Bowie State University
Document Retention Policy and Procedures

Purpose

This policy is established to ensure that the records of the BSU Foundation are retained as required by law and/or for a period of time deemed to be sufficient given the content and purpose of the record. “Records” includes all forms of communications or information relating to the Foundation and its business which have been reduced to “hardcopy” such as paper or film or which can be retrieved from electronic media. Records shall include all incoming and outgoing records as well as drafts, notes, calendars and personal records relating to Foundation business.

Failure to retain records as required by law could subject employees and the Foundation to penalties and fines, cause the loss of rights, obstruct justice, spoil potential evidence in a lawsuit, place the Foundation in contempt of court, or seriously disadvantage the Foundation in litigation.

The Foundation expects all employees and other persons who generate and access Foundation records to fully comply with this policy. In addition, if an employee or other person believes or is informed by the Foundation, that Foundation records are relevant to litigation or potential litigation (i.e., a dispute that could result in litigation), then those records must be preserved until the Foundation in-house or outside legal counsel determines the records are no longer needed. This exception supersedes any previously or subsequently established destruction schedule for those records.

Retention time periods are noted below unless needed for a longer period of time due to audit requirements or litigation:

Institutional and Legal Records:
- Articles of Incorporation; by-laws; Annual Reports - Permanently
- Minutes of Director and Director Committee Meetings – Permanently
- Copyright and Trademark Registration – Permanently

Legal – see litigation
Investment – see investment

Voice mails should be deleted as soon as receiver responds to caller or matter resolved which ever is later.

Internal Audit
Reports and Responses – 7 years

Retention
BSU Foundation usually retains the most recent two years worth of accounting and payroll documents at BSU Foundation’s business office. Documents older than two years are usually archived in an off site facility. (Currently Iron Mountain, Jessup, MD) However, documents older than two years may be retained on site. All other documents are retained on site.
Back-ups are performed nightly by BSU Information Technology. The nightly tapes are kept in a safe on site. One set of tapes is rotated off site weekly, per BSU policy. These tapes include all activity through Timeline as well as word and excel documents that are on all drives but A: and C:

Employees should consult with CFO prior to destroying any record not identified above.

**Disposal**

The CFO is responsible for oversight and approval for the retention and final disposition of records.

(a) A record shall be made of all disposed documents and filed in the BSU Foundation fire proof safe. The record shall identify the type of record destroyed, the subject matter (if applicable), and the date and method of disposal and the initials of the persons who disposed.

(b) Any document containing the personal information of Foundation employees, vendors, or donors is secured and maintained in locked cabinets and shall be shredded when disposition occurs to prevent the document from causing harm to the person (i.e. identity theft and employee privacy).

(c) The Foundation will have an annual “clean-up” day during which employees shall dedicate their efforts to document storage and disposal in compliance with this policy.

**Privacy**

Many records subject to record retention requirements contain confidential information. For example, medical records of employees must be stored separately. Employee background reports must be se separately in the custody of General Counsel's Office.

**Compliance**

The Chief Audit Executive shall periodically audit to ensure compliance.

Approved by Audit Committee: _________________________
