Foreword

1. Purpose
The Bowie State University Graduate Assistant handbook is prepared as a reference guide for all categories of Graduate Assistants employed at the BSU campus, whether new or returning. The Graduate Assistant plays a vital and monumental role in our academic community. The objective of this handbook is to provide you, the Graduate Assistant, with pertinent and detailed information on the privileges, regulations, policies/procedures, and the existing valuable resources relevant to your role as a graduate assistant in the fulfillment of your responsibilities and provide the required leadership applicable to your role and assignment.

2. Goals
A BSU Graduate Assistant is both a degree-seeking student and an employee of the University with three main goals:

- Primary goal: The primary goal of an Assistantship is to guide and lead a GA progressively toward successful and timely completion of a graduate degree program.
- The secondary goal of an Assistantship, is to assist a GA in acquiring meaningful work and professional experiences in the academic community as he navigates the terrain of graduate education at BSU under the direct supervision of the GAs program coordinator, faculty, staff, and/or administrator. The Graduate School Dean is the overall supervisor under whose tutelage a GA operatively functions. Hence, work experience is a type of professional preparation or development and in-service training for the student.
- The tertiary goal of the Assistantship is associated with employee relationships and the fulfillment of assigned tasks and duties. It is the latter goal that is most specifically addressed by this handbook.

3. Questions
No handbook is prepared to address all possible or unanticipated questions or problems or to be definitive. Questions, guidance, or referrals on the interpretation of handbook sections should be addressed to the Dean of Graduate School, unless otherwise specified in the text to be addressed by a specific campus office, for instance, the Office of Human Resources for specific work-related questions.

Who is a Graduate Assistant at Bowie State University?

BSU Graduate Assistants are matriculated graduate students who are provided with a temporary academic appointment to perform assigned tasks or duties within an academic department or unit, or respective offices on campus under the supervision of a faculty member, a department head, an administrator or director of an office or unit. ‘The Graduate School Unit’ will be the term used in this handbook to refer to the employing unit while the department-posted unit on campus as the work area in which the student will perform his/her tasks and duties under the overall supervision of the graduate program coordinator, department head/chair or a unit leader.

Most Graduate Assistantships are available in the Graduate School through the application from the student’s program area.

Graduate Assistantships are not the only financial option available to graduate students. Graduate students may also be employed as hourly contractual employees in departments and offices through procedures of the Office of Human Resources. They can also seek work-study programs and aid available through the Office of Financial Aid and Enrollment Management.

Categories of Graduate Assistantships at BSU and Percentage of Time

‘Graduate Assistantship’ (GA) is the common title in the University classification and payroll system. At the preference of the employing unit, some appointments may be simply stated as ‘Graduate Assistant’. Other appointments may be subtitled as the following:

1. Teaching.
2. Research.
3. Administrative.

These categories are briefly described in the section Examples of Duties by Category of Graduate Assistants below.

As a general rule, when the term ‘GA’ is used in this policy and procedural handbook, it will refer to all categories of Graduate Assistantships.

GAs are full-time students registered in 9 credits of graduate courses through the merit-based assistantship award. They are not employed full-time. A Graduate Assistant is a graduate student who has matriculated into a Bowie State University graduate program and has been provided with an opportunity to perform assigned duties relative to his/her academic discipline and to receive full-time graduate tuition up to 9 credit hours. Any graduate assistant (GA) who registers for more than 9 credit hours will pay the difference. A Graduate Assistant award only covers the fall and spring semester and does not extend through the summer or mini-semester.

Graduate students are invited to apply for graduate research or teaching assistantships through their various departments. Benefits include tuition remission and a stipend. Students may serve as graduate assistants in the master’s program for up to 30-42 credit hour programs for up to two academic years. Students who enroll in counseling programs with more than 42 credits may serve as graduate assistants for up to three academic years. Students in the doctoral areas can only serve for four years during the duration of their coursework. The level of work commitment required: is 20 hours/week of service to the University, attendance at monthly Graduate Assistantship Program (GAP) meetings, and active membership in the Graduate Student Association (GSA).

Graduate Assistantship Application Process

Interested applicants should download the application online and follow the following process:

- Fill out a graduate assistantship program application and return the completed application to the graduate program coordinator in their department.
- Follow departmental directions and timeline including review and interview.
- Applications for the Graduate Assistantship Program cannot be obtained in the Graduate School.
- If recommended, student applications, each with a recommendation letter from their department will be forwarded to the Graduate School.
- A Graduate School review committee chaired by the Graduate School Associate Dean will review all applicants and recommend to the Dean for award.
- Please Note: A recommendation by an applicant’s department does not guarantee an award for the assistantship. The award is strictly based on merit and the availability of funds.
Eligibility for and Retention of a Graduate Assistantship

For the Graduate School and the employing unit, a graduate student must fulfill the following:

a. Be admitted and already in a graduate degree program at BSU in Regular (Full) or Provisional Status with evidence of recorded academic performance with a cumulative GPA of 3.5 and above.
b. Be registered for graduate-level credit courses each semester during the period of the award. (On credits, see the section below on Full-Time Graduate Students Status).
c. Should be a continuing student and in good academic standing (3.5 or above cumulative GPA) when the initial award or reappointment becomes effective.
d. Maintain reasonable progress toward a graduate degree each semester or session as determined by the student’s graduate program and the Graduate School.
e. Be recommended for the award/re-appointment by the program department.
f. If an international student, must have a visa status that permits employment.
g. International students overseas are not eligible to apply and or be awarded the assistantship.
h. Current GAs serving in the program cannot apply for friends who are not in the country yet.

Appointment, Reappointment, Duration of Employment

The steps in the routing and approval process for a Graduate Assistant appointment and the GA Appointment Recommendation Form are found in Appendix A.

The offer of appointment for a GA is issued in letter format by the Graduate School Office of the Dean. The student accepts the appointment offer by signing and submitting a copy of the appointment letter by the posted date.

The offer includes the category of Assistantship (if specified), the salary/stipend level, the assigned department or office, the beginning and ending dates of the appointment, and whether tuition remission is allowable.

The beginning date is the first day on which the GA is expected to report. This date is the first day of class resumption in the Spring or Fall Semesters respectively.

Offers of appointments do not include information on fringe benefits for GAs such as health insurance. These issues are discussed with and processed through the Office of Human Resources if the individual is eligible. Information on applicable benefits to GAs is covered in the section below-titled Benefits Available to Graduate Assistants.

Sufficient time must be allowed for processing the appointment recommendation (approximately 14-21 working days). The requested appointee may not begin work until the Graduate School Dean has made the offer of employment and the appointee has accepted the terms of the offer by his/her signature. Appointments will not be backdated.

1. Appointment/Award Period (Every Semester)

GA appointments/award are for each semester and twice for each academic year but with per semester duration reappointment contracts. The academic year appointment begins in late August and ends in late May the following year. There is no summer nor mini-semester award.

NOTE: All academic appointments, run on the state Fiscal Year (FY) cycle (July 1 to June 30). A Graduate Assistantship during the academic year may not be an appointment of less than one academic semester unless it is a replacement for a vacated Assistantship or preliminary to the expected continuation of the GA appointment in the next FY. All academic appointments are automatically terminated at the end of the state FY for which they are effective.

2. Reappointment

GAs may be reappointed at the discretion of the Graduate School Dean at the beginning of each semester. In order to allow a larger number of qualified students to benefit from these positions, the Graduate School is monitoring the completion date for all GAs in avoidance of abuse in staying longer than the policy stipulated. In general, the BSU Graduate School Assistantship duration is for four academic semester for all Master’s program with the exception of counseling programs and four years for a Doctoral student.

The present practice is that the Graduate School is responsible for determining and communicating its own specific criteria, within the limits of the University policy, for assessing student qualifications for appointment/award and reappointment to Graduate Assistantships. In general, reappointment is dependent upon satisfactory work performance, good academic standing in the Graduate School and the
graduate program, and progress toward the degree. As with all University faculty and staff positions, appointment or reappointments are contingent upon the availability of funds.

Good academic standing refers to the student’s course grades and cumulative grade point average. Consult the Graduate School Catalog for specifics on the Graduate School, and, as applicable, individual program requirements on standards for grades, the cumulative grade point average and academic probation, and satisfactory progress toward a degree.

Although in a rare occurrence, a GA might receive an academic probation notice for the immediate past semester/session. The present practice is that the GA, like any other graduate student, has the usual two successive semesters in which to remove the probation. (Read the Graduate School Catalog for more detailed information). Academic probation, however, may weigh in the consideration of reappointment of the student.

A graduate student who has been certified as having fulfilled all obligations for the degree or who has graduated and is not admitted into another graduate program at BSU is ineligible for continuation of a Graduate Assistantship in the next semester, for example, a GA who completes the degree program for the December Commencement, may continue to complete their work assignments, if needed, up to the end of their contract period, at the request of the supervisor and consent of the Graduate School Dean for granting an exception, subject to availability of funds.

Supervision and Evaluation of the Graduate Assistant

1. Supervision
   GAs are directly under the supervision of the department or unit where they are posted. The department/unit determines assignments, supervision of work, and evaluation of performance. They should also realize that These GAs are students and should be allowed to work within the time frame allocated for them to work according to policy and best practices. GAs are not full-time staff and should not be tasked beyond the expected workloads so that they can put more effort towards their school work.

2. Evaluation
   Each employing unit is responsible for determining procedures for the review and evaluation of GAs. Depending on the type of assignment, the process of evaluation might include a survey form or written assessment of work by the supervisor(s); classroom visitation by designated faculty members; student or clientele evaluations; faculty observation of research work and results, etc. The results of performance reviews and evaluations are to be discussed with the GA. The result of this evaluation is instrumental in a GAs re-appointment.

Time Commitment, Scheduling, and other Employment

1. Time Reporting/Commitment
   Time commitments for GAs are based on a 40-hour pay period, which results in 20 hours per week of work hours. Every GA should be reporting 40 hours in a pay period. Please note that there will be no exceptions for on-time reporting. Work hours should be reported in a timely manner to facilitate approval on the Tuesday before the pay week. Time reporting must be completed by 12:00 noon. Late work time entry will result in missing pay on the pay period.

2. Scheduling
   The scheduling of the time for GAs to undertake their assignments per week (20 hours) is determined by the supervisor in the academic department or leader in the unit where a GA is posted. The type of duties assigned to GAs, even if they are specific teaching or research assistants/administrative work, may vary on a case-by-case basis because of differences in the qualifications or experience brought to the position as well as differences in the demands and needs of the department/unit. Department supervisors or unit leaders are responsible to monitor the time reporting/commitment of their GAs. GAs account for their time to the institution by completing their timesheets electronically. For more time commitment and reporting, see the Office of Budget for tutorials and proper guidance.

3. Other On-Campus Employment
   During the academic semester, a full-time GA may not seek and will not be approved for any other part-time on-campus employment above the 20-hours/week limits. Any GA caught working on a second contract on campus (double dipping) will be released of his assistantship award.
4. Off-Campus Employment

A full-time GA is considered to be a full-time employee of the University and should not be seeking outside employment. It is expected that the combined role and responsibilities of graduate student and graduate assistant will occupy all the time available to a student during the appointment period. Usually, what suffers with outside employment is the 20 hours a week devoted to academic study. The academic departments and graduate programs recommend Assistantship appointments for graduate students whose commitments are most likely to result in satisfactory progress toward completion of their degree program as well as undertaking their Assistantship responsibilities. In fairness to other graduate students who are applying for a Graduate Assistantship, off-campus employment could be a consideration in recommending against the continuance or reappointment of a GA.

Graduate Assistantship Duties by Category

A general, non-specific title of a GA is one in which the individual may perform a variety of tasks that could relate to a teaching, research, or administrative assistant. For the specified appointment to a category of Graduate Assistantship at Bowie State University, see the descriptions of the subtitles as follows:

**Graduate Teaching Assistant**: A graduate teaching assistant (GTA) is a graduate student who has received the GA award and who may perform a variety of tasks or obligations that could relate to a teaching assistant. The duties and responsibilities of a Graduate Assistant may vary from one department to another, however, for the majority of Bowie State University Teaching Assistants, the duties and responsibilities fall into one or more of the following identified categories:

- Assisting in their respective department support services as identified by their coordinator of graduate programs in consultation with the chair.
- Assisting a faculty in the classroom in such duties as proctoring examinations, taking attendance, recording grades, and other functions found necessary by the instructor.
- Teaching responsibility for a laboratory or discussion session in a classroom setting under close supervision of the faculty.
- Representing a faculty in any assigned duties outside the classroom and coordinating students’ group assignments under the supervision of the faculty.

**Note**: All the identified assigned duties of a Graduate Teaching Assistant, particularly the aspects that deal with classroom teaching, will be determined by the student’s academic qualifications and merit. All Graduate Teaching Assistants should be under the supervision of a faculty member.

**Graduate Research Assistant**: A research assistant is a graduate student who received a Graduate Research Assistant (GRA) Award to perform the following duties under the supervision of a faculty:

- Assist a faculty in managing grants and technical support necessary to advance faculty grantsmanship.
- Help faculty in facilitating an ongoing research project by assisting in data collection, administration of surveys, provide the necessary technical support in a computer or mathematical laboratory setting.

**Note**: All the duties and responsibilities of a Graduate Assistant whether as a GTA or GRA should be under the direct supervision of a faculty member or academic/administrative support staff.

**Graduate Assistant with Administrative Assignments**

Offices on campus may employ GAs to help with administrative support functions. Responsibilities vary, as do the durations of appointments. Supervision is provided by the administrator or staff of the Office.
Full-Time Graduate Student Status

During the appointment/award period for a full-time Assistantship, a GA must register for at least 9 graduate units of course credit (3 courses with 3 credits each) per semester to qualify concurrently as a full-time graduate student. For an explanation of the graduate unit system in relation to semester credit hours equivalency, see the current version of the Graduate School Catalog. Course credit includes both regular coursework and research course credits for the thesis or dissertation, Master’s project, etc. The Graduate School Dean may verify the full-time graduate student status of the GA. There is a maximum number of 9 credit graduate units set for GAs. However, any excess in credit hours as stipulated will need the Graduate Dean’s approval and the difference in money should be paid by the GA.

GAs should consider their assistantship workload in planning their registration for course credits.

Conduct and Resolving Problems

1. Conduct

All GAs in their teaching, research, and administrative activities are subject to the ethical precepts and code of the academic profession (e.g., American Association of University Professors), to the laws of the State of Maryland regarding its employees, and to the University System of Maryland, Board of Regents and campus policies which govern their institutional obligations. For a brief introduction to the subject of institutional policies, refer to the current version of the BSU Graduate School Catalog. See Appendix F below for a listing of selected Board of Regents and University System Policies and BSU reciprocal policies and procedures for implementing them.

GAs are expected to conduct themselves in their interactions with students, faculty, and all other members of the University community with the same sensitivity, thoughtfulness, and respect they expect to receive from others. Neither age, disability, ethnicity, gender, national origin, race, religion, or sexual orientation may be the subject of prejudicial actions, comments, or expressed attitudes.

2. Resolving Problems

GAs should try to resolve difficulties first at the department or office level. If a GA is having unusual difficulties with his/her assignment, it should be discussed with the supervisor(s). If satisfaction is not forthcoming, the matter may be discussed with the Chair of the department or next-level office administrator. If still unresolved at this level, the matter may be referred to the Graduate School Dean for resolution. The Graduate School Dean may appoint a committee of two tenured faculty members who serve on the Graduate Council and a graduate student to review the GAs written submission of the issue. The committee will make a recommendation to the Dean. The Dean will review the recommendation and make a determination. The Dean’s decision is final.

3. Changing Supervisors

Graduate Assistantships are not transferable unless in an extenuating case. GAs funded by institutional funds are distributed to academic departments which have graduate programs and other office units. Therefore, unless a vacancy for a GA occurs, the funding is available, and the student has the qualifications to fill the GA vacancy, or unused GA funds to an academic department are reassigned to another department, it is not possible for a GA to move to another supervisor. If a move is possible, change of supervisor involves adequate notice of resignation to the current supervisor. On a case by case basis, the Graduate School Dean will determine what further process may be necessary for the student to be reassigned.
Termination of Assistantships

The GA appointment may be terminated before the expiration of the appointment period for any of the following reasons:

1. Documented unsatisfactory work performance, e.g., violation of policy such as misconduct that is job related, (e.g., incompetence, neglect of duty).
2. A GA fail to actively participate in the Graduate Student Association (GSA) programs and activities as clearly indicated in the GSA by-laws.
3. Reported deficiency in academic work and in meeting academic requirements for the degree, leading to a recommendation by the program for termination of graduate admission status.
4. Non-attendance at mandatory monthly GA meetings and professional development activities.
5. There is no enrollment for graduate credit during the appointment period (semester or session if applicable).
6. Financial exigency (e.g., funds rescinded or cut) or discontinuance of the work in which the appointment was made.
7. The student is certified as having completed the degree program and is not admitted into another BSU graduate degree program, or is employed full-time in an off-campus employment.
8. Medical or health conditions which interfere or limit the performance of required duties of a GA.
9. Visa status (international students) changes to one which does not permit employment or is revoked.
10. Voluntary mutual agreement (letter of resignation and acceptance).

In the case where a GA’s contract is terminated prior to the original date specified in the offer letter, the GA will be notified in writing by the Graduate School Dean. Cases of insubordination and behaviors very detrimental to the University community and its stakeholders- holders as mentioned above on numbers 1 through 10 may result in immediate actions appropriate to BSU policy. Supervisors including department and University officials may initiate actions and consult the Graduate School Dean for details.

Voluntary resignation of a GA is initiated by the GA in writing. The letter of resignation should be addressed to the supervisor. This letter should be forwarded to the Graduate School Dean and must have an effective date of resignation. The Graduate School Dean will follow the action on a GA’s resignation and document all paperwork regarding the resignation in the GA’s file.

The termination of assistantships follows the same exit procedures for leaving the employment of the University as other employees (see Appendix D for the procedures and form to be completed.)

If a Graduate Assistant is found wanting based on the identified dereliction of duties items 1 through 10;

- The student will be notified in writing after a termination meeting with the Graduate Dean;
- The Graduate Assistant will turn in all BSU property including keys in his/her possession to the Dean of the Graduate School if the student works in the Graduate School and will do the same to any unit where the student was working prior to his/her termination.

Summer and winter sessions are not scheduled for any GA work nor is tuition remission granted during the summer and winter sessions. I. Purpose and Scope

A. Graduate Assistantships at Bowie State University (BSU): The purpose of the Graduate Assistantship program at Bowie State University is to support graduate students who are awarded the assistantships by:

1. Advancing the student’s graduate education through practicum-based experiences, including the development and application of teaching, research and other skills, while also advancing the mission of the institution.

2. Providing financial support, including stipends and tuition assistance, to aid degree-seeking students enrolled in master’s level or doctoral programs at the university and appointed as graduate assistants in the pursuit of their graduate degrees.

B. Policy Goal: This policy is intended to establish baseline standards for the administration of graduate assistantships, with a commitment to continuous improvement in the status of graduate assistants.

C. Institution Policies and Procedures: BSU will develop a graduate assistant handbook that will include policies and procedures, and graduate assistantship application processes, as well as duties and responsibilities of graduate assistants.

II. Appointments:

A. Length: Appointment of graduate assistants may last for two years for all master’s degree graduate assistants, except in the counseling program, where the length of the assistantship may extend to three years and four years for a doctoral student.

1. Full-time Assistantship: A graduate assistantship shall require a full-time commitment of 20 hours per work week. Exceptions must be submitted in writing by the graduate assistant’s supervisor; approved by the student’s
advisor and department chairperson, and submitted to the dean for approval before any additional time is allotted.

2. Graduate assistants on full-time assistantships at BSU are not allowed to work in any other capacity at the university.

C. Renewal of Appointments: An appointed graduate student shall be re-appointed after the end of each academic year based on the following criteria:

1. Satisfactory academic performance and progress toward a degree with a minimum 3.0 GPA;
2. Satisfactory performance of assigned assistantship responsibilities and duties as defined by the various departments;
3. Availability of funds;
4. Limitation of length of appointment has not expired;
5. Student’s adherence to the university code of conduct, observance of state or federal law, and compliance with general university regulations; and
6. Specific departmental needs, as identified by the program chair and graduate school coordinator.

D. Notice of Appointments: Except under justifiable circumstances, graduate assistants whose appointments are for more than one term will be notified of their appointments, and of decisions not to renew appointments, at least 60 days before the date upon which the appointment is to begin.

1. If a decision to renew an appointment cannot be made within that time line, the graduate assistant will be informed at least 60 days in advance of the assistantship’s start date of an estimated date for the renewal decision.
2. Circumstances which may justify fewer than 60 days’ notice include, but are not limited to, uncertainty in departmental funding and course enrollments.
3. Nothing in this section shall prevent the graduate school from making an appointment to a graduate assistant on short notice based on changed circumstances in class enrollments, the availability of resources, or other factors.

E. Appointment Letters: Upon appointment, each graduate assistant will receive an appointment letter that contains detailed information concerning the terms and expectations of the assistantship. The appointment letter shall include, at a minimum:
1. The length of the appointment

2. The starting and ending dates of the appointment, including the dates during which the graduate assistant is expected to be on campus to perform the duties of the assistantship;

9. Contact information where the graduate assistant may obtain additional information and advice concerning the appointment, the provisions of the handbook, and graduate assistant grievance rights and processes.

F. Assignments: To the extent feasible, graduate assistants shall be given a written description of their teaching, research or other assignments, duties, and responsibilities at least two weeks before the beginning of the semester. However, departments retain the flexibility to adjust assignments as necessary due to loss of funding, course enrollment fluctuations, or other unanticipated events, even after the semester has begun.

G. Termination of Assistantships: An assistantship may be terminated within the term of the appointment under unusual and compelling conditions, for causes specified in the BSU graduate assistant handbook.
III. Grievance Procedures

A. Informal Resolution of Concerns: Graduate assistants are strongly encouraged to attempt to resolve grievances informally with their mentor(s) and/or supervisor(s). BSU shall establish a mediation process or an ombudsperson function to facilitate informal resolution of graduate assistant grievances.

B. Grievance Policy: To address concerns that cannot be resolved informally, BSU shall develop a formal, written graduate assistant grievance policy that provides the graduate assistant with the opportunity to present grievances to:

1. The student’s department chair/unit head or the specific graduate program coordinator will form a grievance panel:

   A. The panel will consist of a graduate student, as well as faculty members or administrators, who have no direct relationship with the department at issue or the individual parties to the grievance.

   B. Either party to the grievance may request that a panel member be substituted on the grounds that the panel member has a conflict of interest.

C. Content of Policy: BSU’s grievance policy shall include fundamental due process protections and other minimum elements, including:

1. The opportunity for graduate assistants to provide the facts and evidence that support their grievances and to explain their positions to the grievance decision makers;

   B. Inappropriate work assignments;
   C. Termination of a graduate assistantship within the term of appointment; and
   D. Non-renewal of an assistantship for arbitrary or capricious reasons, including reprisal for filing a grievance.

2. If a graduate assistant believes that an assistantship was not renewed because of unlawful processes, the graduate assistant may pursue available institution processes, such as access to the campus Equal Employment Office (EEO).

3. Graduate assistants may raise concerns regarding suspected on-campus fraud or fiscal irregularities through the confidential University System of Maryland hotline mechanisms established in USM Policy VIII-7.10, “Policy on Reporting Suspected or Known Fiscal Irregularities,” the university’s fraud reporting policies, and any relevant state or federal “whistleblower” laws.

   E. Access to Policy: BSU’s graduate assistant grievance policy shall be published on the campus website and included in its graduate assistant handbook.

IV. Professional Development

A. Orientation and Information: BSU shall have a fall and spring orientation for graduate assistants each academic year. D. Changes to Policies and Procedures: Graduate assistants shall be apprised of any changes to relevant policies and procedures on a timely and ongoing basis.

V. Financial Assistance and Benefits

A. BSU shall seek to pay stipends at levels that are competitive with peer institutions, to the extent allowed by available fiscal resources.

B. BSU shall have the discretion to use a variable scale for the rate of pay for master’s level and doctoral students.

C. Time Away from Duty: BSU shall provide paid “time away from duty” for graduate assistants as follows:

1. The minimum paid time away from duty for a full-time, 12 month graduate assistant is 20 hours per year. Such leave:

   A. Is in addition to institution holidays and other days that the institution is closed; and

   B. May be scheduled, with the permission of the graduate assistant’s supervisor, at times that do not conflict with the duties of the assistantship.

2. For graduate assistants with appointments of less than 12 months or 20 hours per week, the institution shall establish policies for time away from duty that may include breaks and holidays in the academic year, any specified total hour commitments in the graduate assistant’s appointment letter, and other campus-specific factors.
