- CRJU 317 CORRECTIONS: THE PRISON INDUSTRIAL COMPLEX (SPRING, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201: This course investigates how the American penal system developed into a prison industrial complex, reflecting the increased incarceration rates from the 1970's onward, frequently called the imprisonment binge. Topics to be examined include : race and class bias; trend towards lockdown and super max facilities; prison labor; prison profits; privatization; prison health care; guard conduct; women in prison; prisoner struggles and rebellions. A component of this course includes view provided by incorporating actual prisoner cases communications and writings into class work.
- CRJU 318 COMMUNITY-BASED CORRECTIONS (FALL, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course examines correctional procedures, practices, strategies and personnel regarding probation, parole, juvenile diversion and other innovative correctional approaches applied in a community setting. Special attention is given to the myriad of issues involving re-entry of felons and recidivism in society.
- CRJU 319 PROBATION AND PAROLE (SPRING, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course examines the history of the entire system of probation and parole. Special attention is given to present investigation methods, predicting parole behavior, supervisory practices, legal aspects, the use of amnesty, and pardons.
- CRJU 321 JUVENILE JUSTICE SYSTEM (SPRING, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course introduces students to the organizations, processes, and actors that comprise the Juvenile Justice System. The course emphasizes the history of the Juvenile Justice System, the agency interactions and interrelationships, the concepts of prevention and diversion, the development of juvenile gangs, the roles of criminal justice of prevention and diversion, the development of juvenile gangs, the roles of criminal justice professionals and the future of the Juvenile Justice System.
- CRJU 322 DRUGS AND CRIME (FALL, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course examines the exploration of the pharmacological effects and medical uses of drugs and alcohol and the relationships between drugs and crime with special attention on marijuana and cocaine.
- CRJU 323 CRIMINAL JUSTICE ADMINISTRATION 3 CREDITS**
Prerequisite(s): CRJU 201. This course surveys basic concepts and principles concerned with the administration and management of agencies within the criminal justice system. Emphasis is placed on organizational structure and function.
- CRJU 324 CRIMINAL INVESTIGATION (SPRING, SUMMER) 3 CREDITS**
Prerequisite(s): CRJU 201. This course is designed to provide the skills and knowledge necessary to conduct a thorough preliminary investigation of crimes. Techniques used to investigate common categories of crimes are discussed in detail. A major emphasis in this course is the preparation and execution of investigative plans as they relate to a team approach.

CRJU 325 MULTICULTURAL ISSUES IN CRIMINAL JUSTICE (FALL, SUMMER) 3 CREDITS

Prerequisite(s): CRJU 201. This course examines the current issues and social problems relating to the administration of justice in a culturally diverse society. Special focus of the course is on the changing ethnicity of communities and related changes in social and institutional public policy. Also, the course discusses cross-cultural communication, implementing cultural awareness training, multicultural representation in law enforcement, and criminal justice interaction with various racial and ethnic groups.

CRJU 326 FORENSIC ANTHROPOLOGY (FALL, SUMMER) 3 CREDITS

Prerequisite(s): CHEM 107 GENERAL CHEMISTRY I; CHEM 108 GENERAL CHEMISTRY II. This course is an introduction to the study of forensic anthropology, designed to provide a basic understanding of the analysis of human skeletal remains and how forensic anthropologists work as part of the medical forensic team. Topics include the investigative methods used in forensic anthropology; the standards for forensic anthropological investigations; methods used in forensic anthropology; the standards for forensic anthropological investigations; and methods for determining sex, ancestry, time since death, and personal identification of human remains. Specific examples of forensic anthropology cases are reviewed.

CRJU 327 THEORIES (FALL, SPRING, SUMMER) 3 CREDITS

This course provides an overview of the current understanding of the causes of crime from an interdisciplinary perspective. It focuses on the major theories of crime and crime causation developed over the past two hundred years. Emphasis is on integrating criminological theory and research and assessing the implications of this knowledge base for policies relating to crime control and prevention.

CRJU 328 RACE, CLASS GENDER AND CRIMINAL JUSTICE (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): CRJU 201. This course chronicles the experiences and socioeconomic development of African Americans in the Criminal Justice System in America. It presents Law and Society issues and discussions central to the institutions of slavery, rural sharecropping, urban poverty and the global drug economy. Other relevant themes include ethnicity, immigrant populations and gender as these interface with the Criminal Justice System and with slavery, rural sharecropping, and /or urban property.

CRJU 401 TRIAL ADVOCACY (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): CRJU 201. This course is designed to give students insight into how an actual trial is conducted (criminal and civil) and how the advocacy processes work and the roles of the parties involved.

CRJU 403 CRIMINALISTICS I (FALL, SPRING) 3 CREDITS

Prerequisite(s): CRJU 201. This course is structured to serve as an introduction to the scientific methods used in modern-day criminal investigation and detection of criminal activity.

CRJU 404 CRIMINAL LAW: ELEMENTS AND PRINCIPLES (FALL, SPRING, SUMMER) 3 CREDITS

Prerequisite(s): CRJU 201 and CRJU 316. This course is a study of the basic concepts underlying criminal law and the essential elements of the offenses comprising the major crime categories, i.e., crimes against people, crimes against property, sex crimes, and victimless crimes. The focus is on legal rather than behavioral aspects.

CRJU 405 CRIMINALISTICS II (SPRING) 3 CREDITS

Prerequisite(s): CRJU 201, CRJU 316 and CRJU 403. An Introduction to the complex scientific methods used in modern-day criminalistics with a concentration on biological evidence, determining cause of death, and the analysis of organic/inorganic matter. You will focus on the collection, preservation, and analytical study of biological evidence as it relates to criminal activity. Many of the vital phases of forensic investigation are explored by means of lecture, laboratory experiments, field trips, and other applied assignments. Students will learn how to accurately recognize analytical techniques such as chromatography, spectrophotometry, and other methods that are used to evaluate evidence collected at a crime scene. Each student will also study the reconstruction of mock biological evidence (i.e. body fluids, stain patterns of blood, deoxyribonucleic acid) from crime scene scenarios.

CRJU 407 WHITE COLLAR CRIME 3 CREDITS

Prerequisite(s): CRJU 201: This course examines the contemporary forms of white collar crime (corporate) and the various theories, regulations, and criminal behaviors associated with the phenomenon in modern society.

CTEC: COMPUTER TECHNOLOGY COURSE DESCRIPTIONS

CTEC 114 COMPUTING TOOLS AND ENVIRONMENTS (PERIODICALLY) 3 CREDITS

This course is an introduction to key computing environments in the information technology. These environments vary in computing platforms, user interface, and collection of tools and applications available. This course familiarizes students with basic concepts and functioning of Windows, MS DOS, UNIX operating systems as well as basic Internet tools and helps students gain versatile computer literacy.

CTEC 125 INTRODUCTION TO VISUAL BASIC (FALL, SPRING) 3 CREDITS

This course enables students to create applications using Visual Basic (VB) programming environment. Tools for creating GUI and the VB programming language will be explored, with emphasis on designing applications to solve problems using good programming techniques. Projects will involve constructing complete executable VB applications, including some which access relational databases. This course may be used to satisfy the *General Education Requirement in the Technology category*. (Note: This course does not qualify for computer science or computer technology major credit.)

CTEC 214 CLIENT OPERATING SYSTEMS (FALL, SPRING) 4 CREDITS

Prerequisite(s): COSC 111 or CTEC 114 or Equivalent. This course familiarizes students with basic concepts and functioning of Network Client operating systems. Topics covered include users, groups and policies, configuration, file systems, TCP/IP, setup, workgroups, domains, OSI model, and internetworking with remote access service.

CTEC 222 UNIX OPERATING SYSTEM (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 111 or CTEC 114 or Equivalent. Introduction to UNIX operating system and commands. Topics include: file manipulation; directory structure; operating system performance; editors; UNIX shell scripts programming.

CTEC 225 VISUAL BASIC PROGRAMMING (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 112 or COSC 190. This course enables students to create applications using Visual Basic.NET (VB.NET) programming environment. The emphasis will be on event-based programming. Tools for creating GUI in the VB programming language will be explored, with emphasis on designing applications to solve problems using good programming techniques. Projects will involve constructing complete executable VB.NET applications, including networked applications and database access.

CTEC 226 INTRODUCTION TO DATABASE DEVELOPMENT (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 111 or CTEC 114 or equivalent. This course is an introduction to the fundamental skills that a student will need to be successful in developing personal databases. Topics include database modeling, database and database application design, database implementation with a relational model, and multi-user database processing.

CTEC 291 OBJECT-ORIENTED PROGRAMMING IN C++ (PERIODICALLY) 3 CREDITS

Prerequisite(s): COSC 113 or COSC 190. This course provides extensive coverage of the object-oriented approach including (1) Data abstraction, (2) Inheritance, and (3) Polymorphism. Topics include the relation of OOP to maintainability, reusability, and other aspects of software design and developments. The syntaxes and semantics of C++ constructs which support OOP will be covered.

CTEC 293 INTERNET PROGRAMMING I (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 113 or COSC 190. This course introduces students to Internet Technologies (E-mail, Web Browsers, FTP, Telnet, CGI, and more). Students will develop web pages using the following Internet technologies, HTML, Javascript, and more.

CTEC 294 PC ARCHITECTURES (FALL) 3 CREDITS

Prerequisite(s): COSC 111 or CTEC 114 or equivalent. This course is an introduction to microcomputer architectures from a descriptive, functional point of view. Topics include CPU components, the instruction cycle, an overview of machine and assembly language (instruction sets, addressing modes), fundamental numeric and non-numeric data representation, busses, storage systems, and peripheral devices.

CTEC 298 SYMBOLIC COMPUTATIONS (PERIODICALLY) 3 CREDITS

Prerequisite(s): COSC 113 or COSC 190 and MATH 141 or MATH 150. This course is an introduction to symbolic computations using Mathematical software packages such as Mathematica, Matlab and Maple. Several diverse laboratory based projects serving the interests of students will be conducted. Mathematical level of the project will be consistent with the background of the students.

CTEC 300 DATABASE ARCHITECTURE (FALL, SPRING) 3 CREDITS

Prerequisite(s): COSC 113 or COSC 190, COSC 208, CTEC 226, and either COSC 330 or CTEC 222. This course provides a broad introduction to data modeling, relational data models, database design and development and management. Topics include mainframe vs. network centric (2-tier, 3-tier) environments, client/server, and distributed architectures. Students develop projects using SQL, PL/SQL, and Developer/2000.

CTEC 302 COMPUTER NETWORKING (FALL, SPRING) 3 CREDITS

Prerequisite(s): CTEC 214. This course provides a comprehensive introduction to network concepts and their implementation. Topics include basic network types, major network architectures, cables, cards, remote access network/inter-network connectivity, Internet services, LANs and WANs, client/server configuration issues, and troubleshooting.

CTEC 305 SERVER ADMINISTRATION I (FALL, SPRING) 3 CREDITS

Prerequisite(s): CTEC 302. This course provides a comprehensive introduction to server implementation and administration in any workgroup or domain environment. Topics include network hardware planning, network installation, data storage, configuring server components, intranets and the Internet, supporting network clients, and troubleshooting.

CTEC 324 DATABASE APPLICATION DEVELOPMENT (FALL) 3 CREDITS

Prerequisite(s): CTEC 300, COSC 208. This course is an in depth examination of the database application development process. Topics include database queries, software development life cycle, SQL, PL/SQL, PRO C, SQLJ, COBRA, and ODBC standards. Students will develop applications using these database languages.

CTEC 332 INTERNET SCRIPTING LANGUAGES (SPRING) 3 CREDITS

Prerequisite(s): COSC 330 or CTEC 222. This course provides concepts of shell programming, environment variables, profiling, Bourne Shell, Korn Shell, parameter passing, etc., as well as interfacing with editors such as 'ex' and 'sed'; interfacing with data processing tools such as Awk and Nawk; automation tools such as EXPECT; interfacing with windows tools; introduction to programming in Perl; and applications of scripting for fast prototyping.

CTEC 335 NETWORK PROTOCOLS (TCP/IP) (FALL, SPRING) 3 CREDITS

Prerequisite(s): CTEC 302. This course provides a comprehensive introduction to TCP/IP concepts and implementation on Windows Servers. Topics include IEP routing, host name resolution, IP address resolution, DHCP, WINS, NetBIOS, SNMP, and troubleshooting.

CTEC 337 WIRELESS NETWORKING (FALL) 3 CREDITS

Prerequisite(s): CTEC 302. This course examines the practical and theoretical aspects of today's wireless networks. Emphasis is on the installation, configuration, maintenance, troubleshooting and security of 802.11 ("wireless Ethernet") networks and study of related protocols in the context of the OSI Seven Layer Model.

CTEC 340 MULTIMEDIA APPLICATION DEVELOPMENT (FALL) 4 CREDITS

Prerequisite(s): COSC 214. This course is a study of the history, theory, and development of multimedia concepts and analysis of specific media. Students will be required to learn design, evaluation, and layout principles. Students will implement a multimedia project using an authoring system. Copyright issues and other ethical issues will be discussed.

CTEC 345/ COSC 345 FOUNDATIONS OF COMPUTER AND NETWORK SECURITY (FALL) 3 CREDITS

Prerequisite(s): CTEC 302 or COSC 485 or Consent of Instructor. This course will introduce students to the challenges and vulnerabilities in securing a computer networking system. Topics include the in-depth study of network border security, such as firewalls, intrusion detection systems, virtual private networking, penetration testing and network security architecture. This course is designed to develop the fundamental skills needed to analyze the internal and external security threats against a network, and to develop security policies that will protect an organization's information. Students will learn how to evaluate network and Internet security issues and design, and how to implement successful network security policies and strategies. In addition, they will learn how to expose system and network vulnerabilities and defend against them.

CTEC 350/ COSC 352 PRINCIPLES AND METHODS OF INTRUSION DETECTION AND PREVENTION (FALL) 3 CREDITS

Prerequisite(s): CTEC 302 or COSC 485 or Consent of Instructor. Concepts of intrusion detection, anomaly detection based on machine learning, signature-based detection using pattern matching, automated response to attacks using planning approaches, tracing intruders, predicting behavior of hackers to protect information and infrastructure assets, and security policy languages. Topics will also include: security standards; issues in network security including border protection (firewalls), issues in system security, including user authentication, malicious logic, such as viruses; digital privacy; potential personnel issues and concepts in security planning and auditing.

CTEC 393 INTERNET PROGRAMMING II (SPRING) 3 CREDITS

Prerequisite(s): CTEC 293. This course is a study of advanced programming and scripting languages. Topics covered include: advanced HTML features, Java, Perl, CGI, Intranet, database access via the Web, Web server technology security, and firewalls.

CTEC 396 JAVA PROGRAMMING (FALL) 3 CREDITS

Prerequisite(s): CTEC 293. This course is a study of the language Java. This course examines features of the language Java used in object oriented programming, such as inheritance and polymorphism; features involved in control, such as multi-threading: the Java event model and exceptions and features used for graphical user interface construction.

CTEC 402/ SOFTWARE AND OPERATING SYSTEM 3 CREDITS
COSC 402 SECURITY (SPRING)

Prerequisite(s): CTEC 214 or COSC 330 or Consent of Instructor. This course will examine security principles and practices important to operating systems and programming. Topics include: OS security architecture; memory security; authentication, including account and password protection mechanisms; assessing OS vulnerabilities; programming security and attacks such as buffer overflow attacks and writing secure code; application interaction; module control; auditing host security, including operational logs; malicious logic including viruses and virus protection; and security applications.

CTEC 405 SERVER ADMINISTRATION II (SPRING) 3 CREDITS

Prerequisite(s): CTEC 305. This course provides a comprehensive introduction to Server implementation and administration in an enterprise computing environment. Topics include planning and installation, user and group management, policies and profiles, diverse client support, domain management, Internet Information Server, and troubleshooting.

CTEC 410 INTERNET TECHNOLOGY (SPRING) 3 CREDITS

Prerequisite(s): CTEC 302. This course focuses on the fundamentals of how computers communicate, what is the Internet, how the Internet works, and what the Internet can do for you. Topics include the Internet growth and adaptability, LAN Technology, Internet software, history of the Internet, global Internet and information infrastructure, packet switching, virtual networks, email, FTP, Telnet, and advanced web technologies.

CTEC 415 INTERNET APPLICATIONS I (FALL) 3 CREDITS

Prerequisite(s): CTEC 393. Concepts behind implementing a successful e-business application will be presented. The principles of control structures, object-based programming, and markup and scripting languages and their use in e-commerce applications will be studied.

CTEC 424 DATABASE ADMINISTRATION (SPRING) 3 CREDITS

Prerequisite(s): CTEC 300. This course is an in-depth examination of the tasks related to database administration. Students will design, implement, and manage their own database architecture. Emphasis will be on data distribution, security, backup/recovery, monitoring, and performance tuning.

CTEC 425 INTERNET APPLICATIONS II (SPRING) 3 CREDITS

Prerequisite(s): CTEC 415. This course emphasizes processes and technologies involved in designing, developing, implementing, and testing an e-commerce application. Concepts behind database and web site integration will be featured.

CTEC 426 EXPERT SYSTEMS (PERIODICALLY) 4 CREDITS

Prerequisite(s): COSC 113 or COSC 190. This course is an introduction to expert system architectures, logical deductions, reasoning with uncertainties, knowledge acquisition and representation, and rule based systems. IDIS 491 HONORS THESIS SEM 1 CREDIT

Prerequisite(s): Written Approval of Honors Program Director. This course enables intensive reading and research under the direction of a faculty mentor, leading to the writing and defense of an honors thesis and reading and constructive criticism of other students' thesis. Theses successfully completed are deposited in the Thurgood Marshall Library. This course is intended for students who will also use the thesis to complete a major research requirement of another course. Seniors in good standing in the Honors Program may write a thesis in any discipline, provided that they can obtain the agreement of a faculty mentor in that discipline. Seniors who are members of the honor society in a particular discipline must write a thesis in that discipline. No student may receive credit for this course and for IDIS 493. Permission is granted only to students who have already obtained the agreement of a faculty mentor and who submit a preliminary proposal at the time they request entrance to the seminar.

IDIS 493 HONORS THESIS AND SEM 3 CREDITS

Prerequisite(s): Same as IDIS 491. This course enables intensive reading and research under the direction of a faculty mentor, leading to the writing and defense of an honors thesis and reading and constructive criticism of other students' theses. Theses successfully completed are deposited in the Thurgood Marshall Library. No student may receive credit for this course and IDIS 491. Restriction: Students in this course will not be permitted to use the thesis to satisfy the research requirements of other courses; students who wish to use the thesis in conjunction with other courses should register for IDIS 491 and receive only one credit.

KSWH: SWAHILI COURSE DESCRIPTION

KSWH 101 ELEMENTARY KISWAHILI (FALL, SPRING) 3 CREDITS

This course will help students acquire the ability to speak, read, write, and listen to Modern Standard Swahili at the elementary level. It will also prepare students to learn any language of Bantu origin. Lab is required.

MATH: MATHEMATICS COURSE DESCRIPTIONS

MATH 99 TRANSITION TO COLLEGE MATH 4 CREDITS

Prerequisite(s): Open to all students who need it or who have been so placed by the University-approved Mathematics Placement Test. Transition to College Mathematics is appropriate for students who need a review of intermediate algebra (Algebra I & II) as indicated by a University-administered placement test. In addition, this course is intended to help students develop effective learning skills in the area of mathematics. Extensive use of graphing calculators and computers should be expected. Transition to College Mathematics does not carry University credit.

MATH 118 FINITE MATHEMATICS 3 CREDITS

Prerequisite(s): DVMT 090 or MATH 099 or direct placement by way of the University-approved Mathematics Placement test or by way of transfer credit. This course comprises an elementary treatment of the following topics: functions and their graphs, linear and quadratic functions, elementary set theory, systems of equations; matrices, linear inequalities, linear programming, permutations and combinations, elementary probability, and statistics. The use of graphing calculator/computer should be expected.

MATH 125 COLLEGE ALGEBRA 3 CREDITS

Prerequisite(s): DVMT 090 or MATH 099 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course is meant to serve as a general education elective in mathematics for students majoring in fields other than mathematics, science, engineering, computer science and computer technology. Proceeding from a general education perspective, this course explores applications of polynomial, rational, algebraic, exponential, and logarithmic functions. Extensive use of graphing calculators and computers should be expected.

MATH 126 PRECALCULUS 4 CREDITS

Prerequisite(s): MATH 125 or Placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. Topics in trigonometry include: sine and cosine laws, inverse trigonometric functions, trigonometric equations, graphs of trigonometric functions and their inverses and applications. In addition, this course covers polar coordinates and sequences and series. Extensive use of graphing calculator/computer should be expected. This course will not be offered after the FALL Semester of 2005. Students must take MATH 142 instead.

MATH 127 INTRO TO MATHEMATICAL IDEAS 3 CREDITS

Bowie State University 2012 -2013

Prerequisite(s): DVMT 090 or MATH 099, or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. Proceeding from a liberal arts perspective, we sample the elementary principles and methods of five distinct areas of mathematics: logic, set theory, probability, statistics, and geometry.

MATH 128 ELEMENTARY GEOMETRY 3 CREDITS

Prerequisite(s): DVMT 090 or MATH 099 or 125 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course covers the fundamentals of logical reasoning and the elements of geometry (Euclidean plane and solid, coordinate, Non-Euclidean). Topics include points, lines, planes, polygons, measurements, and transformations. The use of graphing calculator/computer should be expected.

MATH 129 MATH FOR ELEM SCH TEACH 4 CREDITS

Prerequisite(s): DVMT 090 or MATH 099 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course, in elementary mathematics, is designed for the prospective elementary school teacher. The main emphasis is on mathematical thinking and problem solving. Topics include: Problem solving strategies, mathematical reasoning, elementary set theory, properties of integers, rational and real number systems.

MATH 140 ELEMENTS OF STATISTICS 3 CREDITS

Prerequisite(s): MATH 099 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course offers an introductory treatment of basic concepts of statistics and their applications in various fields. This course will not be offered after the FALL Semester of 2005.

MATH 141 PRECALCULUS I 3 CREDITS

Prerequisite(s): MATH 099 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course is designed to meet the needs of students whose major requires Calculus. In preparing the student for calculus and other courses in science and mathematics, this course explores the algebraic, graphical and numerical properties of linear, polynomial, rational, exponential and logarithmic functions. Additional topics include the binomial theorem and sequences and series. Extensive use of a graphing calculator should be expected. This course is not recommended as a general education mathematics elective for majors in fields other than mathematics, science, engineering, computer science, and computer technology.

MATH 142 PRECALCULUS II 3 CREDITS

Prerequisite(s): MATH 141 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course is the second in a two-semester sequence, MATH 141 Precalculus I and MATH 142 Precalculus II. It is designed for students whose major requires a Calculus course. MATH 142 continues the students' preparation for Calculus by exploring trigonometry, including fundamental definitions and identities, functions of sums and differences of angles, sine and cosine laws, inverse trigonometric functions, trigonometric equations, graphs of trigonometric functions and their inverses. This course is not recommended as a general education mathematics elective for majors in fields other than mathematics, science, engineering, computer science, and computer technology.

MATH 150 HONORS PRECALCULUS 4 CREDITS

Prerequisite(s): Honors status or special written permission from the Chair of the Department of Mathematics. This course explores the properties of linear, polynomial, rational, exponential, logarithmic, trigonometric and inverse trigonometric functions. Additional topics include the binomial theorem and sequences and series. Although use of the graphing calculator should be expected, the main focus will be on the analysis of ideas. Students cannot receive credit for either Math 141 or Math 142 after successfully completing Math 150.

MATH 155 INTRO PROBABILITY & STAT 3 CREDITS

Prerequisite(s): MATH 141 or equivalent transfer credit. This course aims to develop the basic statistical skills pertinent to a wide range of applications. The range of applications encompasses such diverse areas as the Social Sciences, the Life Sciences, Business, Agriculture, and Education. Topics include: random variables, data distributions, descriptive statistics, discrete and continuous probability models, statistical inference, hypothesis testing, and correlation and regression. Use of graphing calculator/computer and/or online delivery of course content should be expected.

MATH 198 COOP-MATH 12 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

MATH 204 INTRODUCTION TO QUANTITATIVE RESEARCH METHODS FOR STEM MAJORS 4 CREDITS

Overview of use of scientific method in various disciplines, with focus on quantitative research. Topics include observation, development of hypothesis, experimentation, measurement techniques, data collections, organizing data, descriptive statistical analysis, correlation/regression and inferential analysis. Hands-on experience involves working with datasets provided in the course. Students develop critical thinking through using scientific literature and argumentation; they apply these skills to concepts, research questions and models into one scientific discipline.

MATH 205 SOFTWARE AND TECH FOR MATH 3 CREDITS

Prerequisite(s): MATH 141 or direct placement by way of the University-approved Mathematics Placement Test or by way of transfer credit. This course presents appropriate uses of graphing calculators, software packages and internet resources for the mathematics classroom.

MATH 215 ELEMENTS OF CALCULUS 4 CREDITS

Prerequisite(s): MATH 141 or MATH 125 or equivalent transfer credit. This course offers a treatment of the elements of calculus appropriate for students majoring in the social and life sciences, computer technology and business. (Not open to students majoring in Computer Science, Mathematics or the Dual Degree Mathematics/Engineering Program). The use of graphing calculator/computer should be expected.

MATH 225 CALCULUS I 4 CREDITS

Prerequisite(s): MATH 126 or MATH 142 or MATH 150 equivalent transfer credit. This is the first of a two-course sequence in the study of the Calculus of one variable, concentrating on methods and applications of differentiation. Topics include: limits and continuity of real functions of one variable, differentiation and anti-differentiation of the standard elementary functions, the chain rule, Rolle's Theorem, the Mean Value Theorem, simple applications to optimization problems, graphing techniques, and an introduction to integration. Extensive use of graphing calculator/computer should be expected.

MATH 226 CALCULUS II

4 CREDITS

Prerequisite(s): MATH 225 or equivalent transfer credit. This course provides the sequel to Calculus I. We concentrate on methods and applications of integration, and series summation. Topics include: various techniques of integration, including exact and approximate techniques, applications to problems involving work and solids of revolution, and an introduction to power series, including Taylor and MacLaurin series. Extensive use of graphing calculator/computer should be expected.

MATH 228 LINEAR ALGEBRA

3 CREDITS

Prerequisite(s): MATH 226. Through this course, the student learns the basic concepts of linear algebra including vector spaces, linear systems, matrices, determinants, linear transformations, eigenvectors and eigenvalues and the theory of quadratic forms. Extensive use of graphing calculator/computer should be expected.

MATH 232 MULTIVARIABLE CALCULUS 4 CREDITS

Prerequisite(s): MATH 226 and MATH 228. Through this course we extend the basic notions of Calculus I and Calculus II to the realm of multivariable functions. From a study of the fundamental properties of vectors in 3 CREDITS-space, we progress to vector-valued functions, vector fields, partial derivatives, line integrals, surface integrals, flux integrals, and finally to the three famous theorems of Green, Stokes, and Gauss. Use of graphing calculator/computer should be expected.

MATH 252 COMPUTATIONAL METHODS 3 CREDITS

Prerequisite(s): COSC 112 and MATH 228. The computer is used to solve problems such as solution of a single algebraic equation; numerical quadrature; matrix operations; solution of large systems of linear equations; least squares techniques. Use of graphing calculator/computer should be expected.

MATH 265 INTRO TO ENGINEERING DES 3 CREDITS

Prerequisite(s): MATH 225 or equivalent transfer credit. This course is designed to lay a strong foundation in the engineering sciences upon which the student will later develop a professional program during the upper division years. The curriculum includes instruction in basic engineering principles, lessons in team organization, evaluation of design concepts, and the use of various software packages. The student is expected to participate in a team assigned to design and develop a prototype of a product.

MATH 298 COOP-MATH 12 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

MATH 300 DIFFERENTIAL EQUATIONS 3 CREDITS

Prerequisite(s): MATH 226 and MATH 228. This course comprises an introduction to the basic concepts, theory, methods, and applications of ordinary differential equations. The course covers the following topics: elementary methods for solving first order differential equations, second order differential equations, Laplace transform method for solving higher order linear equations with constant coefficients and systems, the matrix method for solving linear systems with constant coefficients, eigenvalues and eigenvectors of matrices and their use for solving differential equations, series solutions method for solving second order linear differential equations, and numerical methods. Use of graphing calculator/computer should be expected.

MATH 305 PRELUDE TO ADVANCED MATH 3 CREDITS

Prerequisite(s): MATH 226 and MATH 228. This course bridges the gap in logical precision between 200-level courses and more sophisticated courses such as abstract algebra and advanced calculus. After an excursion through the basic elements of logic and set theory, including methods of proof and disproof, the course proceeds to a rigorous treatment of the preliminary concepts of abstract algebra and real analysis. Topics include: relations, functions, groups and subgroups, Archimedean field axioms, and some fundamental results of point set topology pertaining to the real number line.

MATH 310 INTRO TO GEOMETRIES 3 CREDITS

Prerequisite(s): MATH 225. This course develops the elements of Euclidean and non-Euclidean geometries through a logically systematic postulate approach. Use of graphing calculator/computer should be expected.

MATH 320 INTRO TO NUMBER THEORY 3 CREDITS

Prerequisite(s): MATH 305. Elementary Number Theory concerns the study of the arithmetic structure of the system of natural numbers. A sampling of topics includes: the Chinese Remainder Theorem, multiplicative functions, the Mobius Inversion Formula, primitive roots, the Law of Quadratic Reciprocity, algorithms for solving linear and quadratic congruences, introduction to Diophantine equations, and some applications to cryptography. The use of graphing calculator/computer should be expected.

MATH 342 MATHEMATICAL PROBABILITY 3 CREDITS

Prerequisite(s): MATH 232. This course provides an intermediate level introduction to probability theory. Topics include: discrete and continuous probability distributions, moments, expected values, characteristic functions, and the Central Limit Theorem. The use of graphing calculator/computer should be expected.

MATH 344 MATH STATISTICS 3 CREDITS

Prerequisite(s): MATH 342. This course provides an intermediate level treatment of frequency distributions, statistical measures, sampling techniques, hypothesis testing, analysis of variance and regression and correlation analyses. The use of graphing calculator/computer should be expected.

MATH 350 PRAXIS II MATHEMATICS 3 CREDITS

The main purpose of this course is to prepare students for the PRAXIS II mathematics content exam required by the state of Maryland for teacher certification in the teaching specialty of secondary mathematics. The material covered in this course ranges from topics in basic arithmetic, elementary algebra, geometry and trigonometry to topics in calculus, linear algebra, discrete mathematics, computer algorithms and the principles of mathematical modeling.

MATH 365 INTRODUCTION TO REVERSE ENGINEERING 3 CREDITS

This algebra based course covers principles of the reverse engineering process such as definition of work scope, exact CAD replica creation, obtained data analysis, model modification or optimization, and creation of manufacturing engineering drawings.

MATH 398 COOP-MATH 6 CREDITS

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

- MATH 400 PARTIAL DIFFERENTIAL EQS 3 CREDITS**
Prerequisite(s): MATH 232 and MATH 300. Solutions of second order partial differential equations using Fourier and Laplace transforms. Topics include classification of linear second order equations, Fourier series, generalized Fourier series, the Sturm-Liouville problem, heat equation, wave equation, Laplace's Equation, Dirichlet problem, Fourier integral, and Fourier transform. The use of graphing calculator/computer should be expected.
- MATH 410 HISTORY OF MATHEMATICS 3 CREDITS**
Prerequisite(s): MATH 226 and MATH 320. This course traces the development of mathematics from around 1900 B.C. to around 1900 A.D. Special attention is given to the period of the Greeks (600 B.C.-200 A.D.), the period of the development of calculus (17th century), and the period of the institution of the modern style of rigor (19th century).
- MATH 414 METH FOR TEACH SEC SCH MATH 3 CREDITS**
Prerequisite(s): MATH 310 and successful completion of EDUC 220 and SCED 302. Mathematics 414 provides the Mathematics Education Major with experience and first hand information on the best practices, approaches, materials, and content supported by effective schools, expert opinion and research in mathematics education in the secondary schools. This course also includes a nine (9) day practicum in the Prince George's Public School System, TBA by the instructor and based on the students' schedules. This course helps to prepare the student for the student teaching experience.
- MATH 420 ABSTRACT ALGEBRA I 3 CREDITS**
Prerequisite(s): MATH 305 and MATH 320. This sequence of two courses offers a rigorous introduction to modern abstract algebra. Topics include groups, rings, fields, integral domains and the homomorphisms that operate between them.
- MATH 421 ABSTRACT ALGEBRA II 3 CREDITS**
Prerequisite(s): MATH 305 and MATH 320. This sequence of two courses offers a rigorous introduction to modern abstract algebra. Topics include groups, rings, fields, integral domains and the homomorphisms that operate between them.
- MATH 428 ADVANCED LINEAR ALGEBRA 3 CREDITS**
Prerequisite(s): MATH 232 and MATH 305. Proceeding from a rigorous perspective, we examine the properties of finite dimensional vector spaces over arbitrary fields and the linear transformations that operate between them.
- MATH 430 ADVANCED CALCULUS I 3 CREDITS**
Prerequisite(s): MATH 232 and MATH 305. This course include a rigorous treatment of the elements of point set topology, sequences and series, continuity, differentiability, Riemann-Stieltjes integration, function sequences, and, time permitting, some special functions and Fourier series.
- MATH 431 ADVANCED CALCULUS II 3 CREDITS**
Prerequisite(s): MATH 232 and MATH 305. This course includes a rigorous treatment of the elements of point set topology, sequences and series, continuity, differentiability, Riemann-Stieltjes integration, function sequences, and, time permitting, some special functions and Fourier series.
- MATH 440 INTRO TO OPTIMIZATION THEORY 3 CREDITS**
Prerequisite(s): MATH 228 and MATH 232. This course offers an introduction to convex analysis, unconstrained optimization in n-dimensional Euclidean space, convex programming and duality. Analysis of two nonlinear algorithms will be studied: Newton's method and the method of steepest descent.
- MATH 450 OVERVIEW OF COLLEGE MATH 3 CREDITS**
Prerequisite(s): MATH 226, 228, 240, 305 and 320. This course consists of a sequence of distinct modules, each devoted to the treatment of a specific fundamental result, principle, or theme in college level mathematics, providing a grand synthesis of the entire undergraduate mathematics curriculum. Topics include: the Fundamental Theorem of Algebra, the Fundamental Theorem of Arithmetic, the Fundamental Theorem of Calculus, the Central Limit Theorem, the PRINCIPLES of Mathematical Induction, the Five Famous Formulas of College Mathematics, and some famous proofs by contradiction.
- MATH 460 NUMERICAL ANALYSIS I 3 CREDITS**
Prerequisite(s): MATH 228, MATH 232, MATH 252 and MATH 300. Elements of the theory and application of numerical analysis using computers; solution of linear and nonlinear systems of equations; computation of eigenvalues and eigenvectors; basic approximation theory; interpolation techniques; numerical quadrature; solution of ordinary and partial differential equations. Extensive use of graphing calculator/computer should be expected.
- MATH 461 NUMERICAL ANALYSIS II 3 CREDITS**
Prerequisite(s): MATH 228, MATH 232, MATH 252 and MATH 300. Elements of the theory and application of numerical analysis using computers; solution of linear and nonlinear systems of equations; computation of eigenvalues and eigenvectors; basic approximation theory; interpolation techniques; numerical quadrature; solution of ordinary and partial differential equations will be discussed. Extensive use of graphing calculator/computer should be expected.
- MATH 470 COMPLEX ANALYSIS 3 CREDITS**
Prerequisite(s): MATH 232. This course provides an introduction to the theory and applications of functions of a complex variable. Topics include: complex numbers, analytic and harmonic functions, elementary functions, Cauchy-Riemann equations, contour integration, Cauchy-Goursat theorem, Cauchy's integral formula, series and the residue calculus.
- MATH 485 GENERAL TOPOLOGY 3 CREDITS**
Prerequisite(s): MATH 305. This course develops the fundamental concepts of general topology. Topics include topological spaces, continuity, homeomorphism, identification topology, quotient spaces, separation axioms, countability axioms, compactness, connectedness, local connectedness, path components, and metrizable spaces.

MATH 490	SELECTED TOPICS IN MATHEMATICS	3 CREDITS
<i>Prerequisite(s):</i> Written consent of the Instructor. Selected modern developments in pure or applied mathematics are presented.		
MATH 491	SELECTED TOPICS IN MATH	3 CREDITS
<i>Prerequisite(s):</i> Consent of the Instructor. These courses focus on the presentation of selected modern developments in pure or applied mathematics.		
MATH 492	SELECTED TOPICS	3 CREDITS
<i>Prerequisite(s):</i> Consent of the Instructor. These courses focus on the presentation of selected modern developments in pure or applied mathematics.		
MATH 493	INTRO OPTIM THEORY	3 CREDITS
<i>Prerequisite(s):</i> Consent of the Instructor. These courses focus on the presentation of selected modern developments in pure or applied mathematics.		
MATH 494	SELECTED TOPICS IN MATH	3 CREDITS
<i>Prerequisite(s):</i> Written consent of the Instructor. Selected modern developments in pure or applied mathematics are presented.		
MATH 495	ADVANCED PROB SEMINAR	1 CREDIT
<i>Prerequisite(s):</i> MATH 228 or Consent of the Instructor. Solving problems from previous Putnam Competitions is the principal activity of these courses. The problems are drawn from the entire spectrum of mathematical inquiry including Algebra, Analysis, Geometry, Number Theory, Logic, Combinatorics, and Probability. Enrollees are expected to participate as members or alternate members of the BSU Team in the William Lowell Putnam Competition, held annually in December.		
MATH 496	PUTNAM MATH	1 CREDIT
<i>Prerequisite(s):</i> MATH 228 or Consent of the Instructor. Solving problems from previous Putnam Competitions is the principal activity of these courses. The problems are drawn from the entire spectrum of mathematical inquiry including Algebra, Analysis, Geometry, Number Theory, Logic, Combinatorics, and Probability. Enrollees are expected to participate as members or alternate members of the BSU Team in the William Lowell Putnam Competition, held annually in December.		
MATH 497	ADVANCED PROB SEM	1 CREDIT
<i>Prerequisite(s):</i> MATH 228 or Consent of the Instructor. Solving problems from previous Putnam Competitions is the principal activity of these courses. The problems are drawn from the entire spectrum of mathematical inquiry including Algebra, Analysis, Geometry, Number Theory, Logic, Combinatorics, and Probability. Enrollees are expected to participate as members or alternate members of the BSU Team in the William Lowell Putnam Competition, held annually in December.		
MATH 499	SENIOR SEMINAR	2 CREDITS
<i>Prerequisite(s):</i> Senior status as a mathematics major and written consent of the instructor. Students research topics of interest and complete projects under the supervision of a faculty member. Written reports and presentations required. The use of graphing calculator/computer should be expected.		

MCOM: MASS COMMUNICATIONS COURSE DESCRIPTIONS

MCOM 215	INTRO TO JOURN I	3 CREDITS
MCOM 330	VISUAL ARTS COMM	3 CREDITS

MGMT: MANAGEMENT COURSE DESCRIPTIONS

MGMT 101	INTRODUCTION TO BUSINESS (FORMERLY BUAD 101) (FALL, SPRING, SUMMER)	3 CREDITS
This is a survey course designed to acquaint students with the basic functional areas of business enterprises and covers terminology and functional issues facing managers. This course acquaints students with international aspects of business.		
MGMT 130	FUNDAMENTALS OF CONTRACTING (FALL, SUMMER)	3 CREDITS
This survey course introduces the organization and utilization of the Federal Acquisition Regulation and DOD Supplement to the FAR (DFARS), as well as ethics and basic contract law. Students are also introduced to the fundamentals of contracting. This is an accelerated course that encompasses the entire contracting process from receipt of a purchase request through contract completion, including close-out.		
MGMT 230	FUND OF CONTRACTING II (SPRING, SUMMER)	3 CREDITS
<i>Prerequisite(s):</i> MGMT 130 or Permission of Department. This course provides essential fundamentals for the student and practice of price, cost, and proposal analysis. Various case scenarios and actual cost analysis are used to illustrate and integrate the various concepts and techniques covered in the course. Topics include the review of contracting environment, use and importance of market research, sources cost price analysis, application of price-related factors in the determination of reasonableness, methods for analyzing direct and indirect costs, methods for performing profit analysis, ethics in contract pricing, and selection of current pricing topics. Contract Pricing is designed to provide entry-level contracting personnel with a solid foundation for practice analysis and negotiation analysis.		
MGMT 241	PRINCIPLES OF MANAGEMENT (FALL, SPRING, SUMMER)	3 CREDITS
<i>Prerequisite(s):</i> BUAD 101; MGMT 101. This course is a study of the principles, processes, and practices of organizational management. This course examines the basic tasks of the modern manager, including planning, organizing, leading, controlling, staffing, and decision-making.		
MGMT 330	INTERMEDIATE CONTRACTING	3 CREDITS
<i>Prerequisite(s):</i> MGMT 130 or Permission of Department. This course presents experienced, intermediate-level contracting personnel with an intensive examination of the life cycle phases of contracting, including the pre-award phase of contracting (acquisition planning, solicitation,		

evaluation, and award), and post award contract administration, plus contracting problem analysis and resolution. Case studies challenge students to apply ethical principles, statutes, regulations, and sound business judgment in the resolution of contract problems. Major course topics include acquisition planning, contracting methods (with an emphasis on formal source selection and noncommercial acquisitions), contract administration (including contract surveillance and quality assurance), financial management, termination, and dispute resolution.

MGMT 344 ORGANIZATIONAL BEHAVIOR (FALL, SPRING) 3 CREDITS

Prerequisite(s): MGMT 241. This course focuses on the managerial analysis of human behavior in organizations, with special emphasis on organizational theory and application to case studies and real situations. Topics include motivation, perception, communication, leadership, power and negotiations, group behavior, organizational culture and change.

MGMT 345 PRIN OF SUPER & LEADSHP (SPRING Only) Formerly MGMT 343 3 CREDITS

Prerequisite(s): MGMT 241. This course is an examination of the supervisory functions of leadership, emphasizing the tasks, roles, and practices requisite for first-line effectiveness. Topics include motivation of people, organization of work, performance appraisal and counseling, and decision-making

MGMT 346 MANAGEMENT OF NON-PROFIT ORGANIZATIONS (SPRING Only) 3 CREDITS

Prerequisite(s): ACCT 211/212; MGMT 241. This course is a survey of the organizational objectives and the socio-economic environment of non-profit organizations; it critically evaluates the applicability of private sector efficiency criteria to such organizations and examines the scope and application of management principles to community-based non-profit organizations.

MGMT 347 MANAGEMENT PROBLEMS (FALL Only) 3 CREDITS

Prerequisite(s): MGMT 241. This course focuses on managerial decision processes. Students seek to apply skills, learning, principles, and techniques to organizational situations through case analyses. Readings and class discussion supplement analyses.

MGMT 352 INTERNATIONAL BUSINESS 3 CREDITS

Prerequisite(s): MGMT 241; MKTG 231; ECON 211, ECON 212. Junior Standing. This course is an examination of the nature and scope of international business and the diverse environments in which international business managers must operate. An overview of the theories of international trade and economic development is presented to provide a basic understanding of the differences between the former international firm and the present day multinational enterprise. Managerial aspects of organizational structure, strategy, culture, human resources, and leadership are emphasized. A worldview perspective of transactional managerial challenges in terms of access to markets, new markets, specialized resources, and new sources of information is provided.

MGMT 356 PROFESSIONAL DEVELOPMENT AND ETHICS I 3 CREDITS

Prerequisites: MGMT 101, MKTG 231, MGMT 241, ENGL 361. This is a course designed to help students develop a firm foundation of business, career assessment, resume writing, entrepreneurship and interviewing techniques-necessary to succeed and emerge as a leader in corporate America. This is part I on professional development and combines lecture, interactive discussion, simulations and periodic quest lecturers as part of the total learning experience.

MGMT 358 PROFESSIONAL DEVELOPMENT AND ETHICS II 3 CREDITS

Prerequisites: MGMT 101, MKTG 231, MGMT 241, MGMT 356, ENGL 361. This is a course designed to help students develop a firm foundation of business, career assessment, resume writing, and interviewing techniques-necessary to succeed and emerge as a leader in corporate America. This is part II on professional development and leadership emphasizing professional ethics, leadership and professional branding. This course combines lecture, interactive discussion, and simulations and periodic guest lecturers as part of the total learning experience.

MGMT 371 LABOR RELATIONS & LAW (FALL Only) 3 CREDITS

Prerequisite(s): MGMT 241. This course is a study of the history and the law pertaining to the operations of organized labor, the dynamics of labor-management relationships, and the effect of the labor-management relationship on the workplace and the economy. This course also includes collective bargaining, labor-management cooperation, labor productivity, and global competition.

MGMT 401 APPLIED RESEARCH METHODS (SPRING Only) 3 CREDITS

Prerequisite(s): ECON 351. This course is a survey and application of research methodology as a tool in decision-making. It emphasizes theory, design, data-gathering, and evaluation.

MGMT 410 THE BUSINESS OF MUSIC 3 CREDITS

Prerequisite: Senior Standing or Permission of Instructor. Workshop/seminar course, which considers issues, concepts and strategies for entry and participation in music and entertainment as a business. Course examines the structure, dynamics, economics and relations among performers and artists, agents and representatives, intermediaries and producers, venues, media and other industry participants. It also considers markets, revenue/royalty flows, distribution and critical issues of law and public policy.

MGMT 430 INTERMEDIATE CONTRACT PRICING (SPRING Only) 3 CREDITS

Prerequisite(s): MGMT 330. This course reinforces both pricing skills taught in Fundamentals of Contract Pricing 1 CREDIT and II. The course develops skills in price analysis, advanced pre-award pricing decisions, and general contract pricing. The course is primarily quantitative in nature, focusing on statistical and economic analysis tools.

MGMT 440 BUSINESS STRATEGY & POL (FALL, SPRING) 3 CREDITS

Prerequisite(s): FINA 320, MGMT 241, MKTG 231, ECON 211, ECON 212. This course examines processes by which organizations, especially profit-seeking businesses scan and adapt to their environments. Issues to be examined include the planning function, development of goals and objectives, assessment of requisite organizational competences, appropriate structure, and related issues of strategy, policy and competitive posture.

MGMT 441 ENTREP & NEW ENTERPRISES (FALL Only) 3 CREDITS

Prerequisite(s): MGMT 241 MKTG 231, ECON 211, ECON 212, KINA 320. This course focuses on the development and management of new enterprises. It concentrates on practice, entrepreneurship and its Prerequisite(s), and skills-building. It includes topics such as new venture financing, business planning, deal structuring and negotiations, and the transformation from entrepreneur to business person.

- MGMT 442 SMALL BUS OPER AND MGMT (SPRING Only) 3 CREDITS**
Prerequisite(s): ECON 211/212, FINA 320, MKTG 231, MGMT 241. Senior Standing. This course examines the problems, issues, and opportunities of operating and managing small businesses. Functional topics as they relate to entrepreneurship are included. Issues of scale dis-economics, insufficiency of resources, market niche, venture financing, and business planning are addressed.
- MGMT 446 MANAGEMENT SEMINAR (Offered Occasionally) 3 CREDITS**
Prerequisite(s): ECON 211, ECON 212; FINA 320; MGMT 241, MGMT 344. Senior Standing. Cumulative GPA of 3.00 or Permission from Instructor. A management course in which the topics covered center around a theme related to some significant issues in the management of organizations. The theme is selected by the instructor. Course includes reading assignments, discussions, experiential activities, and other appropriate learning techniques. Seminar participants produce a seminar research paper on a topic related to the theme.
- MGMT 449 BUS STRATEGY AND POLICY 3 CREDITS**
Prerequisite(s): FINA 320, MGMT 241, ECON 211, ECON 212. Senior Standing. This course examines processes by which organizations, especially profit-seeking businesses, scan and adapt to their environments. Issues to be examined include the planning function, development of goals and objectives, assessment of requisite organizational competences, appropriate structure, and related issues of strategy, policy, and competitive posture. (This is a capstone course.)
- MGMT 471 HUMAN RESOURCE MGMT (FALL Only) 3 CREDITS**
Prerequisite(s): MGMT 344. This course analyzes the selection, development, utilization, assessment, and reward of the work force to accomplish employee and organizational goals. This course examines recruitment, selection, reduction in force, performance evaluation, training and development, compensation, organizational change, and legal constraints.
- MGMT 472 CONFLICT MANAGEMENT (FALL Only) 3 CREDITS**
Prerequisite(s): MGMT 344. This course is a study of the underlying factors contributing to personal and organizational conflicts, with emphasis on methods of preventing, managing, and resolving conflict at each level of the business environment. This course includes reading and research assignments, case studies, class discussion, and experiential activities.
- MGMT 480 PRODUCTION AND OPER MGMT (FALL, SPRING) 3 CREDITS**
Prerequisite(s): MGMT 241 and ECON 351. This course is an examination of the processes and techniques of decision-making widely used in the context of production and operations planning, analysis and control. Topics studied include design and development of products; resource allocation; scheduling and utilization of people, materials and equipment; and quality and quantity control of processes, using techniques such as linear programming, critical-path analysis, time-series analysis, and network scheduling.
- MGMT 490 ISSUES IN BUAD ETHICS 3 CREDITS**
 Seniors Only. Current issues of ethics in the society as they affect business behavior will be discussed through panel presentation and class participation. Social responsibility of business, environmental issues, human rights and technological progress, business ethics and the evolution of social values exemplify the topics which will be presented from multi-disciplinary perspectives by visiting experts, with the instructor moderating the class discussion.

MISC: MILITARY SCIENCE COURSE DESCRIPTIONS

- MISC 101 LEADERSHIP & DEVELOP I 1 CREDIT**
 Introduction to various leadership styles and their effects on organizations. The study of the United States Army as a profession and the historical growth and development of the Army, stressing the magnitude of management implications; the significance of military courtesy, disciplines, customs and traditions of the service; development of leadership abilities through practical exercises and physical fitness.
- MISC 102 LEADERSHIP & DEVELOP II 1 CREDIT**
 Introduction to various leadership styles and their effects on organizations. The study of the United States Army as a profession and the historical growth and development of the Army, stressing the magnitude of management implications; the significance of military courtesy, disciplines, customs and traditions of the service; development of leadership abilities through practical exercises and physical fitness.
- MISC 105 LEADERSHIP LAB I 1 CREDIT**
Prerequisite(s): None. The course provides an opportunity for the student to practice skills, knowledge, and techniques relating to the management of people. The disciplines required as a member of a military team on the drill field are not directed to a marching and maneuver as the ultimate objectives. They are designed to develop in the potential leader an appreciation and mastery of the art of command, poise, physical and mental alertness and responsiveness to military direction. This laboratory allows the student to apply the principles of human relations, leadership and the techniques of communications to develop poise, confidence and command and directional control. These are essential to the craft of military science.
- MISC 106 LEADERSHIP LAB I 1 CREDIT**
Prerequisite(s): None. The course provides an opportunity for the student to practice skills, knowledge, and techniques relating to the management of people. The disciplines required as a member of a military team on the drill field are not directed to a marching and maneuver as the ultimate objectives. They are designed to develop in the potential leader an appreciation and mastery of the art of command, poise, physical and mental alertness and responsiveness to military direction. This laboratory allows the student to apply the principles of human relations, leadership and the techniques of communications to develop poise, confidence and command and directional control. These are essential to the craft of military science.
- MISC 201 LEADERSHIP & DEVELOP III 2 CREDITS**
 Focus on the operations of the basic military team, including military geography and the use of maps and aerial photographs; the functions duties, and responsibilities of junior leaders; and continuing development of leadership through practical exercises. The leadership laboratory is included in the course instruction.

- MISC 202 LEADERSHIP & DEVELOP IV 2 CREDITS**
Introduction to the principles of leadership, developing a personal leadership style, map reading; the functions, duties and responsibilities of junior leaders; and continuing development of leadership through practical exercises. The course also includes problem solving, effective time management, physical fitness and team building.
- MISC 205 LEADERSHIP LAB II 1 CREDIT**
Prerequisite(s): Must have completed MISC 105/106 or received placement credit as determined by the Professor of Military Science. The course provides an opportunity for the student to practice skills, knowledge, and techniques relating to the management of people. The disciplines required as a member of a military team on the drill field are not directed to a marching and maneuver as the ultimate objectives. They are designed to develop in the potential leader an appreciation and mastery of the art of command, poise, physical and mental alertness and responsiveness to military direction. This laboratory allows the student to apply the principles of human relations, leadership and the techniques of communications to develop poise, confidence and command and directional control. These are essential to the craft of military science.
- MISC 206 LEADERSHIP LAB II 1 CREDIT**
Prerequisite(s): Must have completed MISC 105/106 or received placement credit as determined by the Professor of Military Science. The course provides an opportunity for the student to practice skills, knowledge, and techniques relating to the management of people. The disciplines required as a member of a military team on the drill field are not directed to a marching and maneuver as the ultimate objectives. They are designed to develop in the potential leader an appreciation and mastery of the art of command, poise, physical and mental alertness and responsiveness to military direction. This laboratory allows the student to apply the principles of human relations, leadership and the techniques of communications to develop poise, confidence, command and directional control. These are essential to the craft of military science.
- MISC 301 LEADERSHIP & MGMT I 3 CREDITS**
Emphasis on the following, through case studies in leadership and management; delegation of authority and responsibility, span of control, planning, coordinating, and decision making; development of the ability to express oneself clearly, with emphasis on the military problems, the evaluation of situations and preparation and delivery of logical solutions; directing and coordinating the efforts of individuals and small units in the execution of defensive and offensive tactical missions, including military geography, weapons systems, communications systems, intelligence gathering capabilities and the role of the various branches of the Army.
- MISC 302 LDRSH AND MGMT II 3 CREDITS**

Prerequisites: EDUC 101, EDUC 201, English Proficiency Examination, Praxis, and admission to Music Teacher Education. This course is designed to present Music Teacher Education majors with appropriate music teaching methods and materials for effective K-12 general and vocal music teaching.

MUSC 377 BEGINNING (Vocal & Instr.) CONDUCTING (FALL Only) 2 CREDITS
Prerequisite/s: MUSC 245 or 247. This course will cover the fundamentals of aural and rehearsal skills, score analysis and baton technique. The student will learn conducting patterns as applied to elements of music such as tone, balance, diction, phrasing, and interpretation. The students will be introduced to selected concert band and choral literature up to and including grade V material.

MUSC 378 ADVANCED (Vocal & Instr.) CONDUCTING (SPRING Only) 2 CREDITS

Prerequisite/s: MUSC 377. This course will cover the study of selected wind, choral, and choral/orchestral literature at the most advanced levels for both small and large instrumental and choral ensembles. An intensive development of baton and rehearsal techniques and score preparation. The course will include the rehearsal and performance of major works from wind, choral, and choral/orchestral literature.

MUSC 408/ART 470 SELF PROMOTION/MARKETING (FALL, SPRING) 3 CREDITS

Prerequisite(s): Required business course for all MUTE students. Learn about contracts, marketing, management, and industry knowledge about the arts.

MUSC 410 MULTIMEDIA RECORDING AND PRODUCTION I (Lab/Lecture) (FALL Only) 2 CREDITS

Prerequisite/s: MUSC 156 and/or Permission of Instructor. Training in the use of the analog 4- track recorder, multi-track Hard Disk recorder, microphone selection, and recording techniques for home studios. Using Power Point and websites to create business plans. Introduction to Pro Tools production software/hardware.

MUSC 411 MULTIMEDIA RECORDING AND PRODUCTION II (Lab/Lecture) (SPRING Only) 3 CREDITS

Prerequisite/s: MUSC 410 and Senior Standing. Course uses Pro Tools exclusively to prepare for Senior Project.

MUSC 455 VOCAL-INSTRUMENTAL ARRANGING (FALL, SPRING) 2 CREDITS

This course is a study of the techniques of writing for a variety of vocal instrumental ensembles of all age groups, accompanied and a cappella. The student will prepare at least six (6) complete arrangements suitable for duplication and performance by ensembles from Easy to Advanced levels.

MUSC 456 ORCHESTRATION (FALL, SPRING) 2 CREDITS

Prerequisite/s: MUSC 156. Orchestration students will learn the characteristics and idiomatic writing techniques for each orchestral instrument family: strings, brass, woodwinds, and percussion, as well as approaches for writing for full orchestra. The course allows students to use the Digital Audio Workstation (DAW) program of their choice, including Digital Performer, Logic, Cubase, SONAR, or Pro Tools.

MUSC: MUSIC CONCENTRATION COURSE DESCRIPTIONS (Cont.)

MUSC 457 JAZZ STUDIES (FALL, SPRING) 3 CREDITS

Prerequisite/s: MUSC 102 and 156. Both a practical and theoretical course, Jazz Studies will include a detailed study of chord/scale relationships, ear training modes, scales and chords, transcription exercises, basic blues forms and AABA forms, re-harmonization and scale theory of the major modes, whole tone and diminished scale. Aural and theoretical analysis of transcribed solos is included and students will also be expected to memorize and improvise over a number of jazz standards, including blues, modal compositions and ii-V7-I tunes, using these theoretical concepts. The student will also be given a basic knowledge of Jazz history from 1945 to the present with required listening and reading assignments outside of class. Areas covered include stylistic analysis of contemporary jazz, major representative artists and the influence of preceding styles on subsequent ones.

MUSC 465 PERCUSSION CLASS METHODS (SPRING Only) 3 CREDITS

Prerequisite: Junior Level Standing Mandatory. Students will learn fundamental concepts of percussion equipment and its organization, performance skills, and pedagogical skills applicable in K-12 school music programs. Course topics include organization of the school percussion program, teaching rhythm, equipment selection and maintenance, sound production concepts, fundamental instrumental techniques, and pedagogical techniques and methods of private and group instruction. Instruments studied include concert snare drum, marching percussion, keyboard percussion, orchestral accessories, Latin percussion, timpani, and jazz drum set. Study the organizational skills and information required to develop a quality percussion program, including instrument purchasing, maintenance, inventory, storage, and transport.

MUSC 468 ELEMENTARY & SECONDARY STUDENT TEACHING (FALL, SPRING) 12CREDITS

Prerequisite(s): Senior Level Standing in Music Teacher Education, completion of all methods courses and Praxis II. In this course the student participates in all of the activities of the teacher in the classroom, in the school, and in the community. Beginning with a period of observation and orientation, the student receives assignments of increasing difficulty from the cooperating teacher until he/she is capable of assuming full responsibility for teaching. The semester is divided into an eight-week assignment in the intermediate and an eight-week assignment in the primary grades. The practical experience is accompanied by a regularly scheduled seminar. The student teacher follows the entire schedule of the school at which the student is placed.

NURS: NURSING COURSES DESCRIPTIONS

IDIS 210 WOMEN'S HEALTH ISSUES 3 CREDITS

This lecture course examines selected women's health issues. Special emphasis is placed on physical and psychological changes that occur throughout a woman's cycle, with special consideration given to diverse populations. Students gain a better understanding of preventive health practices, common health concerns, and resources available to address these concerns. This course is open to anyone interested in the health of women in America. Non-nursing majors only
Lecture

IDIS 450 ALTERNATIVE INTERVENTIONS FOR HEALTH AND WELLNESS 3 CREDITS

This is a survey course designed to examine relationships among the human, body, mind, behavior, and health states. Various modes for interventions with human coping, health promotion, and wellness maintenance will be explored as alternatives or complements to more traditional approaches to the human health dilemma. Emphasis is given to increasing students' level of knowledge about alternative intervention practices and to selected practical applications.

Lecture

IDIS 460 TRANSCULTURAL HEALTH AND WELLNESS 3 CREDITS

The course content is designed to increase students' knowledge level and professional awareness concerning health and wellness practices in a transcultural society. Theoretical models and data collection guides are used to explore the ways and conditions under which individuals define their health status and implement health practices. Cultural factors that may influence illness behaviors and health promotion activities are examined.

Lecture

IDIS 470 ETHICAL ISSUES IN HEALTH CARE 3 CREDITS

This lecture/discussion course is designed to introduce students to the basic concepts, theories, principles, and critical thinking processes relevant to health care ethics. Content will focus on ethical issues commonly encountered in daily practice in health care and in health care delivery systems. Important ethical issues in health care and health care delivery will be reviewed and analyzed. The pivotal role of the health care practitioner in the quality of day-to-day delivery of care and the changing health care system will be addressed from an ethical perspective.

Lecture

NURS 101 PROFESSIONAL NURSING PERSPECTIVES 2 CREDITS

The content of this course is designed to introduce students to the profession of nursing. Historical aspects of nursing and the health care delivery system will be discussed. Content will also focus on the concepts needed to form therapeutic nursing relationships with clients. Concepts related to the discipline of nursing will be introduced as the foundation for continued study.

Prerequisites: Completion of Math 125/141 and Engl 101 with a grade of "C" or better

Lecture

NURS 201 FOUNDATION OF NURSING PRACTICE I 3 CREDITS

This course introduces the student to the scientific principles of foundational concepts, theory and technical skills. Concepts that frame the curricula are introduced: caring behaviors, communication, culturally congruent care, ethical frame work, legal aspects, critical thinking, leadership, research and professional nursing role. Using simulated labs, computer programs and videotapes, the student will develop and master selected psychomotor skills.

Prerequisites: Admission to the Baccalaureate Nursing Program, NURS 101, BIO 311, CHEM 107

Lecture/Laboratory

NURS 203 Foundation of Nursing Practice II 4 CREDITS

This course builds on the concepts and principles presented in Foundation of Nursing Practice I. There will be a continued focus on the application of the nursing process, and the ongoing development of competencies in providing care for individuals using basic nursing skills in the clinical settings. Learning opportunities are provided in the classroom, and the skills laboratory, to enable students to apply skills and theory. In addition, therapeutic communication techniques in nurse client interactions are developed. Students are introduced to research and evidence-based practice in clinical practice.

Prerequisites: BIOL 310, BIOL 312, NURS 201

Lecture/Clinical

NURS 215 NUTRITION IN HEALTH AND DISEASE 3 CREDITS

This lecture course provides students with content related to principles of nutrition; therapeutic nutrition of specific clinical disorders and current consumer nutrition related issues.

Prerequisites: CHEM 107 General Chemistry

Lecture

NURS 302 HEALTH ASSESSMENT 3 CREDITS

This course is designed to expand the student's interpersonal, cognitive, and psychomotor skills when defining parameters of wellness. The focus is assessment of the physiological, psychosocial, developmental, cultural, and spiritual well-being.

Lecture/Laboratory

NURS 308 PHARMACOLOGY 3 CREDITS

This course is designed to introduce the nursing student to the basic principles of drug therapy and drug classifications, focusing on adverse reactions and contraindications, therapeutic indications and nursing implications. It explores the role of the nurse in drug management, with consideration of social, economic, and technological changes.

Prerequisites: Completion of NURS 203 and NURS 302 with a grade of "C" or better.

Lecture

NURS 315 PATHOPHYSIOLOGY 3 CREDITS

This course builds on Anatomy and Physiology I and II to discuss the affect of diseases on the body. Principles of bodily responses are explored so that the student has working knowledge of alterations in the physiological changes leading to illness and disease. This course serves as the basis for understanding adult health/illness and for developing nursing interventions and strategies. Functional changes associated with or resulting from disease or injury are discussed. The content is designed to enhance the knowledge and understanding of cellular function so that the student can correlate pathophysiology to clinical manifestations, and the related diagnostic tests and treatment.

Prerequisites: Completion of BIOL 311 and BIOL 312 with a grade of "C" or better.

Lecture

NURS 348 ADULT PRACTICE

3 CREDITS

This course prepares the student to care for adult clients in various settings. Course content includes theories related to health promotion, risk factors, and major acute and chronic health problems of adults. Applying the curriculum concepts (communication, culturally congruent care, research, professional nursing role, leadership, caring behaviors, legal and ethical guidelines, and critical thinking), the student completes holistic assessments and implements therapeutic nursing interventions for adult and older adults in acute and community-based settings.

Prerequisites: Completion of NURS 203, NURS 215, NURS 302, all general education courses of the freshmen and sophomore year of the progression plan with "C" or better.

Lecture

NURS 349 ADULT PRACTICE CLINICAL

2 CREDITS

This clinical course is taken concurrently with NURS 348. The clinical experiences designed for this course will allow the student to demonstrate understanding of curriculum concepts through application of the nursing process. Students will provide care to adult clients in acute and community settings.

This course must be taken concurrently with NURS 348

Clinical

NURS 350 NURSING PRACTICE: CONCEPTS

3 CREDITS

This course is designed to introduce the student to concepts and theories that are the foundation of evidenced-based nursing practice. The relationship among theory, research, and practice is discussed. The student is introduced to the conceptual framework for the curriculum (communication, culturally congruent care, research, professional nursing role, caring behaviors, legal and ethical guidelines, and critical thinking). Historical aspects of nursing and the health care delivery system will also be discussed.

Prerequisite: Admission to the RN to BS program

Lecture

NURS 368 GERONTOLOGICAL NURSING

2 CREDITS

This lecture course is designed to provide students with theoretical content related to the older adult client. It explores the needs of the aging population and implications for the professional nurse. Issues related to the older adult such as demographics, health policy, and ethical practices are explored.

Prerequisites: Completion of all general education and nursing courses of the freshmen and FALL sophomore year of the progression plan with a grade of "C" or better.

Lecture

NURS 380 MATERNAL, NEWBORN, AND WOMEN'S HEALTH

3 CREDITS

This course prepares the student to care for families during the childbearing phase of the life cycle. Students will apply curriculum concepts (client, health continuum, caring behaviors, cultural congruity, ethical framework, and legal framework) to aspects of nursing care for clients throughout preconception and the childbearing process, as well as the neonatal period up to the first six weeks of infancy. The course also includes content regarding the specific health needs of women throughout the lifespan.

Prerequisites: Completion of NURS308, NURS315, NURS348/459, NURS368 with a grade of "C" or better.

Lecture

NURS 381 MATERNAL, NEWBORN, AND WOMEN'S HEALTH

2 CREDITS

This clinical course must be taken concurrently with NURS 380. This clinical component focuses on nursing care of clients during the childbearing phase of the life cycle. The student completes holistic assessments and implements therapeutic nursing interventions for women, infants and families in acute care and community based settings. This course must be taken concurrently with NURS 380

Clinical

NURS 385 PSYCHIATRIC MENTAL HEALTH NURSING

3 CREDITS

This course examines the needs of clients experiencing behavioral health and/or psychiatric-mental health problems and the application process to restore, maintain and/or enhance mastery in life and role functioning. This course applies the Concepts-Based Curriculum Model as designed by the Bowie's State's Department of Nursing. Theories, principles, concepts and skills for promoting client mental health and well-being are stressed.

Prerequisites: NURS 308, NURS 315, NURS 348/349, NURS 368

Lecture

NURS 386 PSYCHIATRIC MENTAL HEALTH CLINICAL

2 CREDITS

This clinical course must be taken with NURS 385. This course focuses on the nursing care of clients with psychiatric- mental health and behavioral health needs and the nursing interventions required to restore, maintain, and/or enhance mastery in life and role functioning.

Applying varying psychiatric mental health models, the student completes holistic assessments and implements therapeutic nursing interventions for the client in a variety of behavioral health settings.

This course must be taken concurrently with NURS 385

Clinical

NURS 390 WOMEN'S HEALTH ISSUES 3 CREDITS

This course examines health issues of women in relation to the various roles women play in society. Special emphasis is placed on physical and psychological changes that occur throughout a woman's life cycle. Students are assisted in gaining a better understanding of preventive health practices, common health concerns, and resources to address these concerns.

Lecture

NURS 400 INTRODUCTION TO NURSING RESEARCH 3 CREDITS

This course introduces students to general principles and concepts related to the research process in nursing practice and theory. Emphasis is given to: the role of the professional nurse as a consumer of research; expanding decision-making through the use of research findings; evaluating the usefulness of research findings for current practice.

Prerequisites: Elementary Statistics

Lecture

NURS 401 CONCEPTS IN FAMILY HEALTH 3 CREDITS

This course is designed to provide students with theoretical content and developmental theory related to family functioning and development. The emphasis is on concepts and theories pertaining to family structure, processes, and function. Stressors influencing family functioning are discussed. Interactive assignments working with families will provide opportunities for students to assess family structure, processes, and functions.

Pre-requisites: (RN students only) Completion of NURS 350, 302, and 368

Lecture

NURS 406 NURSING PRACTICE: COMMUNITY 3 CREDITS

This course is designed to provide students with skills necessary to assess and critically analyze at-risk aggregates and global communities. The student will develop skills to identify, prioritize, and plan culturally congruent care, which emphasizes health promotion and illness prevention. This course prepares the student to apply the core concepts of the Department of Nursing while providing care for families, aggregates, and global communities. Selected theories applicable to community and public health nursing practice are emphasized. Community assessment, epidemiology, health belief and health promotion models, health education, stress and crisis, cultural diversity, and major health problems of vulnerable communities are stressed.

Prerequisites: Completion of Junior year nursing courses and NURS 400 with a grade of "C" or better.

Lecture

NURS 409 CLINICAL CONCEPTS IN COMMUNITY HEALTH 2 CREDITS

This clinical course must be taken concurrent with NURS 406. It will provide students with opportunities to participate in caring for clients in various health settings as a component of their community health experience. Students will apply knowledge and skills from nursing and public health sciences to expand their understanding of caring for a community's health. The student will provide professional nursing care for the individual, family, or group in community settings. The student is guided in the nursing process to develop and evaluate primary, secondary, and tertiary prevention intervention strategies that assist the client to attain and maintain optimal health status.

This course must be taken concurrently with NURS 406

Clinical

NURS 410 CARE OF COMPLEX CLIENTS 3 CREDITS

This course prepares the student to care for clients experiencing serious or life-threatening illnesses. Course content includes theories related to critical care and selected acute health and terminal problems. Synthesizing the curriculum concepts, the student will evaluate the application of the nursing process when intervening for seriously ill or terminally ill clients.

Prerequisites: Completion of NURS 406/409, 415/416, with a grade of "C" or better.

Lecture

NURS 411 CARE OF COMPLEX CLIENTS CLINICAL 2 CREDITS

This clinical course focuses on the nursing care of critically ill clients. The student will complete holistic assessments, and implement and evaluate therapeutic nursing interventions for critically ill clients in a variety of critical care settings.

This course must be taken concurrently with NURS 410.

Clinical

NURS 412 TRANSITION INTO PROFESSION NURSING PRACTICE CLINICAL 2 CREDITS

The clinical portion of the course provides opportunities for students to implement strategies to solve a management problem. Students will have the opportunity to manage a unit, group of clients/or peers and collaborate as members of the health care team in response to the wealth of ethnic and culturally diverse clients and staff. In addition, students complete an organizational assessment. Various health settings may be

utilized within the community to enhance learning. As the culminating course of the curriculum, emphasis is placed on synthesis of curriculum concepts and their applicability to professional nursing practice.

This course must be taken concurrently with NURS 425

Clinical

NURS 415 NURSING CARE OF THE CHILD AND FAMILY 3 CREDITS

This course provides the student with the knowledge and skills required for the provision of therapeutic and culturally congruent nursing care, to children and their families. Course content includes growth and development of the child and adolescent, the changing family structure and its impact on the child. Students will examine the social, economic, political and environmental factors affecting health promotion and illness prevention. Issues surrounding culture, religion, legal considerations, and ethics are discussed. Relevant nursing research and evidence-based interventions are presented. Prerequisites: Completion of NURS 380/381, NURS 385/386, NURS 400, SOWK 300 with a grade of "C" or better.

Lecture

NURS 416 NURSING CARE OF THE CHILD AND FAMILY CLINICAL 2 CREDITS

This clinical course focuses on the nursing care of children and adolescents within the family system. Applying the concepts of caring behaviors, communication, critical thinking, leadership, nursing process, and professional nursing role, students will implement therapeutic nursing interventions specific for selected children and adolescents in acute and community-based health care settings

This course must be taken concurrently with NURS 415.

Clinical

NURS 425 TRANSITION INTO PROFESSIONAL NURSING PRACTICE 3 CREDITS

This course is designed to provide students with an overview of content related to leadership and management theories and to examine multiple nursing issues. Emphasis is two fold: (1) it is placed on broadening students' understanding of the role(s) and responsibilities of professional nursing, and on recognizing the need for continuing professional learning and, (2) gaining an understanding of the role of the nurse in managing others in the provision of direct care to the client.

Prerequisite: Completion of NURS 415/416, and NURS 406/409 with a grade of "C" or better.

Lecture

NURS 499 NURSING COMPREHENSIVE EXIT EXAMINATION 0 CREDIT

This is a Pass/Fail exam that is required for all traditional baccalaureate nursing students. Successful completion of the Comprehensive exam is required to satisfy requirements for graduation.

Prerequisites: Taken Final Semester of Senior Year

Independent Study/Examination

PHED: PHYSICAL EDUCATION COURSE DESCRIPTIONS

PHED 103 COND & PHYSICAL FITNESS 1 CREDIT

Designed to introduce students to the concepts relevant to the maintenance of effective physical fitness. The course provides information contained in a sound exercise program which contributes to muscle strength, muscle endurance, flexibility, cardiovascular.

PHED 141 WEIGHT TRAINING 1 CREDIT

A course designed to acquaint students with the proper use of weights for the purpose of developing muscular strength and endurance. Students will be introduced to the Universal weight machine, Nautilus, and free weight equipment.

PHED 190 ELEMENTARY ACTIVITIES 1 CREDIT

Emphasis is placed on determining the unique contribution physical education plays in the total education of the child. Particular attention is placed on progression of activities (K-8) designed to improve the child's perceptual motor, physical, social, emotional, and intellectual development. The course also introduces to the students alternative and indirect teacher-learner approaches which will facilitate individual, master, or basic movement competencies. Potential classroom teachers are also introduced to movement strategies that can facilitate the cognitive learning process.

PHED 210 FIRST AID, CPR, SAFETY, 3 CREDITS

A course designed to provide students an opportunity to develop skills in standard and emergency first aid procedures and practices. Students are given instruction in cardiopulmonary resuscitation and standard first aid through the multi-media approach.

PHED 372 COACHING 2 CREDITS

The course is designed to provide young men and women who are preparing to become athletic coaches' insight into the coaching profession. The student will also have an opportunity to study the many facets involved in this field. There will not be any attempt by the professor to present idealized situations or to give a distorted view of a fun-and-games atmosphere in the coaching profession. The course is intended to be as realistic as the professor's biases will allow. Coaching is an exciting life but it is also demanding cutthroat and not without unhappy moments occasionally. No effort is made to discuss the techniques and mechanics of coaching a specific sport. The emphasis is to provide some insight into many of the intangibles of coaching.

PHED 398 COOP - PHED 4 CREDIT

Students must meet applicable program eligibility requirements and must submit program application materials to the Program Coordinator prior to receiving permission from the instructor to register for this course. Program requirements can be found on the Career Development Center website.

PHED 402 METHOD/MATERIAL HEALTH

1 CREDIT

PHIL: PHILOSOPHY COURSE DESCRIPTIONS

PHIL 101 INTRODUCTION TO PHILOSOPHY (SPRING, FALL) 3 CREDITS

Prerequisite(s): ENGL 101. This is a general course designed to introduce students to the theory of knowledge, ethics, and metaphysics through a multicultural survey of the history of philosophy.

PHIL 103 INTRODUCTION TO THE PRINCIPLES OF REASONING 3 CREDITS

Prerequisite(s): ENGL 101. This course is an introduction to critical thinking skills, including informal FALLacies, diagramming arguments, deductive and inductive reasoning, and categorical logic.

PHIL 200 WOMEN AND PHILOSOPHY 3 CREDITS

Woman and Philosophy will examine the ways that feminist thinking, and women's perspectives more generally, have remapped the philosophical domain, and the ways in which philosophy, as an inherently critical discipline, have influenced our understanding of theoretical and practical problems of gender, race, and class.

PHIL 203 SYMBOLIC LOGIC (SPRING EVERY TWO YEARS) 3 CREDITS

Prerequisite(s): ENGL 101. This course is an introduction that deals with the principles of reasoning, propositional logic, and FALLacies. Emphasis is placed on the proper use of argumentation, deductive and inductive reasoning, and the definition, meanings, and the symbolic translation of terms and sentences.

PHIL 204 INTRODUCTION TO THE OLD TESTAMENT 3 CREDITS

Prerequisite(s): ENGL 101. This course is a historical and literary study of the Old Testament, with consideration of the beliefs, the ideals, and the relevance to contemporary thought and problems.

PHIL 206 SURVEY OF WORLD RELIGIONS (FALL EVERY TWO YEARS) 3 CREDITS

This course is a multicultural survey of the religions of the world, including Native American religions, African religions, and religions originating in India, China, Japan, and the Middle East. Students will attain an understanding of different spiritual perspectives toward being in the world and death.

PHIL 207 RHETORIC OF BLACK AMERICANS (FALL EVERY TWO YEARS) 3 CREDITS

Prerequisite(s): PHIL 101. This course is a critical and analytical investigation of the origins, content, topics, and awareness of the rhetoric of Black Americans. It includes a study of the dominant trends in political thought from the seventeenth century to the present.

PHIL 208 INTRODUCTION TO THE NEW TESTAMENT (FALL ONLY) 3 CREDITS

Prerequisite(s): ENGL 101. This course provides an introduction to the New Testament. Students will examine the historical context in which Christianity arose. They will examine the gospels, the traditions about Jesus, and the teachings of Jesus. Other genre, such as the major letters of Paul, and the book of Revelation will also be discussed. Students will gain an appreciation for the impact that social context, the theological agenda of the editors, and the intended reader had on the development of New Testament writing.

PHIL 209 PHILOSOPHY AND THEORY OF BLACK RELIGION (FALL ONLY) 3 CREDITS

This course will examine the genesis of the African-American religious tradition in North-America and the Philosophical world view that informs and sustains it.

PHIL 300 PHILOSOPHIES OF HUMAN NATURE 3 CREDITS

Prerequisite(s): PHIL 101 or PHIL 103. This course studies a number of different theories of what constitutes being human. This course is interdisciplinary because it includes naturalistic, dialectical, and feminist points of view. It is also multicultural, because it encourages examination of philosophical perspectives from around the world. Among the questions raised are: Do human beings have a (unique) nature? Do human beings have a (singular) destiny? Is there a divine being to which or to whom human beings are related? Will high technology computers be able to have conscious mental states? Are humans animals?

PHIL 301 PHILOSOPHY OF MIND AND MIND DESIGN (FALL ONLY) 3 CREDITS

Prerequisite(s): Eng. 101 or Phil 101 or 108. This course will critically assess the computational model of mind that has emerged in cognitive science by studying the traditional mind/body problem, the contemporary physicalist critique of Cartesian Dualism, the claims of strong artificial intelligence, and the symbol system hypothesis.

PHIL 305 ETHICS AND PUBLIC POLICY (SPRING EVERY TWO YEARS) 3 CREDITS

Prerequisite(s): PHIL 101, PHIL 103, or PHIL 203. This course is an introduction to the major trends in ethical theory, including the relativist, consequentialist, virtue, and deontological points of view. Students will apply theory and current public policy debates.

PHIL 400 INDEPENDENT STUDY IN PHILOSOPHY (SPECIAL PERMISSION ONLY) 3 CREDITS

Prerequisite(s): PHIL 101. Students will engage in a research project using guided readings. Students are required to complete a term paper and verbally defend the thesis of the paper. The subject must be approved by the department.

PHSC: PHYSICAL SCIENCE COURSE DESCRIPTIONS

PHSC 100 PHYSICAL SCIENCE (FALL, Winter, SPRING, SUMMER) 4 CREDITS

Prerequisite(s): MATH-099 or MATH 127 or MATH 125. This is a general science course which includes an introduction to selected topics in physics, chemistry, earth science, and astronomy.

PHSC 100 PHYSICAL SCIENCE (Hybrid-Blended Online Course) FALL and SPRING ONLY) 4 CREDITS

Prerequisite(s): **MATH 009, or MATH 127, or MATH 118 or MATH 125.** This is a general science course which includes an introduction to selected topics in physics, chemistry, earth science, and astronomy. For this course lecture notes, laboratory procedures and laboratory exercises will be posted online, and **students show up in the lab once a week to do experiments.** Tests, quizzes and final exams are offered online.

PHSC 101 EARTH SCIENCE I (FALL, Winter, SPRING, SUMMER) 4 CREDITS

Prerequisite(s): MATH 099, or DVMT 080, or DVMT 090, or MATH 127, or MATH 118 or MATH 125. These courses consist of topics from the fields of astronomy, space exploration, geology, meteorology, oceanography, etc. These courses utilize lecture, demonstrations, student projects, and field experiences.

PHSC 101 EARTH SCIENCE (Hybrid-Blended Online Course) FALL and SPRING ONL. 4 CREDITS

Prerequisite(s): **MATH 009, or MATH 127, or MATH 118 or MATH 125.** This course consists of topics from the fields of geology, oceanography, meteorology, astronomy, etc. For this course lecture notes, laboratory procedures and exercises will be posted online and **students MUST participate in laboratory exercises, once a week on campus.** Tests, quizzes and final exams are offered online.

PHSC 111 ASTRONOMY (Periodically) 4 CREDITS

Prerequisite(s): MATH-099 or equivalent. This course is an introduction to classical and modern astronomy, including the main features of the solar system, the history of the stars and galaxies and a survey of recent discoveries in radio, X-ray, and gravitational astronomy. This course includes a variety of experiments and direct sky observations.

PHYS: PHYSICS COURSE DESCRIPTIONS

PHYS 205 INTRO TO MODERN PHYSICS 3 CREDITS

Corequisite: PHYS 203. This course is an introduction to modern atomic and nuclear theories.

PHYS 251 PRINCIPLES OF PHYSICS I (FALL, SPRING, SUMMER) 5 CREDITS

Lecture/Lab. Students may not receive credit toward graduation for both PHYS 251 and PHYS 271. *Prerequisite(s):* MATH 125 or MATH 141 (Grade C or Higher). This is a non-calculus course covering statics, dynamics, and thermodynamics.

PHYS 252 PRINCIPLES OF PHYSICS II (FALL, SPRING, SUMMER) 5 CREDITS

Lecture/Lab. Students may not receive credit toward graduation for both PHYS 252 and PHYS 272. *Prerequisite(s):* MATH 125 or MATH 141 with a C or Higher. This is a non-calculus course covering electricity, magnetism, and optics.

PHYS 271 GENERAL PHYSICS I LECTURE/LAB (FALL, SPRING, SUMMER) 5 CREDITS

Prerequisite(s): MATH 225 with a C or higher. This is a calculus-based course covering statics, dynamics, oscillatory motion, and thermodynamics. **Students may not receive credit toward graduation for both PHYS 271 and PHYS 251.**

PHYS 272 GENERAL PHYSICS II LECTURE/LAB (FALL, SPRING, SUMMER) 5 CREDITS

Prerequisite(s): PHYS 271. This is a calculus-based course covering electricity, magnetism and optics. **Students may not receive credit towards graduation for both PHYS 272 and PHYS 252.**

PHYS 273 INTRO TO PHYSICS III (Periodically) 5 CREDITS

Prerequisite(s): PHYS 272. This is a calculus-based course covering modern physics. **Students may not receive credit toward graduation for both PHYS 273 and PHYS 205.**

PHYS 300 ENGINEERING GRAPHICS (Periodically) 3 CREDITS

Prerequisite(s): MATH 126. This course covers sketching, orthographic, isometric, and oblique projections; dimensioning; sections; lettering; geometric construction. It provides theory and practical applications in locations of points and lines; slope and bearing of a line; intersection of lines and planes; and intersection of surfaces.

PHYS 301 QUANTUM MECHANICS (Periodically) 4 CREDITS

Prerequisite(s): MATH 300 or Above. This course covers the origin of quantum theory, Schrodinger equation for simple systems, and Harmonic oscillator.

PHYS 302 NUCLEAR AND PARTICLE PHY (Periodically) 4 CREDITS

Prerequisite(s): PHYS 273 or Permission of Instructor. This course covers properties and atomic nuclei, their observation and interpretation; radioactive radiations, scattering, natural and induced disintegration; binding, excitation and structure of nuclei; various nuclear models; and is an introduction to elementary particles and their classification and Isospin, strangeness, and hypercharge.

PHYS 303 ELECT. AND MAGNETISM (Periodically) 4 CREDITS

Prerequisite(s): PHYS 272 or PHYS 252 and MATH 225. This course covers electric fields and potentials, dielectrics, steady currents, magnetic flux, electromagnetic induction, alternating currents, Maxwell's equations and their applications to electromagnetic waves and wave guides.

PHYS 305 OPTICS (Periodically) 4 CREDITS

Prerequisite(s): PHYS 252 or PHYS 272 and MATH 226. This course is an intermediate study of physical and geometrical optics.

PHYS 308 MECHANICS I (STATICS) (FALL) 3 CREDITS

Prerequisite(s): PHYS 252 or PHYS 272 and MATH 226. This course covers concepts of statics, including force systems; equilibrium conditions; simple structures; distributed forces; shear force and bending moments.

PHYS 309 MECH DYNAMICS (SPRING) 3 CREDITS

Prerequisite(s): PHYS 308. This course covers concepts of dynamics, including kinematics of particles, velocity and acceleration; Newton's Laws of Motion; momentum; work; energy; dynamics of systems of particles; and kinematics and dynamics of a rigid body.

Bowie State University 2012 -2013

PHYS 310 APPLIED PHYSICS 5 CREDITS
This is an algebra-based course covering application of principles of Physics toward the creation of new and modification of existing designs in the fields of Mechanics, Fluid Dynamics, Thermodynamics, Electricity, Magnetism, and Optics. The emphasis is made on intensive computer aided design training strengthened by the requirement of design's theoretical analysis (preferably in the fields of medicine, robotics, or biotechnology). Students may not receive credit toward graduation for both PHYS 310 and PHYS 308 (Mechanics I. Statics), or PHYS 309 (Mechanics II. Dynamics).

PHYS 401 LINEAR NETWORKS (Periodically) 3 CREDITS
Prerequisite(s): PHYS 273 and MATH 300. This course covers signals and waveforms, average value and RMS network concepts; elements and parameters; Kirchhoff's laws; simple networks; energy and power, differential equations of networks and their solutions; phasors and steady-state analysis, measurement impedance concepts, resonance and filtering.

PSYC: PSYCHOLOGY COURSE DESCRIPTIONS
