# ACCESSING THE SYSTEM

# AUTHORIZED REQUESTERS AND AUTHORIZED APPROVERS

**CHAPTER 1** 

PEOPLESOFT ENTERPRISE

Bowie State University September 2010

# ACCESSING THE SYSTEM

#### Overview

This chapter shows you how to access the PeopleSoft Financial System. PeopleSoft is a browser-based application and is accessed via a URL. You will sign in with a unique User ID and Password which determines the menu items and pages you will be able to access.

#### **Objectives**

By the end of this chapter, you will be able to:

- Understand Requester/Approver Roles.
- Successfully access the PeopleSoft Financial System.

## AUTHORIZED ACCESS

Each person authorized to access this system is assigned one of the following roles:

Authorized Requester	Each department has designated employees to be Authorized Requesters. Requesters receive and enter orders from department members (originators) who are in need of products and/or services from approved vendors.
Authorized Approver	Authorized Approvers are employees who are responsible for approving or denying requisition requests. They can also receive and enter orders from department members (originators) who are in need of products and/or services from approved vendors.

### ACCESSING PEOPLESOFT APPLICATIONS

To access PeopleSoft 8, first launch your Web browser – double click the Microsoft Internet Explorer icon on your desktop or select *Start* > *Programs* > *Internet Explorer*.

Enter the following URL to access the PeopleSoft Financial System - <u>http://psweb.bowiestate.edu:8080/psp/fnprd/?cmd=login</u>

All authorized requesters and authorized approvers can sign-on to PeopleSoft by entering the User ID and Password (in ALL CAPS) and clicking the "Sign In" icon.

#### Navigation

- User ID: Your
  1<sup>st</sup> Initial and
  Last Name
  (ALL CAPS)
- Password:
  Your 1<sup>st</sup> Initial and Last
   Name (ALL
   CAPS)
- Click, Sign In

Once you receive access to the system, you should change your password to something other than your  $1^{st}$  initial and last name.

The Password field is a security-protected field, therefore characters entered always appear as asterisks (\*\*\*\*\*) to hide them from casual onlookers.
