IMPORTANT INFORMATION REGARDING PETITIONS:

- The petition submission deadline is the LAST DAY OF LATE REGISTRATION
- Read the petition carefully and complete ALL sections of the petition that apply to you. Failure to complete all applicable sections of the petition and submit ALL required documentation may result in a denial of in-state status.
- If you cannot provide the required information, you must attach a separate sheet with an explanation or write your explanation in the margins of the petition.
- Only one petition may be filed per semester.
- Requests for retroactive changes are not accepted.
- No materials or documentation will be returned after the petition is submitted.
- The review of the petition and an initial determination of the status may take as long as six (6) weeks, not including subsequent appeals. You will be responsible for non-resident tuition as well as all late fees and finance charges accrued during the entire process.
- If claiming dependence, the person upon whom the student is dependent must have his/her signature notarized.
- In the cases where affidavits are accepted, they must be typed, dated, notarized, and contain information as specific as possible including dates, addresses, amounts, etc. Please check in advance for instructions.
- Please note: Graduate Assistants who were admitted as out-of-state students are assessed tuition at the in-state rate, only as a benefit of their employment. All out-of-state graduate assistants who have met all residency requirements and wish to change their status to in-state must file a timely petition with the Residency Reclassification Services in accordance with policy requirements.

Section 1: Student Information
This section must be completed by the student who is petitioning for in-state status.

Section 2: Basis for claiming In-State Status
This section must also be completed by the student who is petitioning for in-state status.

Section 3: Income Information for Student
This section must be completed by all students who indicated either A or B in Section 2. The evidence should document any Maryland employment and earnings history through sources beyond those incident to enrollment as a student in an educational institution, i.e., beyond support provided by work study, scholarships, grants, stipends, aid, student loans, etc. The student must list all employers for the past two (2) years, with specific dates of employment.

Section 4: Student Residency Information
The student must complete Section 4. Please make sure to attach photocopies of all requested documents. The student must complete this section even if claiming financial dependence upon another resident of the State of Maryland.

Section 5: Residency Information for Person upon Whom Student is Financially Dependent

Revised 12/11/15
A student who is financially dependent on another person must have that person complete Section 5. Please make sure to attach photocopies of all requested documents.

Section 8: Information Pertaining to Full-Time Active Duty Members of the Armed Forces of the United States or Members of the Maryland National Guard

Please review the residency policy before completing this section.

Section 7: Rebuttal Evidence

This section must be completed by each student who checks box "A" in Section 2. Satisfying the requirements listed in paragraphs A through I of Section II of the policy does not rebut the presumption that a Student is in Maryland primarily to attend an educational institution. To overcome the presumption, a student must present additional evidence.

To determine a student's intent, the University will evaluate evidence of that student's objectively verifiable conduct. Evidence that does not document a period of at least twelve (12) consecutive months immediately prior to and including the last date available to register for courses in the semester/term for which the student is seeking in-state tuition status is generally considered an unfavorable factor under this policy. Evidence of intent must be clear and convincing and will be evaluated not only by the amount presented but also based upon the reliability, authenticity, credibility, and relevance of the evidence. The absence of objective, relevant evidence is generally considered an unfavorable factor. A student's statement of intent to remain in Maryland in the future is generally not considered to be objective evidence under the classification policy.

In addition to financial evidence documenting a student's independent status, or dependence upon a Maryland resident, other evidence that may be considered includes, but is not limited to, substantial participation as a member of a professional, social, community, civic, political, athletic, or religious organization in Maryland, including professionally related school activities that demonstrate a commitment to the student's community or to the State of Maryland; registration as a Maryland resident with the Selective Service, if male; evidence showing the student uses his or her Maryland address as his or her sole address of record for all purposes including on health and auto insurance records, bank accounts, tax records, loan and scholarship records, school records, military records, leases, etc.; and an affidavit from a person unrelated to the student that provides objective, relevant evidence of a student's conduct demonstrating the student's intent to live permanently in Maryland.

Section 8: Affirmation of Student and, if Dependence is claimed, of the Person upon Whom Student is Financially Dependent

The student petitioner must sign this section but a notarized signature is not required. A NOTARIZED signature is required of the person upon whom the student petitioner is financially dependent.
