MESSAGE

MICKEY L. BURNIM

“I WAS DEEPLY HUMBLLED WHEN THE VARIOUS
UNIVERSITY CONSTITUENTS EXPRESSED THEIR SUPPORT
AND EXPECTATIONS FOR MY LEADERSHIP DURING THE
INAUGURATION CEREMONY ON OCTOBER 5, 2007.”

– MICKEY L. BURNIM, PRESIDENT

1865: THE BALTIMORE ASSOCIATION FOR THE MORAL AND EDUCATIONAL IMPROVEMENT OF COLORED PEOPLE OPENED A SCHOOL AT THE AFRICAN BAPTIST CHURCH IN BALTIMORE.

I was deeply humbled when the various University constituents expressed their support and expectations for my leadership during the inauguration ceremony on October 5, 2007. During that academic year, we continued our efforts to build a stronger sense of community and focused on implementation of our newly updated strategic plan and improving campus communications.

One of the major goals that I outlined in my inaugural

address was that of increasing the University's enrollment. I am pleased to report that 2007–2008 was a banner year for enrollment growth. In fall 2007, entering full-time freshman numbered 831, the largest freshman class in the University's history. Eight hundred twenty of these students were full-time. Likewise, the total number of undergraduate students (4,226) and full-time undergraduates (3,897) marked new enrollment records for the University.

At the start of the 2007–2008 academic year, we opened the

Center for Business and Graduate Studies, the fifth major classroom building on the BSU campus. The three-story \$21 million facility houses the offices for

the School of Business and the Graduate Studies unit, plus state-of-the-art lecture halls, classrooms, and computer laboratories with

wireless Internet and audiovisual and videoconferencing equipment. We're proud to have such a splendid facility.

Our growth plans include a commitment to the planet's ecological health and sustainability. On December 21, 2007, I signed the American College and University Presidents Climate Commitment agreement. As a result, we now have the Bowie State University Climate

Commitment Coordinating Committee (C4). Composed of BSU faculty, students, and staff, the committee will prepare a comprehensive inventory of all greenhouse gas emissions from campus utilities, air travel, gasoline usage, commuter miles, and other information required to identify ways to reduce those emissions.

Thanks to its many supporters, BSU is better able to help students pay for their education.

Mr. Edward St. John, CEO of the Baltimore-based development firm St. John's Properties, pledged \$125,000 for an endowed scholarship, the largest in the University's history. In addition, the Maryland Higher Education Commission is matching this donation through its Private Donation Incentive Program.

I am thankful for the University's supporters and proud of our students, faculty, staff, and

alumni. Their hard work and financial support made the 2007–2008 academic year one of real accomplishment and great promise. All of our dedicated constituents make me excited about the future of Bowie State University and our continued pursuit of excellence.
