Though there are many variations of this program, Cooperative Education is basically an arrangement of combining study and work leading to the Baccalaureate Degree. The Cooperative Education student intersperses on-campus academic preparation with off-campus actual job experience. To implement Cooperative Education, a partnership is formed between the employer, University and the student. Some of the advantages and benefits of this partnership are as follows:

As a Co-Op student you will:

- Add relevance to your education
- Earn an income that will help defray tuition cost
- Receive academic credit
- Gain practical work experience in a job related to your major
- Work with professionals in your career field
- Discover if your career choice matches your interest and abilities
- Find the transition from college to a work environment easier after graduation

Types of Cooperative Education Programs

There are two types of Cooperative Education programs at Bowie State University that you can participate in.

Parallel Co-Op is like a part-time job. The student goes to school full-time and works each semester.

Alternating Co-Op is when the student alternates semesters between full-time work and full-time study.
